

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 41. Whole No. 406.

SUMMERLAND, B.C., MAY 12, 1916.

\$2.00, payable in advance.

7,000 Troops To Train At Vernon

On and after June 1, the military forces enlisted for overseas service in Canada will go into camps for summer training in different parts of the Dominion. In the East, preparations already are well under way for the opening of large concentration centres at Valcartier, Quebec; Barriefield, Ontario; and other points. Sewell, Manitoba, better known as "Hughes' Camp," and at which the British Columbia Company of the Universities Battalion will be trained, also is being made ready for the troops. In British Columbia, the Vernon Camp, at which over 5,000 soldiers were quartered last year, is to be re-opened on or about the beginning of June, but little yet has been done towards that end.

A statement was made by Col. J. Duff Stuart, D.O.C., last week, with reference to the Vernon concentration camp. He said that six battalions from the Mainland portions of the province would be placed under canvas at that place, and that with them would be details of the Canadian Army Service Corps and the Canadian Army Medical Corps. More than 7,000 troops, it was estimated, would train in the Okanagan.

The following units will go to Vernon this summer: The 158th Duke of Connaught's Own Battalion, and the 231st Seaforth Battalion, of Vancouver.

The 121st Western Irish, and 131st Fusiliers, now at Queen's Park, New Westminster.

The 172nd Cariboo Rangers, now at Kamloops.

The 225th Kootenay Battalion, now being mobilized at Cranbrook.

The new overseas section of the Field Ambulance Corps.

No. 21 Company of the Army Service Corps.

Col. Stuart stated that the camp would be re-opened by June 1.

The commandant for the Vernon Camp has not yet been nominated, Col. Stuart said.

The report that an infantry brigade is to be held on Vancouver Island has been authoritatively confirmed. Information to this effect has been conveyed to the commanding officers of the various units in barracks in Victoria, but it has recently been stated in responsible quarters that the soldiers are not going to be permitted to remain in their present billets, but are to be concentrated in some Island camp for training. Thus there will be two camps in British Columbia, one at Vernon and one on Vancouver Island.

There is no doubt that the Vancouver, New Westminster, and other Mainland troops will be required to concentrate at Vernon, as the effort made by the two former centres to induce the Militia Department to reconsider its policy in this regard has brought a reply which points out that the move is essential in the interests of the efficiency of the Western Canadian soldiery.

Several Americans interested in the storing of fruit, and representing fruit growing and shipping organizations in Washington State visited this district last week on a tour of investigation. Their particular mission was to learn what style of building was best suited for holding apples during the winter. It would seem that Summerland has in the Fruit Union building the best in the Valley for this purpose, and that the Union warehouse is in fact the very best kind of building in which to hold over apples. The visitors investigated the store houses at Vernon, Kelowna and Penticton, as well as here, and got data on actual results. It would appear that the loss was greatly less in the wooden structure here than in the cellars, basements, or concrete block buildings investigated elsewhere. It may not be known to many of our readers that the Union building is double boarded both inside and outside the frame, with an insulation between each layer of boards of an inch or so of a material of the nature of felt. The floor is similarly constructed.

At the annual meeting of the Hospital Auxiliary held in April the following officers were appointed for the new year:

President, Mrs Lipssett
1st vice president, Mrs Clouston
2nd vice president, Mrs W. H. A. Moore
Secretary, Miss Anna Hayos
Treasurer, Mrs E. B. May
House Committee, Mrs Heapeler
Purchasing Committee, Mrs Andrew, Mrs May, Mrs W. Watson.

Contributions of old linen will be gratefully received by the matron of the Hospital.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held on Tuesday afternoon, May 16th, at 3 o'clock, at the home of Mrs Heapeler.

It would seem from what the visitors stated that they will go back favoring the erection of a storehouse similar to the Summerland structure.

New Packing House

A. Stuart & Son At Work On Large Structure Near Mun. Hall.

The C.P.R. packing house, under lease to the Summerland Fruit Union, and sub-leased by them to A. Stuart & Son, will this year be used by the Union, with Geo. Craig as chief packer in charge of the work there. This has necessitated Messrs Stuart finding accommodation elsewhere, and they have finally decided to build. For a time it was thought that a good portion of their output might be packed in a building which the K.V.R. was expected to erect beside the station, and that the balance would be packed in a rented building, possibly the gymnasium. It would now seem that the major portion of the firm's shipments will be prepared in their own warehouse. They have purchased from W. C. Kelley a site northwest of the Municipal Office, and not far from the building occupied by them for the past two years, and will at once commence the building of a packing house about 50 x 80 ft. That part of their shipment produced in Peach Valley and vicinity will in all probability be packed at the railway station.

Our Soldiers Greatly Appreciate Home Comfort Club's Efforts.

Somewhere in Belgium, April 11, 1916.

Sec. Home Comforts Club, Summerland, B.C., Canada.

Dear Mrs Hogg,

My tardiness in acknowledging your very useful and appropriate parcel is due to its going to my former address, Second C.M.R., instead of to the Third Div. Signaling Coy., my present address.

Some of my happiest recollections are of occurrences in the few short years spent in your community, and it gave me the greatest pleasure to read the three copies of the Review enclosed in the parcel that I have had since coming to France. Thanking you very much indeed for the many useful articles.

I am,

Very Sincerely Yours,
HARRY J. MACLEOD.

D. of C. C. R. C. Hosp., Cliveden, Taplow, Bucks. April 16, 1916.

Received the parcel from the Home Comfort Club, and wish to thank them very much for the work and trouble they have gone to to send these things over here to us fellows.

I am working in the issuing stores, something similar to my old job in Summerland. Jack Kennedy is here in the hospital. He is having a pretty good time. We have been out playing golf several times.

Thanking the Club again for their kindness.

I remain,
Yours Sincerely,
WILL ANGOVE.

Ladies' Hospital Auxiliary.

At the annual meeting of the Hospital Auxiliary held in April the following officers were appointed for the new year:

REGULAR COUNCIL MEETING

Another Interesting Session.

Problem Of Irrigation Rates Again Wrestled With, And Policy Further Fixed.

Those Who Pay Will Be Given Water.

What Work Does, And What Does Not, Properly Come Under Direction Of Irrigation Superintendent, Is Still Unsettled Question.

The regular monthly meeting of the Municipal Council on Wednesday of this week occupied the biggest part of the day. The outstanding issue before the meeting was the matter of dealing with delinquent ratepayers. The Council has for some time been trying to work out a course that will induce the payment of a good proportion of the eleven thousand dollars past due on rates, and now they seem in a fair way to get at least a measurable portion of that sum. A full Council was present at the meeting.

ARRANGING FOR PAYMENT.

A good many ratepayers who are in arrears came to the Council during the course of the day and laid out the endeavors they will make within the next few months to clear up part or all of their arrears. This was in line with the policy announced at the previous meetings and made known in other ways, that delinquents would be expected to make some provision for their back water rates, the alternative being that the Council would not furnish the supply this season. Others sent in definite propositions in writing setting forth what they will do along this line. Those who made verbal statements were asked to reduce the same to writing, so that the Council would have something definite to refer to if payment did not materialize.

