

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 9. Whole No. 374.

SUMMERLAND, B.C., OCTOBER 1, 1915.

\$2.00, payable in advance.

Vernon Next Convention City

Union of Municipalities Passes on Stack of Resolutions.

The Union of B.C. Municipalities will meet next year in convention at Vernon. This was decided towards the close of the convention held lately at Chilliwack, at which Summerland was represented in the presence of Councillors Johnston and Simpson.

Many resolutions framed by various cities and municipalities throughout the province were considered and voted on by the convention, many with no bearing at all on this particular locality. Among them were recommendations asking the government to regulate the weight of loads allowed on highways, and asking it to amend the Trustees' Act, authorizing the investment of trust funds in municipal debentures.

A resolution of Saanich municipality that the Provincial Government be asked for aid for the maintenance of trunk roads was passed. The present grants cover only the construction of such roads. It was proposed in another resolution to ask the government to allow municipalities to themselves license automobiles, the license fees to go for road maintenance, but the convention decided to ask the government to equalize the grants to municipalities instead.

A recommendation asking that the Municipal Act be amended to allow municipalities to exempt from tax land owned by men who had gone to the front was passed unanimously.

Vancouver sent in a proposal that cities and municipalities be given more control over school board funds. When about to discuss the local improvement act, the convention was informed by the provincial municipal inspector that the act was being redrafted.

Another of Vancouver's proposals that cities and municipalities be given power to accept 75 per cent. of taxes on account, after which the taxpayer would be protected from tax sale, was approved by the convention. A delegate from the terminal city advocated a new system of tax sale whereby three years' notice would be given delinquent property owners that a tax sale would be held. At the end of that period, complete title would pass instead of a conditional title for one year after a tax sale, as at present. The idea was to raise money in the meantime by the sale of tax certificates.

After concluding the business at one of the afternoon sessions, the delegates were taken for an automobile ride around the Chilliwack district.

OBITUARY.

Great grief came to Mr and Mrs Thos. Behan this week in the death of their little son, Gordon, which occurred on Tuesday last, September 28th. Born on the 12th of July last and so only about eleven weeks old, the baby seemed healthy at first, but of late it had ailed, and despite all efforts to bring back health and strength to the little body, life grew feebler till it passed away last Tuesday.

Mr Behan learned the sad news by long distance telephone and came in from the Coquihalla Pass on Wednesday morning, over the K.V.R. The funeral was held that afternoon, Rev. R. W. Lee of the Methodist Church, officiating. A service was held at the home of Mrs Jas. Conway, Mrs Behan's mother, where she has been staying for the last three or four months. Interment was made in the cemetery at Peach Orchard.

Mr and Mrs Behan have many friends here, who feel unbounded sympathy for the bereaved and sorrowing parents.

American Fruit For Antipodes.

Over 20 cars of Wenatchee apples were sent last week to San Francisco to be shipped from there to Australia. There are 15,000 boxes in the shipment. Eighteen thousand more were assembled for shipment to Vancouver and Victoria, from which ports the boats for Australia sailed on the 28th and 29th.

LAST DAY FOR VOTING REGISTRATION, OCT. 4th.

Monday next is the last day upon which the applications of eligible persons to get their names placed on the provincial voters list can be entertained. As explained last week there are a number of men in Summerland who are authorized to deal with applications, among them being the councillors, notary publics, and postmasters. Voters who imagine that their names are securely on the list will do well to make sure of the fact, and some who are not on will be found to be eligible. Every male British subject of 21 years of age, who has lived in the province six months, and in the constituency one month, is entitled to register whether he pays taxes or not.

Misses The Plenty Of S'land Fruit.

Norman Alexander, who left Naramata some time ago for Winnipeg, has gone to Quebec, where he has a position in the Rose Rifle factory. There are 3,500 employees, he says, and the machinery runs night and day. In a letter to the Review Mr Alexander makes some interesting comment on the fruit situation as he finds it.

"I was at the exhibition here a couple of weeks ago," he says, "and the display of fruit and vegetables was very poor after what one sees in the Okanagan. Apples were bruised and spotted, and would have only been culls in Summerland. Of course some were good specimens, but a few exhibits of poor fruit spoils the whole show. The vegetables were good, but poorly cleaned and arranged.

"Fruit here is a luxury, and is all from California. Pears sell retail at 30c. to 50c. per doz., peaches 30c. to 50c. per doz., apples 25c. a doz. for small inferior kinds, others go to 40c., plums were 25c. to 35c. per doz., apricots 30c. to 40c. I can tell you after the abundance of fruit we had in the Okanagan it comes hard, and I am looking forward to the time when I can get back and have some decent fruit at a decent price."

More Profitable as Grain Than as Hay.

That it pays to thresh grain rather than treat it as hay, as has been done here in the past, is evident from some recent figures furnished the Review, and which are believed to be authentic. In the Upper Trout Creek district, there was a certain field devoted to oats, and when cut the owner estimated that the crop would yield him \$200 if sold as oat hay. He decided, however, to thresh the oats, employing the outfit recently brought here by Mr Jas. Ritchie. At the moderate price of \$30 per ton, the result, not putting any value on the straw, was \$480. Granting that the machine cost him \$80, there was still 100 per cent. gain by separating the oats.

THE WOMEN'S INSTITUTES.

The next regular meeting of the West Summerland Women's Institute will be held on Friday next, October 8th. A most interesting and instructive program has been arranged, and will include several papers on timely subjects: "What to See and What Not to See," by Rev. C. H. Daly; "By-Products of the Fruit Orchard," by Miss I. Spencer; "Home Canning of Meats," by Mrs Dale, followed by discussions; "Home Curing and Smoking of Meats," by Mrs Cartwright. At next Friday's meeting those members who have prepared jam for the Red Cross Society will be advised where to leave it.

The first sale made by Mr B. L. Hatfield, the newly appointed Ford dealer, is a runabout of latest pattern, purchased by Dr Andrew.

Realized Almost Two Hundred Dollars

Success of Ambulance League Auction Surpasses All Expectations.

Success seems a mild term to apply to the result of the efforts of the ladies of the Ambulance League in their Auction Sale held on Thursday afternoon at the Men's Club. Just before the commencement of the event it was clear from the accumulation of donations that there was enough material on hand to assure the success of the event if the public were ready to go a step farther and do the buying. It turned out that the people of Summerland were quite prepared to do this, and the result was that at about 7 o'clock, when the sale terminated, the treasury of the League was the richer from the sale alone by about \$184. The popularity of Mr Hatt, and the very able way in which, as the auctioneer, he conducted the sale, was without question largely responsible for the success of the afternoon and the League naturally feel deeply indebted to him for his untiring and arduous work on the behalf of their work.

Some idea of how the people of the district responded to the invitation to make donations for the sale may be gathered from a partial list of the gifts. These included all kinds of vegetables and fruit, livestock such as chickens, ducks, pigs and a calf, clothing, jewellery, chinaware, books, foodstuffs, and a whole host of miscellany that only a unique event of this nature could surely have brought together. The

bidding was on the whole quite brisk, there being few things indeed that did not go readily.

Afternoon tea at the nominal price of ten cents served towards the close of the afternoon also helped to swell the financial results by some \$13.

The League ladies also feel especially grateful to Mr O. Vaughan who besides making generous purchases, has returned for re-sale a quantity of his purchases.

Record Export Cargo of Fruit and Vegetables.

