

May Commence Okanagan Line Soon

Confidence was expressed by Mr. M. H. MacLeod, general manager of the Canadian Northern Railway, at a conference with the Kelowna Board of Trade last week, that the company would be in a position to start construction on the proposed branch from Kamloops to the Okanagan within the next six weeks or two months.

Mr. T. H. White, chief engineer for the C.N.R., made the trip by auto over the proposed route from Kamloops to Kelowna with the general manager. The company has about 50 per cent. of its right-of-way secured, and has purchased land for stations and yards at Armstrong, Vernon and Kelowna.

The location surveys provide for a railway from Kamloops to Kelowna, via Armstrong and Vernon, with a branch extension from Vernon to Lumby in the direction of Okanagan Landing, the end of the C.P.R. branch from Sicamous. Mr. MacLeod has returned to Winnipeg.

New Times on S. and O.

The new C.P.R. time table, which comes into effect on June 4, or, as far as our boat is concerned, on June 5, leaves the run of the "Sicamous" the same as at present, but makes some alterations in the train north from Okanagan Landing. By the new schedule, the train will leave Okanagan Landing at 2.40 p.m., instead of 3.30 p.m., so that the stay at the Landing or at Vernon will be curtailed 50 minutes. The train arrives at Sicamous 65 minutes earlier, viz. 5.25 p.m., and the train for the Coast leaves at 5.38, giving only a 13-minute wait. Unfortunately, the train for the East does not leave until 10.17 p.m.

Pays Out More Than Receives In Valley.

It may be surprising information to many that almost every town in the Okanagan that contributes to the provincial branch of the Canadian Patriotic Fund has received more in disbursements from the fund than have been paid in from these same towns. This at least was the state of affairs at March 31st, 1916. It may partly be accounted for in this way: that it is only since the beginning of the year that the Valley towns have been contributing regularly month by month, while some of those who receive aid from the fund may have been drawing their monthly allowance for some considerable time.

The following figures, culled from a report given out by the British Columbia branch of the fund, gives the receipts from and disbursements to Valley points up to the end of March of this year.

Town	Receipts	Disbursements
Armstrong	\$1,453.00	\$1,011.08
Endorby	250.00	1,295.50
Kelowna	674.28	3,545.25
Naramata	—	40.00
Pentleton	1,566.00	481.10
Peachland	244.82	108.50
Summerland	402.30	501.50
Vernon	9,468.15	18,857.37

Western Cannery, Ltd. (now company), have concluded a deal for the purchase of the canneries at Pentleton and Kelowna, and will operate them both this season. The Occidental Fruit Company will also put up a small pack of tomatoes, having leased the idle cannery at Okanagan Centre.

Sensing Needs Of the District.

Mr. J. W. Jones Impressed With Possibilities Of Out-Lying Sections.

By his energetic and thorough canvass of the constituency and his perception of what the government might do in the matter of improving conditions in the district without undue expense, Mr. J. W. Jones, Conservative candidate, is creating a very good impression in this part of the South Okanagan.

Mr. Jones spent Thursday and Friday of last week in this vicinity. During this time he visited the districts to the west of Summerland, Mineola, Upper Trout Creek, and the districts adjoining. He is much impressed with the extent of possible farm land in this section. To his mind, dairying or mixed farming suggests itself as profitable possibilities for this stretch of country. Mr. Jones is convinced that there is more than sufficient land available for the support of a creamery if dairying were taken up on a fairly extensive scale. Such an institution could be very advantageously placed near the Faulder Siding, or if better thought of, within the municipal limits, on the benches.

Mr. Jones also received delegations of residents from Mineola and Upper Trout Creek relative to improvements in the roads of these districts that are desired. The ranchers feel that if their roads were improved, it would make driving in far more comfortable and much less strenuous. The road leading from Garnett Valley up to the Lakeside Ranch flat is one that was instanced by the delegation as being in urgent need of attention. Mr. Jones fully recognizes the need of improvement in this respect.

During his sojourn here, Mr. Jones also visited the Experimental Station at Trout Creek. Naturally he was much pleased with the fine showing being made on the Farm by Supt. R. H. Helmer. Discussing his impressions on the matter with the Review, Mr. Jones concurred in the suggestion that the Farm should be made more accessible from the higher benches on the north side of Trout Creek, and he did not regard the project of throwing a bridge across the Canyon with a grade down from each side as unfeasible by any means.

Okanagan College Boy Killed At Big Tunnel.

Two fatalities have occurred within a week or so at the Rogers' Pass tunnel on the C.P.R. Last week F. B. Pettipiece, 19-year old son of R. Parm Pettipiece, labor leader and editor of "The B.C. Federationist," was killed at Bear Creek, at the east end of the Rogers' Pass Tunnel, by the upsetting of a steam shovel. He had been working at the tunnel for Foley, Welsh & Stewart, for the past six weeks.

The second accident occurred on Monday of this week when Olonzo Dupont, of Revelstoke, was killed at Rogers' Pass tunnel while endeavoring to mount the footboard of the engine of the Imperial Limited onstbound, as the train was approaching him.

Dupont was a student at Okanagan College about two or three years ago. He was exceedingly bright and popular, and played on the College baseball team, besides being active in other branches of sport.

Whole Empire Joins In Mourning For Late Secretary Of War.

Mourn for the man of amplest influence,
Yet clearest of ambitious crime;
Our greatest yet with least pretence,
Great in council and great in war,
Foremost captain of his time,
Rich in saving common sense,
And, as the greatest only are,
In his simplicity sublime.

—Tennyson.

EARL KITCHENER.

When the news came through on Tuesday morning that Earl Kitchener, British Secretary for War, had been lost with his staff when the cruiser "Hampshire" sank off the Orkney Islands, there were on all sides expressions of amazement and incredulity. Unhappily the news proved only too true. No information has been given out as yet as to how the cruiser came to its end, but the belief is that by an unhappy chance the ship struck a floating mine. This theory is held to in preference to the opinion that a submarine was responsible owing to the fact that the speed of the vessel and the heavy sea at the time would have made accurate torpedo firing an extremely difficult matter.