The response so far to the efforts of the Council to get this money lying out in arrears has come from resident property owners. Non-residents are to be approached further, and once the situation is made clear to them, there is no reason why there should not be a good response from them as well. In some of these cases, the Council is not in possession of the actual owner's address. Special effort is to be made through any local representatives such people may have to get in touch with these owners, making it clear that there must be some arrangement made to cover the arrears, or the water service for this year will be withheld.

The ditchmen have been furnished with lists showing the property affected by this mandate, and when it is found that the Council is actually putting this rule into force, some recalcitrants may be brought into line.

ANOTHER PLAN TOO DRASTIC.

During the discussion of one particular case, the suggestion was made by one of the Councillors that provision might be made to cover back rates by the ratepayer giving the Council an order on the shippers of their fruit.

In bringing this suggestion forward, Coun. Simpson said that the situation as to the arrears was working more hardship now than if drastic action had been taken years ago. Most growers, he said, contracted to sell their fruit for the season. The amount they got by the end of the season was much more than the sum due for the year's water rates. It was going to be left so that rates could remain unpaid, and nothing be said or done by the Council, it was only natural that the rates would get left till last.

Nevertheless, this course did not find favor in the eyes of other members of the Council. Neither the Reeve nor Coun. Johnston supported it, feeling that it might work too much hardship. The crops were, after all, quite an indefinite thing, and to tie a man down to parting with a portion of his returns, when after all those might not be large, would not work out well in a good many cases.

Councillor Stark observed that the rates were secured against the

land anyway, and ordinary creditors were not so protected.

The Reeve remarked that where the hardship came in was the fact that the arrears of rates cannot be used for security for a loan, as in the case of taxes. Thus the \$11,000 now out was just like that much dead money.

Several promises having been made in regard to the payment of 1914 rates, Councillor Simpson enquired if the Council were going to make any special effort to include the 1915 arrears also. Payment of the 1914 rates had to be made before August anyway to keep the land out of the tax sale. His opinion was that the 1915 rates should be arranged for also. Some ratepayers were only in arrears for 1915 in any case, while others were behind for 1914 as well.

The Council did not make any definite ruling on this question, however.

ASKS FOR REFUND.

Mrs Hall, owner of an acre lot adjoining W. J. Beattie's, waited upon the Council in regard to the irrigation service to her property. She asked for a refund of her 1915 rates on the ground that the Municipality had never delivered water to her lot line as they should have done, owing to which trees and small fruits had suffered to a great extent. It transpired, however, that no complaint had been received by the Council last season in regard to this. A request had been made to allow the use of the domestic water service to irrigate a few trees near the house, and this had been granted. If any other complaint had been made, the Council held they could have attended to it. The lot is now properly supplied with a flume to the lot line, and no trouble is anticipated this season.

DUTIES OF IRRIGATION SUPERINTENDENT.

The Reeve put a series of questions to Irrigation Superintendent Thomson who was present, as to the scope of his duties, and to whom he was responsible. He further had the Clerk read a memorandum prepared by the Council at the time of Mr Thomson's appointment, setting forth the duties of his position. The object of all this apparently was to discover by what authority Mr Thomson was having anything to do with the new work on the Garnett Valley flume. Mr Thomson stated that the Board of Works had instructed him to take this work in hand. The Reeve said he did not think the Board of Works had any authority to do so, unless their instructions came from the whole Council. Councillor Johnston, chairman of the Board of Works, spoke up at this juncture and stated that he had gone up there and found the work muddling along, the lumber all mixed up and non-packing the material on their backs about 400 feet. He did not want to see such expensive carrying on. A storm in a tuncup arose for a few minutes, but tranquility was soon restored, and the matter did not come up again during the meeting.

Later Mr Thomson asked by letter that his duties in regard to this undertaking be clearly defined.

ASSESSMENT REDUCED.

The appeal lodged by Mr Heapeler in regard to the "Eberstein" property was passed upon during the morning. The members of the Court of Revision viewed the property in question last week, and it was decided on Wednesday to allow the appeal. Lot 61 was reduced from \$1,200 to \$800, and lot 62 from \$2,800 to \$2,700. This makes

(Continued on page 6.)

Honor Roll Unveiled.

Peachland Remembers Defenders, And Pays Tribute To Fallen Soldiers.

Peachland, May 10th.—The ceremony of unveiling Peachland Roll of Honor took place at the Sunday morning service in the Methodist Church, which was filled to its utmost capacity. The service was a most impressive one, the music being suitable to the occasion, which was also a memorial service to the late Pte. Alexander Seaton.

On the table at the foot of the Honor Roll was a beautiful wreath of Easter lillies and roses, with a card bearing the words, "He loved Honor more than he feared Death," which was placed there by the officers and members of the Athletic Club, who were assembled in the two front seats to pay their last respects to Alex, one of their number, who was so highly esteemed by all.

As the choir sang, "O, Canada," Miss L. Morrison, costumed as "Britannia," and Miss M. Henderson as "Canada," both of whom now have brothers serving at the front, approached the altar from either side of the church, as the words "And with our lives, we'll guard thy liberty," were sung, the veil was withdrawn. The congregation arose, and remained standing while the pastor, Rev. A. Henderson, read the forty-seven names on the roll, which were as follows: Alexander Seaton Gordon Whyte Herbert Vivian Westley Waldriff John Jackson Ernest McKay Thomas McLaughlan Douglas Henderson Jack Wilson Harold Miller Robert Laidlaw John Buchanan Jack Thorne Norman Pope Victor Jones Bert Robinson Frank Chapman Roy White John Vicary Harry Urquhart Albert Feathers Gordon McDougald Walter Wingate Bertram Conroy Leslie Maxwell Grant Lang Peter Creswell Charles Sutherland James Miller Kenneth Tailour Sam Michael John Seaton Fred Topham Frank Maxwell Arthur Theobald Osborne Needham William Aitkens Thomas Coldham Ernest Aitkens Farril Whyte Edward Smith William Sanderson Fred Salt Bryson Whyte Howard Morrison Arthur Henderson William Dryden

Mrs H. A. Solly spoke for the Women's Auxiliary of the Anglican Church; Miss Dale for the Baptist Circle; Mrs Snider for the W.M.S. of the Methodist Church; and Mrs C. H. Daly for the W.M.S. of the Presbyterian Church. The closing address emphasized the thought of "Our Missionary Motive," which must be a firm belief that Christ has power to transform the lives of men, and our inspiration must be from Him who always touched with healing and compassion, the anxious, sinning, and suffering multitudes on mountain side, river bank, or desert place.

The musical part of the program was greatly enjoyed. A piano duet by the Misses Harrison and McLeod; a quartette by the Misses Steuart, Miss Grace Logie and Miss Pollock, and a very fine rendering of the "Psalm," "Why art thou cast down, O my soul," by Miss Harrison.

A collection was taken in aid of the Zenana Mission Hospital in Lucknow, in which hospital Summerland is interested.

At the close of the meeting refreshments were served by the Women's Missionary Circle of the Baptist Church, and an enjoyable social hour was spent.

