DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 7, No. 27

SUMMERLAND, B.C., FEBRUARY 5, 1915.

Whole No. 340

Municipal Council Holds Special Session.

Also Sits As Board Of Health. Dominion Government Agreement By-Law Passes On To Statute Book.

On Thursday morning of this week the Municipal Council held a special session, and at 10 o'clock Reeve Blair called a full meeting to order. Later on the Council resolved itself into a Board of Health, and continued in session until after the noon hour.

The first matter to come up after the minutes of the last meeting had been read, and declared approved by the Reeve, was the request of Capt. Webb for permission to put an overflow tank from a septic tank on a road allowance. This request had been previously understood by the Board of Works to be to place the entire septic tank on the road, but on being assured to the contrary, the permission asked for was granted, Capt. Webb to be held responsible for any possible damage for seepage, though none is anticipated.

Mr J. A. Kirk drew the attention of the Council to the condition of two flumes near his property, which became choked up very easily at the foot of a sharp incline, very materially interfering with the flow of the water. The Board of Works will look into this a little later on.

Communications were then taken up, and the first was a letter from Mr E. B. May, with an enclosure from Sir F. W. Taylor, general manager of the Bank of Montreal. These asked for information as to what municipal work was being undertaken in the light of the present tightened financial conditions, and making a suggestion as to the disposition of the \$10,000 grant coming from the Dominion Government. To these letters Mr Logie will give the information asked for.

From the Kelowna Board of Trade was forwarded a copy of a resolution, asking for government assistance in aid for some of the irrigation companies in other parts of the Valley, who are finding themselves hard hit by the stringent conditions now reigning. The Council were apparently asked to endorse this resolution, but they did not see fit to do so, on the wise ground that it might compromise their present satisfactory relations with the financial houses.

Mrs F. A. C. Wright sent in a claim for \$10 damages, on account of a hole left unguarded in the road at West Summerland, which she encountered while driving recently. This was also referred to the Board of Works.

The yearly estimates of the School Board were laid on the table and discussed for a few moments.

Two by-laws, No. 67, ratifying the agreement with the Dominion Government for the supply of water to the Experimental Farm, which was passed on Wednesday, and by-law No. 68, the annual rate by-law, were finally considered and passed, and the Reeve and Clerk were authorized to duly sign and seal the same.

James Pyffe asked for some satisfaction from the Council in respect of damage amounting to about \$40 which had been done in past seasons to the cellar of his house, from the overflow of the Peach Valley siphon pipe. He was asked to send in a detailed bill at the next meeting.

Tenders for about forty or fifty thousand feet of lumber necessary for the spring fluming work were received from F. Demuth and the Summerland Lumber Co. These will not be acted upon till the next meeting.

The 1915 estimates came in for some preliminary discussion, and will receive fuller attention at the next Council session. It seems inevitable that the estimates must be a little above those for last year.

It was when Dr Andrew's report for 1914 as Medical Health Officer was presented, that the Council resolved itself into a Board of Health, the first of what will probably be quarterly sessions in this capacity. During the morning Dr Andrew was present to discuss the report, and the Constable and Sanitary Inspector was also present. The salient features of this report urged a

revival of the spring cleaning-up activities, not only in the town sections, but along roadsides, etc.; urging also a periodical inspection of all septic tanks; care as to the use of the water from Eneas Creek for domestic purposes; and a more rigorous inspection and enforcing of the regulations pertaining to local dairies. In regard to the septic tanks, Dr Andrew suggested that permits be required to sanction the building of these, so that some responsible person could see that they were properly designed and built, so as to give the maximum of satisfaction. At the next meeting of the Board Dr Andrew will present interesting data which he has collected from all over the continent in connection with septic tanks, with a view to drawing up such regulations as may be deemed best in the interests of the public health. The question of the inspection and licensing of dairy properties came up for consideration, and it was decided that the local regulations governing these be more strictly enforced in the future. A resolution was passed ordering the publication of extracts from these regulations, with a view to their enforcement.

The next meeting of the Council will be its regular monthly session on Wednesday morning, February 10th at 9 o'clock.

THE WOMEN'S INSTITUTES.

The ladies of the Summerland Women's Institute have had their afternoons of the past week very much occupied in attending the Cookery Demonstration Course that Miss Bertha Livingstone, government demonstrator, has had in charge. The course commenced on Tuesday, and is being conducted in the parlors of the Men's Club. That the local women appreciate the useful and thoroughly practical help that Miss Livingstone furnishes in her lessons, is evidenced in the turn-out of members that has greeted her, not less than forty women being present on any afternoon this week. The largest part of Miss Livingstone's work consists in actual demonstration, which gives a double value to the recipes as they are put down on the blackboard. Moreover, the dishes she has been experimenting with are not expensive and non-satisfying concoctions, but economical and highly nutritious dishes that would satisfy the everyday needs of the normal family. The demonstrator has proved herself extremely capable, a past-mistress in her gentle art, in fact, and her knowledge, coupled with a willingness and a readiness to answer any questions, has made the course more than ordinarily helpful to the women.

Tuesday afternoon, when the course opened, some time was spent discussing relative food values, the needs of the body, and other basic knowledge that every cook should have. Charts made Miss Livingstone's talks much clearer, and helped to drive her conclusions home. The preparation of raw and cooked fruits in different forms, hot beverages, sweets, and soup was also dealt with. Wednesday was devoted to the consideration of cheese, milk and egg dishes, and also foundation sauces. Thursday was an important afternoon, when various ways of cooking meats were gone into, also the making of stock, trying out fat for cooking purposes, and puddings, etc. This afternoon, Friday, fish dishes will be demonstrated.

The monthly meeting of the West Summerland Women's Institute will be held in the High School Room on Friday, February 12 at 2.30. A full meeting is requested. There is a good program arranged.

Miss Livingstone will begin her cookery class on Monday, the 15th inst. Any ladies wishing to take this course must be members of the Institute.

Next Sunday evening in St Andrew's Church, Rev. C. H. Daly's subject will be "A Hundred Years of Peace Between the British Empire and the United States."

Only One Voter Opposed Experimental Farm Agreement.

Question Fully Discussed at Saturday's Public Meeting, as was also Hospital's Request for Half-Mill Levy.

Hospital Referendum Withdrawn.

Confident That South Main Users Will Not Lack Water This Season.

One hundred and twenty-nine to one was the result of the voting on the by-law ratifying the council's agreement with the Department of Agriculture, Ottawa. The lone opposing vote was cast in the Wards 1 and 4 section, where 71 ratepayers declared themselves in favor. In Wards 2 and 3, 58 ballots were cast.

With the Reeve on the platform at the public meeting last Saturday afternoon were all the Councillors and the Municipal Clerk, Mr J. L. Logie. When Mr Blair opened the meeting at 2.30 the attendance in the Campbell Hall seemed to be somewhat sparse, like at a number of other ratepayers' meetings, but men continued to drop in until there were perhaps fifty or sixty present, on a generous estimate.

The meeting had been called by the Council to lay before the ratepayers the advantages to be gained by ratifying the agreement with the Dominion Government for supplying water to the Experimental Farm at Trout Creek, but after this had been gone into, other things were brought up that took up just as much time, so that before an adjournment was reached dusk had arrived.

