Quarterly Session of Board of Health

Medical Health Officer Advances Several Suggestions.

For an hour or more on Tuesday morning the Reeve and Councillors sat as the Board of Health. Dr. Andrew, the Municipal Health Officer met with them, and submitted a report for the first quarter of the year.

The report was, on the whole, a favorable one. During the first three months of the year there had only been one case of infectious disease, a case of chicken pox. Grip on the other hand was prevalent. Several cellars on Beach Avenue had been inspected. The doctor reported finding them more or less flooded with water and giving off an unpleasant odor of decaying matter. These cellars were all found to be above lake level, and he attributed the trouble to seepage, and had warned the occupants of the various premises of the danger incurred in permitting the cellars to remain in their present condition.

Through the efforts of the Sanitary Inspector the standard of dairies was being gradually raised, and continued efforts should be made for further improvement. Some milk was being sold from premises which did not now have proper stable accommodations, the cows being kept in the open. Plenty of warning was being given, and the owners should not be allowed to continue the sale of milk next fall without the proper accommodation.

Some were rather stubborn and did as little as they could to keep within the requirements of the law. The general cleanup this spring was better than usual, and the Medical Health Officer recommended that special effort be made to remove manure and garbage as well as refuse from the packing houses, and thereby prevent the breeding of flies.

He recommended as well, that if the summer was hot, citizens be advised to boil all the water used from Trout Creek. The water will be largely flushings off the hillsides, held in the reservoirs since the closing of the dams, and not the usual result of melting snow while the ground is yet frozen.

It was recognized by the Board of Health that means should be provided for testing milk for butter fat and solids, and after quite a discussion on this subject, the Medical Health Officer was instructed to have milk examined when any complaints were made to the Sanitary Inspector respecting same.

Septic tanks was another subject discussed at some length, especially the disposal of their discharge, as well as the proper method of constructing the tanks. A complete report embodying all the latest findings on this important subject is being prepared by the Medical Health Officer, and it is not probable that the Board of Health will later enact a by-law adopting certain standard requirements in the construction of septic tanks. In the meantime any tanks to be constructed must meet with the approval of the Board of Health.

The Board adjourned to meet on July 28th.

Crescent Beach Crowded Despite Uncertain Weather

Empire Day Loyal and Royally Celebrated by People of Summerland and Vicinity.

Renewal of "Summerland Day" is Conspicuous Success. List of Prize Winners.

Despite the uncertainty of the weather there was a good attendance at the sports at Crescent Beach on Victoria Day, and the program was carried through in good form, not even being interrupted by a heavy shower during the afternoon. It is estimated that fully three quarters of a thousand people were in attendance.

The program as published last week was carried out in its entirety, with the exception of the double driving, and one or two other events were added.

Judges for the horse events were Dr. Goldsmith, Summerland, and Mr. Seth Davidson of Peachland. Dr. Lipsett was official ringmaster, and the starters Messrs. Bristow and Lawler.

There was some disappointment because of the lack of the promised band music. The uncertainty of the weather is blamed for this. One of the ferry company's boats was to go down to Penticton early in the morning for the band, but because of the rain they did not do so. The local committee were advised by phone that the band was prepared to come, and they were told to come up on the noon boat provided the weather was favorable, but the uncertainty of the weather no doubt made them decide to remain at home.

Following is a list of winners: Heavy Draft Team—Experimental farm 1st; T. B. Young 2nd; Summerland Lumber Company 3rd.

Single Driver—T. E. Pares, 1st; E. B. May, 2nd.

Free-for-all Trot and Pace—L. Hatfield, 1st.

Half Mile Running Race—E. N. Rowley, 1st; H. M. Lumsden, 2nd.

Ladies' Race—Mrs. Collas, 1st; Miss Clouston, 2nd.

Pony Race—8 entries; J. Lawler, 1st; Sankey Nelson, 2nd; Roy Watson, 3rd.

Cowboy Race—5 entries; J. Lawler, 1st; Fred. Brent, 2nd.

Stake Races—6 entries; S. Nelson, 1st; Jose Brent, 2nd.

During the day two baseball games were played, one between the Summerland and Peachland juniors, the other the senior teams of the same towns, both games going to Peachland. In the junior game the local team did not make a single run in the seven innings played, while the Peachland team scored 3. The senior score was 7 to 4, and while it was a good game, the visiting team had the best of it practically throughout. Both the Peachland teams are well organized and show considerable practice, the senior team particularly being an excellent combination of good players.

The Boy Scouts Relay Race, Summerland v. Naramata, was won by the Summerland troop.

Men's Relay Race, Summerland v. West Summerland, won by the former.

220 Yards Dash—George Dale, 1st; Murray Cochrane, 2nd; Broad Jump—Saul Aleck, 1st; Elmer Elliott, 2nd.

100 Yards Foot Race—George Dale, 1st; Murray Cochrane, 2nd.

In connection with the program a Five-a-side Football Match was played on Saturday afternoon, in which four teams entered, Frank Stewart's team being the winners.

From a financial point of view, the day was also a success, and when the committee collects a few outstanding subscriptions, all obligations will be immediately cleared up. There were few incidents to mar the pleasure of the day other than the heavy shower. In the Ladies' Race, however, Miss Clouston had a narrow escape from possible serious injury. Shortly after passing the grand stand she was thrown from her horse, and the animal passed over her. Picking herself up quickly Miss Clouston declared she was practically unhurt.

been able to do more and to do it better and safer. He also spoke well of the new X Ray equipment. While circumstances had given him most of the cases at the Hospital, other physicians who had made use of the Hospital were Dr. Robinson, Dr. Kennedy, and Dr. Thompson.

Following the adjournment of the meeting, the Board of Directors held a short session, when H. C. Mellor was appointed President for one year, C. Napier Higgin and Dr. Lipsett 1st and 2nd Vice-Presidents, E. B. May Treasurer, and T. H. Riley, Secretary.

The retiring president, W. J. Robinson, was elected Hon. President. The reports presented by the President, Mr. W. J. Robinson, the Matron, Miss M. Aitchison, and Secretary T. H. Riley are appended herewith. The balance sheet and auditor's report will be found on page 2.

Summerland, B.C.,
27th May, 1915.
To the Members of the Summerland Hospital Society,
Ladies and Gentlemen,

It is with great pleasure that I come before the citizens of Summerland at this Annual Meeting.