Although the disaster occurred within sight of land, not a single survivor remains. Indeed, had the "Hampshire" not been so close to the shore it is doubtful if the disaster would ever have come to light, and the loss of the war minister and his staff would have been only a matter of inference.

Earl Kitchener was on his way to Archangel, Russia, on a diplomatic errand. He was to have discussed important military and financial matters as well with Czar Nicholas.

Three Accidents Within Twenty-four Hours.

No less than three runaway accidents occurred this week, all of them resulting in painful injuries to several victims.

On Wednesday while driving along the road near Dunsdon's in Garnett Valley, where he was working on the new irrigation flume, David Kean attempted to turn out to allow another rig to pass. By a quick turn Mr. Kean with his horse and rig was thrown down the sloping road side, the horse falling on Mr. Kean. It took three men to get the horse off the sufferer. Though no bones were broken, Mr. Kean received many painful bruises, the horse having fallen heavily on his left shoulder.

Another accident on the same afternoon resulted even more seriously. Just after reaching the head of the Guleh Road on their way to Shingle Creek, Antoine Pierre and his wife suffered through the breaking of a link in a trace. Antoine was first thrown out, when the horses plunged wildly forward. Through the horses turning off to the side of the road the democrat came to a sudden stop when it collided with a telephone pole, throwing Mrs. Pierre with great force against the pole.

Dr. Andrew, who was on his way to attend to Mr. Kean's bruises, happened along just then, and ordered both to the hospital. Mrs. Pierre has a broken collar bone,

two broken ribs, and broken points of the latter have penetrated a lung.

Antoine escaped with a bad scalp wound and a number of severe bruises.

A third driving accident, fortunately with less serious results, occurred on Thursday morning. A Chinaman employed by A. E. Hespeler, had driven Mr. and Mrs. Hespeler to the railway station, and was returning, having picked up Fred Gale, a school boy. When passing the Summerland Supply Co.'s store on his way to Scott Darkis' blacksmith shop, the horse took fright at an automobile which had pulled off and stopped to allow the seemingly nervous horse to pass. Suddenly the horse plunged and ran, getting beyond control of the driver. It turned sharply, upsetting the rig and throwing boy and Chinaman out. The latter was considerably bruised, while Fred Gale suffered a black eye and some scratches about the face. The frightened horse continuing, circled about madly, finally colliding with a horse and rig tied in front of the Summerland Supply Co.'s store, bringing it to a stop. Both rigs suffered in the collision.

The Snow apple is believed to have originated on the banks of the St. Lawrence, and was probably the product of seed brought from France between 1600 and 1650.

Crop Prospects Appear Good.

Mr. J. T. Jackson Predicts Increase Of 25 per cent. Over 1915-Crop.

From personal observations and careful inquiries in the different fruit sections of the Okanagan, Mr. Jackson, Manager of the Okanagan United Growers states that the 1916 fruit crop will be a record one. Though stone fruits have been affected to some extent by the severe winter, any shortage in these will be more than made up by the increase in the apple crop. Though yet a little early to make definite statements, Mr. Jackson is of the opinion that there will be an increase of at least 25 per cent.

CROP PROSPECTS GOOD.

Mr. Jackson found conditions as to the crop outlook very similar in Washington to the Okanagan. Soft fruits were hit to some extent by the cold winter, but the apple crop will be fully up to the average. The Washington shippers take an optimistic view of the present situation. Times are particularly good in the Eastern States and the Middle West this year, and it is expected that an unusually large proportion of the Washington crop will be absorbed by these markets at good prices. He found no sore feeling whatever among the Washington growers regarding our increased duty on apples; one shipper stating to him that he was surprised that such a change in the tariff had not been made years ago.

Regarding the prairie markets Mr. Jackson reports the outlook excellent. Even if the wheat crops there will not be as large as last season, he said, it must be remembered that many millions of dollars' worth of wheat were still in the hands of the farmers in April, and as their old debts were more than liquidated by the crops last year, money should be plentiful among the prairie farmers this season. He sees no reason to doubt that the operations of the Unions and the United Growers this season will be eminently satisfactory to all concerned.

OBITUARY.

WILLIAM ARTHUR McLAUGHLIN.

Death carried away another local resident on Tuesday afternoon last, and William Arthur McLaughlin, a good husband and loving father has passed to his last resting place. Mr. McLaughlin and his wife came in last fall to enjoy the climate of the Okanagan, Mr. McLaughlin having been for some little time in failing health. Some three months ago a malignant disease began to manifest itself, and the deceased and his family knew that his days could only be very few.

However, with a buoyancy of spirit, and a cheery disposition, supported by a fine Christian deportment, he faced the incoming messenger with no thought of fear. Indeed it was only on Thursday last that the deceased was out, and returning home he complained of a severe headache. He laid himself on his bed, and in a few hours he fell unconscious. Strange to say he lay in this state until Tuesday afternoon at 4 p.m., when he passed away without regaining consciousness.

The deceased was born in Economy, Nova Scotia, but lived most of his life in Truro, Nova Scotia. He was a true Christian gentleman, and his home life was exemplary. He was for many years a lay preacher, and was also a colporteur of

Military Notes Of Local Interest

Since the severe fighting in which the Canadian Expeditionary Forces have been engaged at St. Eloi, there has been a general reorganization of the Canadian troops held in reserve at Bramshott, Shorncliffe, Borden Camp, and elsewhere, according to latest mail advices. The Fourth Canadian Division, the 11th, is now being made up of these troops. One brigade of this division, the 11th, has been made up of four British Columbia battalions. These are the 54th, largely from the Okanagan and Kootenay; the 47th, of New Westminster; the 67th Western Scots, Victoria; and the 76th Highlanders, Vancouver. The 67th Battalion is no longer an ordinary infantry force, having been converted into a pioneer corps. Officers and men of these units expect that they will leave for France some time in July.

Two more British Columbia units have received orders that they are to stand by for orders to proceed overseas. These are the 11th Overseas Battalion, both now on Vancouver Island. This intimation is interpreted to mean that in about three weeks these units will be moved from British Columbia to the Canadian base in England.

