DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 10, No. 14. Whole No. 483.

SUMMERLAND, B.C., NOVEMBER 2, 1917.

\$2.00, payable in advance.

## Hon. Martin Burrell Chosen Candidate For Yale District

Minister Considered Only Possible Nominee by Lib-Conservative Convention.

While Not Endorsing Him, Liberals Will Not Oppose Member of Union Cabinet.

Liberals and Liberal-Conservatives of Yale District met in convention on Wednesday night at Penticton, the object being to select a candidate for the new union, or coalition, win-the-war government.

Old traditions are hard to throw over, and party differences not easily obliterated, for delegates were elected from each local by each party, and these met in separate quarters, the Conservatives in the reading room of the Incola and the Liberals in Burtch's Hall.

There were present at the Liberal-Conservative gathering about eighty delegates, and sixty more were represented by proxy. Advantage was taken of the occasion to form a Liberal-Conservative Association for Yale district. Officers elected were as follows: Hon. President, Sir Robert Borden; President, J. A. McKelvie, Vernon; Vice-Presidents, H. L. McKenzie, Grand Forks, Robert Lee, Greenwood, Dr. White, Similkameen, R. F. Morrison, South Okanagan, and A. O. Cochrane, North Okanagan; Secretary, L. A. Shatford; Treasurer, C. E. Weddell; Executive Committee, R. F. Gardner, J. R. Jackson, W. E. Haskins, E. R. Simpson, and F. Hassard.

The Conservatives opened their session with Mr. J. W. Jones, M.L.A., in the chair.

By an understanding between the two conventions each body appointed ten delegates to meet and confer on the question of selecting a candidate acceptable to both. The Conservatives were unanimous in the opinion that only one man should be considered, namely Hon. Martin Burrell, who, as Secretary of State and Minister of Mines, is already a cabinet minister in the new government, and so instructed their representatives on the joint committee. The ten from the Liberals, after hearing the views of the Liberal-Conservatives, and learning their stand, retired to report to their convention.

There followed a lengthy discussion in the Liberal gathering, and it was not until between three and four o'clock in the morning that the ten returned to the committee room to report that the Liberals would not take part in the selection of a candidate, and that their attitude would be published in the press.

Before dispersing, the Liberal-Conservative convention passed a resolution of confidence and congratulation to the Premier, and another addressed to Hon. Martin Burrell as follows:

"That this convention of the Liberal-Conservatives of Yale having tendered its congratulations to Sir Robert Borden on the success which has attended his efforts in the formation of the Union Government also extends its congratulations to the Hon. Martin Burrell upon his inclusion in the new Unionist Cabinet, and pledges him its most hearty support as a unionist candidate for the riding, he having signified his willingness to accept nomination as such."

By another resolution the convention dealt with the prevailing patronage system thus:

"That this convention places itself on record as being opposed to any form of so-called patronage, and considers the present an opportune time of initiating action which will effectually eliminate its practice."

The meeting then adjourned.

The Liberal convention was opened by the retiring president, Mr. McCauley of Penticton. The five ridings in the District of Yale were represented by 45 delegates, who brought about an equal number of proxies.

A resolution was carried early in (Continued on page 6.)

## FEDERAL ELECTIONS DECEMBER 17th

Vancouver, Oct. 31.—It was officially announced at the close of the Cabinet Council in Ottawa this afternoon that the Federal elections should be held on December 17th. Nomination takes place on November 19th. The Duke of Devonshire is to sign the order to-night.

At Armstrong the Evaporator Co. is paying \$22 a ton for potatoes, without bags.

## Cukes Return \$3,000 per Acre

Excellent Record Made by Local Fruit Grower.

The Provincial Department of Agriculture has just been officially notified by the proprietor of the Kill-Kare Farm here that from one and four-ninths of an acre, the cucumber yield filled 5,445 peach boxes, or approximately 54 tons. The average selling price of the (Continued on page 2.)

## Thirty Carloads Apples a Week

Local Shipments Keeping Up Storing Late Keepers.

With every person available busy on the gathering and packing of apples, as they have been for weeks, every effort is being made to get the crop all under cover before freezing weather. From early morning until late at night the pickers are busy, while in the pack- (Continued on Page 2.)