A year ago you instructed your Board to erect a Hospital at a cost of \$6,000.00. We therefore proceeded to build, and our fine Hospital Building, free from debt, equipped and in operation for eight months is the result.

In 1910 and 11, when we were working in the small building down town—struggling to make ends meet, and yet having a loss of from \$50 to \$100 per month, I told the Board that I was convinced that if we had a good building, suitably equipped, we would be able to run it without loss even if we had to engage a much larger staff.

I am glad to say that my confidence has been justified. You have before you our financial statement, and can see that after running eight months we show a surplus, largely due, I believe, to our very capable Matron and her staff.

The institution is very economically and efficiently handled, and if we keep up this pace we shall be able to give a lower rate to patients. But first and always we must maintain the standard of efficiency.

Miss Aitchison, our Matron, has established a record for efficiency combined with economy which I do not think is equalled by any Hospital in the province.

When opening the Hospital we were repeatedly warned by many of our citizens not to let the Hospital run too far into the hole—some going so far as to say that another burden of debt was being laid on the Municipality. Your Board has been very cautious as to expenditure, with the result that we show an exceptionally large surplus, and as this is the case I trust the new Board will be able to do several necessary things which will add much to the efficiency of the Institution. What these are you will learn from the Matron's report.

I wish to thank the Ladies' Auxiliary for the way in which they have helped us—they have done nobly.

I wish also to thank the members of the Board for their faithful attendance at the meetings and the time and energy they have given to furthering the interests of the Summerland Hospital.

Thanking you all for your sympathy and support,
I am,
Yours sincerely,
(Signed) W. J. ROBINSON,
President Summerland Hospital Society

Summerland, B.C.,
30th April, 1915.

To the Board and Members of the Summerland Hospital Society,
Ladies and Gentlemen,

On coming to Summerland I was agreeably surprised to find such a fine building for the Hospital. It compares very favorably with other Hospitals I have known in its layout, location, heating, ventilation, and plumbing. I think the Board and the people of Summerland deserve great credit for having so fine an institution to take care of their sick.

Since the Hospital was opened we, the staff, have given the patients our very best care and

Council Holds Short Special Meeting

Constable Appointed Noxious Weed Inspector.

An extra session of the Municipal Council was held on Tuesday morning, and some accumulated business disposed of.

The Treasurer was authorized to issue a cheque in favor of T. J. McAlpine for the balance due him on the south main ditch contract. In all \$367.50 of the contract price is being held back, the contractor agreeing to this, with the understanding that next fall he may complete the contract to the satisfaction of the Council, or let them do it in lieu of paying this balance.

Dr. Gunning wrote protesting against increased assessment, stating that he did not receive due notice, and that the reasons for making the change were not given.

A by-law to ratify an agreement with D. H. Watson for exchange of roadways was given its second and third readings.

A letter from the Provincial Department of Agriculture, called the attention of the Board to the Noxious Weeds Act, as recently amended, and asked that the Municipality enforce the law in this district. The Constable was accordingly officially appointed Weed Inspector, and will be instructed to enforce the Noxious Weed Act.

The Council will meet again on the 9th of June in regular monthly session.

BURGLARS ENTER DOWNTOWN'S STORE.

Entering through the back door of Downtown's meat store, a burglar or burglars, evidently amateur, stole two or three pieces of bacon, a dressed chicken, and a few eggs, one night last week. The cash register was also tried, but though there was \$4 or \$5 in loose change in the till, it was not reached.

A key of the cash register had been pressed down, evidently with a gentle stroke, as sufficient pressure was not exerted to throw the drawer open. The thief evidently concluded, that the key had become caught, and the position of this key locked all the others.

It is Mr. Downtown's custom through the warmer weather to leave the back entrance protected only by a screen door hooked on the inside. To gain access to the back shop, and through that to the front, the screws were removed from the hinges of the screen door, and the latter placed to one side. Quite a number of matches were burned during this process.

The matter was at once reported to the constable, but so far no arrests have been made.

For the purpose of arranging final details of a contract for a large quantity of apples for the Australian market, Mr. P. Duffy, a large buyer for the Antipodes will visit Vernon on June 2nd, where he will meet the Executive of the Central.

treatment but often we have been working under great difficulties owing to the lack of proper equipment and room. Should a patient be brought in with a contagious disease or should a contagious disease develop in the Hospital there is not an isolated place to put him. The Hospital has been built without any room being allowed for the staff.

I should like to suggest that the upper part of the building be finished; that we have an isolated building of some kind with at least two beds; that some one be given the contract to put the grounds in proper shape and seeded down, and that the Hospital be provided with some very necessary things, such as a good sized refrigerator, chairs for the wards and rooms, bed side tables, a desk, a wheel stretcher, and another table for the operating room.

The granting of these requests would aid in making the Hospital a continued success.

What do we mean by success in a Hospital? Being able to meet our accounts? Or sending the patients away cured? If the former, the credit is due largely to the excellent Board of Managers who have con-

(Continued on page 6.)

THE WOMEN'S INSTITUTES.

A particularly interesting meeting of the Summerland Women's Institute was held on Friday, May 21st at the Men's Club. Mrs. R. M. Ross gave the motto for the day, and Mrs. H. A. Solly then followed with some interesting current events of the month.

Miss Margaret White gave a demonstration on the making of marsh-mallows. A letter was read from the assistant secretary of the Queen Mary's Needlework Guild, giving the address to which the children's garments the ladies have been busy making are to be sent. Another letter from Mrs. W. C. W. Fosbery, desired those who wish to be actively interested in shipping fruit to Institute members of the prairie provinces this summer to send in their names and 25 cents to her at once.

It was thought best to have a display of flowers and a 10 cent tea in place of the annual August flower show, and it was also unanimously agreed that we give \$25 out of the Institute funds to the Red Cross Society at once.

In regard to the letter from Miss Ravenhill, it was moved that we agree to her sentiments and heartily endorse the idea of manual training being taken up in our schools.

Mrs. G. Gartrell then demonstrated the making of a jolly roll.

The "Allied for Right" Buttons were distributed among the members to sell to raise funds to buy soldiers' socks.

A most interesting and useful talk was given by Mr. W. Wright on "What Women Should Know About Banking." A hearty vote of thanks was given Mr. Wright for the trouble he took to make his subject clear to all.