Splendid recruiting work has lately been accomplished on behalf of the 11th Overseas Battalion. Men are being sworn in every day, and the strength of the regiment now totals the 900 mark.

The movement of troops to the Vernon concentration camp commenced this week. It will be some time yet, however, before all the battalions that are expected there will be established in their quarters.

The appointment of C. T. O. Rush to a Lieutenancy in the 11th Overseas Battalion has been confirmed by the Militia Department.

Pentiction Fruit Union Builds Three Packing Houses.

The Pentiction Fruit Growers' Union are launching out to a considerable extent in order to be in a position to handle this season's crop. They will build a new modern packing house in Pentiction, a smaller branch packing house in the northern section of the municipality at Poplar Grove, and also operate a branch packing house at Kaleden. A contract has been entered into for conveying the fruit from Kaleden to the station at Pentiction.

There will be four more or less large companies actively engaged in packing and shipping fruit from Pentiction this year. The British Columbia Growers have purchased the King warehouse. The Co-Operative Fruit Growers, who sell a great deal through the grain companies on the prairies, state that already they are receiving a great many orders by mail.

A fifteen hundred ton ice house was erected last winter and filled with ice to take care of the fruit cars that will be loaded and shipped from Pentiction this summer.

the American Bible and Tract Society.

A brief funeral service was held at the home of the deceased on Wednesday afternoon, conducted by Revs. R. W. Lee and N. McNaughton. The last rites at the grave were conducted by Rev. R. W. Lee.

The deceased is survived by his widow, six daughters and two sons.

FRIDAY, JUNE 9, 1916.

THE MOVEMENT GROWS.

THE STRENGTH of sentiment behind the daylight saving plan is growing everywhere. Toronto and Hamilton are the two latest Canadian cities to fall in line. The United States, that country of big things, is planning the biggest move of all, that of putting the whole country under the scheme. Labor societies, merchants' associations, and civic bodies are all pushing it, and the annual saving to New York city alone for fuel is conservatively put at \$1,500,000.

So far as Summerland is concerned, the adoption of the plan has hung fire too long. The Council must be convinced that there is a strong call for it here, and it scarcely seems necessary that there should be any such rigmarole of preparing and presenting a petition. In Kelowna, for instance, the city council, being satisfied that the farmers, merchants and people generally were in favor of it, undertook to institute it. The method they used was printer's ink in various forms.

Apart from this the Council is the logical body to start the movement here. If they think enough of it to put their own works under it, let them do so on a certain day to be given out. The merchants and people generally will fall in line—naturally enough at the same time. But when representatives of the fruit growers, fruit packers and shippers, business men and even of the Council itself have taken a stand in favor of it, what more evidence is required that Summerland wants daylight saving?

§ § § § §

WHY SOME TOWNS STAND STILL.

THE CITIZENS of a town make or ruin its prosperity. A town is not like Topsey, "Jist growed," says a contemporary. It's people must talk its advantages, push its good points, and set forth its location and adaptiveness for whatever purpose it is best suited.

Weeds spring up unown and flourish unattended, but a field of corn must be cultivated. So it is with villages, towns, and cities. Some one must work to pull the community out of the slough of lifelessness.

The live town is alive because its citizens are alive. The more pep they put into the job, the better for the place. Three or four good workers can raise a town from the dead. In the last fifteen years cross-roads settlements have become flourishing villages, moribund villages have grown into the city class. Regardless of natural advantages, somebody hustled to bring about the growth in each place.

And did these hustlers have the cheerful assistance of their neighbors? Not a bit! The neighbors stood around and kidded and knocked. There was never a leader from the time of Noah down to the present, who did not have to queer the scoffs and scorns and taunts of the ingrates he was trying to help. The town-hustlers who are up and doing get no encouragement from the members of the hot stove cabinet. That is why some towns stand still.

COMPLAINTS as to a lack of uniform quality in prairie butter imported for local consumption will be eliminated shortly to a certain extent if the action of a dairy conference held at Regina lately goes

into force generally. This gathering, the first of its kind ever held in Canada, brought representative dairy experts together to compare the methods of grading butter in the three prairie provinces, and adopt a uniform scale of grading. The purpose was fully realized. Differences in viewpoints were thoroughly discussed, and it was found quite possible to harmonize them, one standard and scale adopted being for all three prairie provinces.

Minimum scores will be as follows: First grade—Flavor, 39 points out of 45; total score, 92 out of 100 points. Second grade: 37 for flavor and 85 for total.

This result means that graders certificates from the three provinces will be practically uniform.

WAR NEWS.

No Excuse To Be Without Reliable News From The Battle Front.

We have pleasure in announcing an arrangement completed with that great family paper The Family Herald and Weekly Star of Montreal by which we can offer the Review and the Family Herald and Weekly Star for the balance of 1916 or until January 1st, 1917, for the small sum of \$1.25.

The Family Herald and Weekly Star is noted for its reliable war news summaries each week, and is replete with most interesting stories from the battlefield. The Family Herald and Weekly Star is a family paper all Canada is proud of, and when combined with the Review our readers are supplied with all the local news and news of the world. In addition to the news, the reader receives in The Family Herald each week a magazine section equivalent to several of the best monthly magazines printed. The Agricultural section is another feature of that great weekly which is keenly appreciated, and is alone worth many times the subscription price. We now offer the two papers for only \$1.25 until 1st January, 1917. Present subscribers of the Review may have The Family Herald and Weekly Star for the balance of 1916 for only forty cents.

County Court Cases.

The June session of County Court was held at Penticton last Tuesday, when two Summerland cases were tried. Robert Hill, the owner of Hill Park Gardens, was the plaintiff in both cases. In one case J. D. M. Brown, former school principal here, defended suit for payment on a land purchase on the ground that the agreement provided for his release on his forfeiting prior payments. Judgment was given for the plaintiff with costs.

In the second case L. G. Blair defended suit contending that C. H. Cordy as agent for Mr Hill had sold the land agreeing to install the water, which had not been done. Mr Cordy denied this. Other technical objections were raised but disallowed. Judgment was reserved.

W. C. Kelley appeared on behalf of Mr Hill in both cases, and Messrs Clayton & Haskins for Mr Blair. J. E. Phinney, C. J. Thomson, and C. H. Cordy were among the local witnesses.