Reeve Blair spoke very briefly at the opening of the meeting before he called upon Mr Logie to explain the terms of the agreement. Mr Logie spoke at some length upon the agreement, in regard to which he said there seemed to be a great deal of difference of opinion. Referring to the irrigation system generally, he had always contended that the pipes and flumes were too small as a rule. From the shortage of water last summer in the south main district, the Council had realized that the real trouble lay in the smallness of the ditch, since during the worst months there was an abundance of water in Trout Creek. But there was great difficulty in the way of raising money to do any work to remedy this condition. Then the offer from the Experimental Farm had come along, first \$5,000 to put the flumes and ditches into shape for the extra load, then \$10,000, but with each of these offers there had been the stipulation for free water supply afterwards. The Council had stood out, however, and had finally secured the promise of a grant of \$10,000 cash for the necessary enlargement work, and a further sum of \$300 per year for the water supplied, or at the rate of \$1 1/2 per acre. Since the \$10,000 invested in the irrigation system might be said to give an annual interest at 5 per cent, of \$500, in one way it could be said that the Municipality was getting \$800 per year from the government money.

After touching upon the satisfactory financial position of the irrigation system, Mr Logie quoted figures of his own computation, relative to the carrying capacity of the south main under its enlarged

condition, and these, he said, were calculated on an extremely conservative basis, erring on the side of under estimation rather than over. These figures, in terms of cubic feet of flow, showed clearly that the south main ditch has been increased to carry more than the Experimental Farm demands, with a good amount over. This deal the Council were making was not taking water from the people of that district, on the contrary, it was giving them more. Of the \$10,000 that was promised from the government, \$2,500 had been spent in storage work, and it was proposed to expend the remaining \$7,500 on various ditch and flume work, a good deal of which has already been done. The amount stored in the Trout Creek headwater dam was greatly in excess of the required additional 200 acre feet, and altogether, with the greatly enlarged flumes and ditches, and the length of cement lining, the whole system was in a better position than ever before to fulfil the requirements demanded of it. The water for the farm needed no distribution, the saving of a man's wages during the summer being effected in this way. He considered that the deal was good in every way and from every viewpoint.

Various questions were asked, to which Mr Logie and the Reeve gave explanation, and bearing on the trend of the questions, Coun. Johnston read a list of the work to be done in the spring on that part of the irrigation system affected by the agreement with the Farm. After other questionings and explanations had been gone into, Reeve Blair called upon Mr Jas. Ritchie, who, as the retiring Reeve, had a great deal to do with the negotiations.

Mr Ritchie, in showing how the work on the ditches and flumes was going to give a greater volume of water for the vicinity of Trout Creek, said that Engineer Latimer had based his estimates for this work on the government's suggestion of the needs of that particular district, 2,000 acre feet for the 800 acres during the season. He was quite confident that the ditches would carry enough water in the coming season. Referring to the work done on the storage dam, Mr Ritchie said that altogether 600 acre feet had been stored at a cost of \$5,500, and of this amount \$2,500 would be taken from the government grant to take care of the additional water needed under the agreement, which was a very generous allowance. It was hard to say what would have been done if this offer had not come along, and he thought that a great deal of thanks was due to Mr Helmer for the way he had worked for the interests of the district. As to the distribution there would be no more expense than usual, so that he characterized the \$300 per year as "found money."

An unpleasant possibility was touched upon, when a criticism was

License Commission Named Also Police Commission.

Lib.-Cons. Assoc. Executive Suggests Four Citizens for Consideration of Government.—Not Yet Officially Appointed.

It seems within the bounds of possibility that Summerland will soon have a Liquor License Commission and a Police Commission. Reports that the executive of the local Liberal-Conservative Association have recommended certain citizens for these commissions have been current for the last few days, and when spoken of by the Review the association's secretary, Mr C.

H. Cordy, said that the provincial government had asked the local association to recommend two people for each commission. At a meeting of the party executive held last week Mr J. A. Kirk, President of the association, and Coun. Simpson, were selected for the License Commission, and Coun. Barton and Mr H. Sutherland for the Police Commission. Whether this means

advanced on the ground that the Council had laid out a good part of the money before the agreement had been ratified. To this Mr Ritchie replied that everything had been done to hasten things along, and the money could not have been obtained any earlier. No opposition to the agreement was expected—there was no room for any from those who had studied the question. Water had been allowed to run down Trout Creek for want of larger ditches, which have now been provided. Mr Ritchie pointed out also the extreme urgency of the south main work which had been done, and also how disastrous it would be to the district if the by-law was turned down. It was worth a lot to Summerland to get the Experimental Farm.

Coun. Johnston also emphasized the fact that the work had been absolutely necessary, and by carrying out the enlargement to the dam at Trout Creek headwaters last fall, on the strength of the government assistance promised, considerable economy had been effected.

(Continued on page 3.)

W.C.T.U. Medal Contest.

The Presbyterian Church was very satisfactorily filled on Monday night, when the annual elocutionary silver medal contest was held, under the auspices of the W.C.T.U. This contest may be entered into by boys and girls who make recitations usually along temperance lines, and to the best reciter a silver medal is awarded.

There were six young ladies competing in this contest, and all gave excellent renderings of the several pieces selected. The high excellence of the deliveries made the task of the judges very difficult. Their judgment awarded the medal to Miss Kathleen Brown, who has, by the way, attained this distinction before. Each of the others were presented with a book as an appreciation of their splendid efforts.

A number of items on the program by young local talent were heartily applauded by the large audience. Summerland is to be congratulated on possessing so much splendid talent among its young people, and we hope more will be done to encourage its development. Mr G. J. C. White acted as chairman for the evening, and the full program of the proceedings was as below:

- Hymn "Onward Christian Soldiers"
- Chairman's Remarks
- Chorus "Men of the North," By a Company of Boys
- Contestant No. 1, Miss Marjorie Tingley
- Contestant No. 2, Miss Pearl Darkis
- Song, "Come, Birdie, Come," Master James Smith
- Contestant No. 3, Miss Kathleen Brown
- Contestant No. 4, Miss Marion Harwood
- Song, "Fraser Lister"
- "It's a Long Way to Prohibition," Winnie Yule
- Song, "It's a Long Way to Woman Suffrage"
- Contestant No. 5, Miss Ida Shields
- Contestant No. 6, Miss Belle Vanderburg
- Solos, "The Veteran's Song," Mr H. Grant
- "Jenny Mine"
- Collection
- Presentation of Medal and Books
- Chorus, "God Save Our Boys,"
- GOD SAVE THE KING

Another medal contest under the same auspices is announced for March 1st in the Men's Club.

ACADEMY RESIDENCE BURNS.

Acadia Collegiate Academy residence building at Wolfville, N.S., was destroyed by fire on Wednesday morning this week. The loss is estimated at \$30,000, with insurance amounting to \$22,000. Many graduates and friends of Acadia here will regret this disaster to the well-known institution.

that another effort is being made to get a liquor license for this place could not be learned. It is not known that the commissions have been officially formed. If appointed the Reeve becomes a member ex-officio.

Poultry Association Is Doing Good Business.

Will Result In Putting Much Cash Into Circulation.—Already Has Orders Totaling \$100.00 Weekly.

A hurriedly called meeting of the Summerland Poultry Association was held on Wednesday evening in the office of the secretary, C. N. Borton. The object of the meeting was principally to deal with several matters pertaining to the shipping of eggs. The association has contracted to make regular shipments, but recent experience has shown that the method of gathering for shipment is not the best and needs improving, to get all eggs available for export. Another matter needing immediate attention was the appointing of a successor to Mr E. Garnett, whose private affairs would no longer permit his acting as buyer and shipper for the association.

There was a good representation of poultrymen present, and after a thorough discussion of the business in hand, Mr W. J. Beattie was appointed to succeed Mr Garnett, and he will also attend to the bringing of the eggs from the benches down to the shipping point, the eggs to be left with him at his home.

The association now has orders for eggs that will total more than \$100.00 per week, and at the suggestion of some of the members a plan to pay members promptly at the first of each month is being worked out. Financed in this way the association will make it easier for members to pay cash for their feed, and the prompt cash settlement will be an inducement for members to put all their eggs through the association as well as to draw new members.

LIBERAL-CONSERVATIVE ANNUAL MEETING.