More donations for the Queen Mary's Needlework Guild were received and will be forwarded as soon as possible.

The marsh-mallows and jolly roll were pronounced excellent by the ladies at the close of the meeting.—Contributed.

Beginning with the fall months the Women's Institutes will be given an opportunity to take up a course in nursing. Three or four nurses will be selected as instructors, and the course, it is believed, will be thorough and fairly lengthy. In addition to the above, Mrs. R. C. Lipsett, who returned on Tuesday night from a meeting of the Advisory Board at Victoria, and a stay of a few days at Vancouver, says further, that another district conference will be arranged,

WEDDING.

McWILLIAMS—BATEMAN.

The home of Mr. and Mrs. E. W. Bateman, 2376 Seventh Avenue West, was the scene of a very pretty wedding, on Wednesday afternoon at four o'clock, when their second daughter, Miss Mamie Bateman, was united in marriage to Mr. George Lloyd McWilliams of Summerland, B.C., eldest son of Mr. G. A. McWilliams. About forty guests were present to witness the ceremony, which was performed by Rev. H. F. Waring, of the Kitsilano Baptist Church. The rooms were tastefully decorated with palms and ivy, together with roses and carnations.

To the strains of the Bridal Chorus, from Lohengrin, played by Miss Bateman, the bride appeared with her father. She was gowned in ivory charmeuse fashioned in empire style, trimmed with chiffon and pearls, together with white rosebuds. Her tulle veil hung the full length of square train, and her bouquet consisted of white roses, lilies of the valley and maiden hair fern. The bridesmaid was Miss Bateman, whose gown was in an old rose shade, and she carried pink roses. The groom was supported by Mr. H. R. Robertson. During the signing of the register, Mrs. Frank Wilson sang "Because" and "Love's Coronation." After the ceremony the guests repaired to the dining room where Mrs. F. Chapin and Mrs. C. J. Bateman poured tea, and Mrs. I. B. Fulton and Mrs. D. M. McKay cut the teas. Mrs. E. W. Bateman received her guests in a gown of black silk trimmed with touches of blue velvet and embroidery.

The young couple left on the Imperial Limited, the bride traveling in an alicoe blue suit of silk poplin, with pale pink maline hat trimmed with touches of pink and blue and long white plume. They will take up their residence in West Summerland, B.C.—Vancouver Sun.

and that this will probably be held at Salmon Arm. The Department is again offering assistance to the summer flower shows, and is prepared to make a grant of 25 cents per capita, besides assisting with the prizes. Two new members on the Advisory Board have been named to take the place of two removed by death during the past year. These are Mrs. Jns. Johnson of Nelson, for the Kootenay district, and Miss Alice Ravenhill, Shawnigan Lake, for the Island.

Canada consumes more paper per head of population than any country in the world.

Work of Hospital Reviewed at Annual Meeting

Reports Show Institution Has Made Good

Directorate Elected For Ensuing Year.

The annual general meeting of the Summerland Hospital Society was held on Thursday afternoon in the Men's Club. In the absence of the President, W. J. Robinson, Vice-President Mellor took the chair. Pres. Robinson's report was read by the Secretary, and was unanimously accepted as read.

Mrs. W. H. Hayes followed with the report of the Ladies' Hospital Auxiliary. This was described as a very practical report, and Mr. Higgin, one of the directors, took advantage of the opportunity to thank the ladies on behalf of the Board, for their help both in the erecting of the building, and providing the equipment.

Miss Aitchison, matron of the Hospital, also submitted her report, which was read by the Secretary. Commenting on this the chairman declared that Summerland was exceptionally blessed with such a splendidly arranged and smooth working institution as indicated by the Matron's report. Sympathy in this report was expressed, the chairman declaring that the way the people had responded to the appeals of the association was nothing short of remarkable. After discussing further the recommendations of the Matron, a motion was unanimously carried, declaring that in the opin-

ion of the meeting, steps should be taken at once to furnish these and a bath on the upper floor.

A carefully prepared and complete set of by-laws and regulations was read and approved. These will go to Victoria for the assent of the government.

It was decided that an isolation ward be fitted up as soon as possible, and that the grounds be put in shape and seeded.

The following are the directors, in groups of three, each group to act for one, two and three years: H. C. Mellor, Mrs. R. M. Ross, and W. H. Hayes, one year; C. N. Higgin, W. Ritchie, and Dr. Lipsett, two years; W. J. Robinson, E. B. May, and Mrs. Hayes, three years. F. J. Nixon was reappointed auditor.

A hearty vote of thanks, proposed by G. J. C. White, was tendered the retiring directorate.

Dr. Andrew was called upon to speak, and among other things he noted that some of our prominent citizens had not been inside the institution, and he urged that citizens make a practice to visit the Hospital, and to show the institution to visitors from other points. Comparing the new Hospital with the old quarters, the doctor said that in the new Hospital he had

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Letter From A Wounded Soldier

Pte. Ronald Snider, 16th Bat., Tells of Great Ypres Fight.

Convalescent Depot,
Rouen, France.

Dear Mother,
Here I am alive and well after the most horrible Battle of Ypres. Some time I will try and describe our experiences but I hate to think of it, much less write about it now. Whenever I think about our charge, the sight of all my chums lying dead in that wood that you probably have read about, comes up before me. There were only about fifteen thousand of us, supported by only one or two batteries of light artillery, against about what is estimated at one hundred and fifty thousand Germans for two days. I was knocked out by their mean gas, while with the East Yorks in St Julien on Saturday, April 24th. We came too, after a bit, and I stayed in the trenches until Tuesday, 27th. On that morning I was carrying a wounded man when a shell (a big 17-inch) burst right among a party of men on the road, knocking out the lot. I dropped flat, but a flying piece of rock hit me in the back of the foot, and rendered me completely useless for the time. I was shipped through the various clearing hospitals, first to the Australian Hospital (a fine golf hotel) in Boulogne, but as they were over-crowded I was re-shipped to No. 5 General Hospital, Rouen. I was there six days, and am now in the Convalescent Depot all right, but still bad in the eyes and head from the gas. I never want to see another fight like that, although we shall all go back with a good heart.