Vancouver. — The steamship "Niagara," which sailed at noon on Wednesday, carried a record shipment of fruit and vegetables for Australasian points. The shipment included 1,000 boxes of pears for Sydney, 21,500 boxes of apples for the same point, and 5,800 boxes of apples for New Zealand. The Okanagan United Growers are shipping about 10,000 of the boxes of apples, and 1,600 of these are for Auckland. The varieties include Jonathans, King Davids, Canada Baldwins, McIntosh Reds, and Canada Reds.

The "Niagara" also had all the potatoes that her space would allow. Of these, 2,000 crates were sent by the Okanagan United Growers.

Delegates Appointed Success With New Alfalfa Curing Method

Supporters of Prohibition Getting Ready For Campaign.

A meeting in support of the provincial movement was held in the Lakeside Baptist Church last Monday evening, the chief item of business for consideration being the selection of delegates to attend a meeting to be held at Kelowna in the near future for the purpose of organizing this constituency for the work of promulgating the prohibition platform.

The meeting on Monday evening was not very largely attended, but there were sufficient present to allow the business for which it was called being decided. Mr Henry Moyle, president of the local Social Service Council, was voted to preside.

He pointed out that there was a movement all over the American continent towards prohibition, and characterized as a duty in many senses for every man, the stamping out of the liquor business in this province. The great strengthening of temperance sentiment was one blessed result that the terrible European war seems to have brought about.

Referring to the Kelowna meeting, Mr Moyle said, that unfortunately the exact date was not known. Dr McGuire, the organizer, had not been able to make known his itinerary for the tour of the Interior, but as far as could be gathered, it would take place at the end of this week or early next.

After some discussion two first choice delegates were named in Messrs G. A. McWilliams and J. R. Brown. Possible alternates were arranged for, those being Rev. C. H. Daly and R. E. White. Mr Moyle himself may attend as an unattached delegate, preferring not to be officially appointed, since he may not be here during the prohibition campaign.

While there is no very clear understanding as to just what the government has promised in the matter, it is generally thought that a plebiscite will be granted on the question, but whether in conjunction with a provincial election or not does not seem to be known.

Another matter touched on was the question of the voters' list. An effort will be made to get all eligible friends of the movement on

Many Advantages Apparent Over Old Method.

Some weeks ago the Review published an article relative to a new method of curing alfalfa hay. It will be remembered that briefly stated the method was to raise the hay slightly off the ground by stacking it onto a high triangular framework, allowing a free circulation of air underneath and through it. The advantages claimed were that the hay would stand wet weather without spoiling, and the leaves would be found to remain on the stalk better.

The Review was indebted to a farmer subscriber for the information concerning this novel way of dealing with alfalfa hay, and a few days ago this same contributor reported complete success as his experience in the matter. The writer had an opportunity to see the hay that had been put up in the new way, and it looked as though all that had been said for it was true. A day or two previously there had been some rainy weather, but the hay on the skeleton framework showed no traces of it, on the contrary, it was dry clear through. The leaves were also clinging well to the stalks of the plant.

Many ranches in the district now have an alfalfa patch, and whether it be large or comparatively small, it seems as though this method of dealing with the hay would well be looked into. We imagine that it might save a good many men worry to know that their hay crop is not altogether at the mercy of the weather. Some time is necessary for the preparation of the "skelotons" for the first time of using, but once made these are easily stored, and will do service for a good many crops.

the list before the closing date for registration, October 4th, and Mr Mr T. J. McAlpine undertook to see that names are put on if given to him, or he will see whether any names are on the list or not.

Up till the time of going to press no mention of the date of the Kelowna gathering has come to hand. Word from that city received on Wednesday night reported that it was still unknown then just when Dr McGuire could be expected, but that advice would be sent as soon as possible.

BRITISH WAR OFFICE NAMES COMFORTS WANTED

The National Service Committee at Ottawa, the executive body of all nationally organized women's societies in Canada, and under whose direction the collection of comforts for the troops overseas has been placed, has received an important announcement from the Canadian War Contingent Association in London. The message stated that the British War Office was contemplating the formation of a central organization for co-ordinating the work of various committees and individuals engaged in supplying comforts and luxuries to the British troops. Meanwhile the War Office recommended the women of Canada, as with other portions of the empire, to concentrate on the following garments:

Muffs, 58 inches long, 10 inches wide, grey, kaki, or heather mixture.

Mitts, 8 inches long, short thumb, no fingers, stitches being cast off at the knuckles.

Socks, always essential, the leg at least 12 inches long, the foot 11 inches.

Prov. Ministers Make Brief Stop Here.

Last Friday afternoon, Hon W. J. Bowser, the Attorney-General of this province, and Hon. W. R. Ross, Minister of Lands, spent half an hour or so in Summerland. The distinguished citizens were touring through the Valley in a private way, the Attorney-General taking this opportunity to recuperate and to learn more of the Interior. Upon their arrival here the Ministers were received by a number of citizens, who took advantage of the occasion to point out certain local needs, the new piece of road at Trout Creek, the work on which suddenly terminated when nearing completion, being particularly noted. They asked that the necessary graveling of the surface be proceeded with at once. The Attorney-General replied that money was scarce, but that as Road Superintendent Lang, who was with the party, would be going over the new piece of road, they would take particular notice of it.

Mr J. M. Robinson, representing Naramata, asked the co-operation of the Ministers in the efforts of the towns on the east side of the lake to have an internment camp established at or near Paradise Ranch, so that alien labor might be used for putting through the twelve miles or so of road necessary to make a continued highway on the east side of the lake.

After visiting the Boundary and Kootenay districts, Mr Ross will visit his own constituency, while Mr Bowser will continue to Ottawa and New Brunswick, his home province.

United Growers Doing Bigger Business.

Up to a few days ago the Okanagan United Growers had shipped 546 cars of fruit and produce. This was 112 cars in excess of the shipments during the same period in 1914.

Having signed a contract to market his crop through the Okanagan United Growers, a member is expected to adhere to that contract. That this rule be enforced is necessary to the successful working of the organization. Seemingly there are but few members who have any inclination or desire to do otherwise. However, a suit has been recently entered by the co-operative organization against a Kelowna member for breach of contract. Through the Peachland organization another member has been threatened with similar action, but this will likely be delayed until the court has given decision on the Kelowna case.

The Amulance League will meet next Thursday afternoon in the Men's Club. The League has been furnished with a number of specimen pieces of work for samples of what are required, and these will be shown at next Thursday's meeting.

Much Okanagan Fruit At Coast.

Apples and Peaches In Considerable Quantities Shipped to Vancouver.

"Vancouver will get all the Okanagan apples this year that she can bake, stew, make into pies, or eat raw," said Mr R. C. Abbott, British Columbia Market Commissioner, in an interview at the Coast, one day towards the end of last week. "There has been a shortage of dessert apples up to the present, it is true. One reason for this was the preparation of shipments to go by the steamship 'Niagara' to Australia, and other Antipodean points. The big liner will take a large shipment of these. Leaving on the 28th of this month, she will carry away to Australia about 28,000 boxes of apples, the bulk of which are of British Columbia production.

"However, a car of Red McIntosh arrived this morning, and a car of the world-famed 'Jonathans' was started rolling from Vernon last night. Last year Vancouver absorbed 50,000 more boxes of Okanagan apples than in 1913, and Okanagan can supply Vancouver with 100,000 boxes this year. After November 1, Okanagan will be able to let Vancouver have unlimited supplies. Fifteen cars of British Columbia apples have already been received in Vancouver this month.