The call of the secretary of the local Liberal-Conservative Association drew between twenty and thirty to the annual meeting in the Campbell Hall on Monday evening, at eight o'clock.

The election of officers was the main business up before the meeting, and this resulted in the under-mentioned men going into office:

- President - J. A. Kirk
- First Vice-President - E. R. Simpson
- Second Vice-President - R. V. Agur
- Secretary - Chas. H. Cordy
- Treasurer - A. B. Elliott
- Executive:
 - Ward 1 - C. N. Borton
 - Ward 2 - W. C. W. Fosbery
 - Ward 3 - P. G. Dodwell
 - Ward 4 - J. M. Sutherland
- Auditor - W. C. W. Fosbery

The association voted to send to Hon. Martin Burrell, Dominion Minister of Agriculture, an acknowledgment of his good offices in placing the new Experimental Farm in Summerland.

On Thursday afternoon in the Methodist Church, Rev. G. C. Pidgeon, D.D., of Vancouver, who is making a trip to the Valley, addressed a mass meeting of men in the interests of the Social Service Union, a provincial interdenominational organization. Though the attendance was not large, the meeting was nevertheless very helpful, and in his able address, Dr Pidgeon showed up a great deal that seems to be wanting in the legislation of this province bearing on social conditions. He pointed out the need for co-operative work on the part of temperance sentiment in approaching the license by-laws, and urged that another great need was to get local option legislation within municipal control. The slackness of conditions bearing on the land question, whereby speculators were able to obtain large holdings, came in for some criticism from Dr Pidgeon, and also the flagrant violations of the spirit of the laws in regard to elections. The voters' lists needed tightening up, he said, so that the resident electorates become solely responsible for their own affairs. That the moral forces must challenge local conditions in need of remedy, was another strong declaration of Dr Pidgeon.

FRIDAY, FEBRUARY 5, 1915.

A PRACTICAL POULTRY ASSOCIATION.

THE ENTERPRISE shown by the Poultry Association in finding a cash market for eggs is most gratifying, and the possibilities they have opened up for a steady inflow of money in exchange for an important by-product of orcharding, are large. Already nearly a hundred poultry men, including several from Naramata, have identified themselves with the Association, which up to now has existed solely for show purposes, and it is confidently expected that in a few months exports will total several thousand dozens per month.

A good start has been made, and highest attainment of success now depends on the members. Co-operation, and supplying only strictly fresh, non-fertile eggs, as stipulated by the buyers is of course essential.

Those seeds you will soon be buying! Are they going to be seeds, good seeds or the very best seeds? And are they going to be of the very best varieties for your particular purpose? It is stated on good authority that the use of poor seed and seed of wrong varieties last season resulted in a loss of many hundred dollars to Summerland alone, and to no small sum, even to individual growers. One had better pay ten dollars for the best seed than ten cents for something that is going to produce either a small crop or a variety of produce that is unsalable. In the one case the plot of ground may give a crop fetching fifty dollars, and in the other one hundred and fifty dollars for the same outlay in time and material, with the exception of seed.

BE SURE YOU BUY ONLY THE BEST.

WHICH is the best way to do public work, by contract or by day work under municipal supervision? This is an open question, and each side has many supporters. One method may be better in one instance, the other in another, but by a very simple method a decision in each instance may be arrived at, especially as to the relative cost, a method that is coming into use in many places. When it is decided to do a certain piece of public work, the plans are carefully prepared and specifications drawn up. Tenders are then called, and the civic engineer or similar official is required to put in his tender as well. These are all sealed, and the bidders' figures are not known to the engineering department. If a worthy bidder offers to do the work cheaper than the city or town bid it goes to him, if the engineer's figures are lowest he gets the work, and is expected to come within his bid.

IT IS FELT to be a matter of regret that the Municipal Council did not see its way to follow out the practice of former years and give the annual financial statement the publicity of these columns. The more one compares the figures with those on the balance sheets of other municipal corporations, the more convinced one must become in the opinion that Summerland's financial position is not only as sound as any city or town in the Dominion, but a great deal sounder than most in the West. In such times as these, when the ordinary channels of capital are very much curtailed, and when investors are making trebly sure of the standing and legitimacy of enterprises before they sink their capital, such a balance sheet as ours would form the best and most effective form of publicity. There is nothing to hide, and nothing that could not stand the full light of the most searching criticism. It is the best answer to the natural question as to whether the affairs of the community have been in capable hands, and as it would, through the medium of this paper, have come under the notice of the majority of those interested in the district in one way or another, the figures would have given the best and most conclusive answer to baseless criticisms, at the same time building up the confidence of the people here, who are already convinced as to the future of Summerland.

PRAISE FOR THE ENGLISH SPARROW.

The English sparrow has his faults, and to some folk is quite annoying; but give him credit for the good he does, urges the Philadelphia North American.

Thousands of cabbage worms are caught each year by the English sparrows which frequent gardens and fields where cabbage is grown. The sparrows will dive down amid the leaves and quickly clean up a good-sized cabbage patch.

The little chirping sparrow devours the cabbage worm, and the English sparrow, being a great imitator, learned the trick by observation, and soon became very proficient in the worm-catching business.

She—"Morley to think of that Persian lamb coat you promised me gives me a glow of warmth." He—"And merely to think of what it will cost gives me cold shivers down the back."

BASKETBALL

LEAGUE STANDING.

Seniors.		Per-	Points
Played	Won	centage	For Agst
College	11	6	54.5 214 174
Town	12	6	50.0 240 179
West	11	5	45.4 153 252
Intermediates.			
Town	12	8	66.6 182 124
West	11	5	45.4 149 206
College	11	4	36.3 141 186

The Town seniors were fated not to remain league leaders for long, it seems. On Friday of last week in the College Gymnasium, their star of destiny waned very decidedly, and when the College boys doubled the score on them, first place in the league went with the victory.

The intermediate game that precluded the meeting of the seniors went to the boys from the Town. Though the scoring opened for the College, the visitors soon warmed up to their work, and at half time 11 points were recorded in their favor as against 5 for the College. Angove at centre starred for the Town, and monopolized their scoring by securing four baskets. Sismey was also a scorer with one basket, and a foul made up the Town's total. For the College K. Elliott and Jennings found the basket, and one foul shot was likewise converted to their account. For the second half Dale appeared for the College in place of B. Elliott, but even so the College had to be content with but six points this half, two from Dale, two from Elliott, and two from fouls. The Town aggregated another 11 points, Angove again being very much to the fore, securing 3 more baskets. White seemed to have success in putting fouls to good account this half, helping the Town points to pile up. The College guards had their hands full all through the game, their opposing forwards seeming to be in good fettle. A Pentland had charge of this game, and the two teams were:

Town	for	College
C. H. Sismey		K. Elliott
R. White		B. Elliott
		and G. Dale
W. Angove,	cen.	H. Jennings
F. Williams	gd.	E. Armstrong
C. Clay		Anderson

The way in which the College trimmed the Town in the senior

game can only be accounted for by the high-class, consistent basketball which the former showed in contrast to the less brilliant showing of the latter. In the first half especially, the College combination and their seeming ability in breaking most of the Town efforts along that line, made the game look to be theirs almost all the time. The College guards were particularly strong in their defence, and with Dale, McLeod and Cochrane working finely together, they had amassed 17 points by the time the whistle blew half time, while the Town had been able to do no better than 8. McLeod and Dale each had three baskets, and Cochrane two, and McLeod had also been able to convert one foul for the College, and among the Town boys Phinney with two, McWilliams and Hayward with one apiece, were the scorers. The visitors were not able to settle down into any kind of combined work, and though they worked hard to turn the tide of defeat, the College were a match for them, and always held their own. In the second half the scoring was less prolific, but still in favor of the boys from the hilltop, who, though without Morlock, did not seem much at sea on that account. Cochrane, Dale and McLeod were again the College basket finders, the first named securing another point on a foul, while for the losers, Phinney and Lavis found the net. College rooters were much elated over the victory of their boys, and showed their pleasure by the customary manifestations. E. Logie had the whistle, through this game, and the teams were:

Town	College
H. Phinney forward	M. Cochrane
C. Lavis	G. Dale
C. McWilliams centre	J. McLeod
J. F. Glenn guard	C. Riley
F. Hayward	A. Vanderburg

The place of the College at the head of the league is none too secure, and if in the game scheduled to-night, Friday, between the West and the College, the former are able to duplicate their feat of two weeks ago, when they vanquished the College boys, the somewhat peculiar result will follow of all three teams standing equal, with six wins apiece. But this may not be, in which case the College will take a good stride up. The next game, on Monday, will be in the Men's Club, the Town and Wests being the contenders.