LOCALS.

School children this week inaugurated the bathing season, though they must have found the water a trifle cooler than usual for this time of year on account of the sunshine shortage.

Mr A. E. Bowering of Summerbery, Sask., arrived on Thursday evening's boat on a visit to his brother, J. H. Bowering. They have not seen each other for twelve years.

There seems to be little need to dwell on the unlucky experience of the High School baseball team last Saturday afternoon in their encounter with the Peachland nine on the College Campus, when our Peachland correspondent furnishes all the harrowing details. The Penticton team should also have appeared, but at the last moment they cancelled the engagement and played a game in their own home town.

Mrs W. C. Kelley received word last week-end of the death of her sister, Mrs Rebecca McLean, of North Vancouver as a result of an accident. Her body was found on the P. G. E. Railway tracks east of Capilano Station about midnight last Thursday. An enquiry was instituted and the conclusion arrived at was that the deceased intended to attract the attention of the motorman on board a train and miscalculated the distance on account of the glare of the headlight.

We have by us extracts from a most interesting letter from Miss M. Blott, sister of Mrs F. W. Andrew, and now with the No. 5 Canadian General Hospital at Salonika, Greece. Miss Blott describes very vividly the appearance of a German zeppelin over the city about the end of April, and its destruction shortly afterwards. She has sent home an interesting souvenir of the event in the shape of a small piece of the envelope skin taken from the zeppelin after it had been brought to earth by gun fire. The unique story of the event will appear next week.

CARD OF THANKS.

Mrs W. A. McLaughlin and family wish to convey their sincere thanks to their friends for the kindness and sympathy shown them in their recent sad bereavement through the death of the late W. A. McLaughlin.

If you want to sell you must advertise.

Ambulance League Sends 36th Bale.

Contents of the 36th bale sent to the Red Cross Society by the Summerland branch of the Okanagan Ambulance League:

4 pyjamas, 6 shirts, 7 many tailed bandages, 10 T bandages, 4 head bandages, 2 sheets, 1 muffler, 1 hospital shirt, 1 table cloth, 3 pairs ward slippers, 40 handkerchiefs, 2 bundles face cloths (200), 10 bundles mouth wipes (1,000), 70 wash rags, 9 linen bags, 5 table napkins, 8 tray cloths, 3 face towels, 2 socks for bandaged feet, 1 draw sheet, 1 nurse's pocket, 1 bundle old linen, 3 pillow cases, 6 dish rags.

Whether at home or abroad always speak a good word for the town in which you live. It will surprise you what an added respect for the town you will have after you have followed this rule for a short while.

Large New Evaporator.

The Canadian Products Co., a company recently organized to take over the business of the Duchesnay Packing Co. at Ladner, B.C., is preparing to erect a \$30,000 evaporating and packing plant at New Westminster. The plant will evaporate all kinds of vegetables, and later will handle small fruits, and perhaps milk and eggs. The produce will be obtained as far as possible from the Fraser Valley. Three shifts will be used during the summer season, and between fifty and one hundred persons will be given employment.

The man who gets mad at what the newspaper says of him should return thanks three times a day for what the newspaper knows about him and has suppressed.

Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Potato Experiment.

From the report of J. L. HILBORN to the Department of Agriculture, Covering Operations at the Southern Okanagan Demonstration Station Here, During the Season 1915.

As most people grow a greater or less quantity of early potatoes each year, with but little available knowledge as to which are the best varieties to use, a small experiment was undertaken to learn which was the best of six varieties as to their value for producing an early marketable crop.

As the land available was limited, as also the stock of seed of some varieties, the planting was done on a small scale, hence I gave it close personal attention, and was very careful to give all varieties an equal chance. Three pounds of seed was used in each case, medium sized potatoes being selected, and each lot was cut into 42 pieces, most of which contained two or more eyes. We attempted to grow these as nearly as possible just as we would if growing a large field for commercial purposes.

The plot selected for this test was between six year-old apple trees that were in good bearing. The tree rows were 30 feet apart, and we put four rows only of potatoes down the centre of this space that they would be well away from the trees. Late in the previous fall the land which is a gravel loam, was treated to a light coat of rotted manure, and then ploughed. In spring it was well worked up with an orchard cultivator, levelled with a plank drag, and on April 22nd furrows were made with a small plow, three feet apart. The potatoes were planted one foot apart in these and covered with a plow. The land was carefully measured, so that each variety occupied a space 3 feet by 42 feet. As the plants appeared above the ground, the plot was gone over with a light harrow, and after they were well up, they were gone through with a one horse cultivator. The cultivation was repeated at intervals of a week to ten days to hasten growth. They were irrigated on two or three occasions when they appeared to require it, leaving the water on from two to three hours only, and a day or two thereafter, as soon as land was dry enough to pulverize well, the cultivator was again passed through them, always using a large tooth in the centre at the back of the cultivator, leaving a furrow ready for the next irrigation, when required. We find this method of always leaving a furrow behind the cultivator very satisfactory with all vegetable crops we grow. The plot was gone over once with a hoe and weeds removed.

The potatoes were planted on April 22nd and dug on July 15th, allowing 84 days' growth. Following is the result:

Variety	Total weight	Weight marketable size	Tons per acre.
Cameronia	60 lbs.	57 lbs.	9.8
Early St. George	58 lbs.	55 lbs.	9.2
Early Rose	56 lbs.	55 lbs.	9.2
Bovee	50 lbs.	48 lbs.	8.25
Irish Cobbler	46 lbs.	44 lbs.	7.6
Extra Early Eureka	44 lbs.	43 lbs.	7.4

So far as one can decide by one test the Cameronia is the best variety for this purpose, and Early Rose comes next, while the Early St George gave as good a yield of potatoes that could be called marketable, they run smallest in size of any sort. It will be noticed that there is a gain of about 2 tons per acre in some of the tests caused entirely, so far as one can judge by one test, by difference in variety.

California Fruit Standardization Laws.