## FARM IS ADDING PIGS AND POULTRY

Another line to be taken up this winter by the Experimental Station will be poultry. Already one hundred pure bred White Wyandottes have been ordered from the station at Sydney. An administration building for this branch will be built. It will be 26x32, and will contain a basement in which will be installed later a mammoth incubator. This building will also con- (Continued on Page 2.)

## Telephone Case at Vernon Assizes This Week.

Case will be Argued Before Judge on December 5th In Vancouver.

Removal of Poles in Garnett Valley to Make Room for New Line is Admitted.

The long pending case of the Okanagan Telephone Co. vs. the Summerland Telephone Co. was heard at the Vernon Assizes this week. The evidence was all taken, but the case has been adjourned until December 5th, when it will be argued at Vancouver.

The case is one with much local interest, being one in which the municipality, as well as the local company, is concerned. Suit for a sum amounting to over \$4,000 was brought by the plaintiff company for alleged damages to its local system by the removal of poles in the Garnett Valley section. Included in the bill of damages was an item for the cost of rebuilding the line in question, something less than \$600, according to evidence of the plaintiff. The large sum stated as damage sustained is said to be based on the price paid the Lakeshore Company for its system. In all about four miles of the line was involved. The parallel line built by the local company, carrying cross arms and a number of wires cost about \$800, according to the secretary-treasurer, K. S. Hogg. The plaintiff company at first claimed that it would require \$1,000 to replace their line, but detailed figures given in the witness box totalled less than \$600.

It was brought out in the evidence of President Mellor of the local company, that they had not been approached by the Okanagan Co., their first intimation of claim being by writ.

Reeve Blair gave evidence that the local company had been instructed to build its line where it did, as the other side of the streets were occupied by electric light line. Municipal Clerk Logie testified that the Lakeshore Telephone Co. had never obtained permission, nor had they the right to build the line, and that while the plans had been demanded by the municipality on several occasions, and Manager Stevens had promised to submit same for approval of the council, he had never done so. Mr. Logie maintained that the pole line had no legal right on the streets.

Mr. Mellor stated that immediately the writ had been served he had called the directors together, and Mr. Atkins was instructed to make a complete report of poles cut. The company then admitted to their men having cut down 26 poles, and offered to make good the damage done. As it was impossible to effect a settlement, a sum, believed to cover the cost, was paid into court.

That the poles were cut down with malicious intent was not proven. Evidence given by Coun. Campbell, J. J. Mitchell, K. S. Hogg, and O. Atkins was largely for the purpose of showing that the Okanagan lines were in disrepair.

T. J. McAlpine and H. C. Mellor also gave evidence as to (Continued on Page 6.)

## C.P.R. Appoints Local Agent.

Mr. A. E. Sharp, now of Shuswap, has been appointed to the position of C.P.R. agent here. He is expected to arrive here immediately, probably bringing his family at the same time. Mr. Sharp has been with the company for many years, and, at one time, was agent at Endorby. It may be of interest to our readers to know something of the method employed to fill vacancies among the huge staff of the big railway company. Seniority of service counts, and when a vacancy occurs it is advertised among the employees, and each one who desires is given an opportunity to apply. The one, among the applicants, longest in the service, is given the position.

# Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000.

Canada has spent in Canada over \$400,000,000 on her own account.

Canada has spent in Canada on behalf of Great Britain over \$300,000,000.

What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.

Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.

Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same great Empire, kin of our kin, our motherland.

For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

★ ★ ★

Now, Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.

Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.

And the producers must be paid, in cash.

Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.

The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages,

for rent, materials, etc. They must be paid in cash, or its equivalent.

So Canada says to Great Britain—"I will lend you the money so that you can pay cash to Canada's producers for what you want."

"I will borrow this money from our own people just as you borrow money from your people."

"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."

That is Canada's practical, patriotic part in helping to win the war.

Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.

So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

★ ★ ★

Now how does Canada get the money by which both Canada and Britain can pay cash for Canada's products?

By borrowing it from the people of Canada through the sale of Canada's Victory Bonds to be offered in November.

That is why Canada's Victory Bonds are offered to the people—to raise money to help to finish the war.

"Canada must keep her shoulder to the wheel even though it be a chariot of fire," and the way for Canada to keep her shoulder to the wheel is by buying

## Canada's Victory Bonds

Next week this space will tell why Canada raises money by selling Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

FRIDAY, NOVEMBER 2, 1917.