ONLY ONE VOTER OPPOSED.

[Continued from Page 1.]

Further questions elicited from Mr Ritchie the opinion that while all the work now done could be paid for, even if the \$10,000, payment were not forthcoming, it would be a bad day for Summerland if Wednesday saw the by-law voted down. It would leave the south main orchardists practically in the same position as last year.

Just when this phase of the situation was having consideration, and after it had been stated that it would be the south main users who would feel the bad effects—most if the agreement was not ratified, Coun. Borton gave out some figures showing just what it meant to Summerland in hard cash to have the Farm. In the few weeks of the fall when work was being carried on there, not less than \$4,000 had been paid out in wages, and for the coming year between \$15,000 and \$20,000 would be paid out in a similar way. Mr Borton thought that this was a consideration not to be lost sight of.

Among those who had taken part in the discussion and questioning up to this point were Messrs W. A. Caldwell, R. W. Nelson, W. A. Wright, C. D. Denton, Jno. Tait, and Coun. Simpson.

Branching off into another subject, the Reeve announced that F. J. Nixon had figures to read regarding the relative cost of the cement lining of the ditches by contract, and by day work under Superintendent Mitchell. These figures had been brought up before the Council at its meeting about two weeks ago, and as reproduced in the Review appeared to give rise to wrong impressions, since the specifications to which they referred had not appeared. Arising from this and a comparison of the two methods of work, an animated discussion sprang up for a few moments between Messrs Nixon and McAlpin.

Nothing more was said about the agreement with the Dominion Government, and the meeting passed on to the consideration of another topic brought up by Mr Logie.

This was the appointment of a Patriotic Committee to deal with local applications for aid from the treasury of the Patriotic Fund of the province, it was explained. There were several suggestions as to how this committee should be constituted, and finally, on the advice of Mr Logie, two ladies and three men were named, these being Mesdames H. A. Solly and R. Cartwright, and Messrs Jas. Ritchie, F. W. Andrew and J. L. Hilborn.

Still another matter was to come before the meeting for consideration, and this was stated by the Reeve to be the matter of municipal aid for the Hospital. He called upon Mr W. J. Robinson, chairman of the Hospital Board, to speak on this matter.

Mr Robinson laid the case for the Hospital before the ratepayers. He pointed out that the Hospital Board had not called upon the Council in connection with the erection of the new building, and now it was all completed and paid for, they felt that the Municipality should take a share in the maintenance, rather than to continue calling upon the people as individuals. A tax levy of 1/2 mill on a ten acre orchard assessed at \$3,000 would only mean \$1.50, and he was sure there were people who would not object to paying that. It was proposed to run the new building as economically as possible, and so far as regards earnings and expenses went, the institution had about pulled even since last fall. He felt it was the voice of a good many people that they should go to the Council, and further, other towns in the Valley were aiding their hospitals to varying extents. A tax levy of 1/2 mill was suggested by the Board to meet the needs of the situation.

Dr Andrew, then called upon, spoke on the question from the standpoint of the physician. After explaining the changed attitude now adopted towards hospitals generally, he dwelt upon the local institution and its work. The minimum staff for the building, he said, was four, a matron, night and day nurses, a cook, and in addition, a janitor for what little work was necessary in that line. Although the Hospital received some help from the government in the shape of a grant of \$1 per day on all accepting maternity cases, this was not enough, and if the Council would not help, the Hospital Board would have to come on to the people again sooner or later. He thought the better way would be to take a little on every man's property, as the institution was an indirect benefit to the whole community.

Mr H. C. Moller, a director of the Hospital Board, also spoke in

the interests of the Hospital. He gave a resume of what had been done since the fall of 1913, when the former building used for hospital purposes had been condemned, and recalled the circumstances that led to the erection of an entirely new building with government help. Now they were entering upon a new phase of the problem—the maintenance, and in connection with this, they would either have to beg from the people, or secure help from the Council. The ruling of the government in regard to the grant made something of a hardship, and it was thought to be only fair that a little of the expense be spread over all the district.

After the Reeve, in reply to a question, had said that the Council at their last meeting had made a grant, of \$300 and free light and water, Mr Mellor read from the statutes showing that the Council had a certain liability for indigent patients admitted to the Hospital. He explained further that what the Board desired from the Council was the proceeds from a tax levy of half a mill on the dollar and light and water in preference to the grant offered. In consideration of this the Board would not look to the Council for any reimbursements on account of indigents. As to the interpretation of the term "indigent" there was considerable difference of opinion, and also as to the liability of the Municipality in this respect. Figures read by Secretary Riley showed that up to date the Hospital had outstanding accounts due totalling more than \$520, including the government money due, which might amount to between two and three hundred dollars.

Mr P. G. Dodwell voiced the sentiment in the meeting that did not favor this taxation. He said that he did not see that compulsion in this regard was called for; it was the wrong way to finance, and it would drive the willing ones away. He suggested that the Council and the Hospital Board get together on this question, and that the latter ought to accept the Council's offer, which seemed very reasonable in the present circumstances.

Mr Logie explained the reading of the law respecting the Council's liability in certain cases, according to his conception, stating that they were in no instance liable for more than \$1 per day. Everyone was agreed that the Hospital should be helped along, and he was also of the opinion that the Council's grant had seemed very reasonable. Compulsion was the wrong principle to start on in this case, and it would result in the Hospital getting less than by willing and voluntary giving. Moreover it was shifting the financial responsibility on to the Council. The proposed levy of 1/2 mill would realize about \$800, less one-sixth discount, and unless the Council were to be expected to advance the money before the taxes were paid in, it would be some time before the Hospital ever saw the proceeds of the levy. He was not speaking against the Hospital, but against that method of financing, and he advised the Board to accept the grant offered.

Mr Ritchie did not agree with the referendum proposed, since if the proposal was turned down, an awkward situation would be created. He thought that the Board should take the assistance offered, and then at the end of the year come to the Council again if the grant had proved inadequate. Mr Hilborn echoed this view, saying that the people should and will support the Hospital, but taxation would prove the wrong way to go about it.

Mr Robinson again advocated the tax levy as the most satisfactory for the Hospital, and Mr J. McLenn, another member of the Hospital Board, also spoke, saying that it was not the desire of the Board to add to the burdens of the Council, or in any way to suggest compulsion in the payment of any money. If the \$800 from tax levy was thought to be too much, then the Hospital only asked that the Council do all that was possible for them.

From the trend of the opinions expressed Mr Robinson thought that perhaps it might be better for the Hospital to accept the proffered grant of \$300 and not go to the people with a referendum. A motion that the referendum be withdrawn from the voting was made by Mr Ritchie, and duly seconded, but just what standing the resolution had was not to be gathered, as the meeting was already breaking up.

Before the citizens dispersed, the Reeve urged all ratepayers to get out and vote on Wednesday, and not allow themselves to think that they could show their sympathy for the by-law by staying away from the poll.