"As regards peaches," said Mr Abbott, "Okanagan has sent double the quantity to Vancouver this year than was shipped in any previous year. This has been in the face of heavy importations. There has been a car here for two weeks that I only got unloaded this morning. The car was kept iced, of course, and the peaches came out in perfect condition. They went direct to retailers through a local broker.

A Disappointment.

Proposed Visit of Calgary Business Men Called Off at the Last Minute.

There will be a general feeling of disappointment, not only in this district, but all through the Okanagan and Kootenay Valleys that the excursion of business men lately organized in Calgary, through these two great fruit producing districts, has had to be called off, apparently almost at the last moment. The trip was to have commenced to-morrow from the Alberta city, and many places along the route had arranged a welcome for the expected visitors. Summerland was to have been reached on Tuesday.

The first word that the proposed trip would possibly not materialize was heard last week-end from Deputy Minister of Agriculture, W. E. Scott, during his visit here. C.P.R. Agent Ross was asked early in the week if he had any information on the matter, but he had none himself. In touch with Penticton, however, Mr Ross learned that the trip was off for certain.

No authentic reason has been advanced as to why the trip was cancelled so hurriedly, and the only one that can be imagined is that it was found enough business men of Calgary did not find themselves at liberty to spare the time and the expense. It was calculated that the trip would cost each member of the party in the neighborhood of \$55.

Fruit Marks Inspector Clarke, who was in town on Thursday, says that there are rather more complaints coming to his department this season than usual. This, however, he considers no reflection on the honesty of shippers generally, but rather the Inspector looks upon it as the natural results of the wholesale enlisting of young men who in past seasons have been manning our packing houses and otherwise assisting in the marketing of the fruit crop. So many have gone that a large number of less experienced packers have been called in to take their places. While here Inspector Clarke took up a case of false marking of export apples, which he discovered when inspecting the first shipment of apples going from Vancouver to Australia about a month ago. The authorities insist that fruit lacking in color, though otherwise perfect, shall not be graded as No. 1.

MORE GOOD FRUIT NEEDED.

WE ARE GLAD to give space in another column to a letter from Mr S. J. Fee of the Vernon Fruit Co. The burden of his letter is that he has a market for many of the No. 2 peaches that have gone to rot under the trees here in Summerland. We are sure he will not take offence when we say that we cannot endorse all he sets forth in his letter, and there will be many fruit growers with us. It is a very live question for this district, and it is not in a wantonly criticising way that the Review takes issue with Mr Fee, but with a genuine desire to help sift this matter to the bottom, and so be of assistance to the people to whom peach growing, as conditions seem to obtain at present, brings not an increased bank account, but possibly a depleted one.

In making the twofold admission that consigning is a policy of ruination, and that second grade fruit has a depressing effect on the market, Mr Fee has a poor foundation for subsequent argument.

"Would it be such a bad policy," he asks, "to use your rejected peaches"—meaning the No. 2 fruit—"to so depress these markets as to keep American peaches out?" Decidedly, we think. In the first place, what profit is there for the grower in a depressed market? Under favorable conditions, Mr Fee, later on in his letter, says there is a SLIGHT profit for the growers in shipping No. 2 peaches to him on consignment, but it can easily be seen how this same slight profit will become so much slighter as to vanish entirely as quantities of inferior fruit come on to the market and depress prices. A drop of ten cents per box in the price would turn the "slight profit" promised the grower into a loss not quite so slight, but it would only lessen the jobbers' commission fee by a fraction. Is that good policy for the man with the orchard? It does not look it.

In the second place, how would the No. 1 fruit fare when second grade stuff has depressed the market? Price depression can never be localized, but becomes general. And the Okanagan has heard so much of this story in past years that repetition is sickening.

We maintain—and far from being alone in this contention, we know that most thinking orchardists are of like opinion—that the salvation of the peach grower lies in his ability to produce NO. 1 FRUIT and plenty of it. Many orchardists are inclined to think that even the finest peaches do not bring adequate returns to the grower, but if there is no money in growing good fruit, there is certainly less in growing inferior stuff. When prices are poor for No. 1 peaches, it is usually from the depressing effect of somebody else's No. 2 fruit. A uniformly excellent grade is called for, or as Mr Fee himself puts it, "to sell, it is absolutely necessary that a pack of recognized standard be put up."

The place for second grade peaches is not the open market, where they demoralize the retail trade. For the benefit of the section of the consuming public that Mr Fee mentions as being unable to pay the price of first grade fruit, a limited quantity of second grade may be shipped safely at an f.o.b. price, ensuring justice to the grower as well as to the poorer purchasing public. The right channel for the bulk of what second grade peaches are unavoidable, is some by-product factory—jam making, canning, and such like. This is the cheapest way to avoid the "public waste" that Mr Fee decries, without prejudicing the selling prospects of the grade 1 fruit. That Summerland is without these necessities is a great handicap to the district and a condition that it is hoped will soon be rectified. In the meantime it is poor policy to sit back and let the peach trees go to disease and revert to uncertain yields of poor fruit, and suicidal to unload that yield on to the prairie markets, or any other market for that matter.

A GOOD SIGN.

IN DECIDING to revive the Fall Fair this year, Summerland is living up to the "business as usual" slogan of the British Empire. The outbreak of war came very suddenly last summer, and in the general panicky feeling that resulted as the unexpected cropped up, many enterprises of this nature that flourished in normal times were dropped. It is a sign that we are regaining a natural and confident poise when the decision is reached to pick up these things dropped when panic overtook us.

A Fall Fair is something everyone can take a hand in. An extremely moderate financial responsibility distributed evenly over the district would satisfactorily take care of that part of the enterprise, with government assistance promised. Then if those who are able would support it by making what exhibits they can, a completely successful Fair is assured. There are a few who can do both, and there is scarcely anyone who cannot do one or the other.

Doubtless the promoters will see to it that the Fair is made as all-

inclusive and up-to-date as possible, and not confined solely to fruit or fruit products. There has been no opportunity this year for an exhibition of household craft, and besides, such branches of farming as dairying and stock raising might with advantage be catered to.

Still another opportunity to accomplish a really useful purpose lies in the suggestion that the Experimental Farm prepare an exhibit of educational value, if not for competition. This is something that effort should be put forth to bring about. It is a question whether Summerland is taking full advantage of the asset it has in "The Farm," and this may be because people do not know enough of it.

The time is short, which is all the more reason why everyone should keep the Fall Fair very much in mind.

WARNS PEACH SHIPPERS.

SOMEONE LOST heavily through shipping to Vancouver from this Valley a car of badly graded and packed peaches. The following comment is from the New Westminster Columbian:

The importance of the fruit grower recognizing the requirements of a discriminating public in the matter of grading fruit, and the value of "perpendicular" honesty in every package are urged in the Dominion September Fruit Record. In marketing the abundant crop of fruit, of plums, and peaches this year, it states, any great increase in the amount of canning and preserving, which might have been done will in some degree be offset by the higher price of sugar. To overcome this condition growers are advised to make a special effort to increase the consumption of fresh fruit. Much can be accomplished in this way by better methods of grading. It is all too common, continues the report, to find packages filled with fruit varying from the small immature green cull to the over-ripe specimen. There is no better advertisement, growers are reminded, for their farm or district, than a well-graded well-packed basket of choice fruit.