## A "CONTROLLED" PRESS.

CANADA HAS NUMEROUS "controlled" newspapers—by "big interests," by department stores, and by corporations. We all know this, wink at it, sometimes defend it, and wish we owned the newspaper. Yet, when it comes to Germany, we are enraged at the thought of a "controlled" newspaper.

Editors who are not controlled, or muzzled, or bought, can render Canada a service of tremendous and lasting value by arousing the people to a knowledge of how things stand in Canada; and they have right now a good time to begin, for there is abroad everywhere a "house-cleaning" spirit and purpose. Party politics, profiteering, corruption, and malignant selfishness are becoming odorous. Would that we could make them odious, as well. Our chests swell, our eyes gleam, our brow is noble, when we talk and think and declaim about the Canada that is to be; but how can we have a Utopian Canada with controlled and shameless newspapers, and with a public that acquiesces in a controlled press? On editors a great and lofty task is imposed—the teaching and guidance of the Common People in the direction of purity of life and high achievement.—Printer and Publisher.

## DON'T MISS THE POINT!

THERE IS A MAN in this part of the world who represents, to our way of thinking, a pretty good average of human nature. Whenever the preacher in his church delivers a very hot sermon against some special kind of sin, this man gets enthusiastic and goes around to the vestry to tell the preacher what a fine sermon it was. Then he goes home and repeats it to his brother, and they talk over the points and the people the sermon hits the hardest. But this particular man never sees when the sermon hits him.

Early this month the biggest public campaign ever put on in Canada will be opened to get subscriptions for the fourth Canadian war loan, the Victory Loan. The thing people in this district must bear in mind is that the appeals are directed to each and every one of them. It is not merely the well-off men and women who are being asked to invest. It is everybody. The little sermons which will be "preached" in the advertising should not be taken as a hint to the well-to-do people only. Every man and woman should watch for these advertisements and start now to gather up the necessary money to buy either a fifty or a hundred or a five hundred or a thousand dollar bond. In the United States there were about 4 subscribers to the first American loan out of every 100 persons. They only received 3½ per cent. In Canada for the last war loan there were only about 41,000 subscribers, or say 4 in every 700. Yet in Canada the interest was much higher—on the Victory Bonds that will probably be issued to yield about 5½ per cent.

The first thing anyone should do, in our opinion, is to get rid of the idea that there is any sacrifice involved in investing in this loan. It is true that the patriotic spirit is appealed to, and it is equally true that a great and generous response is expected on that ground. But the new war loan is a straightaway business proposition; safe, profitable, and convenient. Every man and every woman with as much as fifty dollars to spare should own one of these new bonds, and not only that, but should help to show others the worth of these bonds by recommending them everywhere. The readers of the Review are among the most thrifty, prosperous, and public spirited in the Dominion. When the subscriptions to the Victory Loan are added up from the various districts we expect them to show that South Okanagan has been true to its traditions and just to its opportunities.

§ § § § §

BEEF AND BACON are needed overseas in increasing quantities. They are foods especially suited to the requirements of the men who are fighting, and those doing heavy physical labor.

The scarcity of fodder and the greater call for meat have compelled the Allies since the beginning of the war to kill more than 33,000,000 head of their stock animals. Thus the source of their meat is decreasing. At the same time the needs of the soldiers and war workers have increased the necessary meat consumption.

Imports of beef and bacon into Great Britain from Sweden, Denmark, and Holland have been reduced to a very small amount, whereas all these countries formerly supplied large quantities. The United Kingdom is thrown more than ever upon the North American continent for these commodities. Moreover, the entrance of the United States into the war has greatly increased the requirements of both beef and bacon for the United States Army.

The soldiers need beef and bacon, and they can only be supplied if the civilian population of Canada and the United States will reduce their consumption of these foods. A saving of one ounce of meat per person per day, and increased production of beef and bacon on this continent, would go a long way towards meeting the armies' requirements.

§ § § § §

THE PERMISSION GIVEN by order-in-council for the manufacture and importation of oleomargarine, an imitation of or substitute for butter, is a privilege that would have been strongly opposed as it has been in the past by the agriculturalist of Canada were it not pleaded as a war measure. Assurance is given that only the genuine article will be permitted after the war, and that such is the demand for butter that the substitute is not likely to bring down the price of the former. All necessary precautions will be taken to prevent the imitation being sold as the genuine article. The new order went into effect yesterday, November 1st.