This is not Okanagan weather that we have been getting, but as is always the case, compared with what is being experienced elsewhere we are faring well. Fruit growers and the early vegetable men, particularly the latter, are much concerned with the tardiness of summer. However, the rule fixed for themselves by some growers that it is not safe to set out plants till after May 10th seems a wise one. Records at the government weather station covering a number of years show that we are liable to frost up to that date. At that elevation, there was on Sunday morning two degrees of frost recorded. Enquiry in different parts of the district fails to find that any damage was done.

As O.C. of the company in which your son was fighting when killed, please allow me to express my deep sympathy with you in his loss. You have the great satisfaction of knowing he died the best death that is possible, but a son is a son.

He and the balance of his bombing squad were having a game of their own with a German who was firing the "flares." As he fired each flare they loaded their rifles at the flash. This caused the German to stop and commence to fire back at them. One of these bullets hit your son and killed him. He was laughing at the time, because of the way in which they had bothered the enemy.

He was a very fine boy—a good shot, a first-class bomber, and very popular with his fellows. He had abundant nerve and resource, and

was one of the happiest men in the company. He is greatly missed.

He was buried tonight, and be assured, the grave will be well looked after. I cannot tell you the location of the grave because it is forbidden to mention our position, but it is in a country—a war country—where several of his comrades are. He was killed instantly, and had no time to realize that he was hit. All his effects will be sent to you in due course, and rest assured, Mrs Seaton, that your son "made good" and proved himself. If there are any particulars, or if there is any news I can give you, please let me know, and believe me,

Sincerely yours,
W. H. CASBY, Capt., O.C. No. 1 Coy., 7th Batt.

Re-Union Meeting of Ladies' Societies

An interesting and unusual gathering was held on Wednesday afternoon of this week in St Stephen's Hall, the occasion being a reunion meeting of the Women's Missionary societies of the Anglican, Baptist, Methodist, and Presbyterian churches of Summerland. The hall was filled with interested and enthusiastic workers from each of the different congregations, and the fine spirit pervading the gathering was a tribute to Miss Dale and Mrs D. H. Watson who originated and successfully carried out the union meeting.

The meeting was opened with devotional exercises by Mrs Harrison, after which Mrs D. H. Watson took charge of the meeting, and presided in a very able manner. Her opening remarks emphasized unity in the great essentials of Christianity, and as representatives of the different societies gave reports of the work done by the women of their respective churches. One was struck by the great similarity of ideals, aims and methods of working. The women of each church have their representatives in the foreign field, and in the Home Mission field, and working among the foreigners in Canada, and whether they work in school or orphanage or hospital or dispensary—on the Indian Reserve—or the Zenana Mission, or on the lonely home mission frontier, their one aim is by lives of service and sacrifice to win "The World for Christ."

Mrs H. A. Solly spoke for the Women's Auxiliary of the Anglican Church; Miss Dale for the Baptist Circle; Mrs Snider for the W.M.S. of the Methodist Church; and Mrs C. H. Daly for the W.M.S. of the Presbyterian Church. The closing address emphasized the thought of "Our Missionary Motive," which must be a firm belief that Christ has power to transform the lives of men, and our inspiration must be from Him who always touched with healing and compassion, the anxious, sinning, and suffering multitudes on mountain side, river bank, or desert place.

The musical part of the program was greatly enjoyed. A piano duet by the Misses Harrison and McLeod; a quartette by the Misses Steuart, Miss Grace Logie and Miss Pollock, and a very fine rendering of the "Psalm," "Why art thou cast down, O my soul," by Miss Harrison.

A collection was taken in aid of the Zenana Mission Hospital in Lucknow, in which hospital Summerland is interested.

At the close of the meeting refreshments were served by the Women's Missionary Circle of the Baptist Church, and an enjoyable social hour was spent.

This is not Okanagan weather that we have been getting, but as is always the case, compared with what is being experienced elsewhere we are faring well. Fruit growers and the early vegetable men, particularly the latter, are much concerned with the tardiness of summer. However, the rule fixed for themselves by some growers that it is not safe to set out plants till after May 10th seems a wise one. Records at the government weather station covering a number of years show that we are liable to frost up to that date. At that elevation, there was on Sunday morning two degrees of frost recorded. Enquiry in different parts of the district fails to find that any damage was done.

WHAT ABOUT THEM?

TWO VERY WORTHY MOVEMENTS which Summerland has put into force in previous years seem in a fair way to suffer neglect this year, crowded out, possibly, by the press of other things. We refer to the civic "Clean Up Day," and the Sunday set apart by the local churches just about this time under the title of "Go to Church Sunday." The habit of cleanliness is spoken of as being next to godliness, so that these two movements would seem to embody two of the highest attributes the human race can strive for.

Is it too late now to hope for a public "Clean Up Day?" Summerland may not need cleaning up more than any other place, but it needs it nevertheless, and a day set apart for the special work of scavenging ought to become a part of the community program. Most people are more than willing to co-operate with the municipal authorities in clearing up debris from their adjacent yards and premises, but many are without the means of hauling such rubbish away to the proper place. This is especially where the work of the municipal body comes in, and also perhaps in doing something with the roadsides, though in this it is safe to say that a certain amount of volunteer labor would also be forthcoming. In the interests of the public health, and also surely of our community pride, some of the highways, byways and backyards of the district need the activity of a "Clean Up Day" to change their aspect somewhat. Probably the assistance of the Board of Trade would be forthcoming for the more energetic prosecution of the project.

"Go to Church Sunday" may not appeal to the community as a whole in quite the same way. At the same time if the go-to-church habit was a little more firmly established in the lives of people generally there might be less need to preach "Clean Up Day." It affords welcome evidence, too, of the co-operative spirit that the churches of today are very much in need of. It can't hurt anybody to go to church just once a year, and it might do a great deal of good.

§ § § § §

STRAIGHT TALK.

NOT LONG SINCE we heard advertising characterized as "a necessary evil," something that has to be done "because the other fellow does it." It may be that advertising is a necessary evil, but it may also be one of those necessary evils that are in reality blessings in disguise. The surgeon's knife, the hospital, the prison, the asylum—and so on right through the very fabric of twentieth century life;

competition, wealth, poverty—are there not scores of "necessary evils" which are nothing less than blessings in disguise?

After all, who is there that does not believe in the principle of advertising? The printed announcement of a business concern, or an undertaking in a newspaper is only one form the great principle of advertising takes. Why does a carpenter, painter, or any other workman like to make a good job of what he is at? Not so much for his conscience's sake, but because he knows that good work is good advertising. Why does the merchant ornament the front of his store with large windows and fill them with goods, if it isn't because window displays constitute one of the milder forms of advertising? Why does almost every article from a pocket knife to an automobile bear the maker's name, if it isn't for advertising purposes? A little thought will show the most pronounced Missourian that advertising is a whole lot more than merely a necessary evil. As a matter of fact, it has so become a part of the warp and woof of present day life that without it our existence would be indeed humdrum, monotonous and colorless.