I might mention that Captain Rae is safe, although Coy. Sgt. Maj. Ramsay is killed. Our casualties are heavy, but we did our work, and the battalion has had many special articles in the English papers on its charge to retake the four 7 in. guns, which by the way were French not English. It was us and the 10th Battalion that made the charge.

I wish you would send me another Bible as the one you gave me which I have kept so long is now in German hands, along with the rest of my kit, also Mrs. — socks. I was wearing the pair you knit. Will close now,
RONNIE.

Building Silos.

Livestock Branch of Dept. of Agriculture Will Demonstrate Advantages of Using Silage.

For the purpose of showing farmers throughout the province the advantage of using silage for the winter feeding of farm animals, the Livestock Branch of the Department of Agriculture will superintend the construction of silos in a number of agricultural centres of British Columbia during the next few weeks. The places that will be visited are Burton, Arrow Lakes, Revelstoke, Kelowna, Ladysmith, Summerland, Penticton, Salt Spring Island, Armstrong, Dennison Station and Ladner.

The purpose of this work is to introduce the silo to various districts of the province where it may prove profitable, and to demonstrate to the farmers that a serviceable silo may be constructed at comparatively low cost. The use of silos in many parts of the continent has proved to be not only an admirable, but an indispensable factor to the modern farm for storing green food and fodder.

During the fall of the year silo-filling demonstrations will be conducted at a number of points in British Columbia by a staff of the Livestock Branch for the purpose of illustrating the proper methods of filling.

Latest developments make it appear doubtful if a silo will be erected here this season. One of the requirements is that the farm on which the proposed silo would be built grow five acres of fodder corn. Watson Heights Ranch had undertaken to do this, but the early dry weather discouraged the planting of the corn, hence the building of the silo now seems doubtful.

An Indian boe fancier has succeeded in breeding a race of stinging bees. They are a cross between Cyprus drones and Italian queens. The bees gather more and finer honey than their armed cousins and also resist disease better.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

THE HORSE EVENTS AT THE SPORTS.

West Summerland,
May 25, 1915.

The Editor, Summerland Review.

Dear Sir:
With reference to the recent show at Crescent Beach, there were some peculiar episodes occurred as follows:

Entry fee for draft teams was exorbitant at \$1.50. At real Fairs throughout the Dominion where good prizes are offered, this is always 50 cents. The Judge having awarded ribbons said he was not aware decorations called for any attention, as in any way affecting his decision; also he said he was not an authority on heavy horses.

The Government showed team and driver; was this sporting or fair? The ordinary exhibitor cannot afford to provide new harness, wagon and fixtures. By all means let the Government exhibit, but not compete.

In the ladies' race, which developed into a match, one rider having lost her lines and come off, and the race being flat and hardly started, usual procedure in such cases was for her opponent to have pulled up and made fresh start.

The horse relay race should have been run with two mounts; such as took place was a farce and no test of anything.

Yours truly,
"KITCHENER."

\$58,000 To Be Spent In B.C.

Agreement as to Work to be Carried Out Under Agriculture Instruction Act.

Agreements just entered into between the Dominion Department of Agriculture and two of the Provincial Governments provide for important advances in agricultural instruction under the "Agriculture Instruction Act." Ontario and British Columbia are the two provinces with which agreements have been made so far, but agreements with the other provinces are on the way, and probably will be completed in the near future.

The Ontario agreement provides for an expenditure of \$266,013.05. Much of this amount will be spent on extension work already under way. The British Columbia program provides for an outlay of \$58,265.94. With part of this the usual demonstration work will be carried on, and \$15,000 will be used for agricultural instruction in the public and high schools of the province.

Cow Breaks Record.

All records made by Canadian cows of any breed or any age for the annual production of butter fat have been broken by a three-year-old Holstein cow, bred and owned by Mr. J. M. Steves, of Steveston, B.C., who is the senior Holstein breeder of the province. Her yield amounted to no less than 988.98 lbs. of fat, with 24,149.3 lbs. of milk. But for the recent sensational record of the Holstein junior three-year-old Fenderne Hollinger Fayne, which secured the world's championship with 1,116.5 lbs. butter fat, the world's junior record three-year-old class could be led by this British Columbia cow. This Canadian champion already holds in the Holstein register of merit records for butter fat production in seven and thirty days, and as a two-year-old stood third for yearly production in the Canadian record of performance with 664 lbs. of butter fat.

Tomato and Pepper Plants

I have a surplus of about 500 of each of the above, all first class plants, which I will sell to the first comers.

Naramata Current Events.

Mrs Languedoc is spending a short period in Summerland as guest of Mrs W. J. Robinson.

Never since the old regatta days have so many boats been seen careering round near shore—most of them followed by trolling hooks searching for the more or less elusive trout.

A local youth has evolved a suggestive conundrum. Take it for what it is worth—Which is the most important letter in the English language? Answer: Y, because it is the end of Germany.

It looked like old times again to see Captain Languedoc in charge of the Boat Company's extra craft when on Monday, in order to meet the public's demand for specials, both the "Skookum" and the "Trep-pannier" were kept on the go all day—and indeed, all night.

William Nuttall, government road foreman, has certainly had his hands full this past week looking to the interests of the community as a result of the threatened havoc to the bridges and the adjacent properties near town. Never in the history of the place have there been such torrents of water tearing down the creeks as there has been lately. For a while three of the bridges were threatened. Two have been undermined and must be rebuilt.

Canadians Hard Hit.

That the Canadians have lately been in the thick of hot fighting recently is very obvious from the extensive casualty lists issued from Ottawa. Two weeks ago Canadian losses totalled 2,754 of all ranks, 59 officers killed, 210 wounded 379 non-commissioned officers and men killed, and 2,106 wounded. How stupendously this total has grown is seen in figures issued from Ottawa covering all losses up till noon of May 20. Casualties in all ranks number 5,181, killed 714, wounded 3,351, missing 1,116.