An act to establish a standard for the packing of fresh fruits will be in effect in California this year. Its scope includes fruit packed for immediate sale, or for transportation for sale, but fresh fruit sold in bulk or loose does not come within the scope of the law, the object of which is to prevent deception in packing by establishing a system of inspection.

Some of the main provisions are as under:
All fruit packed must be of practically uniform quality and maturity.

Peaches, apricots, pears, plums and prunes must not vary in size more than 10 per cent., and no layer below the top layer shall contain a greater numerical count than the top layer. When packed in boxes each box shall contain the same numerical count in each layer; provided, that in the case of peaches the approximate number of peaches shall be marked upon the outside of each box, and the number shall be within four peaches of the true count.

Berries shall be packed in uniform packages of a dry quart containing an interior capacity of 87.2 cubic inches, or dry pint with an interior capacity of 33.6 cubic inches.

Cantaloupe shall be placed in standard crates 12 by 12 by 28½ inches, containing 45 cantaloupes of uniform size and maturity, Pony crates 11 by 11 by 28½ inches, containing 45 fruits, and Jumbo crates 4½ by 18½ by 28½, containing 12 or 15 fruits of uniform size and maturity.

APPLE STANDARDIZATION.

The provisions of the act are also applicable to apples packed, shipped, delivered for shipment, offered for sale or sold in any container upon which the word "standard" is used.

The following standards for apple

boxes are established:—

1.—The standard container shall be a box of the following dimensions, measured inside: Depth, 10½ inches; width, 11½ inches; length, 18 inches; cubical contents, 2,173½ cubic inches. A smaller box may be used if plainly marked with the words "short box."

2.—No statement, design, or device appearing on the box shall be false or misleading in any particular.

3.—Each box shall be labelled with a statement giving: the number of apples in the box; the style of pack used; the variety of apples contained, unless it is unknown to the packer, in which case it shall be stated as "unknown;" the name and business address of the person, firm, company, organization, or corporation who first packed the same, and, if repacked, the name and address of the authority concerned in the repacking; the name of the locality where grown; the date, when first packed; if repacked the date of repacking.

4.—The apples contained in each box shall be well grown specimens reasonably uniform in size, mature, free from dirt and disease and other defects, except such as are necessarily caused in the operation of packing; provided, however, that a variation from the standard shall not be allowed to exceed a total of 10 per cent., nor 3 per cent. for any one such defect.

The State Commissioner of Horticulture has power to inspect all places concerned with the preparation and movement of apples; to issue suitable stamps for use on apple boxes, and to prescribe for the method of cancelling the same; to appoint, superintend, control, and discharge inspectors for the special purpose of enforcing the provisions of this act; to cause to be seized and retained any apples or apple boxes packed or put on the market in violation of any of the provisions of this act; to cause to

be instituted and to prosecute actions for the condemnation of apples under the violation of the act. Every box of apples to which this act is applicable must bear a stamp designed by the State Commissioner of Horticulture, which shall be cancelled after inspection.

CLEARING-UP DAY

To All Whom It May Concern:

I, Thos. H. Riley, Agent, do hereby proclaim Monday next and each succeeding Monday a day for clearing up all accumulations of soiled linen, etc., to be collected for despatch to the Pentiction Steam Laundry, there to be thoroughly washed in accordance with the latest and best methods guaranteed to remove all uncleanness without destruction to the fabric.

Women's Institute Hold Interesting Session.

The June session of the Women's Institute on Tuesday afternoon drew a record attendance. The feature of the program was a demonstration by Mrs. Cook, working with cornmeal. She showed how best to prepare corn meal porridge and fried mush. Mrs. H. T. Davies showed how to make an economical icing which proved of special interest.

Then in the course of the afternoon Mrs. Rayner took the women by surprise by showing how to preserve fruit without sugar.

The current events were read by Mrs. Lyons.

In the course of a discussion that reverted to the school flag, Mrs. Aikins offered to supply the material for a really serviceable flag. This very generous offer on the part of Mrs. Aikins and of the Institute ladies to make the flag will prove a most acceptable gift indeed. It only remains for the men to get busy and move the flag pole to the corner of the lot, where it rightly belongs.

The next gathering of the Institute is to take the form of a Flower Show—but of this more later.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be held for.

Current Events - OF - Town & District

Farmers' Institute meeting to-night.

Mr. George Dempsey spent this week in Summerland on business.

Mr. J. M. Robinson is expected back from Victoria about the middle of the month.

Mrs. M. Morsch, a former Naramatian, was in town on Tuesday as a guest of Mrs. Fred Simpson.

Fruit Pests Inspector F. G. Castner paid the district a visit on Monday. He reports that this district is remarkably free from diseases.

Messrs Jack Lawler, Hilton Snider and C. H. Sismey of Summerland motored over to Naramata via Penticton on Monday. Manager Lawler is anticipating a very satisfactory season's output.

The petition circulated some few weeks ago praying for the continuation of the present pastorate of Rev. R. M. Thompson, has resulted in our favor. It will be good news therefore to all church goers.

Red Cross Notes

The following list of articles have been prepared for shipment by the local branch of the Red Cross Society:

12 pairs pyjamas; 6 pairs vermin proof suits; 1 bundle containing 100 mouth-wipes; 15 pillow slips; 47 T bandages; 36 head bandages; 4 bundles containing 40 handkerchiefs.

Contents of the 35th box: 54 T bandages; 61 head bandages; 5 abdominal bandages; 8 scrap books; 22 pairs slippers; 32 pairs socks; 7 shirts.

Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

Headquarters—ELLISON HALL.

Meets every Friday in Ellison Hall. Visitors cordially invited to attend. Recruits apply at any meeting. Scoutmaster J. Tait. A.S.M., H. Harris. Physical Instructor, G. Dale.

The "Scouting Game" was held last Friday evening, and was in every way a success. The Third Patrol, led by Instructor Dale, were the attackers. The defenders had a tight cordon drawn round the hall, and while there was daylight, none broke through. As dusk approached the excitement grew, especially when cracking was heard among the undergrowth. Each attacker wore a strip of cloth on his shoulder, and it was the defenders' object to get these.

The results, however, were in favor of the attackers, the score being 40-38.