The person who advertises merely on the ground that "the other fellow does it," is doing advertising a grave injustice, and his own intelligence too. The past few years have by changing financial conditions, especially in the New World, imposed very trying conditions on modern business. Many false notions have been dropped out of business conduct, unable to stand the test of the times. But advertising remains, and more than that, it is increasing. Eaton's, Simpson's, Hudson's Bay, Spencer's, and the other big mail order department stores don't fill their home city papers with advertisements merely because the other "fellow does it." Such bluff would soon be called. They do it because it pays, because it gets business for them. Everyone knows that the automobile business is booming these days; yet pick up almost any periodical and automobile advertisements will soon catch your eye. Are they put there just because "the other fellow does it?" Who ever else is having a bad time just now, the banks are declaring dividends just the same, and the big and small papers show their advertisements right along. Do such institutions indulge in senseless follow-my-leader tactics?

No, advertising, used rightly, is the tested, tried and true friend of every business concern to-day. It has been condemned, thrown overboard, given up as worthless, but it still survives and thrives in spite of this treatment, and permeates through every live concern. It is for the small merchant as well as the big, and can be made to become the strongest link between the goods and the buying public.

§ § § § §

THE WAR BOOK OF 1916.

IT WOULD perhaps be too much to say that the Agricultural War Book, issued for free distribution by the Federal Department of Agriculture, is the most complete book ever published in Canada entirely devoted to the subject of which it mainly treats. Yet in variety it certainly is. Besides the general matter brought together by the editor, the Commissioner of Agriculture, some seventy agricultural and education experts have contributed to its 250 pages, including the Federal Ministers of Agriculture and Finance, the Live Stock Commissioner, and Dairy Commissioner for the Dominion, chiefs and sub-chiefs of various departments and divisions, federal and provincial, and professors at the Ontario and other agricultural colleges.

While there are statistics of the world's as well as of Canada's produce last year, for purposes of comparison, and two or three years preceding, the book is a long way from being confined to figures. On the contrary it contains pages upon pages of textual information, instruction and sound advice appertaining to its title—"Production and Thrift." Not alone would the farmer and breeder be the better for its study, but every householder, every citizen would profit by following its counsel, which, in a general sense, is embodied in the motto that appears on the front cover, namely:

IN WAR TIME.

Produce more and save more,
Make your labor efficient,
Save material from waste,
Spend your money wisely.

§ § § § §

TAKING UP WITH THE LOANS.

THE IMPORTANCE to the agriculturists of the province of the inauguration of the Agricultural Credits Commission is indicated by the keen interest shown by farmers in all sections of the province in the

work of that body. Since the formal sanction was given by the government to the formation of the Commission, and it was brought into existence under the terms of the Agricultural Act passed last year, inquiries have been pouring in from farmers asking for information as to the course to be pursued in making applications for loans. Many applications have already been received, and the Commission has been kept busy answering these queries and sending out the asked-for information.

The interest shown indicates that the action of the Provincial Government in bringing into effect the system whereunder loans to farmers will be made has proved a most popular and far-reaching one from the standpoint of the agricultural interests. The work of the Commission is now being organized, and in a very short time will be in a position to deal with those applications for loans which have already been received. Forms of application are being prepared, and will be sent to all those seeking them. These forms will comprise questions of a most searching kind, and will necessitate the applicant giving the fullest information.

The necessary formalities in connection with the issue of the securities for the \$1,000,000 loan just negotiated have been completed, and the money will be available whenever the Commission requires it.

§ § § § §

HOME TRADE AND THE COUNTRY PAPER.

"I've just been glancing over this paper from a little town down in southern Illinois," said the real estate agent.

"It isn't much of a paper, is it?" commented his prospective customer.

"That's where you're mistaken," corrected the agent. "This is a humdinger of a newspaper proposition and I'll prove it to you."

"I've met the editor personally, and I'm acquainted with the town where he is located. I know its alleged business men. I know the citizens of that place as I know my family. And, putting my knowledge of the different elements together, I have a pretty fair idea of the proposition the editor of this sheet is up against. And, needless to add, I wouldn't trade him jobs."

"When the editor came to that town, five years ago, he hadn't a dollar to his name, but he has held his own. He has as much now as when he started."

"He walked into that town with an army press under his arm. When he announced that he was going to start a weekly newspaper, one man immediately subscribed for three months at 25 cents. Another paid for six months, but not without considerable misgivings. Still another, who was locally known as a desperate gambler, and dead-game sport, subscribed for a whole year."

"The merchants told him they didn't care to advertise just yet, but each donated half a dozen articles on the evils of patronizing the mail order houses, and told him that he had their permission to print them some time, when he wanted to fill up the paper. The first issue of that paper would have been entirely free of advertising if it hadn't been for a man whose wife died and wanted a card of thanks."

"That editor started in telling the business men what he thought of them, and the result was such interesting reading that the subscription list grew by leaps and bounds. Then he took the list to progressive dealers in neighboring towns and got their advertising, and then the local dealers had to fall into line."

"The editor does a good business, and puts all his earnings back into his plant. He has put the town on the map. There are thousands of country editors just like him. But if you go into that town and talk about him to the merchants they will tell you he'd be a good editor if he told the farmers to patronize home trade. The idea of buying advertising space and telling the farmers themselves has not yet occurred to them."—Chicago Daily News.

§ § § § §

OLD ENGLAND is adopting the daylight saving scheme. The British House of Commons has favored it by resolution, and a bill will be introduced forthwith. It is expected that the clocks will be put ahead one hour at midnight on Saturday, May 20th. The saving on account of lighting alone that will result is conservatively estimated at \$12,500,000 yearly, and this will be direct saving to the people almost entirely. It is proposed that normal time go into effect again September 30th. The measure will be voted on again at the close of the war.

DO YOU KNOW OF ONE?

Do you know of a mail order house that has ever contributed one cent in taxes or otherwise toward defraying the expenses of this town?

Do you know of one that has ever contributed a cent toward our churches or our schools?

Do you know of one that has ever contributed a cent to the welfare of the community in any manner, shape, or form?

Do you know of one that has done anything but pull money out of the community—money which never comes back?

If not, why do you continue to enrich people who never do anything for you and yours, and yet demand their pound of flesh in advance?

Summerland, B.C., is thinking of adopting daylight saving for the reason that so many of the men of the district have gone to war an extra hour of daylight is needed for those left at home to gather in the fruit crop. A very utilitarian reason, surely.—Calgary Herald.

In eight months the creamery at Salmon Arm made 28,000 pounds of butter. It costs \$140 a month to operate the creamery.

Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

A Preventive and Cure for Worms in Hogs.

Of all farm animals, hogs are the most common hosts for worms. Unless they are free from them the most economical gains can not be made. Professor Wm. Hislop of the Washington Experiment Station at Pullman says that in very large numbers, worms check the growth of shoats, and frequently cause chronic indigestion and sometimes death.

Four species of intestinal worms infest hogs. Of these the Round Worm (*Ascaris suis*) is the most common. This parasite is found in the small intestine, and after death migrates forward into the stomach. The worms vary from 4 to 10 inches in length, cylindrical in shape, and in color are yellowish white. The eggs and embryos pass out in the excrement and scatter everywhere; hence the need of thorough disinfection of the premises. Hogs become infested through the feed and water taken into their digestive tracts. Professor Hislop recommends the following formula for hogs infested with worms:

(Dose for 100 lb. pig.)