PROVIDENCE IS PROTECTING the Indians of the Spence's Bridge district against the high cost of living, or at least against the manipulators of the sugar combine. The branches, twigs, and needles of the fir trees of that district are this year yielding a natural sugar. According to report the deposit is about a quarter of an inch thick, and gives the appearance of rice and snow crystals on the branches. It comes off easily and looks and tastes not unlike maple sugar. The sugar is formed on the branches and needles only after dry weather, and on trees on certain exposures.

§ § § § §

TOO MUCH IS BEING WASTED in packages, and the public is paying a price out of all proportion to the value of the contents in the too general practice of buying our breakfasts in package form, according to the authorities at Ottawa. In order to eliminate this waste and lower the cost of the morning meal the sale of these package foods will be prohibited. Manufacturers and wholesalers are given until December first, and retailers until the end of the year to clean up all stocks of package breakfast foods, cereals, etc. On and after that date they must not offer for sale in Canada "any foods known as breakfast foods which are the product of wheat, oats, barley, rye, rice, peas, beans, buckwheat, Indian corn (maize), or lentil in original packages of less weight than twenty pounds."

The order-in-council requires that all the food enumerated "shall be sold by the pound or ton, and shall be net weight to the purchaser."

§ § § § §

FOR THE FIRST TIME since its inception the Review carries this week an advertisement on its front page. As with all progressive newspapers it is the policy of the Review to keep its front wholly for news matter, and this exception is no indication of a change of policy. Canada has undertaken a huge task in the raising of an enormous sum for war purposes, which has been termed Canada's Victory Loan. Realizing the extreme importance of making this loan a complete success the newspapers of Canada, as represented in the Canadian Press Association, have set their officers to work to assist and co-operate with the government in perfecting the campaign and floating the loan. It is for patriotic reasons and through a special appeal to all members of the Association that the front pages of papers all over Canada are carrying this urgent appeal to patriotic and thrifty citizens for financial aid.

CUKES RETURN \$3,000 PER ACRE.  
[Continued from Page 1.]

product netted the grower 80 cents per box, or a sum total of \$4,356. While this section of Mr. Hilborn's small holding has been doing more than justice to the cucumber crop, the balance of the seven and a half acres has yielded bumper supplies of cantaloupes, tomatoes, eggplants, and peppers.

THIRTY CARLOADS OF APPLES A WEEK.  
[Continued from Page 1.]

ing houses long hours are being put in in an effort to keep the floors clear. While many apples are going into temporary storage, all available cars are being loaded. We are told that the shipments over the C.P.R. wharf are keeping up an average of thirty cars a week. This does not take into account the shipments over the K.V.R. 1917 promises to be by far the best season yet for our fruit growers.

FARM IS ADDING PIGS AND POULTRY.  
[Continued from page 1.]

tain an office, feed room, work room, and a bedroom. Hen houses will also be put up, the first of which will be of the farmer's hen house style, with a straw loft. Further live stock to be added at once will be three or four brood sows and a boar, all pure bred Berkshires.

South Okanagan Electoral District.

### New Regulations For Overseas Parcels

Must Bear Alternative Address in Case of Non-Delivery.

Owing to the fact that the present system of holding undelivered parcels, addressed to members of the C.E.F., at the dead letter office is resulting in the waste of large quantities of perishable foodstuffs, the Canadian postal department is adopting a new system, regarding which postmasters have received the following instructions:

Parcels addressed to members of the Canadian Expeditionary Forces Overseas should bear the name and address of a second addressee to whom the parcel may be delivered or forwarded if it should prove impossible to deliver to the first. The original address should be written on the front of the parcel where the postage stamps and customs declaration are affixed, and the second or alternate address should be written on the back of the parcel.

If a second address is not furnished at the time of posting, and delivery cannot be effected, the contents of the parcel, unless of exceptional value or of a personal nature, will be turned over to the military authorities for distribution.

Parcels containing articles of a personal nature or of special value will be returned, if a request for their return in case of non-delivery is made by the sender, such request to be written on the cover of the parcel at the time of posting.

This plan is being adopted at the suggestion of the British post office, which states that the present procedure of holding undeliverable parcels at the dead letter office until instructions are received as to their disposal is resulting in the waste of a large quantity of perishable foodstuffs, which form the contents of 90 per cent. of parcels addressed to soldiers.