OUR NARAMATA SECTION

NARAMATA SCOUT DOINGS.

On Tuesday evening Mr. W. Nuttall came over to our gymnasium and showed us some new athletic stunts for our concert. Mr Nuttall is quite an athlete, and we are very grateful to him for his valued help.

Only second class scouts who had obtained their Ambulance Badge were present at the meeting on Thursday evening, and a rehearsal of our First Aid sketch took place.

Saturday afternoon a contest of dispatch running took place between the Eagle and Wolf Patrols. The rules were as follows: The Eagles chose one of their number for dispatch runner, and it was his duty to carry a written message from the Scout headquarters up to Capt. Languedoc's ranch, have it countersigned there, and fetch it back to the starting point, without being caught if possible, or at any rate without having his message captured by the enemy, who in this case were the members of the Wolf Patrol.

The Wolf runner was supposed to carry his dispatch from the headquarters up to Mr Schreck's home, and after having it countersigned by him, to fetch it back without having it captured by the Eagles, who were on the look-out for him. The runner must be touched before he was considered as having been captured, and if his dispatch could not be found by his captor after a reasonable time, he must be allowed to go his way. Once a messenger was captured he must allow himself to be searched, and put no obstacle in the way of the searchers, although he was allowed to hide his dispatch wherever he desired. The interceptors were not allowed to be concealed within a quarter of a mile of either the starting point or the destination. At the end of the day the honors were found to be about even.

The Eagle runner, Arthur Stiff, second of that patrol, was captured by Scout Harold Allen, but was released after a thorough search without his message having been discovered, while the Wolf runner, Scout Earle Hughes, was captured by patrol leader Frank Hughes of the Eagles, and was also released with his dispatch intact. This latter messenger also had another narrow escape from being captured, and was chased from Aikens's point right up to the door of the scout hall by another Eagle, Scout Edmund Boothe. Scoutmaster Pitman, who was aiding the Wolves, chased the Eagle runner for some distance, but owing to the latter's lightness of foot, and the rough nature of the ground, the Eagle made a successful getaway.

The hiding places for the dispatches in both cases were very ingenious, but for obvious strategical purposes they will not be revealed here.

We are very grateful to the Summerland Troop for their kindness in loaning us two of their bugles for use in our approaching concert. At present we have no bugles of our own, but we are living in hopes of obtaining a couple some time.

A. SCOUT.

"They say that young rounder Spenditt has committed suicide." "Yes, The doctor says he swallowed enough poison to kill fifty men." "Just like him! Extravagant to the last."

Current Events - OF - Town & District

Mr Fred Manchester is preparing a new home for his family on Lily Street.

Mrs Languedoc spent part of the week with Mrs Solly at the Rectory, West Summerland.

Mr and Mrs Dean Walters went over to the Quadrille Club dance in Summerland on Thursday evening.

Mr Fred Lorne Roe has gone to Penticton to live, but expects to spend the week-ends with his mother at "The Syndica."

Miss Dorothy Robinson is studying hard at Moulton College, Toronto, trying to get up her year's matriculation work during half term.

Mr and Mrs John Schreck were guests of Mr and Mrs Davies at "The Outlook" on Thursday of last week, and of Captain and Mrs Languedoc early this week.

Mr Glen of the Canadian Bank of Commerce, Summerland, accompanied Mr W. A. Robinson on his usual week-end visit to his cousins at "The Naramata" last Saturday.

The Misses Gladys and Kathleen Robinson and Miss Emma Davies were house guests of Dr and Mrs Lipsett this week while attending Miss Livingstone's course of cookery lessons.

The Ski-ing Club were driven five miles back in the mountains last Friday by Mr Norman Mitchell, and had great fun on their ski home, the last tramp of the winter, perhaps, as every vestige of snow had disappeared by Sunday.

Mrs E. P. Roe has received word from her daughter, Mrs George I. Gray, Montreal, that her only son has enlisted for service at the war front. This is the fourth of Mrs Roe's young grandsons who will serve his country on the battle line.

Mr Mark Manchester took the boat on Thursday morning en route for Dawson City, Yukon, where he will remain until the closing of the out-door working season next fall. During his winter stay in Naramata he finished his bungalow, made most of the artistic furniture for it, and has left Mrs Manchester and the two little lads comfortably and prettily housed while he trips north again.

The importance of a "week-end visit" to a small folk was evidenced when Master Stewart Pushman received an invitation to spend Sunday at the cottage in Outlook Orchard. Had he been going to the moon no greater preparation could have been made nor more pleasurable excitement felt; and his return on Monday savored of the homecoming of one long absent and much travelled. The great big treat to the small boy eclipsing any event that can come in after years, told solemnly as worthy a place in the public press! Bless him, and the place is his: Stewart went, and Stewart came back.

PARTIES FOR ALL NARAMATIANS

Three large indoor parties were given during the week, the first, specially for the married people, at the Unity Club House on Thursday evening. Nearly all the residents on the lakeside peninsula attended, and games of all sorts were played until the lights went out at midnight. A real gay old-fashioned time was spent, the hostesses being Mrs J. H. Pushman, Mrs Fred Manchester, Mrs Howard Rounds and Miss Gwendoline Robinson. Those from the benches, who came down to the party, were Mrs Rounds, sen., Mr and Mrs H. Rounds, Mrs Allen, Mr and Mrs Hugh Davies, Mr and Mrs Myers, Mr and Mrs John M. Schreck.

The Saturday night party was given by Miss Gwendoline Robinson and her sisters at "The Naramata," Mrs Campbell Robinson coming over from Summerland as one of the hostesses. This party was for the young people, when dancing was the chief amusement. Those who attended were Mr and Mrs Fred Manchester, Mr and Mrs Mark Manchester, and Mr and Mrs Howard Rounds, Miss Emma Davies, Miss Lois Wells, Miss Vera Roe, Miss Adelaide Hayward, Miss Edna Noyes, Miss Whitworth, Miss Foster, Messrs Harold and Norman Mitchell, Mr Glenn, Summerland, Mr Guy Brock, Mr Alex. Noyes, Mr Gerald Roe, Mr J. O. Robinson, and W. A. Robinson from Summerland.

Tuesday was Mr Thomas Williams' birthday, and his celebration was also a party given in Mr and Mrs Williams' cosy new bungalow on the crescent of the inlet. The list of guests was long and the evening was spent delightfully in music, games and meeting of many old timers.

Naramata Current Events

Mrs James Hayward and Mrs Lyons are hostesses at the Unity Club tea this afternoon.

Not a skate, not a sleigh! And bean suppers, bon-fire teas, and snow parties arranged for by the half score!

This, Friday, evening, the Epworth League will be presided over by Stewart Allen, chairman of Missionary Night.

The subject for discussion at the Literary Society of 15th February will be "One Hundred Years Peace Between Canada and the United States." The names of the speakers have not been officially announced.

While no flying machines were observed from Naramata on the evening of January 27th, there was a vision seen over the mountains behind Summerland that vied in beauty with the world famed Fujiyama of the picture land of Japan. Snow Mountain was dazzling through a mesh of cobweb mist, yet no sun shone, and only a rimmed outline of ice-cold blue-grey was about it. Its whiteness so intense that it appeared living, so awful that it seemed dead—was offset by a mass of purple-black clouds to the north, and floating dun-hued mists below. A sunset, as it were, without color, yet more impressive in its sombreness than brilliancy could ever be.

NOT WHAT SHE ORDERED.

"Ma'am, here's a man at the door with a parcel for you." "What is it Bridget?" "It's a fish, ma'am, and it's marked C.O.D." "Then make the man take it back to the dealer. I ordered trout."

AN EVENING WITH AUTHORS.