The peach growers of the Okanagan should take this advice to heart. A shipment of peaches received last week proved to be wholly unsatisfactory. Green fruit and many culls filled the boxes. The consignment was promptly shipped back to the wholesale house by the local fruit dealers. It is probable that the fruit grower will lose his shipment, and be also out the cost of boxes and packing. It surely pays to be honest in the fruit business as in any other.

TALKS WITH THE BUSINESS MAN.

Merchandise well bought is only half sold. Your stock represents money, and it is money that is tied up. Make this money work for you as much as possible—and advertising is the key to the situation.

You have certain fixed expenses that cannot be materially reduced. Better sell 50 articles at a gross profit of 30 cents each, than sell 30 articles at a gross profit of 50 cents each, even though you have to spend two dollars in advertising in order to sell the 50 articles.

Nothing succeeds like success. People like to trade with a firm that is doing a good business.

To stop advertising because of a dull season is to lose momentum. Keep the ball rolling when you have it started, by using a judicious amount of advertising motive force.

The large department stores and the mail order houses are sending tons and tons of advertising matter into the short crop sections of the country. People have to buy some goods, so be sure to get your share of the business.

The steady drip will wear away the stone. Careful, stick-to-it, information-full advertising will bring paying results.

With the big merchants of the country advertising is an asset, not a liability, and you can make your advertising one of the most successful features of your business.

THE STATEMENT of Mr. S. J. Fee that far from wishing the Okanagan United Growers any ill will, he desires to work with that body, is to be welcomed in that it clears up in many minds wrong impressions as to what his standpoint is. The fact that the United Growers turned down his proposition to take over his business last spring is an indication that the central selling body did not consider the season ripe for launching out into the wholesale and jobbing branches. "Let us be our own jobbers," is what every grower says, and when the psychological moment arrives to step out into that line, the Okanagan United Growers may be trusted to do so. It would be disaster, however, to rush into the business without being certain masters of the situation.

Twenty Carloads Of Prairie Butter

Saskatchewan creameries are taxed to capacity these days, says a prairie exchange, to get sufficient butter ready for the filling of an order for twenty four cars of butter to be shipped to British Columbia. The order was received some time ago, the butter to be delivered during the months of September and October, and is the largest single order for butter ever given in Canada.

A special appeal has been made by the dairy commissioner to the managers of the different creameries to exert every effort in their power so that this order might be filled, and the local demand supplied.

The market created in the Const province for Saskatchewan butter, says the exchange, is a large one and very profitable. Farmers in the province have not been slow to recognize the development of the industry, and are strengthening their herds so as to increase the output of the creameries. Top prices for butter fat have prevailed all season; at no time was creamery butter selling for less than 80 cents a pound.

JAM CANS

AT COST PRICE.

I have now on sale a large supply of jam tins placed with me by the assignee of the Okanagan Jam Co., to be rushed off at cost. This is your opportunity. Stock up now for present and future needs.

2 lb. Tins - 3 cents each
5 lb. Tins - 5 cents each

Just the thing for shipping jam to the soldiers—or to any one.

Every Home in Canada should have A UNION JACK

There are not enough Union Jacks in Canada

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every housetop or window. Canadians are just as loyal, but unfortunately they find themselves short of flags.

In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

\$1.10

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

LET THE OLD FLAG BE SEEN EVERYWHERE

Every Home in Canada Should Have A UNION JACK

A 5 ft. by 3 ft. Union Jack, in guaranteed fast colors, for \$1.10. Now ready at

A MARKET FOR NO. 2 PEACHES, SAYS MR. FEE.

Calgary, Alberta.
Sept. 25, 1915.

The Editor, Summerland Review.

Dear Sir,

I note in your issue of the 10th my statements re our markets for peaches. I regret the slight error, or my not having made it plain regarding the United Growers selling this season. They sold or consigned exclusively through one prairie concern only in 1913 and 1914. I do not think this can be denied. But this season they are selling to any jobber—and further—the markets considered, they are getting very good prices.

I do not wish a controversy with Mr G. J. C. White or other members of the United Growers. I have repeatedly expressed a wish to work with them—even going so far last spring as to offer them this business, which I have been so many years building up, without a cent of cash, and on terms that they would not only have gotten the business for nothing but a nice bonus in addition.

That consigning, such as has been done in the past, would soon ruin the fruit industry, is very true. And to sell, it is absolutely necessary that a pack of recognized standard be put up. This, however, throws back on the growers a lot of really good fruit, small, slightly speckled with mildew, or ill formed. That this fruit should be an absolute waste is a policy I do not agree with. Had you sufficient to supply all our demands, and this fruit cause a glut—of our own fruit—I should at once say, "Let it waste." But when you have not sufficient, and that shortage is supplied by American fruit, it seems to me bad policy to let it waste and leave American fruit supply the deficiency.

It is true that second grade fruit will have a depressing effect on the markets. But if you have followed your market reports closely you will

FOR SALE.

Fir Fence Posts,
Fire Wood, 18 inches and 4 feet.

BALCOMO RANCH. R. V. Agur, Mgr.

see that your two nearest and best markets—Calgary and Edmonton—have been supplied mainly by American peaches. Would it be such a bad policy to use your rejected fruit to so depress those markets as to keep American peaches out?

There is also another point of view—the consumers. There are a lot of people who will pay a good price for fancy fruit and fancy pack. But unfortunately there are an immense number who must have it cheap or they cannot buy it at all. Is it good business to throw away or let rot good, wholesome fruit that you could send at a slight margin of profit, and still be sold at prices that this great number of people could pay?

A car that Messrs Steven and Broad lately loaded, mainly peaches and largely so-called culls, were nicely colored fine flavored, juicy peaches. They could not have been packed in peach crates and marked No. 1, but put up in tin tops, which is an open package, and does not require any markings, small and large can be put in. Being unwrapped, they show up nicely when opened, and are a very nice package to retail to people who do not want a full crate. This car was loaded in a hurry, and unfortunately was sent light, which increased the freight charges. There were a few peaches that Mr Steven's men did not have time to pack in tin tops, so we put them—Early Crawfords—in apple and pear boxes. They were handled very carefully, and came through in nice condition. There is not so much weight in the tin tops as the peach crate, being about 17 lbs. net. This difference in price of the tin tops and peach crate is offset by the difference in weight. Then there is the saving in paper and the quickness these can be put up.

I am enclosing a copy of our returns to Messrs Steven and Broad. I am ready at any time to give the Press my returns to publish or not as they see fit. I am ready to give every item of expense from shipping point to retailer, so that the public may study the different items. Marketing is a public question and not a private one. The men working for small wages or large salaries each have a right to know whether they are paying too much for the food of their families. The man who produces has a right to know whether he is getting every cent which is due him. The time will soon come when there will be no speculation in the people's food, and when somebody will be held responsible for any waste or loss.

Just stop and think—Any waste is public waste, no matter what form that waste takes, increasing the cost of production or increasing the cost to the consumer. Any loss is public loss no matter what form of loss it is. These small peaches—wholesome and good—left to rot was a public loss. If the United Growers can market the No. 1's to Saskatchewan and Manitoba at good prices, why not let me market those small peaches in Calgary and Edmonton. The waste of these peaches was a public waste, a public question, and when the public realize what these wastes mean and seriously consider them, wastes will be reduced to minimum—to the greater prosperity of our country.

Yours truly,
S. J. FEE.

Milking Records of Pure Bred Cows.