### Large Increases Made In Soldiers' Pensions

Changes made to Date back to First of April.

Amendments, far-reaching in their effect, have been made by Order-in-Council to the Canadian pension regulations. The most important changes provide for an increase in pensions and allowances to soldiers and sailors holding the lower ranks, up to and including the rank of sub-lieutenant in the Canadian navy and lieutenant in the Canadian expeditionary force.

These changes will be considered as having come into force on April 1st, 1917. At the present time the annual expenditure involved is about five million dollars. With the increases authorized Canada's outlay will be over seven million dollars for pensions during the fiscal year.

### Battalions Are Just Like Chums

How Quebec and Nova Scotia Units Have Stuck Together From The First.

Montreal, Oct. 31.—Canadian battalions, while in training or at the front, frequently form friendly associations, like friends or chums. Two close friends in the trenches are the 25th Nova Scotia Battalion and the 22nd French-Canadian Battalion.

These two units, both highly distinguished on active service, left for overseas together on the "Saxonia" on May 20, 1915. They went through their training together, and they went into the trenches at the same time. When the great advance to the attack came at Courcellette, almost as one unit there sprang from the Allied trenches this heroic Quebec battalion and their firm friends from Nova Scotia.

It is regarded here as a good omen of future harmonious relations between the various sections of Canada that these close friendships have been formed so often between Canadian corps from widely-separated parts of the Dominion.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative

Mr J. H. Hyde was a passenger to Kelowna on Wednesday.

Mrs J. L. Elliott returned home from Kelowna on Wednesday, where she had been visiting her sisters Mrs Henry Birch and Miss Edith Hayward.

Mr E. Atkins came down from Kelowna and spent a few days with his parents, returning on Saturday morning.

Mr A. J. McKenzie has the distinction of being the first individual fruit grower in the district to ship a car load of apples, having shipped a straight car of 648 boxes.

Mr A. H. Cutbill and Mr L. D. McCall motored to Westbank on Tuesday, returning the same day.

Mrs Tewart was a visitor to Kelowna on Thursday.

Mr Seth Davidson and Mr Bell were visitors at the Summerland Fair, which they enjoyed very much. They say that it was well worth seeing, and that the display of apples, etc., was very fine, and only regret that more of the Peachland people did not take the time to go.

Mr H. H. Thompson has taken his launch "Argo" out of the water for the winter.

Mr A. Town was a passenger to Kelowna on Saturday.

The fishermen are having good catches to show for their work, having caught 600 pounds of fish on Friday and Saturday. We are pleased to report that the Department has granted an extension of time owing to the lateness of the run.

Mr J. Moore, who lately enlisted for the Aviation Corps, arrived home from Toronto on Saturday night, having received his discharge as physically unfit.

Mr Jefford was a passenger out on Monday night for Lesser Slave Lake, where he has gone for the winter months. Mrs Jefford and the girls have moved down town, and are occupying rooms over Mr H. H. Thompson's store.

Mrs J. A. Moore was a passenger south on Monday, having gone to Great Falls, Mon., to join her husband.

Miss Hilda Winger returned to Penticton on Monday night after spending a few days visiting her parents.

Mr Frank Hayward of Naramata, and Miss Elsey of Summerland came in on Monday night and visited Mrs J. L. Elliott, Mrs J. Wright, and Mrs H. L. McCall, returning home on Tuesday night. Frank had only a short visit among his friends, for he had only nine days' leave of absence, which gave him only six at home.

Lumber mills in Washington State have secured a contract for twenty-five million feet of Douglas fir to be used by the Italian Government in the construction of aircraft.

**"Tell your wife about it"**  
SHE'LL be DELIGHTED with our NEW SERVICE for Lakefront Householders.

We have just put on a 3-days-a-week DELIVERY SERVICE for Peach Orchard, Town and vicinity.

Deliveries made every Tuesday morning, Thursday afternoon, and Saturday morning. — And at Trout Creek every Thursday afternoon.

Phone us your Orders for Meats, Fish, &c.

## Will Discuss Boat Service With Gen'l. Supt.

Proposed Tri-weekly Sailings Very Displeasing to Kelowna

Mr. J. W. Jones, M.L.A., Says No Good Reason For Curtailing Lake Service.