Water Notice:

Take notice that the Department of Agriculture whose address is Ottawa, Ont., will apply for a license for storage of one hundred acre feet of water out of Trout Creek which flows south-easterly and drains into Okanagan Lake about two miles from Summerland Post Office. The storage dam will be an addition to Summerland municipal dam No. 1 which is situated at the head of Trout Creek. The capacity of the addition is one hundred acre feet and flood about two hundred and fifty acres of land. The water will be diverted from the stream at a point one mile from S.W. Corner of lot 476 and will be used for irrigation purposes upon the land described as Experimental Station, being part of Penticton Indian Reserve No. 1. The license applied for is to supplement a right to take and use water as per license No. 576. This notice was posted on the ground on the sixth day of May 1915. A copy of this notice and an application pursuant thereto and to the water act 1914 will be filed in the office of the water recorder at Vernon. Objections to the application may be filed with the said water recorder or with the comptroller of water rights Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is May 14th, 1915.

R. H. Helmer, Superintendent, Summerland Experimental Station, for Department of Agriculture, Ottawa, applicant. my14-1915

Current Events — OF — Town & District

"Billy" Robinson was one of the week-enders in town who on account of the showery nature of the "glorious 24th" remained here till the evening ferry.

Miss Foster and Miss Emma Davies were week-end visitors at Penticton, returning by Monday's afternoon ferry. They were guests at the home of Mrs R. J. McDougall.

The service in the Methodist Church on Sunday morning, in the absence of Pastor J. Irwin Beatty who was at the Conference, was conducted by Mr T. H. Wilson, of Penticton.

Mr Stanley Wright, the popular engineer, passed through town on Monday evening en route to Summerland to fill a special place on the evening's program. Mr Wright is a comedian of deserving merit.

Mrs R. C. Robinson accompanied by her pretty little baby girl, Catherine, has gone to Silver City, Idaho, where her husband is busy with the now famous gold mine. The stay in the south may extend till well on into the fall or early winter.

Since the report of the death of Mr Bert Noyes, a member of the 7th Battalion which was subjected to such a tight pinch at the now memorable battle of Ypres, a letter written prior to the fatal hour has been received by the family at Naramata. The letter in common with all previous ones was one of cheer.

Mrs T. H. Boothe accompanied by her little baby daughter Gwendoline, is en route to Markham, Ont. Mrs Boothe's somewhat hasty decision to go east is on account of the poor condition of her mother's health, and the visit may be a protracted one, in which case, it is quite probable that Mrs. Fenton, a widowed sister of Mr Boothe may come west to assume the management of the home here.

Probably on account of Monday being a holiday there were more than usual of week-end visitors. Most of our visitors remained to enjoy a quiet day with the stay-at-homes. Amongst these were Mr and Mrs V. L. Watson of Penticton, who were entertained at the latter's parental roof. Mr Clarence E. Craig and wife remained over as guests at the home of Mr and Mrs R. H. King. Another Penticton couple, Mr George Dempsey and wife, spent an enjoyable holiday at the now enviable home of Mr James Young. During his short stay here Mr Dempsey renewed acquaintance with a former Prairie friend, Mr George Partridge, who is now busily engaged erecting a residence on his newly acquired ranch property.

Naramata Current Events (Continued).

Mr Charles E. Stiff spent a few days at his home here this week.

The local troop of Boy Scouts are expected to parade in full uniform next Sunday morning.

Mr W. J. Robinson wife and daughter paid friends in town a short visit on Monday, the 24th.

Master Guy Ireland spent an enjoyable outing over the 24th as guest of Mr M. Wilson at Paradise Ranch.

A full account of the visit of Rev T. R. Heneage, head of the Scout movement in B.C. is necessarily held over for next issue.

The unusually long spell of cloudy, rainy weather is resulting in a more or less prolific crop of mushrooms.

Two prominent Scouts, Master W. Mitchell and Patrol Leader Frank Hughes have been recommended for boatmen's badges.

Miss Livingstone during her stay over in town was a guest for a few hours on Sunday at "Outlook" ranch, the home of Mrs H. T. Davies.

The baseball diamond is being cleared of its annual crop of weeds in order to give the local Ty Cobbs an opportunity to develop their local talent.

The Manchester orchestra journeyed to Summerland by special ferry Monday evening where they furnished music for the dance held after the show.

The first of the season's output of ripe cherries has been reported from "Fairmont" ranch. Prospects of a fine output of fruit from Naramata are excellent and the orchardists are now engaged in thinning the peaches and apricots.

Wild strawberries are now so plentiful and of such attractive quality as to make a day in the hills, in search of this delicious fruit a pleasing, profitable and enjoyable way to spend a day's picnicing. Better try it.

Enlist! Enlist!! Enlist!!! In response to another call for recruits to fill gaps in Kitchener's army from the West, posters are conspicuously placed in town. Already Naramata is proportionately well represented in Canada's vast host of heroes—both living and dead. Yet probably a few more may don the khaki before long.

The meeting of the "Progressives in Economics" in the church basement promises to be full of interest to judge from the list of speakers and topics on the program now in the hands of Mrs M. D. Manchester. Looks now as though nothing but the weather man is going to keep the house from being packed. Better decide rain or shower to show up.

A Boating Episode.

A boating party on Monday after taking in the sports at Crescent Beach came near being "taken in" by the treacherous waters of the lake on the occasion of the return trip to Naramata in the afternoon or early evening. This is the rumor, at least. The adventurers themselves disclaim having had any narrow escape. "The lake was not found at all rough," say the ladies. The sturdy youth who manfully plied the oars feels, however, that as a member of the local Scout troop, he has rowed unaided seven miles at a stretch and is entitled to a boatman's badge. He'll get it. He deserves it. The facts of the case are these: Mrs Hughes and Mrs Allen and son Stewart, rowed across the lake to the Crescent Beach sports in the early part of Monday afternoon, and while well on their way home were being rapidly overhauled by the squall that for a half hour or so whipped the waves into an uncanny state of unrest. Then instead of attempting to face the storm they very wisely struck north east and landed at Agate Beach. Here they waited for the storm to abate which it did in no great while, whereupon they again embarked and keeping close to shore reached home in time to quiet the natural anxiety of the watchers at the shore. Never again!

Enderby's tax rate for 1915 has been fixed at 20 mills.

THE MINOR CRISIS.