Nine years ago the Live Stock Branch of the Federal Department of Agriculture, in co-operation with certain record associations representing breeds of dairy cattle, began to record the performance of pure bred milking cows. Each record association agreed upon a standard of yield for cows of its respective breed to qualify for registration, while the Live Stock Commissioner formulated regulations under which the tests were to be carried out. At the end of each year a report of the work has been issued, containing a list of the animals that qualified for registration during the year, their breed, age, ownership, milking period, production of milk and fat, and such other information as might reasonably be looked for in an official report. Each year the work has increased until the seventh report, just issued, contains no less than 152 pages of information. During the year 418 cows qualified for registration, including 106 Holsteins, 123 Ayrshires, 35 Jerseys, 9 Guernseys, 14 French Canadlans, and 30 Short-horns. The highest records made were:—
Shorthorn, 15,585 lbs milk, 540 lbs fat;

Cooke And "The Crisis."

Ministerial Union Endorses Pamphlet And Publicity Campaign.

Vancouver,
16th Sept. 1915.

The Editor,

Dear Sir,

In view of the misleading statements that have been circulated throughout the province regarding the motives and actions of the Ministerial Union of the Lower Mainland, in the matter of the publication of the pamphlet entitled "The Crisis in B.C.," I am instructed to forward the enclosed resolutions unanimously adopted at the last meeting of the Union, which meeting was one of the largest and most representative yet held. We hope that you will be good enough to publish these resolutions in your columns at an early date.

I am,
Yours sincerely,
J. R. ROBERTSON,
Secretary.

RESOLUTIONS.

In view of the repeated statements that Rev. A. E. Cooke and the others whose names are signed to "The Crisis in B.C." acted on their own responsibility, we submit the following facts for the consideration of your readers:—
1. That the Ministerial Union of the Lower Mainland approved of the policy of issuing a statement to the public on the exploitation of the natural resources of British Columbia.

2. That in pursuance of that policy a committee of investigation was appointed which represented us throughout. This committee met a great many times sent two of its members to Victoria for some days to consult the records on file there and to verify all copies of documents submitted and statements made about the situation throughout the province. As a result of these investigations they were convinced of the accuracy of the statements which were afterwards made in the pamphlet.

3. Their report was presented and discussed in detail at several of the most largely attended meetings of the Ministerial Union ever held and was unanimously and heartily endorsed by everyone who was present at the last and most largely attended of all the meetings.
4. That the campaign of publicity carried on throughout the province by Rev. A. E. Cooke as Secretary of the Union was planned and directed by the Ministerial Union throughout and we desire to express our entire approval of his conduct of his part of the work.

5. After having carefully considered all the answers and explanations given on behalf of the government we are more than ever convinced of the necessity of the investigation for which we appeal.

In all these attempted replies the main facts set forth in the pamphlet "The Crisis in B.C." have remained entirely untouched.

Our only desire is that the people of British Columbia should know the truth, and we feel that if a full and non-partisan investigation be held, every charge we have made will be fully borne out in all essentials.

(Signed) On behalf of the Union,
G. R. WELCH, Central Baptist Church, President.
J. R. ROBERTSON, B.D., St David's Pres. Church, Secretary.
JOHN MACKAY, D.D., Principal Westminster Hall.
J. K. UNSWORTH, D.D., First Congregational Church.
E. MANUEL, Robson Methodist Memorial Church, Consulting Members of Committee.

French Canadlan, 10,767 lbs milk, 453 lbs fat;
Guernsey, 11,445 lbs milk; 520 lbs fat;
Holstein 23,717 lbs milk, 884 lbs fat;
Jersey 15,211 lbs milk, 754 lbs fat;
Ayrshire, 10,000 lbs milk, 720 lbs fat.

This report for the second time contains an appendix containing the records of cows which produced sufficient milk and fat to qualify for registration but failed to calve within fifteen months after the commencement of the test, as required by the registrations. This report is of special interest to dairy farmers who are anxious to build up the milking qualities of their herds. Copies will be sent to those who apply for them to the Publications Branch of the Department of Agriculture at Ottawa, and anyone is welcome to come in and look through the copy now in the office of the Review.

A Clubbing Service

FOR

Review Subscribers.

Desiring to be of as much service as possible to our subscribers, we have, at a good deal of trouble, arranged with a large number of publishers to obtain their publications for Review Subscribers at lowest possible prices. Herewith is a very full list from which selections may be made.

Make your choices, then call, 'phone or write us, and special price will be quoted.

Transpiring in South Okanagan's Newest Town

Red Cross Whist Drive.

The Whist Drive on Thursday of last week, held at the home of Mrs. Cash, in spite of the inclement or at least uninviting weather conditions, proved a most enjoyable event to those who did attend. Some five tables were prepared for whist for an evening of twenty hands. The scores do not appear to have run especially high, but indicate that the ladies are the best players. Mrs. T. H. Boothe was awarded the prize with a score of 164, while Master Guy Ireland with 140 was found to be the leading scorer among the gentlemen. Guy's reward was a neat bundle of shaving paper enclosed in a dainty holder, and doubtless the lad will feel it his duty to next look up the prices on razors.

In the course of the evening's play a most appetizing luncheon was enjoyed. The ladies evidently had designs upon the pockets and generous feelings of the guests as the collection in aid of the Red Cross which followed, showed that more than the nominal sum of ten cents had in every case been paid. The exact amount taken in as reported by the secretary, Miss Robinson, amounted to \$4.50.

From the success which marked this initial Red Cross party, it is probable that a number more will follow in due course throughout the season.

Postmaster Bartlett is in receipt of attractive recruiting posters from the government at Ottawa. These have been tacked up in places about town where, it is believed all may have a chance to learn that more and ever more men are needed to go into training. Already the percentage of recruits gone from this place is very high, but there are still some more young fellows who, as soon as their present contracts are completed, purpose enlisting.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B. - Unauthorised publication of this advertisement will not be paid for.

Current Events - OF - Town & District

Mrs Ives of Penticton was a visitor in town for a few hours on Wednesday.

The Ladies' Aid met on Wednesday afternoon and made plans for their annual bazaar.

Mrs Gillies of Penticton and three children drove up to town on Sunday for an enjoyable outing.

Mr and Mrs A. Town of Peachland were in town over Friday night last as guests of Mr and Mrs J. M. Robinson.

Mr George Partridge and son, Bert, put in a profitable day's fishing up the lakeshore about a mile or two from town at a rocky projection much frequented by the lake trout.

The boxes of apples which you wish to have sent to Europe for distribution amongst the sick and wounded Canadian soldiers will be packed for you at the Union free of charge.

Harry Pitman returned to military camp, Vernon, on Sunday morning, after a most enjoyable holiday spent at Naramata, the town of his adoption. During his stay here he was the guest of assistant scoutmaster Stewart Allen, of Fairview Ranch.

A trio of rising young officers of the 11th C.M.R., Vernon, Lieutenants Jack Norris, Baker, and Jackson, were guests of Mr J. O. Robinson over the week-end. On Monday evening a private dancing party provided a pleasing "send-off" for the lads prior to their again taking hold of the sterner duties at the Vernon camp.

Is my name on the voters' list? That should be the question on every citizen's mind just now, if he has not recently made absolutely sure about it. As the last day for attending to this important piece of business is October 4th, it leaves no time for dilly-dallying. Get your name down before it is too late. Next Monday will be, as you know, Oct. 4th.