Of the reducing of the lake service by the C.P.R. boats to a trip up one day and down the next, as discussed at a recent meeting of the Kelowna Board of Trade a Kelowna exchange says in part:

Some correspondence was read concerning the projected reduction of boat service on the lake, a letter from Mr. F. W. Peters, General Superintendent, confirming reports which had been circulated some time ago. Mr. Peters said that the company was considering some curtailment of the service in different directions as soon as the fruit shipping season was over.

Their reason for desiring to do this were in the first place, the utmost difficulty they had in securing labor to handle the different branches of railway and steamer work; then there was the necessity for the most rigid economy in the use of fuel, for, said Mr. Peters, unless the greatest care was exercised all over Western Canada to avoid the waste of fuel, there was going to be suffering to an alarming extent. Running a steamer between Penticton and the Landing, which was not a necessity to the residents and shippers along the lake in carrying on their business, would be a waste which could not be justified.

While the fruit crop was being marketed, continued the letter, they had operated two steamers in addition to the car barges—that was a necessity; but when the crop was moved, and the only traffic to be handled was the ordinary inward supplies, with the occasional shipments of such products as could be handled in severe weather, and the extremely light passenger traffic during the winter, he did not believe that any inconvenience would be caused the residents and shippers along the lake if they had a steamer only one way each day. The improved daily service on the Kettle Valley Railway and the daily rail service that they would operate from Vernon to the main line, should, he thought, under the circumstances he had described, be considered reasonable.

They did not desire to make any changes of this kind without discussing it with the parties interested, and he offered to meet the Board and talk the matter over. There was considerable discussion on the matter, and while some of the speakers showed a disposition to accept what seemed inevitable, and endeavor to compromise with the C.P.R. for the much-desired boat connection at Penticton, others stoutly maintained that the business men should strongly oppose any change which would mean a reduced service.

Mayor Sutherland believed that the desire of the C.P.R. to economize fuel under present conditions should receive sympathetic consideration. Instead of standing out for a daily service from the north, he advocated pressing for the morning connection between boat and train at Penticton. He believed that this would really place us in a better position, as we could get our mail in the morning of every other day instead of at night, and he understood that this could also be made to include mail from the east. There would be no loss of time in going down to the Coast.

Mr. J. W. Jones, M.P.P., was opposed, however, to the idea of suggesting any compromise which would mean the acceptance of the reduced boat service. When the matter was first brought up, he said, it was said the idea was to save fuel. It was not a question of oil in this case, as the boat burnt coal. Now it was claimed that it was coal that was to be saved. There was no shortage of coal in B.C., and in any case the amount of coal used on the trip down the lake would be a mere cypher compared with that used in other places. He said it would be a mistake to allow the tri-weekly service to be put into effect without entering a strong protest. For several years we had been accustomed to a daily service. Vernon was going to get it still, and he thought there was sufficient business to warrant a daily service here. The C.P.R., he claimed, was making sufficient money from the people of Canada in extra war business to offset any small loss here. We did not require that the "Steamous"

## Hun Follows Events Here.

Discovery at the Front in France Proves Close German Watch on Canada.

Ottawa, Oct. 31.—A newspaper found on a German prisoner who was taken by the Canadians on the Western front recently shows how close a watch the Huns keep on Canadian affairs. The paper contained a news despatch purporting to come from Ottawa, which told of the passing of the Military Service Act just two days after the Act was passed by Parliament here.

This little discovery is regarded here as a proof of the importance Germany places upon the military benefit to the Allies which will flow from the adoption by Canada of the Military Service Act. Experience has proved that Germany is a close observer of enemy countries, and that every sign of strengthening or weakening is noted with the keenest interest by the Huns.

With the suppression of the liquor traffic the government finds that it has a surplus of jails. One jail on the Island and that at New Westminster were closed this week, and negotiations are now in progress dealing with the feasibility of reducing the Nelson and Kamloops institutions down to the size of the average lock-up.

An industry that will utilize material formerly a waste has been started at the Coast. It is the manufacture of kelp, great beds of which seaweed grow off the island shores, and are a hindrance to small boat navigation, into potash and potassium.

### EATON'S ADVERTISING.

The Eaton advertising is getting into daily and weekly newspapers that aforesaid declined to insert this advertising, and in some cases the publishers frankly state, in their own columns, that the reason is that local merchants will not support the local newspaper adequately.