Scoring was as follows:

Defenders.
J. Miller, M. Marshall, B. Munn, A. Munn, H. Foreman were caught; 6 points each for defenders— 30 points
J. Miller, M. Marshall, H. Foreman, G. Dale, seen at another time by defenders; 2 points each for defenders—

8 points
Total - 38 points

Attackers.
G. Dale, S. Cox, D. Ritchie, W. Gayton, broke through safely; 10 points each—
Total - 40 points

After the game the troop was ordered to fall in, and roll was called. Forty-three boys were present. Scoutmaster Tait then gave out the results of the game, and after a few comments the meeting closed.

To-night, Friday, a route march is to be held, and a good turnout is expected.

A SUMMERLAND SCOUT.

REVIEW Job Printing Dept.

Summerland, B.C.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

Passing Events: Social, Personal, &c.

Lieut. Bruce Cash of Naramata was a passenger on the boat last Saturday, coming up to spend a few days with his mother.

Mr J. J. Mitchell and daughter, Miss Jessie, left last week-end on what will be an extended visit to Prairie points and farther east.

The Patriotic Whist Club intend holding an ice cream social on the lawn of Mr and Mrs Thos. Washington on Thursday, June 22nd. Proceeds for Red Cross.

Miss M. Wismer and Miss O. Gummow of Garnett Valley were visitors in Penticton over Sunday. While there they were the guests of Miss G. Gummow of the Ellis School teaching staff.

Mesdames A. Moyes and J. O. Smith were visitors to Penticton on Wednesday evening's train, spending that night at the home of Mrs J. Clark, a sister of Mr Moyes, formerly of this place. They returned on Thursday afternoon's ferry boat.

Mr T. J. McAlpine leaves here in a few days to take charge of development work for Mr Jas. Ritchie on some of the timber limits which the latter has lately acquired on the Coast, north of Vancouver. Mrs McAlpine expects to follow her husband about two weeks later.

Rev. A. Henderson of Peachland, recently appointed to the pastorate of the Summerland Methodist Church, has been in town this week. Though Mr Henderson begins his pastorate at once, occupying the pulpit on Sunday the 18th, it will be some little time before he finally settles in the parsonage.

The regular monthly meeting of the Summerland Women's Institute will be held next Friday afternoon at the home of Mrs J. Tait. The meeting will take the form of a lawn social. Strawberries and cream will be served, and ladies are requested to bring their patriotic sewing or knitting. Mrs McGregor of Penticton has kindly consented to be present and give a few readings. Proceeds for Patriotic Fund.

Ice Cream and Sodas.

The Home Comfort Club will meet on Thursday evening next at the home of Mrs R. H. English.

The "Okanagan" has been doing duty on the daily run up and down the lake for the last two weeks, while the "Sicamous" has been undergoing a periodical boiler cleaning and general touching up.

Mr J. R. Brown returned from Vancouver by Monday evening's boat, his daughter, Miss Evelyn, accompanying him. Miss Brown has been compelled on account of ill-health to relinquish her position on the Port Moody teaching staff.

Col. R. Cartwright went up to Vernon by Thursday morning's boat to resume the duties of his appointment as musketry instructor at the Vernon Camp. Col. Cartwright has held the appointment since the first organization of the big summer camp in 1915.

Mr R. McGeorge, expert Piano Tuner and Regulator for Mason & Risch, Limited, intends being in Summerland within the next two weeks. Parties requiring his services for Tuning, etc., will kindly leave their orders at the Review Office. j2-9

Rev. N. McNaughton is exchanging pulpits on Sunday next with Rev. G. A. Paull, of Penticton, who will preach in the Parkdale Church in the morning at 10.30. The usual Baptist evening service in the Lakeside Church has been withdrawn in order to allow a united congregation to attend the special Methodist service.

Mr John Hadley of Nevada City, California, came in on Thursday evening's boat, and is remaining till Saturday morning. He is making one of his periodical visits in connection with the Prairie Valley orchard property of his late brother. Mr Hadley spent the winter at his California home town, and is now on his way back to Brandon, Man., where he has business interests.

Mr L. Norris, government agent at Vernon has recently been reappointed the official registrar of votes for both the Northern and Southern Okanagan electoral ridings. Now that the Valley has been divided into these two distinct constituencies, isn't each one entitled to a separate registrar of votes? It would be a matter of greater convenience were an official appointed for the Southern Okanagan.

Those who recall the former visit of Mr J. W. Bengough, the Canadian cartoonist, to Summerland some years ago, will learn with satisfaction that the will appear here again on the 24th inst., in the College Gymnasium. Mr Bengough's visit here is under the auspices of the People's Prohibition Movement, a cause for which Mr Bengough is an ardent advocate. He has been touring the province, and ends his journeyings through B.C. by a trip through the Okanagan, Similkameen and Boundary districts. His prohibition chalk talk here will be awaited with pleasurable anticipation on all sides.

Summerland was treated to the novelty of a real minstrel show on Wednesday evening, Reese's Africander Company providing the diversion. An additional excitement was provided by the fact that they brought with them a real brass band. Just how long it is since a brass band paraded the streets of Summerland it would be hard to say. Certainly it takes a good stretch of memory to recall the occasion. The band provided great diversion for the school children, and grown-ups as well, by giving an impromptu concert in the school grounds during the noon recess. A little later the instruments burst out into music on Shaughnessy Avenue, much to the joy of the children of the Town school, who had been anxiously awaiting the arrival of the musical darkies. The advertising enterprise of the show had its results in the good house that patronized them in the evening at Empire Hall. The entertainment was clean, and just what it should be-amusing and clever. There was plenty of quick-fire joking, some clever dancing, good singing, and orchestral music, while the acrobatics and gymnastics were unquestionably of a good order. Many entertainments far less worthy than the Africanders have toured the Okanagan.

Miss Jean McIntyre has returned from a visit to Vancouver.

Mr and Mrs C. C. Aikins of Naramata were guests last week-end of Mr and Mrs Clouston, coming around by motor.

Roy Darkis continues to make excellent recovery from his recent serious illness, though some time must necessarily elapse before he regains his former measure of bodily vigor.