Santonin	5 grains
Calomel	2 grains
Area Nut	2 drams
Sodium Bi-carbonate	1 dram

The herd should be divided into lots of 6 to 10 head, and weighed, and the drugs apportioned accordingly. For example, if one lot of 10 hogs weighed 1000 pounds; it should receive ten times the above dose. The hogs should be kept off feed for 12 to 18 hours previous to giving treatment. In the morning mix the drugs into a slop of shorts and give to the hogs. In the evening of the same day give the dosed hogs a bran mash. This will flush out the worms. Gather all the expelled parasites and burn them.

FORMULA TO PREVENT WORMS.

Common salt	3 lbs.
Glauber's Salts	3 lbs.
Salsoda	3 lbs.
Copperas	3 lbs.
Sulphur	1 lb.

(Recommended by U.S. Department of Agriculture.)

This should be placed in boxes 12x12x4 inches and kept under cover before the pigs at all times.

Feed, Water and Care of Working Horses.

Many horses are killed and many more are injured by careless feeding and watering.

Never water a horse immediately after feeding grain. This washes the grain through the stomach before it is properly mixed with the stomach juices and is liable to cause colic. It is safer to water the horse before feeding grain.

If the horse is very warm let him drink a few swallows and then hold his head up for a minute or two, and thus cool his stomach slowly. Try it yourself in hot weather. You can drink a quart of water without injury if you will but take several minutes for the first few swallows.

When horses are brought in hot from their work they should first be given water cautiously, and then fed hay and grain together, allowing them to exercise their own judgment in the selection of their feed.

While waiting for them at the watering trough, the time can be profitably used in removing the harness, at least the collar, and cooling the shoulders by washing in cold water. Removing the hot harness in a hot barn during the hot noon hour is a great relief to the horse, and is really worth while.

When a horse becomes colicky or is foundered, from too much grain or cold water on a warm stomach, there is no one to blame but the one who had him in charge, and it is he who must be charged with either ignorance or carelessness. Horses are worth money, and their services are indispensable. Their care and management should be given more consideration.

Setting hens should be separated from the laying stock.

There are many cases of infertility in eggs. The commonest one is an overfat state of the hens consequent on improper feeding, just as many over-fat show animals fail to breed.

Little chicks should be protected from cool, damp surroundings. Nothing is more detrimental to their health and more certain to bring heavy mortality than to let them out in the wet grass early in the morning.

Each year curtails the amount of native pasture and the amount of native hay available, and creates a need for more tame hay and pasturage. Have you enough on the farm for this year? If not, why not try some oat pasture or hay?—Farmers' Advocate.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

NO ALUM

Keep Your Prunings Off The Road.

The practice of dumping all kinds of rubbish on the roadside has gone about the limit. Complaints about obstructions caused by the orchard prunings has led Road Foreman William Nuttall to issue warnings to the chief offenders to have the practice discontinued. Aside from the danger to the travelling public is the very principle of the thing. If each lot owner could hold himself responsible for his share of the road allowance, we would in time have a really charming community, with its long avenues of blossom laden trees shading the roadside, without even the suggestion of uncleanness.

Former Naramata Scout Master Marries.

A very pretty wedding took place at St. Philip and James' Church, Cheltenham, Gloucestershire, England on March 18th, of Private Henry Joseph Pitman of Naramata, former scoutmaster, now of the 47th Battalion C.E.F., and formerly of Cheltenham, to Miss Daisy Emily Selley, of Cheltenham, a life long acquaintance and school companion. The best man was Private Joe Hannah, formerly of Vernon, and well known in the Okanagan. Among the presents were a silver tea service and silver spoons from the boys of Mr Pitman's battalion.

We take this opportunity of wishing Mr and Mrs Pitman a long life and a happy one. It is Mr and Mrs Pitman's intention to come back and live in Naramata after the war is over.

The ladies of the Red Cross have concluded to continue their weekly sewing circles during the summer. Some of the ladies thought that through the busy season if the work was taken home and just have sewing once a month in the club room, it might be a good plan, while others thought that it would be better to continue the weekly meetings, with the result that the circle decided the latter. Surely we can sacrifice a half day once a week for our soldier boys who are sacrificing their all for us. So the good work goes on. Mrs H. T. Davies and Mrs J. H. Pushman served refreshments at the Saturday meeting.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Ladies' Aid Society.

The Naramata Ladies' Aid Society are all invited to Mrs Fred Young's, south benches, on Wednesday, May 31st, to meet the Ladies' Aid from the Popular Grove Aid. The ladies here are all pleased that this opportunity has been afforded them to meet our friends from that place and have accepted the invitation unanimously.

Current Events OF Town & District

Gardener Aveson of the Experimental Farm, Summerland, spent Sunday at Naramata.

The many friends of Mrs Dan McKay are pleased to learn that she is improving from her recent illness.

Mr John McLean of Summerland spent Sunday at Hotel Naramata, guest of Mr J. O. Robinson and sisters.

Rev. R. M. Thompson of Penticton conducted divine service here on Sunday afternoon, coming up by motor car.

Mr Gordon Hayman leaves on Saturday, May 20th, for Kamloops, to enlist for active service. He is about to join the artillery.

Mr James Young went out on the "Sicamous" as far as the Landing to meet Mrs Young, who arrived home on Wednesday night's boat. Mrs Young has been for some months visiting friends down in Manitoba. All are pleased to welcome her home again.

Mr and Mrs Jas. Dean and little daughter, who left Naramata some two years ago to take up residence in Montreal, have returned to our town, arriving by the "Sicamous" on Friday evening. We are all very pleased to welcome them back. Mrs Dean is the daughter of the late Squire Hill, whose sad death occurred here late last fall. They are now comfortably settled in their own cottage home again.

The W.C.T.U. met in regular monthly session at the home of Mrs Russell Wells on Tuesday, May 9th. The meeting was called to order at

"STEVE"

is a big, upstanding S. C. W. Leghorn now in his second year. His show room record is O.K., but more important still is the fact that his Dam was a great egg producer. Mated to him are 12 neat, chalk-white S. C. W. Leghorn pullets all trapped and selected for their ability to produce eggs.

Eggs For Hatching,
\$1.50 for 15.

A. H. MULFORD,
NARAMATA, B.C.

three o'clock by Mrs Boothe, vice-president. After the regular routine of business was dispensed with, there was a short program, which consisted of readings by Mesdames Davies, Allen, Myers, and Boothe, after which Mrs Allen sang a solo entitled "Tramp, Tramp, Tramp," a patriotic "troop song." The meeting was then closed by prayer.

Mrs E. B. B. Reesor of town is in receipt of intelligence from Vancouver that her oldest son, Goronwy B. Reesor, has enlisted for active service in the Seaford Highlanders, and has been in training since May 1st. This is an outstanding example of the right kind of loyalty, where a young man in a comfortable position and a fair salary, with every prospect for rapid promotion hears and obeys the call of duty. Goronwy, who has a host of friends in Naramata, carries with him the good wishes of the entire community.

Roy Boothe of the 11th C.M.R., Willows Camp, Victoria, writes that "Recruits are rolling in from all parts of British Columbia, and they don't think it will be long now till they are up to strength and away overseas." Roy speaks of being in a route march last Friday, the whole regiment marching 25 miles. They all left at five o'clock a.m., and got back at 4.30 in the afternoon. He says it was some march, but there wasn't a man fell out all day, but there were a number with sore feet, and he was one of them.