Sixteen new members answered to the roll call at the Literary Society's meeting last Monday evening, and afterwards expressed their gratification that they had joined so delightful an association. The program was exceptionally good, every literary number being a visit to the home of an author, with illuminating glances through the writings. Mrs James Hayward was the first to take part, and she went away to the thoughts of that delightful writer of humor, B. C. V. Myers, and kept the audience convulsed with laughter while she told how "Mr Burton put up the curtain." Mrs Hans Salting talked of Ella Wheeler Wilcox, and read some pointed rhymes of that gifted author after telling something of her life and various writings. "Which are you, the one who stands and works or the one who leans and rests?" was the query of her last selection. Mrs Morsch took everyone away to the Southland. In simple language, exquisitely worded, she described the home village of John D. Wells, "just like hundreds of southern villages, lanes, flowers, church spires—with homes and business places all jumbled together; but of his own, John Wells made this difference, he told of the everyday happenings in rhyme, and his rhymes touch the heart to eternal remembrance.

Miss Margaret Gordon of Scotch forebears, went back to the home of Robert Louis Stevenson. She seemed to know him, had been in his haunts and then crossed the water, in imagination, with him. Among his wonderful words, strung into books she but dipped her thoughts, as a hand dips into a treasure chest, and brought up, without thought of sorting, gems of unmatched worth. She knew her Stevenson, and the members of the "Literary" met him and loved him too.

Then Mr Fred Lorne Roe spoke of Shakespeare of whom libraries have been written, and brought out the idea that although the most gifted writer of the world had lived so long ago, yet what he had written then was as applicable to the present day as though it had been written now. The farewell of Polonius to his son Laertes (Hamlet) was his apt quotation in bringing the literary part of the program to a close.

Mr Mackie played at different times during the evening, old fashioned medleys of all nations that set the feet keeping time, and the voices to singing, and Mr Harry Pitman gave the vocal numbers.

No Miss Livingstone and her cookery classes for Naramata until a Women's Institute is organized here. Few were able to go across the lake more than once or twice to see the making of, hear the instructions, and taste the delicacies, that were made this week, at the Summerland Institute, yet all who went, and many who could not go, would like to have attended every class. On Monday evening, before the opening of the literary program, Mr H. J. Wells, past president of the Farmers' Institute, issued an invitation to the wives of the ranchers hereabout to join the Farmers' Institute instead of trying to organize a Women's Institute here. Women are considering. They wonder just what personal advantage it will be to them. The question is worthy of thought; but a Women's Institute is for women, backed by the government, and granted special privileges.

NOTICE

Pound District Act AND Pound District Act Amendment Act.

PURSUANT to the provisions of Section 11 of the above Act, notice is hereby given of the appointment of Mr. W. W. MITCHELL, of Naramata, B.C., as Poundkeeper of the Pound established within the Naramata Pound District, as specified by Order-in-Council No. 1117, September 28rd, 1914,

PRICE ELLISON, Minister of Finance and Agriculture, Department of Agriculture, Victoria, B.C., January 6th, 1915.

Relishes

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy. So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious Jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to
the public for the discussion of matters of
general interest. No notice can be taken of anony-
mous communications. Letters intended for in-
sertion must be authenticated by the name and
address of the writer, not necessarily for publica-
tion. The opinions of correspondents are not
necessarily those of the Review.

Summerland, B.C.,
2nd Feb., 1915.
Editor,
Summerland Review.

Dear Sir,
The question of contract work,
or having the work done by the
Municipal staff appears to have be-
come a rather live one during the
last few months in connection with
the improvements and additions to
our Municipal irrigation system.
It is not my intention at the
present time to engage in a discus-
sion as to the relative value of the
two plans, it is a subject that is
being given a great deal of atten-
tion in other places besides Sum-
merland.

In my opinion where a city or a
municipality has a well qualified en-
gineering staff capable of properly
laying out and carrying on such
work, and with the time for the
same at their disposal, there is
much to be said in favor of it. Is
Summerland in that position to-
day? But the object of this letter
is to call attention to what I consid-
er to be grossly unfair comparisons
intended to show the advantage
of having the work done by the
Municipal staff, contained in a
statement laid before Council at
its last session and printed in your
columns.

The statement compares Supt.
Mitchell's lining 1209 feet of the
south main at \$1.05, with T. J.
McAlpine's bid for "similar" at
\$1.15. Now what does "similar"
mean, and what is it intended to
convey? True the dimensions of
the cement lining was the same in
both cases, but the first mentioned
part of the work was right adja-
cent to the supply of sand and grav-
el, and the surroundings such that
the material could be easily distrib-
uted by team, and was practically
straight, while the latter was very
crooked, causing extra labor in
making the turns, and was inaccessi-
ble to teams, making it necessary
to lay a track in the ditch, and in
this way transport the material
from end to end.

The case in respect to the Gar-
nett ditch is even worse. While
the work as completed at a cost of
71 cents per foot is given as 2 ft.
x 1 ft. 9, the tenders for which
the prices are given were called for
were at 2 ft. x 2 ft.

What do the ratepayers of Sum-
merland think of this for fair play?
PRO BONO PUBLICO.

BOY SCOUTS.

The Naramata Boy Scouts are
giving a concert across the lake on
the evening of Thursday, February
18th. The Summerland Scouts are
invited to attend in a body as
guests of the Naramata troop.

All local Scouts who desire to
attend are requested to gather in
the High School room on Friday
night, February 12th, at 7.30,
when a meeting will be held. There
will be a small ferry charge on the
trip to Naramata, but the boys
will have free admission to the
concert being arranged for by their
brother Scouts.

**VISIT OF PROMINENT LADY
LECTURER.**

In connection with the lecture
course, an event of great interest
is scheduled for Tuesday night next
in the Men's Club. The lecturer
for the evening will be Mrs Lashley
Hall, ex-president of the Women's
Equality League of B.C. Mrs Hall
is a very fine orator, and gained
for herself a great reputation in
England as a lecturer and speaker,
before making her home in Canada.
For many years she was closely ac-
quainted with Lady Henry Somer-
set, the great temperance reformer.
In Vancouver her name is a house-
hold word, and altogether the peo-
ple of Summerland can depend
upon a grand evening on Tuesday
next, when Mrs Hall will lecture
on "Woman Suffrage."

Let the wealthy and great
Seek splendour and state;
I envy them not, I declare it.
I grow my own lamb,
My chickens and ham;
I shear my own wool,
And I wear it.
I have birds, I have hoppers,
I have fruits, I have flowers;
The lark is my morning alarm.
So, my jolly boys, now
Sing "God speed the plow";
Long life and success to the farmer!

Passing Events: Social, Personal, &c.

Mrs Thos. Behan came down the
lake last Saturday evening from
Vernon after a two weeks' visit at
Vernon.

I am now prepared to quote prices
on vegetable plants. Please see
me soon if wanting any of same.
A. McLachlan. f5-12

Dr. T. B. Turner, dentist, will
spend Monday and Tuesday of each
week in Summerland. Crown,
Bridge and Gold Inlay work a speci-
alty. tf

Mr Carscaden, who has been
spending the winter here, was
joined by his wife and two sons
who came in on Thursday night
from the prairies.

Mr R. M. Duncan of Stettler,
Alberta, was a visitor in Sum-
merland on Tuesday, staying at the Fel-
ix. Mr Duncan expressed himself
as more impressed with Sum-
merland than by any other Valley
town he had yet seen. It is possible
that the future may see Mr Dun-
can come here as a settler to estab-
lish himself permanently.

The match to be played yesterday
between Kelowna and local hockey-
ists was made an impossibility by
the mild weather. The boys are
hoping, however, to have the visi-
tors here for Saturday or next
Thursday at the latest. If the Kel-
owna players do not get down for
tomorrow, a match between local
men will be played if the ice is
at all fit.