Chairman Johnston of the Public Works Committee and Mr R. Mitchell are at the headwaters of Trout Creek. They left here on Wednesday morning, expecting to return on Friday night.

Mr Fred Neve of this place has been appointed chief fruit packer with the Penticton Fruit Union. Mr Neve's ability in this line is well known. During the winter he was an instructor in government packing schools.

Mr and Mrs J. E. Phinney left here on Thursday morning for a visit in Vancouver. Mr Phinney goes to represent his lodge at the provincial gathering. Mrs J. R. Conway, their daughter, accompanied them from Vernon.

Advice has been received of the death of Mr John Peel of Hellfield House, Hellfield, Yorkshire, Eng. Mrs C. P. Nelson is his niece. He was the owner of the property situated between the lots owned by Professors Moore and Denton, on the east side of Giant's Head.

The Fruit Union is now making preparations for handling the season's crops. It is understood that Mr Geo. Craig, who was last year in charge of the Naramata packing house, will be in charge of the house at West Summerland, and that the Naramata appointment will go to Mr Hilton Snider.

Fishing is the popular pastime of the season-among the lucky ones who can take the time. The fish are biting well, and trolling from a boat, or casting a line off one of the wharves all seem equally successful. It has been quite a common sight lately to see proud fishermen on the street with a good catch of fine looking fish.

A movement is on foot that may bring about a union of services between the Presbyterian and Baptist congregations, to be conducted by Rev. N. McNaughton. Definite proposals will be laid before both bodies almost immediately, and if these are favorably received, the union arrangement will come into force within three or four weeks.

Divine service will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by Rev. R. W. Lee, who will preach in Summerland for the last time prior to leaving for Armstrong. The evening service will be of special interest, and will be, in part, a memorial service in memory of the late Earl Kitchener. Special music will be rendered, and the "Dead March" will be played by the organist.

Rev. R. W. Lee returned from Vancouver last Friday evening, after attending conference sessions in that city. Mr Lee's appointment to the pastorate at Armstrong, as already announced, will stand, and with the services next Sunday, mention of which are made in another item, Mr Lee will conclude his ministry with the Summerland Church. He expects to leave for Armstrong with Mrs Lee and family on Wednesday next.

The death of Marjory Spivey, eight months old daughter of Mr and Mrs Walter Spivey, occurred on Friday last. The body was laid away in St Stephen's Church cemetery. The family recently arrived here from Olds, Alberta, and are now residents of the Morningside district. The little one and his eight-year old brother had both been suffering severely from whooping cough, contracted just before leaving Alberta. The little boy is now recovering.

Fall Fair Dates.

Some of the dates arranged by the Department of Agriculture for the Fall Fairs throughout the province for the season of 1916 are given below: Vancouver - August 14-10 Enderby - In August, if held. Kolowna - September 26-27 Armstrong - September 28-29 Penticton - October 9-10 SUMMERLAND October 11-12

Newsy Paragraphs
from
PEACHLAND

On Sunday evening special song service was conducted in the Baptist Church by the pastor, Rev. Mr. Scott.

Mr James Moore spent the week-end with his parents, Mr and Mrs Wm. Moore, returning to Penticton Monday evening.

Miss Mary McLaughlan was a passenger south to Penticton Monday evening on a visit to her sister, Mrs D. A. Kirkby.

Rev. A. Henderson who attended the Conference of the Methodist Church at Vancouver, returned home Friday evening.

We are glad to report that Mrs B. Michael, who has been seriously ill at her home here, is improving. We all wish her a speedy recovery.

Saturday evening of last week Mr A. Town returned from Vancouver where he attended the Conference of the Methodist Church.

Mr and Mrs Jas. Hay are enjoying a visit from their younger daughter, Miss Vera, who arrived from Vancouver last Tuesday evening.

Last week Mr and Mrs Wm. Logan of Kelowna were visitors at the home of Mr and Mrs Wm. Douglas, returning home on Monday of this week.

The regular monthly meeting of the W.M.S. of the Methodist Church was held at the home of Mrs N. S. Elliott, on Wednesday afternoon.

On Tuesday evening the pupils who are to write their entrance examination were examined in reading by Mr Anstey, Public School Inspector.

June 23rd, Bengough, the world-famous cartoonist, will be in town. Come and see yourself as others see you, Friday evening, June 23rd, in the Orange Hall.

Mrs Wm. Aikens and little daughter Kathleen were passengers to the Coast Friday morning of last week. They will visit Mrs Aikens' parents, Mr and Mrs R. Cousins, of Vancouver for a few months.

Mr H. Slater, local manager of the Fruit Union, who with Mr Jackson and other managers in the Valley had been touring the States to the south of the line, returned last Wednesday evening by auto.

Mr L. D. McCall, foreman of government pile driver, who for the past week has been at Okanagan Landing driving piles for the C.P.R., returned home on Wednesday of this week.

Mr A. Stabler, who is travelling in the interests of the Organized Bible Classes, gave a short but interesting address at the Methodist School last Sunday.

Miss Nancy, daughter of Dr and Mrs Buchanan, left last Friday morning for Vancouver on an extended trip. We all hope she will thoroughly enjoy her visit but will soon return, as she will be greatly missed among her circle of friends.

On June 3rd the members and adherents of the Baptist Church held a picnic at the home of Mrs Cousins at Trepannier. Tennis, baseball and many other games were enjoyed by old and young, after which tea was served by the ladies. All report a very enjoyable outing.

Guests at the Edgewater Inn this week are as follows: Frank W. Evans, G. W. Hicks, Colin C. Brown, Dr G. A. Wilson, A. Stabler of Vancouver, A. P. Chartrand, Mr and Mrs Lupton of Kelowna, Mr and Mrs A. P. Augustine, Mr and Mrs Wagenhauser, and Miss Wagenhauser of Penticton, and A. Anstey of Vernon.

Rev Dr Wilson of Vancouver was in town last week. On Friday evening he presided over a joint meeting of the boards of the Presbyterian and Methodist churches, to formulate plans for the change which is about to take place, viz., when the semi-union congregation passes under the management of the Presbyterian Church. Rev. A. Henderson, who for the past four years has been pastor of the Methodist Church, goes to Summerland to fill Rev. R. W. Lee's pulpit. Next Sunday evening he will preach his farewell sermon.