That sneak thieves have again been busy around Naramata is quite evident. When going out of his kitchen door quite early on Sunday morning, T. H. Boothe noticed his cellar door standing wide open, and upon making inquiries in the house found that the doors had been closed securely on Saturday night as usual, but not locked. Going into the cellar he found that at least seven jars of jams and pickles as well as half a box of Jonathan apples which had been recently opened, were all gone, and quite a few burnt matches strewn about. That the apples in question had been hurriedly removed was quite evident by the way the papers in which they were packed had been thrown around. It is quite evident that Naramata is in need of a policeman, or at least a guard of some kind.

It is difficult to see how horses can fail to rise in value. Military strategy has obviously reserved Canadian supply against the ultimate requirements of the Allies. When our equine resources are called upon depletion will soon be noticeable and prices are already anticipating the stimulus of surplus exhaustion.

MILK DEALERS

Have been continually asking us to supply them with

Milk Bottle Caps

To satisfy this demand we have decided to keep in stock for immediate delivery a sufficient supply of

Stock Caps of Best Quality At Lowest CASH Prices.

Review Office.

Graves Registration Commission.

Those at the front probably know of the good work being done by the Graves Registration Commission in recording the location of the graves of our fallen comrades. The Chaplain must report to them every burial he conducts, with the location of the grave. But now the Commission is prepared to do more. They will furnish to the wife, mother, or other near relative of a deceased man, a photograph of his grave. The relatives must make application to the Chaplain of the unit to which the deceased was attached, giving his name, rank, number, etc., and the date of his death. The writer had occasion recently to apply for one of these photographs on behalf of the father of a man in the Seventh, who died at a clearing station in November. He found that the photograph had been taken, was on record, and could be sent immediately.—Listening Post.

British Columbia is doing its part toward keeping the rain out of homes in the United States, its shipments of shingles across the border in 1915 amounting to 1,256,804,000; and this notwithstanding the movement in the latter country looking to the employment of less combustible materials in roofs, and despite the commonly accepted belief that the shingle is no longer necessary to the maintenance of family discipline.—Christian Science Monitor.

The beauty of a postage stamp, a person of perception has said, is that it "sticks right on the job till it gets there." This is what newspaper advertising will do—if you will let it. It will keep right at it, week in and week out, carrying its message to people ready to receive it. And each time it will be planting the seed of the profit plant. Advertising is no business for a quitter; but it is a mighty force for a man who knows how to hold fast.

Every farm boy should make the most of his opportunities to get education. The farmer of the future will need it even more than the farmer of to-day.—Farmers' Advocate.

Every family with a backyard and outhouse, if the municipal regulations do not interfere, can maintain a hennery, and every family can thus have that always desirable modicum—a fresh egg.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

International Correspondence Schools, Box 826-O, Scranton, Pa.

Passing Events: Social, Personal, &c.

Penticton is trying to get an internment camp established there.

A bad break occurred in the power main on Thursday which is being repaired today.

Mrs F. A. C. Wright went out to Aspen Grove last Friday to visit her friend, Mrs Adamson.

J. Secrest boarded the train on Wednesday afternoon on his way to Washington State for a short visit.

The Merrill Cottage recently vacated by G. M. Ross, has been rented by E. A. Jones, who will enter into possession at once.

Pte. Jack Pollock, of the B.C. Bantams, is spending a few days here at the home of his parents, having arrived on Wednesday.

The sacrament of the Lord's Supper will be administered in St Andrew's Church on Sunday the 21st inst., at the morning service.

Mrs Janet Lock, a former resident of Summerland, has returned to her Kaleden home after spending the winter with her son in Ladner.

Donald Ross expects to go to Armstrong within two weeks, where he will enter the employ of the C.P.R. under his brother George, now agent there.

The Summerland Telephone Co. now has a new directory, revised to date in the printers' hands. It shows that Summerland has over 200 phones, a highly creditable showing, considering present conditions.

Divine service will be conducted in the Methodist Church on Sunday morning next at 10.30 by Rev. R. W. Lee. In the evening at 7 o'clock a united service will be held in the Lakeside Baptist Church. A hearty invitation is extended to all.

The new municipal grader has been put to work lately, being given its first real test near the K.V.R. station. It has been stated that six horses can pull it, which shows that the machine is capable of effecting a good deal of improvement on the roads in short order if conditions were favorable.

Game Wardens Gartrell and Dundas, the latter stationed at Kelowna, captured a pair of beavers on Tuesday, on instructions from their superiors, and sent them to Vancouver, presumably for the Park Commissioners. The animals were taken at Trout Creek Point, and were both fine specimens, particularly the female.

Geo. D. Fisher of the Canadian Army Medical Corps, is still at the Canadian Convalescent Hospital, Wokingham, Berks, England, where he was stationed soon after arriving on the other side. The normal accommodation this hospital offers is four hundred, but he says that they have received orders to prepare for fifteen hundred. Huts and tents are accordingly being put up. Everything possible is done to make it pleasant for the poor boys who have been out in the firing line, "and goodness knows." Pte. Fisher says, "they need it, as according to all reports, it is an awful life. It is very sad to see the state some of the convalescents are in. Lots of them will never be able to do anything again."

YOU WILL HAVE SOME FLUMES TO

Summerland Lumber Co., Ltd. Post Office, West Summerland. J. W. WHEELER, MANAGER.

Mrs Lipsett and Mrs Phinney drove up to Peachland this morning.

Will the children who have copies of the W.C.T.U. medal contest books please leave them with their school teachers?

At least one grower in this district remained up all night during the frost of Saturday-Sunday last, and saved his early plants by fires.

Rev. C. H. Daly and family will be leaving here early in June for their new home in Fort George. Mr Daly will give his farewell address on Sunday, May 28th.

Mr G. A. McLaine arrived back in Summerland on Wednesday evening from Walthachin, B.C. He will again take charge of Stirling & Pitcairn's packing house this season.

Mr and Mrs D. Lorne Sutherland and family are leaving early next week for Selkirk, Man., where Mr Sutherland has rented a farm for one year. After that time he will occupy his own farm nearby, the lease of which will expire then.

Willie Ritchie, whose serious illness was recorded in these columns last week, is now convalescent, according to latest information. His parents have been advised to bring him back to Summerland, the Coast climate being injurious to his health.

A "Mothers' Day" service will be held in Parkdale Baptist Church on Sunday morning. At this service Mr Fred Graham will be the soloist. A union service will be held in the Lakeside Church, at which Rev. R. W. Lee will preach.

Mr and Mrs Langlands with their four children have taken up residence at Mineola, where Mr Langlands is employed with the Summerland Lumber Co. With the sawmill and box factory as a nucleus, Mineola is becoming quite a community.

Lance-Corporal G. D. Marson of the 11th C.M.R., arrived here on Thursday night and is busy scouring the district for recruits for his battalion which is to go overseas as soon as it is up to strength. Corporal Marson's call for recruits will be found in our advertising columns.