Mr Jack Lawler, manager of the Summerland Fruit Union, spent the greater part of Tuesday here on a trip of inspection. In the course of his observations he noticed the presence of a certain degree of water core amongst the John thans, and advised having the whole crop of that particular variety harvested at once. Mr Lawler's keen eyes did not fail to notice the splendid samples of fruit now in evidence from end to end of the district.

League Meetings Resumed.

The organization of the Epworth League did not take place as was expected on Friday evening as announced, but the young folk did not fail in having an enjoyable social evening all the same. It was found toward the middle of the afternoon that Rev. Mr. Thompson, who fully expected to be here to conduct the re-organization ceremony, would be obliged to absent himself. He hopes to be present this evening, Friday, October 1st.

Last Friday's program included a song by Enid Rayner, a piano solo by Edith Roe, a duet by Margaret Mitchell and Ina Ireland, and recitations by Alice Myers, Marion Bruce, Laurel Pushman, Vera Salting and also by Miss Edna Noyes.

In the course of the evening Mr H. Pitman spoke, especially to the boys, setting forth the thought, none too well emphasized these days that the best way to enjoy life is in devoting one's time to the service of one's home, one's community and one's country.

Dainty refreshments were served by the ladies toward the close of the opening evening for the season's League meetings.

The Old England

Naramata Current Events (Continued).

F. W. Gordon McDougall, of the Royal Crown bank staff at Vancouver, was in town on Saturday between ferries, to pay a short visit to his relations prior to his departure for active service for his country.

Mr and Mrs James Wells expect to leave early next week on a short visit with relations in Calgary and elsewhere, prior to the celebration of their golden wedding, which is to take place at the home of their daughter, Mrs Hy. Price at Calgary.

The idea set in motion by our townsman, Mr Wolstencroft, of sending a number of carloads of apples for distribution amongst the sick and wounded at the hospitals, is a happy one. Hundreds of boxes have already been offered, and hundreds more are sure to follow. The Red Cross ladies are taking the matter up, and, it is understood, will interview each citizen very shortly to ascertain the wishes of each, and to give definite dates for shipment.

A party of excursionists from Naramata last Sunday, friends of Mr Dunrobin, visited the latter's extensive ranch, situated up the lake a little way north of Paradise Ranch. The party consisted of Mr Gerald Roe, Capt. and Mrs F. J. Languedoc, Mr and Mrs H. P. Davies and daughter, Miss Emma Davies. The weather conditions for the trip both coming and going was ideal, and the hospitality of the genial host unbounded. A feature of especial attractiveness of Mr Dunrobin's landing place is a splendidly sheltered cove, protected by a breakwater made of a pile of flat loose boulders resulting in an ideal swimming pool, where the water is as warm as that in a bath tub. Other noticeable features spoken of were the neat and commodious cottage, surrounded by trailing vines in the midst of the garden of flowers.

Red Cross Notes.

The scope and work of the Red Cross has not begun to impress itself upon the minds of the great majority. That was to be expected at first, but to make matters still more awkward it is reported that misleading statements are being made concerning the scope and the official recognition. This official recognition implies that the British War Office has notified all belligerent and neutral countries that the Red Cross and St John Ambulance Association are to be regarded as recognized voluntary assistants to the Army Medical Department. Therefore in saying that the Canadian Red Cross Society is in Canada the official source for collecting and sending forward auxiliary hospital supplies for the Canadian forces at the front, we are simply taking our place according to the instructions laid down by the imperial authorities.

Amongst the most recent noticeable gifts to this noble cause is one of a monthly contribution of one thousand dollars for the balance of the year, from the Hallinger Gold Mines, Ltd.

Still another of another quality, but none the less appreciated was that of a pillow-case of which the donor said: "This pillow case belonged to my great-great-grandmother, and is one hundred years old. It is parted with very reluctantly, but — the Lord loveth a cheerful giver." But just picture this: It took place at Red Cross Headquarters in Toronto recently: "A small boy called at the office this morning, July 28, and said that he was a Canadian and wished to help, and handed in five copiers."

The Red Cross, under existing conditions, has undertaken to raise the necessary funds to pay salaries of all nurses asked for from England, but the Brigade undertakes the arrangements for selecting, equipping and transportation.

Then truly it may be said, after a perusal of the foregoing facts that those engaged in carrying on Red Cross work are engaged in furthering one of the greatest of beneficent of all benevolences.

It is probable that an old-fashioned Thanksgiving party may be arranged for October 11th, by the workers of the Society. But of this, more later.

Governor's Medal Presented To Stanley Stiff.

Master Stanley Stiff was presented with the Governor - General's medal last Friday afternoon. An attractive program of patriotic choruses and recitations had been prepared for the occasion, under the direction of the teachers, Principal Rayner and Miss O'Calligan. The School Board were officially represented by the secretary, Mr T. H. Boothe who occupied the chair in the absence of Mr Pushman who was unavoidably absent, and by Mrs M. M. Allen, who on behalf of the Department of Education, presented the coveted medal. The young lad was visibly affected, and it is believed well deserved the honor, for a more diligent and promising student it would be hard to locate than Master Stanley Stiff.

In the course of the chairman's remarks, emphasis was laid on the fact that the honor thus conferred to the individual was also an honor to the whole school, reflecting credit on every member of the entrance class as a whole, not forgetting that a whole lot of credit was due the teacher, Miss Whitworth, who worked with such intelligent persistence to prepare the test.

Scoutmaster Harry Pitman of the 47th Battalion, Vernon, spoke also in eulogistic terms on the work and conduct of Stanley, as one of the active members of the scout organization.

The following was the program:
Chorus, "O, Canada," School.
Recitation "Somebody's Darling," Catharine Hancock
Recitation, "Little Boy Blue" Donald Salting
Chorus, "Rule Britannia," School.
Recitation, "Empire First," Stanley Stiff
Recitation, "Our Brave and Honored Slain," Marion Bruce
Address and Presentation of Medal, Mrs M. M. Allen
Recitation, "September," Dorothy Partridge
Recitation, "The Main Truck," Edith Roe
Chorus, "The Maple Leaf" and God Save The King, School.

Passing Events: Social, Personal, &c.

Miss Barraclough left on Wednesday morning for Lacombe, Alberta.

Mr and Mrs A. Town of Peachland were visitors here last Friday.

Mrs A. L. Moreland was a visitor over last week-end with friends in Kaleden.

Mrs C. H. Daly, Mr and Mrs W. C. Kelley and Mr and Mrs H. Reynolds were a motor party to Dog Lake Thursday afternoon.

Mr J. E. Phinney and family are moving into the McWilliams cottage recently vacated by Mrs Bindley and her son, who have returned to the Coast.

Pte. Percy Holder, after a few days home on furlough, returned to camp on Tuesday. Mr Holder expects to leave for England in a few weeks at most.

Among those from here who took in the Kelowna Fair this week was Mr F. D. Cooper, who went up the lake on Tuesday morning and returned the following evening.

Miss Edna Clouston has entered suit against Mrs Susan Drake Knox for damage for alleged breach of contract in failing to deliver water to certain land which the plaintiff had purchased from the defendant.

We are holding till next week a list of the contents of the 13th and 14th bales of hospital goods and soldiers comforts dispatched this week from the Summerland and Naramata branch of the Ambulance League to the Red Cross Society.

Through a deal this week between the owners, O. Atkins of the Summerland Telephone Company becomes the possessor of the Ford car brought in a short time ago by Mr Scott Darkis, and the latter now has Mr Atkins' Brockville.