Arrangements have been made
whereby the ordinary rate of two
cents per ounce, applicable to all
letters sent from Canada to the
United Kingdom, will apply to let-
ters addressed to British and Cana-
dian troops on the continent. The
rate on ordinary letters from Cana-
da for the continent is five cents
for the first ounce, and three cents
for each subsequent ounce, so that
this extension of the two cent an
ounce rate to letters addressed to
our soldiers on the continent is
a decided reduction in favor of
correspondence going to the soldiers.

An exchange of property lately
effected brought Mr and Mrs C. W.
Lamb and little one to Summerland
on Tuesday evening's boat of this
week, from Willdun, Alberta.

They have exchanged their 480 acre
Alberta farm for the W. J. Smith
property, Garnett Valley. Mr
Smith left last week for his new
Alberta farm home, and was fol-
lowed this week by Mrs Smith and
family. It was through the medi-
um of a small Review Want Ad.
inserted by Mr Lamb a few weeks
back that negotiations were first
opened, which goes to prove the
effectiveness of this inexpensive
advertising method.

"Don't forget that it is your ad-
vertising that puts you on the map.
Keep at your advertising. Don't
give a big splash followed by a lot
of silence."

Mrs F. R. Gartrell came off the
boat on Saturday night of last week
after visiting Kelowna relatives for
a week or so.

Are your plows, cultivators and
harrows ready for spring work? If
not, better bring them in now for
repairs. W. R. Shields. f5-26

Mr Frank Whitfield has disposed
of his West Summerland property
to Mr Scott Darkis, and with his
son, is leaving for England on the
18th inst.

The regular monthly meeting of
the Board of Trade will be held
next Tuesday afternoon at 3.30 in
the Summerland Supply Co.'s build-
ing. C. A. McWilliams, Secy.

Methodist Church services will be
conducted in the Methodist Church
on Sunday next at 10.30 a.m. and
7 p.m. by the pastor, Rev. R. W.
Lee. All are heartily invited.

Mr G. J. C. White went up the
lake on Wednesday morning to fulfil
two engagements. He gave an
illustrated lecture, bearing on his
visit to Palestine, on Wednesday,
and the following day attended a
meeting of the directors of the
Okanagan United Growers.

WANTED—Summerland prop-
erty in exchange for the following
Kegina residential property at once:
House and Lot assessed \$6,600.00
Lot assessed - - - 3,600.00
3 Lots, assessed - - - 1,200.00
Write Mr. Steuart, Kings Ware-
house, Regina. j29f5

The Municipal debenture issue
recently floated and taken up at par
has been finally arranged in every
detail, and the bonds are now on
their way to Messrs G. A. Stimson
& Co., Toronto, who took up the
issue. The proceeds can thus be
expected very shortly to find their
way into the Municipal treasury,
relieving an unpleasant but quite
unavoidable stringency. As men-
tioned at the public meeting on
Saturday last, it speaks a good deal
for the sound showing the Municip-
ality makes in the eyes of finan-
ciers, when in such times of "tight
money," Summerland debentures
can be floated off at par, which re-
flects credit again on those who
have the civic government in hand.

**A GIRLS' COMPOSITION ON
BOYS.**

Boys is men that have got as big
as their papas, and girls is young
women that will be young ladies
by-and-by. Man was made before
woman. When God looked at Adam
he said to himself: "Well, I guess
I can do better than that if I tried
again," and then he made Eve so
much better than he did Adam that
there has been more women than
men in the world ever since. Boys
are a trouble. They are very wear-
ing on everything but soap. If I
could have my way half the boys in
the world would belittle girls and
the other half dolls. My papa is
so nice to me that I guess he must
have been a girl when he was a
little boy.

Mr E. W. Bateman, of Vancou-
ver; C.P.R. Right-of-Way Agent,
was an arrival in Summerland by
last Saturday evening's boat.

Dr C. A. Jackson, dentist, will
be in Dr Andrew's West Summer-
land office from Tuesday, February
9th to the close of the week. f5

If the gentleman that swiped, or
in other words stole, a 14 foot log-
ging chain out of my barn would
kindly put it back, I shall be much
obliged. E. N. Rowley, Gulch Road.

The February session of the
Board of School Trustees was duly
held yesterday afternoon, but we
must perforce leave any further
mention of their business till next
week's issue.

Mr Henry Taylor arrived in Sum-
merland from Vancouver on Satur-
day night. Mrs Taylor has been
here some weeks, coming from her
home at the time of the illness of
her mother, the late Mrs J. Steven.

The Misses Male of Penticton
visited Summerland on Tuesday to
see their father who is leaving for
England. Mr Male started on his
journey this morning, Friday. He
returns to Birkenhead, where he
formerly resided.

The vital statistics for Sum-
merland covering the year 1914, ac-
cording to the figures of the Medical
Health Officer, show 42 births
during the twelve months. Deaths
in the same period numbered 15, 4
of which were infants.

Miss Bessie Clark reached home
again on Monday night of this
week, terminating a trip of two or
three weeks to the Coast. She
continued on through to Penticton,
where she spent a day or two before
resuming her duties again in the
local telephone exchange.

The extremely mild weather of
the last few days has brought with
it not few signs of returning
spring. Where the snow has dis-
appeared green blades of grass
have come into the sunlight again,
and more significant still, the wel-
come song of the meadow lark, that
sure presager of the season of na-
ture's unfolding, has fallen upon the
ears of several of late.

Although the final balance has
not yet been arrived at owing to
the fact that there are some sour-
ces of revenue from ticket sales to
be reported from, it seems certain
that the balance from the Burns
Nicht Concert and Dance which
will be devoted to the funds of the
Hospital, will not be less than \$30.
The members of the St Andrew's
Society are feeling elated over the
success of their Burns Nicht enter-
prise, and rightly so.

The Canada Universal Locknut,
Ltd., is Mr J. M. Robinson's latest
floatation. Quick to recognize a
good thing, it was just by chance
that he came across a little inven-
tion that promises to save huge
sums for the railways in the
form of a tiny device to keep
nuts on bolts from becoming loos-
ened. Mr Robinson obtained the
Canadian rights while in Califor-
nia last spring, and the above-
named company has just been or-
ganized in Toronto to take care of
the Canadian business. A large
Montreal manufacturing firm recog-
nizing its worth were very ready
to undertake manufacturing and
marketing the new device which is
not only to be a money saver, but
will prevent many accidents.

**HOW KINDNESS TO ANIMALS
PAYS.**

The economic value of kindness
to animals is too well-known to-day
to need much comment, but now
and again this fact is emphasized
by some new experiment.
The effects of gentleness in the
management of milch cows was re-
cently demonstrated at a Kansas
agricultural experimental station.
Three cows were used as subjects.
They were treated with utmost
care, and found to produce 36 lbs.
of milk, containing 4.3 per cent. of
butter fat. The same cows, later
on, were frightened by rough
speaking, loud voices, the barking
of dogs, etc., and the decrease in
the milk supply was 13 lbs., con-
taining only 3.4 per cent. butter
fat.
It is claimed as a scientific fact,
that these decreased secretions are
due to a poison generated in the
system of animals as well as man,
by emotional disturbances.—Our
Dumb Animals.

Ho—"Will you share my lot?"
She—"No, I don't like the crop of
wild oats on it."

BIRTHS.

STEWART—On Sunday, January
24th, at the Summerland Hospital
to Mr and Mrs Joseph Stewart, a
daughter.

HIRAI—On Wednesday, Febru-
ary 3rd, at their Prairie Valley
home, to Mr and Mrs Frank Hirai,
natives of Japan, a daughter.