Peachland Defeats S'land Nine.

On June 3rd, the Peachland nine with their ardent fans and rooters journeyed to Summerland to return the game owing the boys of that town. Although the weather had been somewhat unsettled, the day was all that could be desired for either ball or picnic. The visitors combined both by having luncheon on the College campus. The baseball game started about 3 p.m. Things looked pretty blue for the visiting nine, when towards the end of the third inning the tally showed three runs to Summerland's credit with Peachland still scoreless. In the next inning Peachland

made a getaway and although Summerland managed to force a man over in the fourth, they were kept from scoring for the rest of the game, while Peachland forced their men over one at a time. The game ended, with an eight to four score in favor of the visitors. They were sorry to learn that this was the last game they were to have with Summerland for some time. The Peachland boys have always known the Summerland nine to be "clean sports" who would win or lose fairly.

After the game the visitors had supper at the Hotel. The victorious nine and friends then treated their fair fans to a trip to Penticton by auto, where they took in the movies. It was late when the party reached home, but all were delighted with the day's outing.

McWilliams and Howis Send Words Of Appreciation.

Home Comfort Club Doing Good Service.

Bramshott Camp, Liphook, Hants, May 13, 1916.

Dear Mrs Hogg,
I hasten to thank you and your very kind Comfort Club for the splendid parcel of little luxuries I have just received. You have the exact idea of just the things we prize so much, and hereabouts find almost impossible to procure ourselves. I cannot begin to express my gratitude in the terms you all deserve. I've no doubt, however, that you have had many thankful letters, and will understand in some measure the great times you give us. A Scotchman pronounced the shortbread perfect, and could scarcely be persuaded it came from anywhere but the original "Land o' Cakes." One or two Summerland boys handy here also bear me out in praising the contents generally.

I'm afraid I cannot give you anything of interest in the way of news—our activities being still confined within English borders. It looks likely, however, that it may not long continue so. I had an interesting meeting in London the other day, however, with an old friend you will remember and be glad to hear about—namely Roy Stevens. He is a sergeant in the P.P.C.L.I., and was on a few days leave from the trenches, where he has been for about ten months. Now, I think he could doubtless write a really worth while letter.

With very best wishes to all kind friends,
I am, Sincerely Yours,
H. C. HOWIS.

Belgium, May 11, 1916.

The Secretary,
Home Comfort Club,
Summerland, B.C.

Dear Madam,

Some little time ago I received a parcel from the Home Comfort Club, and if I have been tardy in thanking you please set it down against Fritz and not to lack of appreciation on my part.

Perhaps if I tell you something of the circumstances under which I received your parcel it will do more than any assurances I might give to convince you that the kindly and unselfish efforts of those at home are fully appreciated by those of us who are away over here so far.

We had been up in the trenches doing a sixteen days shift, part in front line and part in supports, and no one was sorry when about midnight we were relieved. Then followed a ton mile tramp back to camp, and it was four o'clock and the grey dawn when we got there, tired and sleepy and hungry and dirty.

I can't suppress a smile when I think of the old Victoria days when we used to get ourselves dolled up to go down town in the evening—boots polished, buttons and badges shining, spurs gleaming, and jaunty riding whips atwirl, all as befitting proud warriors of the King's cloth.

But that's aside. At least we weren't putting on any "swank" that morning, and about our only ambition was to get between the blankets and get there in a hurry, and that we at once commenced to do.

Suddenly someone yelled "mail." There are three calls that never fail to arouse Jack Canuck to enthusiasm, "mail," "grub," "pay." It was mail this time, and it was brought, the accumulation of several days, and including a big Canadian mail. Beds were forgotten, and from all sides came the one question, "Is there any for me?" Well, that's when I received your parcel. There were a number of parcels among us, all were opened,

A SELECTION OF CUPS & SAUCERS

Better Prices, Less Expense.

Notwithstanding the fact that apple growers in Washington State receive from 20 to 25 cents less per box for their apples than the net returns to growers here, Manager Jackson found, on his recent visit to fruit districts in that state, that it cost the Americans more to handle their output than it does Okanagan growers.

It would seem that greater volume per tree and acre is now our most logical aim. Many methods are suggested by as many experts. Feeding the soil is conceded as very necessary. That we have been for years back pruning too vigorously is the statement of many, and visitors to districts producing heavily are inclined to think that we have here been overdoing the pruning.

The caterpillar's range of vision has been measured. It is two-fifths of an inch.

thereby becoming common property. My prize packet was the sack of Old Chum, which was hailed with delight as an old friend. Certainly mail from home is a great reviver. Somehow none seemed in any hurry to get to sleep. There was joking and laughter and a spirit of good cheer as we all squatted there on the floor, reading, eating, talking. It would be a mistake to infer from the above account that this life is all work and no play. Far from it. We have some good times, and nowhere I think is there greater optimism than among the men who are constantly exchanging souvenirs with Fritz. At present I am looking forward to getting my leave at an early date, which means a merry week in merry England. I shouldn't say "at an early date" so positively, for leave is as elusive as a greyback on a flannel shirt. Pardon the comparison, but as I've just been chasing one, it (the comparison) slipped in. Cheer up! I'll catch both leave and greyback yet.

Once more to the Home Comfort Club my sincere thanks and good wishes.

Yours sincerely,
FINLEY McWILLIAMS.

School Report For May.

DIVISION I.

Senior Fourth—Hazel Steuart, Joe Gayton, Lucy Hargreaves, Lily Simpson, Edward Morsch.

"Can't Afford It."

That's what a merchant said the other day about his advertising. He said that trade was falling off and that he would have to economize.

Advertising

is to stimulate business, but evidently Friend Merchant has it figured out that when times are good and folks have plenty of money to spend, he will demonstrate the advantage of spending it with him. But in dull times he will let the other fellow have the business.

It is a Fact

that advertising pays better when times are dull. It is the open season for bargain hunters, and the merchant who has nothing to offer the economical buyer is the first to suffer. The time to advertise is all the time and you can LEAST AFFORD to quit when you need the business most.