The Summerland Poultry Association have definitely fixed on December 21st and 22nd as the date for their annual show. It is confidently expected that W. M. Coats will again judge at the show. This will be welcome news to fanciers here, who hold Judge Coats in high esteem.

Dr J. W. Gibson, director of elementary agricultural education for the province, was a recent visitor to the Valley, stopping at the various towns to give lectures or talks on subjects pertaining to agriculture before the school children. Last Friday he addressed the pupils in Principal Lees' room, taking fruit as his principal subject.

The war and war conditions notwithstanding, fruit growers here and citizens generally will be given the opportunity of sending friends and relatives in the Home Land a box or more of apples at a very low price with delivery assured. The Okanagan United Growers are now making a favorable offer for the delivery of apples as will be noted by reference to their advertisement in another column.

An effort to relieve the vegetable situation, which at this time is anything but satisfactory, is being made by the Okanagan United Growers with considerable hope of success. Just now very little in the vegetable line is being moved, resulting in considerable hardship to the growers of the northern end of the Valley particularly. The big co-operative organization now has negotiations pending, which, if successfully concluded, will greatly improve the whole situation.

Indications are that the concert dated for next Tuesday evening in aid of the Ambulance League funds, and arranged by the St Andrew's and Caledonian Society, is going to be a distinct success. A glimpse at the program that has been drawn up shows that it will be participated in by some of the best of local talent, and in the nature of the items, the program is going to be nicely varied. At the popular admission price of 25 cents, St Stephen's Hall should be filled to the doors. Children will be admitted for 15 cents.

A checker club was organized last night to be known as the West Summerland Checker Club. The officers are E. R. Butler, President; R. B. Forsyth, Secy. - Treas.; Business Committee, J. L. Hilborn, T. B. Young, R. B. Forsyth, E. R. Butler.

The club starts with a membership of 25, the fee being \$1.50. Weekly meetings for games will be held each Tuesday at 7.30, for which purpose permanent club quarters will be engaged.

Mr H. Moyle expects to leave soon for Toronto, where he will remain for the winter.

The Misses Lawler, of Vancouver, are visiting at the home of their brother, Jack Lawler.

Mr and Mrs G. W. McLaren returned on Wednesday evening over the K.V.R. after a somewhat lengthy stay at the Coast.

Mr Thos. Behan expects to leave to-morrow morning returning to the scene of his railway engineering work in the Coquihalla Pass.

Divine service will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by Rev. D. E. Hatt. All are invited.

Three boxes of nice red raspberries were among the numerous articles of food put up for sale at the Ambulance League auction on Thursday.

Dr T. B. Turner has returned after an absence of some weeks spent in San Francisco, where he attended sessions of an international gathering of representatives of his profession.

Next Sunday morning in St Andrew's Church the sacrament of the Lord's Supper will be celebrated. Presbyterian services will also be held in St Andrew's Church in the evening. Rev C. H. Daly will conduct both services.

Pte. Geo. Barkwill of the 47th is home on a furlough. He plans on leaving here on Monday to spend a day at Kelowna on his way back to camp. George is becoming rather tired of the stay at Vernon, and is looking forward impatiently to an early transfer overseas.

Miss Jessie Mitchell went up the lake on Saturday last on her way to the Coast, where she will make a long stay. Miss Mary Lister accompanied her as far as Vernon, and returned on Sunday evening's boat making a short visit in the meantime to the Vernon camp.

The announcement of Miss B. K. Harrison contained elsewhere in this issue of her intention to take up Pinaforte teaching will be welcome news to many. Miss Harrison's qualifications for this work and marked ability at the piano are already becoming well known.

Mr H. H. Steven, M.P., at Ottawa for the City of Vancouver, and his brother, Mr W. H. Steven, Kamloops, Superintendent of Government Telegraph and Telephone Service, passed through Summerland on Thursday, having motored from Kamloops via Princeton, Keremeos and Penticton.

Some of the advantages to a community of having in its midst a manufactory for the making of fruit products may be realized, when it is learned that the cannery at Kelowna has been since early in the season employing a staff of 75 hands, and that its output has averaged 25,000 cans daily. These figures are given us by a recent visitor to the neighboring town.

Reeve Blair has been giving special attention during the last few days to the accumulation of water south-east of Giant's Head, and which has caused much annoyance, inconvenience, and loss to property holders there. The Reeve is quite confident not only of draining the pond but of making a permanent job of it. He is out there to-day with a number of men.

Rally Day will be observed on Sunday next in both the Sunday Schools of the Baptist Church. At Parkdale the regular church service and Sunday School session will be combined in a joint service at 10.30 a.m., Rev. N. McNaughton's subject at this service will be "Jesus Shall Reign," which is the suggested Rally Day motto. In the Lakefront Sunday School session at 12.45 a.m. the pastor will also be in attendance and give a brief address. Everyone will be assured of a warm welcome at either service.

The general qualities of the exhibits at the Kelowna fair held on Monday and Tuesday last was excellent, according to Mr G. J. C. White, who spent part of Wednesday at the Orchard City, on his return from a meeting of the Growers' executive at Vernon. The fruit exhibit was not large, but what was shown was good. There was also a good display of vegetables. The live stock shown, all of which was of excellent quality, was an indication of the rapid increase in that district of this branch of agriculture.

Douglas Male, of the 54th, has been in town this week from Vernon, on seven days leave.

Mrs J. R. Tate and little son were passengers on the "Sicamous," Wednesday en route to the prairies.

Mr J. W. Eastham, Provincial Plant Pathologist came off the boat last night in company with Mr. R. H. Helmer.

Muir Steuart is now the owner of the McLaughlin-Buick car, recently purchased from the Cordy estate by Mr A. Stark.

Mr A. G. Campbell, whose visit here with his father and brother was chronicled last week, returned to Alberta on Tuesday.

T. P. Thornber is at Meadow Valley this week installing an electric lighting system in the plant of the Summerland Lumber Company.

Mr and Mrs E. W. Markoe, after a residence of several years here, have returned to White Bear, Minnesota. They boarded the boat last Tuesday night.

The annual Harvest Thanksgiving services will be observed next Sunday in St Stephen's Church. Holy Communion at 8 a.m., Matins at 11 a.m., and Evensong at 7 p.m.

Unable, he said, to obtain enlistment as he desired, at Vernon, R. G. Tait went out by the "Sicamous" on Tuesday morning for Calgary where he will join the colors.

After an absence of about ten days, Mr C. H. Cordy, who has been assisting Superintendent Helmer with farm exhibits at the Fall Fairs at Kamloops and Armstrong, returned home last night.

E. Mountford went up the lake on Tuesday morning of this week to the Vernon camp, where, as an Army Medical veteran of some years' standing, he is again taking up duties in the Medical Corps.

An excellent photograph of H.R.H. the Duke of Connaught and a number of staff officers, taken during the Duke's recent visit to the Vernon camp, may be seen in C. N. Borton's window.

Supt. Helmer of the Experimental Station and Mrs Helmer, went up to Armstrong on Monday where the Summerland Experimental Farms' district exhibit was being shown in charge of Mr C. H. Cordy.

For permitting his horses and cows to run at large Mr Lumsden was brought before Magistrate English last Friday, and, admitting the offence, was given a nominal fine, with a warning that the animals must henceforth be kept off the highway and neighboring property.