The Home Comfort Club meets on Thursday the 18th at the home of Mrs Stark. The Review has been asked to request relatives and friends of Summerland boys who have enlisted and are now overseas, to give the Club their present address. It is apparent that the good work the Club is doing is greatly appreciated by our soldier lads.

The Summerland Women's Institute will hold their regular monthly meeting on Friday, 19th, at 3 o'clock, in the Men's Club parlor. Mrs W. J. Robinson will give a paper on "Civic Improvement" and discussions will follow, in which members of the Farmer's Institute have been invited to participate. Afternoon tea will be served.

A beautiful pair of ring-neck, or Mongolian pheasants were received by Mr W. H. Hayes on Thursday night, and are now in confinement at his home. This makes six pheasants Mr Hayes has brought in this spring. Two pairs brought in from the Coast some time ago, though having been given their liberty, still remain nearby. There are known to be six other pheasants in the community, three in Prairie Valley and three at Trout Creek Point. These are supposed to have worked up from Okanagan Falls. Pheasants are very stringently protected by law, a heavy penalty being imposed for their destruction.

"It is awfully nice of the St Andrew's Society to send the Review every week, and I wish to convey my thanks to them through you. I look forward to getting it." This is an extract of a letter from G. D. Fisher, an active member of the Scotch society before he enlisted last year, to Mr J. G. Robertson, president. The St Andrew's Society sends the Review to all its members who have enlisted and are now overseas, taking advantage of the special prepaid rate of \$1 per year. This is an example that other societies might well emulate, and the offer is also open to any local subscribers who have soldier relatives in Canada or overseas. Without question your soldier friend would appreciate the news of the home town every week, regularly, and without fail. Enquire about it.

Summerland's Honor Roll now contains no less than 173 names.

Walter Verity left on Wednesday morning for Victoria where he enlisted for overseas service.

Relatives here were advised by cable on Tuesday of the safe arrival in England of Charles Steuart and Harvey Phinney on the transport "Olympic."

Presbyterian services will be conducted next Sunday morning and evening in St Andrew's Church and in the Methodist Church at three o'clock. Rev. C. H. Daly will conduct all these services.

J. J. Blewitt is having some extensive improvement made to his Peach Orchard home. Mr Blewitt, by the way, went down to the prairies some days ago, and will likely be absent for some weeks at least.

Rev. J. Knox Wright, D.D., representing the British and Foreign Bible Society, will address a public meeting in the Lakeside Baptist Church, on Friday evening, May 19th, at eight o'clock. Dr Wright's address will be illustrated with lantern views.

In his letter published last week, regarding the milking strain of the pure bred Holstein, "Delta Butter Boy," the bull owned by the Summerland Pure Bred Stock Association, Mr A. A. Derrick stated that the standard of butterfat required under the municipal law is 3.5 per cent. It has been learned from reference to the by-law in question that what is required is at least 3.25 per cent butterfat, and at least 9 per cent of other solids.

Local Baseball Team Eclipsed This Time.

The High School baseball team went to Penticton again yesterday afternoon, but their star of good fortune was apparently under eclipse. They put two good ones over Penticton two weeks back, but the boys in that town came up smiling each time, and yesterday their persistence was rewarded, and they came out on top by 6-2. At the last of the second innings the score stood 2-1 for the visiting nine, but in the last of the fourth the Summerland aggregation blew up, and Penticton got five men across the plate. The home batters hammered Ritchie's offerings all over the lot, and the luckless fielders fumbled most of the 'flies,' and so the errors piled up—likewise the runs.

They settled down after this run-fest, but no more scoring resulted on either side. Penticton put a stronger nine into the field than they previously mustered, and perhaps the visitors were too confident of repeating their snap of two weeks ago.

Table showing innings scores for Summerland and Penticton.

Will Build School At Trout Creek.

At the last meeting of the School Board the Superintendent of Education informed the Board that his department had agreed to build the school at Trout Creek Point. The Secretary is now negotiating with Duncan Woods for an acre of land as a school site.

The usual budget of salaries and conveyance accounts, with a few small items was approved for payment.

Miss Evelyn Brown applied for a position on the teaching staff. The matter of supervision during recess, and particularly the noon hour is still giving the Board some concern. Further correspondence on the subject was received from Principal Lees, which was left with the chairman to deal further with.

The first 22 miles of the provincial highway between Hope and Princeton is finished at a cost of \$177,767. It will cost \$130,000 to complete the remaining 72 miles.

During the first three months of this year the number of telephones in use in B.C., has increased from 39,800 to 40,353. This is 822 less than were in use on January 1, 1915. Not so bad for war times.

RECRUITS WANTED.

The 11th C.M.R.

Is going OVERSEAS IMMEDIATELY sufficient Recruits are secured to bring it

UP TO STRENGTH.

An Unusual Opportunity - Don't Miss It.

ENLIST NOW!

I will be in Summerland till the evening of Monday, May 15

Lance-Corp. G. D. MARSON.

Recruiting Officer.

Look At This!

Some people seem to have so completely inured themselves against all reason in regard to supporting their home community with their trade, that it is next to impossible to convince them that they do not always save money by spending it outside.

Just now in a neighboring town, stupendous sale events are announced by two rival stores. One item noticed in the big announcements is flour of a particular brand, priced specially at \$3.80 per ninety-eight pounds. At the same time one of the local merchants here advertises in this issue the same article at forty cents less. This is not the only instance that could be cited, but it is a representative case.

That Summerland prices are always "up in the air" is not the case, and a little investigation might prove to many people that all things being equal, one gets "stung" quite often by spending money in the stores of outside towns.

At the same time the people have a right to know how their home town prices compare with those in neighboring towns, and if they have placed before them detailed advertisements from these outside points setting forth prices that look alluring, it is not to be wondered at that a certain amount of Summerland money goes to help the development of other places.

There is a moral in this for both the buying public and the local merchants.

Accounts detailed as under were authorized for payment at the Council meeting last Wednesday:

Table listing various expenses and their amounts, totaling \$5,444.35.

The Imported Shire Stallion, Nottingham . . Dusky Rhodes

No. 798, will stand for the season at my stables, Garnett Valley.

Every Saturday at English's stables, commencing Saturday, May 6th.

For terms, &c., apply to L. S. MELROSE, Phone 594.

State your needs in 'THE REVIEW' 'WANT' Column.

Gentlemen.

Having purchased from Mr S. R. Fraser the business conducted by him, I beg to announce that commencing Monday, May 8th, I will be at the West Summerland shop during the hours between 4 p.m. and 10 p.m. daily except Thursday.

Hours down town will be from 8 a.m. to 3 p.m., and Thursday evening.

Your esteemed patronage is solicited.

Newsy Paragraphs

from
PEACHLAND

Miss Dancer of Summerland, who spent Wednesday in town visiting with friends returned home the same evening.

On Wednesday evening Mr A. Town returned from a business trip to Winnipeg. While there he was the guest of his sister, Mrs A. N. McCutcheon.

Trepanier Lodge A.F.&A.M. entertained a large number of visiting brethren from Kelowna, Summerland and Penticton, in their lodge room on Tuesday evening.

Mrs Wm. Aitkens and little daughter, Kathleen, returned home on Tuesday evening from Kelowna, where they have been visiting Mrs Aitkens' sister-in-law, Mrs Wm. Lupton.