The publisher is often in a most trying position; he wants to be loyal to his own community, and yet he must make both ends meet. If local merchants will not give him the necessary encouragement, by the purchase of his white space, to remain loyal to his own community, then the publisher may have, for self-protection, to accept the advertising of the big mail-order houses.

Perhaps the publisher is blame-worthy along with the local merchants for the advertising apathy; he may have done little to foster or implant the advertising spirit.

On the other hand, the dullness and fossilized condition of local merchants may be heart-breaking and almost hopeless; and the publisher may have to wait until a few big funerals have taken place before a new era will be ushered in. One thing should be very clear to both publishers and local merchants, namely, the more a community shops with mail-order houses, the poorer the community must become as a trading territory. The salvation of a country weekly or a small city daily is a great volume of local trading, with its accompaniment of local newspaper advertising; and a good local and tributary population. The foe of local trading is the metropolitan department store with its highly-organized mail order department. The centralizing of buying in big centres is bad for community growth and prosperity; and a community without busy local trading centres declines in half-a-hundred different ways.

### WISE MIKE.

Mike looked very annoyed and Pat inquired the reason. "A man told me he was in favor of peace at any price," remarked Mike. "And then what happened?" asked Pat. "I never answered him," said Mike. "I knew he was only trying to start a row an' make it look as though I was to blame!"

should make the trip every time—a smaller boat would suffice, so long as the regular service was kept up. It was finally decided to write Mr. Peters to meet the Board to discuss the matter fully.

## PREPARING TREES FOR WINTER

Irrigation Needed Unless We Have Heavy Rains at once

During the past two winters there has been much loss of trees from winter injury.

A few suggestions might be helpful by way of preventing a repetition of further loss. First, it is well known by orchardists that frost injury is due to a drying out of the wood of the tree, also trees that are not ripened up are more subject to drying. This season many orchards have suffered from a lack of irrigation, more so where the sub-soil is light or porous. A good supply of moisture in the soil during the winter will tend to protect the trees from drying out, and they are the less subject to frost injury. If the fall is very dry (such as we have now) it is good practice to irrigate trees late, or as the leaves are falling, if the water is at all available. Again, it is good practice to apply a mulch of straw or coarse manure around trees that are standing on light dry soil. Be careful not to mulch up too close to the trees, as there is danger of mice injury.

### BORERS DAMAGING TREES.

There are many apricot, peach, and plum trees suffering from borers. This is a whitish larva, about three-fourths of an inch long when mature. They bore into the crown and upper roots of those trees, and may be detected by the exudation

of gum. The most sure remedy is to get after them with the knife and cut them out, covering up the injury made with moist soil. Now is a good time to do this.

A limewash recommended to prevent the attacks of borers, but not a sure cure, is as follows: 5 lbs. potash, 5 lbs. lard, stirred in 5 gallons of boiling water; 1 peck quick lime slaked in 5 gallons of boiling water and mixed while hot with the potash and lard mixture. Dilute by adding 2 gallons of boiling water for each gallon of the mixture. It will keep indefinitely.

### How Blackbirds Saved Ten Acres of Tomatoes

A few days ago, Grant Mitchell, living near Windfall, Indiana, gave up for lost a ten-acre field of tomatoes. In one last effort to save at least a part of the crop, Mr. Mitchell and two or three farm employees went to the field one morning to destroy as many worms as possible, but they found that every worm had disappeared. A neighbor told Mr. Mitchell the field had been alive with blackbirds the afternoon before. Similar stories are reported by other farmers of the county.—From the Indianapolis News.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

# Passing Events: Social, Personal, &c.

Mr and Mrs Oxley of Mineola, are leaving to-night for their home stead in Saskatchewan.

Mrs Archibald and her two daughters, who have been spending the summer here, left on Wednesday night for their Calgary home.

Fifteen electric light poles were blown down on Main Street, Penticton, near the school during the short gale of Thursday afternoon last week.

C. H. Cordy of Summerland, who has been engaged on a government topographical survey party on the west side of the lake, was in town on Tuesday.—Vernon News.

J. N. Merrill, who has been living in Penticton since severing his connection with the Summerland Supply Co., will leave there shortly for the Coast, where he will engage in business for himself.

Having reported for service some time ago, Mr A. J. Beer went before the medical board last week and was passed into Class "B." Ted Tindler, who was examined at the same time, was admitted to Class "C."