C. A. WALLACE DEAD.

Mr C. A. Wallace, who spent a
year here as a joint lessee of Hotel
Summerland, only returning to the
Coast last November, died sudden-
ly on Friday morning, January
29th, following an attack of acute
indigestion. Mr Wallace had been
carrying on a rooming house busi-
ness on Cordova Street E., Vancou-
ver, since leaving here, and it was
there that he succumbed on Fri-
day. The tragic intimation came
in the nature of a shock to a good
many local people who made the ac-
quaintance of Mr Wallace during
his stay here.

St Valentine will hold his court,
His court in the College Gym.,
In the College Gym. on Friday
night,
Come pay your court to him.
Come pay your court and quarter
too,
And don't forget the night,
The night of February 12th,
Come see the wight and join the
games,
And hear the program through,
The program through.
The refreshments will the inner
man renew,
The inner man renewed shall be;
And filled with keen delight
All for their quarter aforesaid,
On the aforesaid night.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

PUBLIC SCHOOL HONOR ROLLS FOR JANUARY.

The names detailed below constitute the honor rolls in the various divisions of the Summerland public school, for the month of January. The names are in order of merit:

DIVISION I.

Senior Fourth—Gavin Spalding, Olive Bristow, Leonard Whitfield, Jean Ritchie, Dorothy Tingley.
Junior Fourth—Bernard Taylor, Hazel Steuart, Lily Simpson, Alex. Smith, Mary Hatt.

DIVISION II.

Senior Third—Frank Calder, Minnie Ritchie, May Harrison, Louis Smith, John Denike, Betty Barnes.
Intermediate Third—Ruth Graham, Thomas Washington, Helen Shuffrey, Alfred Johnston, Lizzie Walker.

DIVISION III.

Third Reader—W. Gayton, A. Munn, W. Caldwell, W. Yule, J. Monro.
Second Reader—Grace Garnett, Jean Ritchie, A. Phillips, E. Johnston, Z. Garnett.
First Reader—S. Ging, A. Holding, D. Tomlin, E. Bowering, M. Munn.

DIVISION IV.

Second Primer A—Laura Mc Lachlan, Adrian Howell, George Graham, Leicester Arkell.
Second Primer B—Dorothy Garnett, May Ritchie, Bettie Caldwell, William Ritchie.
First Primer A—Arthur Morgan, Kathleen Monro, Muriel Simpson, Joe Garnett.
First Primer B—Ella Bowering, May Hale.

DIVISION V. (Town School)

Second Reader—Marion Beavis, Mabel Shields, Arthur Gartell and Kirk Sutherland, equal, Alice Limmer.
First Reader—Alvin Wilson.
Second Primer—Lillian Hunt, Gordon Southorne.
First Primer A—Campbell McAlpine, Harvey Wilson, Violet Atkins.
Perfect Attendance—Jonn Blowett, Arthur Gartrell, Lillian Hunt, Alice Limmer, Campbell McAlpine, Alvin Wilson, Archibald Brown.
Promoted to First Primer A—Violet Atkins, Kenneth Gartrell, Campbell McAlpine, Harvey Wilson.

How To Prepare a Hotbed.

Collect unheated manure from the horse barns and mix with the pure manure an equal amount of straw that has been used for bedding. Fork this over well and pile in a heap and let stand for about two days. If it does not start to heat in this time moisten the entire pile with warm water.

Prepare a pit for the manure bed. This should be located on the south side of buildings with a good exposure to the sun. The pit should be about two feet deep, not over six feet wide and as long as desired. It is preferable to have the long measure east and west. As soon as the manure has started to heat well, it should be placed in the pit and carefully trampled. This is the best method of packing the manure evenly in all parts of the bed. If it seems dry, add enough water to dampen, but do not apply enough to saturate the bed. Let the bed stand until it is heating well throughout, then cover with five or six inches of good garden loam. Let this stand for three or four days and then work down the surface with a rake and the bed is ready for seeding.

A broad frame, 10 or 12 inches high on the south and double that on the north, should be placed about the bed when the pit is prepared. The glass sash or cloth covering used should be placed on as soon as the manure is packed in. A bed prepared in this way will furnish heat about six weeks. The temperature will run high at the start and gradually go down. At the end of six weeks the hot bed becomes a cold frame and will protect plants from frosts but not hard frozes.

DIVISION VI.

Senior Third—Eva Smith.
Junior Third—Wm. Smith.
Second Reader—Noel Wright, Dorothy Dunsdon, Mason Merrihow, Florence Campbell, Arthur Wismer.
Second Primer—Marjorie Atkinson, Rupert Wright, Arthur Dunsdon, Harry Dunsdon.
First Primer—Janet Wismer, James Dunsdon.
Promoted to First Reader—Marjorie Atkinson, Rupert Wright, Arthur Dunsdon, Harry Dunsdon.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working

Newsy Faragaphs from PEACHLAND

Wm. Douglas was a visitor to Kelowna on Friday.

Mr and Mrs Joe Fleming and Miss Bishop returned on Friday from a visit to Osprey Lake.

Alvin McLennan of the C.P.R., Edmonton, who spent a month here holidaying, left for home again on Monday morning.

The Women's Institute will meet on Tuesday, February 9th. Mr Fleming of the High School will give a talk on the war, after which a sale of home-made cookery will take place.

Ted Smith left on Thursday morning for Calgary to join the colors. Good bye, Ted, we are sorry to think that we will lose you for a while, but we hope and trust that you will return safe and sound.

A farewell dance to Mr and Mrs F. Toloman, Mr and Mrs J. Fleming, and Miss Bishop will be given on Friday night in the Orange Hall by the citizens. Miss Bishop leaves on Wednesday morning for Calgary, and the others leave on the same day en route for their old homes in the Motherland.

A number of pleasure seekers journeyed to Gellatly on Saturday and departed themselves for several hours on the rink there, afterwards repairing to the home of Mr Gellatly, where they were right royally entertained. Before leaving, a vote of thanks for their kindness, etc., was given the family by the visitors. The return trip was made lively by song and laughter.

Miss Livingstone completed her demonstrations in cookery before the Institute here, on Friday last. Much interest in those demonstrations was evinced throughout the whole course, which was both instructive and helpful. Miss Livingstone's pleasing personality, thoroughness, and untiring efforts have won for her a host of friends here, who will all be much pleased to welcome her, should she return at any future time. Our Institute

membership has been increased by seventeen, owing to her demonstrations.

The Ambulance League will send away another lot of comforts for the soldiers, early next week. As rumors that some of the supplies sent have fallen into the hands of the enemy and were being used by the German Red Cross Society, have found their way into some of the papers, the Canadian Red Cross Society wishes to make it known that all supplies sent by them to England, have been sent by British vessels from Quebec and Halifax, and that none of the articles shipped have fallen into the hands of the enemy.

On Tuesday evening Mr and Mrs Jno. McLaughlan gave an entertainment and social in aid of the Ambulance Fund. A large number attended, and enjoyed to the full the excellent program furnished, so much so that their enthusiasm found vent by joining in the choruses wherever possible. The numbers comprised several patriotic songs which went with a royal swing. Those beside the family who assisted in making the evening a success were Mrs George Lang, Mrs Mitchell, Mrs Hyde, and the Misses Muriel and Dorothy Harrington, Beatrice Lang, Nancy Buchanan and Rene Elliott, and Messrs Fisher and Sutherland. Refreshments were served, after which a vote of thanks to Mr and Mrs McLaughlan was proposed by Dr Buchanan, and fittingly replied to by Mr McLaughlan, then the company broke into "For they are Jolly Good Fellows." The room was cleared for dancing and cards, which were kept up until the manager of the lighting system thought it was time to stop, and accordingly turned off the current. The sum of sixteen dollars and thirty-five cents was realized. For the same purpose a play is being prepared, and will be ready for presentation about the middle of March. The name, "A Scrap of Paper," is very interesting at the present time, but we will not promise that it has anything to do with war.

State your needs in 'THE REVIEW' 'WANT' Column.