We must of necessity still attend to the OTHER things of life which matter also, even though they are only secondary in importance as yet.
The Minor Crisis bids fair to assume threatening proportions unless dealt with intelligently and firmly at once.
We refer to the vexed question of WHITE LABOR only, in the handling of our private and personal wearing apparel.
Without fear of accusation that we are making Capital out of Patriotism
WE ARE SPENDING OUR MONEY WITH THE RELATIVES OF THOSE WHO ARE DEFENDING OUR EMPIRE.
Have you thought of it in this light? We leave the rest to your intelligence.
The Penticton Steam Laundry,
Thos. H. Riley, Agent. Phone 620 Summerland

The Habit of Reading Advertisements

NEWSPAPERS would be much less enjoyable, instructive and valuable than they are if they contained no advertisements. Many persons read the advertisements quite as thoroughly as they read the news matter. This is just as it should be.

The more advertising, the more buying. The more buying, the greater the consumption of the goods or services advertised. More business would be done by the merchants of Summerland if they advertised more, and if more of them advertised. Much business goes to the big city mail-order houses because they advertise. These houses would cease to draw business from this community if they ceased to advertise.

To the Merchants of Summerland

Advertise more, and more of you advertise, and the big city mail order houses will get less and less business from this community, and you will get more.

Advertisement Reading is Worth While

First Train Monday

For those who wish to attend the formal opening of the Kettle Valley Railway, Monday next, May 31st, at Penticton, special trips will be run as follows:

Leave Naramata 1.30 p.m.	Leave Naramata 7.00 p.m.	For Banquet
" Summerland 2.00 p.m.	" Summerland 7.30 p.m.	
" Penticton 6.00 p.m.	" Penticton after the Banquet	

This cancels regular afternoon and evening trips.

Passing Events: Social, Personal, &c.

Miss Gwen Robinson spent Thurs-
 day night in Summerland, a guest
 at the home of Mrs R. M. Ross.

Commencing on Monday next, the
 north bound mail will be made up
 at 7.15 a.m., and the south and
 west mail at 6 p.m.

Methodist Church services will
 be held both morning and evening
 in the Methodist Church, the pas-
 tor, Rev. R. W. Lee, officiating.

Dr. T. B. Turner, dentist, will
 spend Monday and Tuesday of each
 week in Summerland. Crown,
 Bridge and Gold Inlay work a special-
 ty.

The postponed social in aid of
 Ambulance funds is to be held this
 evening at the home of Rev and
 Mrs N. McNaughton. A general
 invitation is extended to every one.

W. M. Armstrong, of Okanagan
 College, has been called to the pas-
 torate of the Redcliff Church, Al-
 berta. Mr Armstrong accepted for
 the summer months, and com-
 menced his work in the early part
 of this month.

Among the Canadian casualties
 published from Ottawa early this
 week, J. A. C. Kennedy was re-
 ported as one of the wounded.
 Kennedy was among the first to en-
 list from Summerland, and went
 to the front with the first batch of
 reinforcements to the Patricias.

B. Spraggon, who was transferred
 from the Bank of Montreal office
 here to Vernon, some weeks ago,
 left that city on Saturday in com-
 pany with H. G. Reynolds, another
 member of the Vernon bank staff,
 going direct to England where they
 will volunteer for service at the
 front.

About twenty-five ladies were
 invited to participate in a linen show-
 er given by Mrs G. A. McLaine at
 her Beach Avenue home on Thurs-
 day afternoon and at which Miss
 Olga Watson was the honored guest.
 During the early part of the after-
 noon the bright weather made con-
 ditions very enjoyable on the por-
 ches, where the ladies spent a good
 part of their time. An unique
 sewing contest first occupied the
 guests, in which they were requir-
 ed to make a buttonhole, sewing
 with the left hand instead of the
 more handy right. The judges
 found some very neat buttonholes
 had been executed nevertheless.
 The surprise for the bride-to-be
 was the great event of the after-
 noon, and it was brought about
 by assigning to each of the guests
 a pink streamer which hung from
 the electrolier, and led to different
 parts of the room. All the guests
 but one found concealed at the end
 of their streamer a cardboard
 heart with a motto. For Miss
 Watson, however, there was a bas-
 ket full of packages which she
 found contained beautiful and
 dainty specimens of linen work.
 The surprise was complete, but
 Miss Watson made a suitable reply
 to the prolific and useful shower.
 Refreshments were partaken of, and
 contributed considerably to the suc-
 cess of the affair. Tea and cake,
 ice cream, with other delicately
 contrived dainties were served out
 and enjoyed by the guests. Another
 contest, this time guessing
 jumbled words, was held before the
 party broke up, after a function
 which was an unqualified success
 from beginning to end.

OBITUARY.

ADAM BLYTH.

The death of Adam Blyth occur-
 red this morning at the Hospital af-
 ter an illness of about four weeks,
 death being consequent to a severe
 attack of influenza contracted this
 spring. Mr Blyth, who was 42
 years of age and unmarried, has
 been a citizen of Summerland for
 over five years, coming directly
 from Scotland, and was a native of
 Ettrick Bridge, Selkirkshire. As
 far as is known he has no relatives
 in Canada. He leaves four sisters,
 one in England, one in Australia,
 and two in Scotland, one of the
 latter living at Ettrick Bridge, Sel-
 kirkshire, Scotland, to whom news
 of his death has been cabled.

With his friend, Mr Martin
 Joyce, with whom he lived near
 the Lakeside Baptist Church, Mr
 Blyth has been almost constantly
 employed on government road work.
 He was a man of quiet and reserved
 disposition, who made new
 acquaintances slowly, but among
 those who knew him best he was
 greatly respected.

The funeral takes place from the
 Presbyterian Church on Sunday
 next at 3 p.m.

Presbyterian services will be held
 in St Andrew's Church next Sunday
 morning and evening. Rev. C. H.
 Daly will conduct both services.

Miss Helen Mutch, one of those
 who participated in the play
 "Freezing a Mother-in-Law," last
 Monday night, spent Tuesday here
 with Miss Clay.

Harry Hopgood of Revelstoke is
 now checker at the C.P.R. office,
 succeeding Angus Logan who has
 been here for a few weeks, and has
 been transferred to Revelstoke.

A. L. Moreland has been ap-
 pointed Accountant and Secretary-
 Treasurer with the Summerland
 Fruit Union, succeeding George
 Sinclair, who tendered his resig-
 nation a week or two ago.

The St Andrew's and Caledonian
 Society are holding their annual
 picnic next Thursday, the anniver-
 sary of the King's birthday, and
 are inviting the members of St An-
 drew's Church and Sunday School
 to join with them.