Mvrtle Rebekah Lodge on Wednesday evening of this week welcomed a visitor of eminence in the order, Mrs Butterfield of Vancouver, President of the Rebekah Assembly of B.C. A special session was held in the lodge room, and in the course of the evening business gave place to social enjoyment and a supper.

Misses Dorothea Cooper, Marion Cartwright, and Edna Clouston, returned on Wednesday from a visit with Mr and Mrs A. D. Adamson, formerly of this place, but now living at Aspen Grove. The young ladies were members of a week-end house party at the 18,000 acre ranch, of which Mr Adamson is manager, and report having had a most delightful visit.

A young son of Mr and Mrs Hobbs, West Summerland, met with a somewhat painful accident on Tuesday of this week, and medical attention was needed as a result. He was playing with a hoop, racing with another boy, and in some way he fell and gashed his cheek on the end of the stick with which he was trundling the hoop. Some stitches had to be put in to induce the cut to heal quicker.

Pretty nearly half the automobiles in town were out on Sunday on a trip to the Similkameen. The cars of Messrs A. Stark, Dr F. W. Andrew, G. M. Ross, J. Lawler, and E. C. Graham, made the trip to Keremeos, leaving here about noon, and on the return a stop was made at the Incola Hotel, where the party enjoyed dinner. The five cars carried in all, with their drivers, twenty-three persons. On the same day Mr O. Atkins left in the morning with a party of young men also for Keremeos, and continuing on to Hadley.

5,000 Boxes Okanagan Apples For Defenders Of Empire.

This Quantity Will Likely Be Donated To Red Cross By Valley Growers.

It now seems more than probable that nearly if not quite 5,000 boxes of Okanagan apples will be sent across the seas for distribution among our wounded soldiers as well as in the first line and other defences on the continent. Such has been the ready response to the proposal made by Mr Geo. Wolstencroft of Naramata, particulars of which was published in these columns last week. All the growers from Keremeos to Salmon Arm are to be given the opportunity to contribute, and the various local organizations affiliated with the Okanagan United Growers are all consenting to receive the fruit and forward it to Vernon for assembly and loading. Anyone, whether a member of the organization or not, is invited to assist.

From present indications there will be not less than one, and perhaps two, carloads contributed by Summerland. Naramata is also giving liberally, as are Penticton and Kaleden. Peachland will likely give a half carload at least, so that more than half the total estimated will go from the southern end of the lake.

The Okanagan United Growers have generously promised Mr Wolstencroft that that organization will absorb the freight from the various points to the assembling point, and will take care of the fruit on arrival, and load it into cars free of charge, up to 5,000 boxes.

Newsy Paragraphs from PEACHLAND

K. S. Hogg of the Summerland Drug Co. was a visitor in town early this week.

Max Robie, son of Major Robie of Calgary, is the guest here of Mr and Mrs Geo. Lang.

Mrs M. E. McDougald and Gordon spent Monday with friends and relatives in Summerland.

Mrs House has gone down to Summerland to spend a week with the Misses Dancer and Chapman.

The Deep Creek bridge back in the hills, is undergoing repairs under the direction of Jas. Michael.

Allan Brown, another Peachlander, and son of Paul Brown, formerly of this place, is now in camp at Vernon.

John McDougald has returned home after an absence of some weeks in telephone work along the C.P.R. main line.

Mun. Clerk Dryden, with Mrs Dryden and Miss Jean, spent last week-end with his son William of the 54th, at Vernon.

Relatives here of Gordon McDougald were pleasantly surprised last Saturday night when he came off the boat for a short visit before enlisting with the 72nd Highlanders of Vancouver.

After a week's visit at his home here Hugh Ferguson left on Saturday to rejoin his regiment at Kamloops. With him was Bert Robinson, who has also enlisted in the Engineers corps.

Pencland received for a short few minutes last Friday a visit from Attorney-General Bowsor and Hon. W. R. Ross, Minister of Lands. They were accompanied by Mr Hamilton Lang, local road superintendent.

Dr Gibson, Director of Elementary Agricultural Education for B.C. gave an illustrated lecture last week in Orange Hall, particularly for the education of the younger citizens. This, we trust, is but the beginning of a valuable service in the training of our boys and girls in a practical knowledge of matters agricultural.

Local water users met last Friday night when a committee was appointed to look into the matter of arranging for an increased supply of water from the North Fork. Messrs Powell, Ferguson, and MacKenzie, the committee named, have, after a careful investigation, decided that the work should be proceeded with, and called for tenders. The tender of S. J. McClirr was accepted, the work to be commenced as soon as possible.

Mr J. L. Hilborn, who judged the vegetables at the Armstrong fall fair on Tuesday and Wednesday of this week, says that the exhibit was especially good in vegetables and horses particularly heavy draft horses. He seemed to be particularly impressed with the exhibit made by Superintendent Helmer of the Summerland Experimental Station, which he described as a very creditable one, and included farm models in great variety, such as miniature barns, silos, chicken equipments, cow stables etc. The exhibit also included a model of a field with rotation of crops, and samples of noxious weeds. The exhibit had previously been shown at Kamloops.

Australia Takes Thousand Tons of B.C. Potatoes.

Chicago Also Wants Our Tubers.

Six hundred tons of choice British Columbia potatoes, including 2,000 crates shipped by the Okanagan United Growers were shipped out to Australia this week on the steamer "Waihemu." A further shipment of four hundred tons will follow immediately, making 1,000 tons of British Columbia potatoes for Australia. Great care has been exercised in the selection and inspection of the potatoes by Inspector Cunningham, Mr Lyne and their assistants, for the market in the Antipodes is regarded as a valuable one for the British Columbia growers.

Chicago, which is suffering from a shortage of potatoes at present, is enquiring for the British Columbia product, and there is every likelihood that the embargo on Canadian potatoes will be lifted so far as the British Columbia tubers are concerned, so as to enable large shipments to be sent in to Chicago. The expectation is that the embargo will be lifted in the course of a day or two. The embargo was temporarily lifted last season to permit potatoes to enter Washington, but owing to a few diseased potatoes from a Chinese ranch on the Delta finding their way into a shipment, the embargo was clapped on again with a good deal of unwarranted publicity.

Last Friday morning the fruit inspectors had to condemn a carload of apples and peaches from Washington, which was found to be badly infected with codling moth.

Short Line Ready Soon.

The completion of the Hope Mountain line, giving a direct route to the Coast over the K.V.R., will be realized in two months according to the Star, Princeton, which says:—

"From the two ends of track on the K.V.R. in Coquihalla Pass, a distance of eight miles separates. The big bridge across Ladner Creek is going on nicely, and the last railroad spike will be driven first of December. Ballasting is complete to end of tracks, and the snowsheds are well advanced."

Notice to Contractors.

POPLAR GROVE SCHOOL.

SEALED TENDERS, superscribed "Tender for Poplar Grove School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 5th day of October, 1915, for the erection and completion of a small one-room schoolhouse at Poplar Grove, in the Municipality of Penticton and the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 20th day of September, 1915, at the office of I. Norris, Government Agent, Vernon; W. A. McKenzie, Secretary of School Board, Box 215, Penticton; and the Department of Public Works, Victoria.

By application to the undersigned, contractors can obtain a copy of the plans and specifications for the sum of ten dollars (\$10) or a certified cheque, which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelope furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer,
Public Works Department,
Victoria, B.C.,

WANTED:

Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,

WEST SUMMERLAND.