Mr and Mrs Morrin, former residents of this place, now of Phoenix, were visitors in town for a few hours on Friday. They were motoring through to Armstrong, but stopped long enough to renew old acquaintances and have lunch.

Miss Bessie Seaton, who has been spending some weeks at her home here, returned to Vernon on Saturday morning, to resume her duties on the public school staff. Her mother, who accompanied her as far as Kelowna, returned the same afternoon with her other daughter, Mrs W. D. Miller.

The funeral of little Buzzy Thompson, who met such a tragic death last week when their home was destroyed, was held at 10 a.m. on Friday. The little coffin was covered with beautiful white flowers. The pall bearers were Masters Tom Drought, Austin Hay, Earl Murdin, and Albert Town.

We are sorry to report that Mr A. Miller, who is suffering from a severe cold, is still confined to his bed.

Master Jas. McKeever spent a few days in town as a guest of Willie Buchanan. He returned to his home in Penticton last week.

Mrs Wm. Lupton and children of Kelowna, came down on Tuesday night to pay a visit to Mrs Lupton's parents, Mr and Mrs C. Aitkens.

Mrs J. Seaton and family wish to express their thanks to the many friends for the kind expressions of sympathy extended to them in their recent bereavement.

Mr J. R. Brown, Indian Agent, and several other men of Summerland, spent Friday in town, the bridge over Deep Creek making traffic impossible. They proceeded home on Saturday morning.

The exceptionally high water of the past week brought down a large quantity of debris, some of which got into the supply pipes and caused a great deal of trouble at the power house and on the domestic water service.

Mr H. Slater was a passenger to Vernon on Wednesday morning. He is away on business connected with the Fruit Union. Mr Archie Seaton is looking after the feed department in his absence.

Owing to the high water the bridge on the lakeshore road over Trepanier Creek was closed for a few days. Jas. Michael, local government road foreman had the work in charge, and it is again open for traffic.

The regular weekly meeting of the Girls' Red Cross Society was held in the usual meeting place, on Monday at 7:30 p.m. The girls wish to thank Mrs Clarence of Edgewater Inn, who so kindly supplied part of the refreshments for the evening.

The regular monthly meeting of the Methodist Ladies' Circle was held at the home of Mrs Wm. Sanderson, on Wednesday afternoon.

On Wednesday, Mr R. J. Hogg had the misfortune to break a bone in his foot. He will be unable to be around for a few weeks.

Miss Ella White, who has been working in Armstrong for the past few months returned home on Wednesday evening. After a short stay here, she will visit her brother in Washington, U.S.A.

Easter Exam Results at Upper Trout Creek School

Fourth Reader—Gwen Harris, 80 per cent; Richard Turner, 77 per cent; Jack Harris, 75 per cent; Chas. Turner, 69 per cent; Hugh Miller, 63 per cent.

Third Reader—Irene Harris, 73 per cent; Ivor Harris, 69 per cent; Hilda Turner, 66 per cent; John Miller, 63 per cent.

Second Reader—Richard Miller, 77 per cent; Sarah Turner, 67 per cent.

First Reader—Eric Harris, 65 per cent.

Keep the little chicks busy by feeding small grains in fine litter.

REGULAR COUNCIL MEETING.
(Continued from page 1.)

a total reduction in the assessment on this property of \$500.

A. A. Derrick has been asking the Council for a water supply to Block 1a, D.L. 674, in Peach Orchard. He was promised this last year, and on this account was rebated the amount of the rates to the beginning of this year. An attempt will be made to supply the lot from a spring nearby.

G. L. Sinclair called upon the Council during the course of their meeting and among other matters asked that a stretch of flume crossing a road near his property be replaced by an underground pipe. The flume as it was now would necessitate a big hump in the road, which would not be good for the large amount of fruit that would be hauled out of that neighborhood over the road this season. He believed this would prove the least expensive in the end. The matter was referred to the Board of Works.

The Irrigation Superintendent asked for instructions as to who should attend to the placing of flumes at road crossings. This work was placed under Mr Thomson.

The Clerk reported on the progress of the proposal for the Municipality to purchase from James Ritchie a five acre tract across the road south from the Central School. The price asked for this land is \$600 per acre, \$3,000 in all, payable in five instalments. It is understood that the intention would be to place this ground at the disposal of the public in general for sports purposes, and it could also be used as an adjunct to the present school playgrounds. Nothing was done in the matter.

APPEALING AGAINST ASSESSMENTS.

Among the most important communications was the notice of appeal served on the Municipality by Mr W. C. Kelley against the ruling of the Court of Revision on the question of the assessments of the following properties: The Misses Spencer, Woodworth lots, W. J. Wilcox sub-division, T. E. Moore estate, and Mr Kelley's own business lots at West Summerland. The case will be heard in Summerland before Judge Brown in a session of the County Court probably next Tuesday. The Council authorized the Clerk to secure the aid of the

"Can't Afford It"

That's what a merchant said the other day about his advertising. He said that trade was falling off and that he would have to economize.

Advertising

is to stimulate business, but evidently Friend Merchant has it figured out that when times are good and folks have plenty of money to spend, he will demonstrate the advantage of spending it with him. But in dull times he will let the other fellow have the business.

It is a Fact

that advertising pays better when times are dull. It is the open season for bargain hunters, and the merchant who has nothing to offer the economical buyer is the first to suffer. The time to advertise is all the time and you can LEAST AFFORD to quit when you need the business most.

firm of Billings & Ladner, barristers, of Vernon, to defend the Municipality in the case. Councillor Stark did not altogether admit the necessity of this course, but it was finally agreed upon by the majority.

A claim for damage submitted by R. Mitchell resulting from an overflow of snow water from the north main, amounting to \$30, was considered too high by the Council, and Mr Mitchell will be offered \$10 on his claim, the same compensation as was granted another ratepayer on a similar claim.

CONSTABLE APPOINTED.

Two applications were up before the Council for the position of Municipal Constable, combining also with this the duties of Sanitary Inspector and Noxious Weed Inspector. J. C. Brown and Alex. Milne were the two applicants, and the position went to the former. The salary has been reduced to \$25

per month. Each Councillor will also nominate one person from his ward to assist the Constable, more especially in regard to the Herd Law, these men to receive the poundage fees arising from such cases.

W. R. McKay tendered \$35 for the democrat the Council offered for sale and this was accepted.

Councillor Johnston introduced the matter of the seepage on the J. A. Kirk property, near Major Hutton's. There is considerable leakage from a good sized ditch, and Mr Kirk desires either that it be lined with cement, or else a wooden flume be built inside the ditch. There is a domestic water pipe laid under the ditch, however, and this precludes the cement lining. It was finally decided to build about a thousand or twelve hundred feet of two foot flume over the ditch, at a cost of about \$300.

Mrs G. L. Young's orchard on Jones' Flat will be connected with the flume system for irrigation

purposes instead of being served with a pipe. This will cost in the neighborhood of \$100.

Councillor Stark asked that the new grader be put to work on Shaughnessy Avenue, but nothing was done about it.

Two other matters touched upon very briefly were daylight saving and "Clean Up Day," but nothing was done in either case.