Wm. Hall, formerly a student
 at Okanagan College, and who has
 been working with Messrs C. D.
 Denton and D. H. McIntosh on
 their ranch, has returned to his
 home in Calgary. Mr Hall lost a
 brother in the recent battle of Ypres.

June 4th has been named as
 "Sock Day," when a ladies' com-
 mittee will call upon each and
 every citizen to contribute a pair
 of socks for our soldiers. "Sock
 Day" is an organized effort to pro-
 vide footwear for the boys at the
 front, and reaches from Coast to
 Coast, thus giving every Canadian
 an opportunity to help.

After spending some two years
 visiting practically every part of
 the Okanagan Valley, spending
 last fall in Nelson and vicinity,
 and the winter revisiting Califor-
 nia, Miss Dancer, who was a guest
 for some weeks at the Felix Hotel
 last fall, has decided to locate in
 Summerland. Miss Dancer has
 purchased the G. J. C. White prop-
 erty at the foot of College Hill,
 and is expected to arrive here from
 the south early in June.

The Dominion Express agents
 have been furnished with a copy
 of the tariff for business over the
 K.V.R. Express packages destined
 for West Summerland must be
 prepaid, and the rate we under-
 stand, is 50 cents higher than
 Penticton. Seemingly the special
 fruit tariff does not apply to the
 shipment from West Summerland
 station. In order to avoid confu-
 sion and inconvenience, citizens
 who are purchasing goods abroad
 will need to be careful to state
 where they wish the goods shipped
 to, whether to West Summerland
 station or Summerland wharf.

During the past few weeks a
 number of cows in the district have
 died as the result of "bloating,"
 caused by eating wet or green alf-
 alfalfa. Harry Howis was one of
 the latest sufferers in this way.
 Mr Howis has been keeping his cow
 day and night in a field of alfalfa,
 watching her closely all the while,
 and lately he has considered her so
 accustomed to the green food, as to
 be quite immune from "bloating."
 After milking on Tuesday night
 she was again returned to the pas-
 ture and great was his surprise
 when on Wednesday morning he
 found her dead, all indications
 pointing to bloating as being the
 cause. Mr Howis says there is yet
 much to be learned as to the proper
 method of feeding alfalfa to cows
 as with the exception of the danger
 of bloating it is in every way the
 most desirable fodder.

Those who attended the perform-
 ance given by the "1915 Follies"
 last Friday night in Empiro Hall,
 were well rewarded, the enter-
 tainment being a most excellent
 one, bright, clean, and witty
 throughout. The troupe, headed by
 B. C. Hilliam, "The Folly Chief,"
 is a most versatile one, and their
 evening's entertainment was even
 better than was promised. Mr Hill-
 iam, who presided at the piano, is
 in himself a whole entertainment.
 His parodies and travesties on
 well-known composers being espe-
 cially clever. The first half of the
 program included some unusually
 graceful dancing and excellent
 singing, while "The Follies in
 Franco," a sketch written by Mr
 Hilliam, rounded out the latter
 part of the program, and was an
 excellent medium through which
 the artists displayed their talent to
 best advantage. "The Follies"
 will be very welcome to Summer-
 land should they again visit in the
 Valley.

WEDDING.

HARVEY—ORCHARD.

St Stephen's Church was the
 scene of a very pretty though quiet
 wedding on Wednesday afternoon,
 when Miss Bertha Orchard became
 the bride of Mr Herbert W. Har-
 vey of this place. The bride,
 who was given away by Mr W.
 Harvey, was attended by the two
 sisters of the groom, while the
 latter was supported by Mr Har-
 ry Howis. The Rector, Rev. H.
 A. Solly, officiated, and at the
 organ Miss Bena Logie presided.
 After the ceremony the bridal party
 repaired to the home of the
 groom's parents where a pleasant
 afternoon reception was given. Mr
 and Mrs Harvey have taken up
 their residence in the new home re-
 cently built by Mr Harvey on his
 orchard property not far from
 the home of his parents.

EXPRESS SHIPMENTS.

A good many of our orchardists
 are evidently planning on disposing
 of their early fruits, etc., by di-
 rect express shipments to consum-
 ers. Prices have now been pretty
 well decided upon, and the local
 printing office has been turning
 out quite a number of price lists
 for distribution by the different
 growers, among their prospective
 customers. It is not yet too late
 for others to follow suit, and this
 office will be pleased to quote prices
 on price lists in any quantity
 desired, and also to offer assistance
 in preparing the copy.

REDUCED FARES.

Monday will see the official open-
 ing of the K.V.R., and the event
 will be duly celebrated at Pentic-
 ton. The first train will come in
 from the west on Monday after-
 noon, and the first west bound train
 will pass through Peach Valley on
 Tuesday morning. The passenger
 rate over the new route, which for
 the present runs via Merritt and
 Spence's Bridge, will be \$12.90,
 return \$21.50. The C. P.R. rates
 from here have been \$18.20 and
 \$30.35 respectively. As a result of
 the competition which the K.V.R.
 affords, the C.P.R. is offering a
 limited rate to Vancouver of
 \$16.15. The price of the return
 ticket remains unchanged.

THIEF BUSY WHILE LADIES DANCE

A number of pairs of gloves and
 several small items of cash have
 been reported stolen from the lad-
 ies' dressing room in Empire Hall
 during the Ambulance League dance
 on the evening of Victoria Day.
 The total sum gathered in by the
 sneak thief was probably not large,
 as the largest amount so far heard
 of as being taken from the ladies
 purses or handbags is \$1. The
 amounts range from 25 cents up
 to that amount. It is probable
 that there were other losses not re-
 ported. In all about one half
 dozen pairs of gloves were also re-
 ported as missing. While it is pos-
 sible that entrance to the dressing
 room could have been had without
 going through the main hall, it is
 the general opinion that some one
 in actual attendance is the guilty
 person, and it is also believed this
 person was of the gentler sex.
 Summerland, up to the present, has
 been remarkably free from petty
 crimes of this nature, and to be a
 resident of Summerland has always
 given one a sense of security, and
 probably carelessness has resulted,
 making it that much the easier
 for one so disposed to accomplish
 the dirty work perpetrated last
 Monday.

First Cherries Shipped From Peachland

Cherries in May! Peachland no
 doubt takes the honors again this
 season for opening the cherry sea-
 son. The first shipments were
 made from that point on Saturday
 last week when a consignment was
 sent to Vancouver and a small
 quantity was also sold to the C.P.R.
 dining service.

LAST DAY FOR DISCOUNT
 on Irrigation and General Water Rates,
MONDAY, 31st MAY, 1915.

Municipal Offices,
 West Summerland.

F. J. NIXON,
 COLLECTOR.

The Right Idea in Business

THE modern merchant filled with the modern spirit carries his business to his customers' homes; that is, he doesn't wait to be found out or risk the danger of not being found out.

The best carrier of business to customers' homes is the newspaper. The Review can carry every business in Summerland to the homes of this community with ease and without confusion, the businesses of

grocers, dry goods men, hardware dealers, clothiers, stationers, boot and shoe houses, druggists, jewelers, furniture dealers, butcher, grain and feed stores, implement dealers, and every other class of business.

To the Merchants of Summerland

Get your business into the home and you'll sell goods there. The Review can carry your business into more homes than you are now serving. Ask us about the cost of advertising.

Newsy Paragraphs from PEACHLAND

Miss Olive Ferguson spent part of the past week in Kelowna.

Mr and Mrs Harold McCall and children spent Thursday in Kelowna.

Mr and Mrs Town attended the Methodist Conference in New Westminster last week.

Rev H. A. Solly of Summerland conducted a baptismal service in town on Wednesday.

Mrs Buchanan is the guest of her brother, Mr McDonald, in Penticton for a short time.

At a recent meeting of the Athletic and Aquatic Club, \$10 was voted to the Ambulance League.

Miss Louise Gibb who has been staying with Miss Irene Elliot for a month, returned on Wednesday to Armstrong.

Mr Clement Atkins and sons William and Ernie, accompanied by William Sanderson, drove to Penticton on Tuesday returning the same day.

Miss Grace Logie, who has been the guest of Miss Beatrice Lang for a couple of weeks, returned to Summerland on Friday evening, accompanied by Miss Lang who spent the 24th there.

Many of our citizens, despite the rain, spent Monday at Crescent Beach taking in the sports. The home baseball teams succeeded in defeating their opponents and returned to town with the prize money.

Another Red Cross box was shipped away from here on Monday.

It contained 10 suits of pyjamas, 11 hospital shirts, 40 towels, 6 sheets, 9 1/2 dozen handkerchiefs, 4 1/2 dozen dish cloths, 6 pairs of socks, 500 mouth wipes, 68 bandages, 6 medicine glass cloths and one parcel of old linen.

WORK OF HOSPITAL. (Continued from page 1).

tainly got the interests of the Hospital at heart. If the latter, the credit belongs to Dr Andrew, who has been able to treat any medical case, meet any emergency, and who has, with only the assistance of the nurse, performed several difficult operations such as, I understand, were sent formerly to other towns or to the Coast for treatment, with consequent greater expense to the patient.

Now, nearly all such work can be done at home in our own Hospital. Yours respectfully,
(Signed) MAYSIE AITCHISON, Matron.

Summerland, B.C.
30th April, 1915.

To the Board of Directors and Members of the Summerland Hospital Society,

Mr President, Ladies and Gentlemen,

In presenting for your inspection the Balance Sheet and Auditor's Report, for the year ending 30th April, 1915, I wish to emphasize the necessity of considering it in the light of the unusual circumstances connected with the Hospital.

I refer particularly to the fact of the Hospital being so entirely new in every respect, that there has been practically no wear and tear on the property of the Society, either on the Building or the Furnishings. Also the unprecedented enthusiasm of the citizens at the opening ceremony took such a practical form of expression that our larder and some other departments

did not require replenishing for some time.

I do not refer to the generosity of the public in continuing to donate in kind each month, for we have every reason to hope that these WILL continue, but we cannot at least expect another Opening Day, though we may look forward to an anniversary of this event.

The Hospital Building, which has cost to date \$6,500.93, was opened to receive patients on the 17th September, 1914, giving us 226 operating days to the end of the financial year. During this time 68 patients were given 1170 days' treatment, or an average of 5.17 per operating day. Twenty operations were successfully conducted, and seventeen children were born, all of whom are doing well to-day.

For the 7 1/2 months we have been operating our receipts from contributions in kind were as varied as they were useful, comprising the following:—Fuel, \$70; groceries, \$126.95; light and water, \$108.58; drugs, \$25; meat, chickens, etc., \$13.50; and furnishings and equipments, \$144.50, making a total of \$488.53. In addition we received from the Ladies' Hospital Auxiliary, furnishings and equipment to the value of \$324.91 over and above the amount of \$317.50 which they gave towards the building.

It has been our policy to reckon these contributions at their true value, that is, at the price we should have to pay for them in the local stores, and this amount has been charged up to the Hospital just as though we had had to pay for the goods. We have therefore been able to arrive at the exact cost of running the place, which works out at \$2.40 per day's treatment. This is much below the published costs of other Hospitals in the Valley, and indeed, as far as it has been possible to learn, in B.C. This figure determines the degree of economy in the management.

In addition to the above we have received donations to the total amount of \$424.49.

You will notice that the sum of \$804.50 has been transferred to a Suspense Account, and does not appear as an asset. This amount represents certain accounts owing by patients which the Board have considered doubtful of collection. The balance of \$615.75 owing by patients, the Board consider to be worth 100 cents on the dollar.

The present Board of Directors consists of the following eight gentlemen:—Messrs W. J. Robinson (President), E. B. May (Treasurer), H. C. Moller and J. McLean (all elected to serve till the end of the coming year), and Messrs W. H. Hayes, C. Napier Higgin, R. C. Lipssett, and W. Ritchie, whose term of office terminates to-day. Messrs J. A. Kirk and S. McM. Young were appointed to the Board by the Provincial Government as their representatives. The Revue and the President of the Ladies' Hospital Auxiliary are members ex-officio. The average attendance at meetings has been 8.2.

Our new by-laws and regulations, which are to be submitted for your approval, call for the election of five new members to take the place of the four who retire.

I have the honor to be,
Yours respectfully,
THOS. H. RILEY,
Secretary.

This opportunity is one that merits your careful consideration.
AN OPPORTUNITY TO SAVE YOU MONEY.

The Summerland Supply Co., Ltd.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE, WEST SUMMERLAND.