Mr G. W. Morfitt and daughter Miss Verda, boarded the "Sicamous" on Monday evening for Penticton, where they took train for the Coast. Instead of returning to Calgary the family will spend the winter in Victoria. Mrs Morfitt and the other members of the family have been in the capital city for several weeks.

Included in the cargo of the Canadian-Australasian liner scheduled to sail for Honolulu, Suva, Auckland, and Sydney, is a big shipment of Okanagan apples. The consignment consists of 25,000 cases. British Columbia fruit is very acceptable in the southern countries, and there is a steady demand for apples during the winter months.

What is described as one of the best dances ever held here was that given by the Home Comfort Club last week in Empire Hall. There were present a number of visitors from nearby towns. The music was just the kind to delight a dancer. The sale of tickets at a low figure, and the proceeds of the refreshments provided by the Club, will leave over sixty dollars with the Club for their Christmas parcels fund. The expenses were light, as Mrs Downton had generously provided the hall.

After all expenses had been paid the ladies of the West Summerland Women's Institute will have over \$70 to hand over to the Red Cross as a result of a very successful Halloween supper given by them in Campbell's Hall. All the available space in the hall was filled with tables, the large room opposite being used as a kitchen and serving room. From half past five until well into the evening, the ladies were kept busy serving the people, many having to wait for seats at the table to be vacated. Good things to eat were there in abundance, and every one was given more than value for the moderate price charged. The Review has been asked by the ladies to extend to Conn. Campbell their gratitude for the free use of the hall, and to Mrs Campbell for her untiring efforts to make everything convenient and comfortable for both the guests and the workers.

## ARTHUR WISMER

Watch Maker, Jeweller and Optician,  
Fine Watch and Jewellery Repairing.  
Phone 573. R.R. No. 1, GARNETT VALLEY.

The Bank of Montreal will celebrate its hundredth anniversary tomorrow, Saturday, November 3rd.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

A car of export apples was started rolling last Saturday for Australia, via Vancouver, by A. H. Steven.

It is reported that King & Co. of Penticton have disposed of their hardware business to a Vancouver man.

Fixtures are being moved piece by piece from the old to the new office of the Bank of Montreal. It is expected that the staff will be in the new building before the middle of the month.

The house and lot just east of the Shaughnessy ranch has been purchased recently by L. W. Pacey, who, on Monday, moved from the Milligan cottage to his newly-acquired property.

Mrs R. M. Ross arrived here on Wednesday evening from Webster City, Iowa, where she has been for some months. We understand that she purposes visiting her son at Armstrong next week.

Ashcroft is holding a two day "potato carnival" this week for the benefit of the Red Cross. The potato city has prepared a unique program, and it is expected that the results will be a handsome sum for Red Cross purposes.

Visitors to the Summerland Apple Show last week state that it was one of the best exhibitions ever held in the Okanagan. There were over 400 plate exhibits on view, and about 175 boxes of magnificent apples of all varieties.—Vernon News.

Last week 24 carloads of apples left Kelowna for eastern points in one day, and during the entire week over 80 cars of fruit and produce went out of there by rail. It is estimated that the complete season's output will approximate 1,200 cars. The shipment of 24 cars in one day is said to constitute a record for the Okanagan.

Finding the lower level at Dog Lake gives him relief from asthma, C. E. Rennie is contemplating making his home there. Only the other day we heard of another who had come here suffering with the same ailment, who found it greatly to his benefit to go from the lake level to the flat. His many local friends will hope for Mr Rennie that he may be permanently cured of his distressing malady.

A ditching machine has been shipped by the Department of Agriculture to Summerland for use in an experiment on a piece of alkali land on the Balcom ranch. Tile was delivered on the ground some time ago, and as soon as labor is available the machine will be put to work ditching, and the tile placed. By thus underdraining it is expected to remove the greater portion of the alkali and put the soil in condition to grow crops that will further improve the land.

Coun. Johnston reports freezing weather and about eight inches of snow at the headwaters of Trout Creek when he visited there last week. All the dams, except the big one, were closed. Ice prevented the closing of the large one. All the lakes and ponds are covered with ice, and Trout Creek now has quite a flow of water. The Municipal Office reports the reservoir filled with water. Those who are on the pipeline are now permitted to irrigate, and quite a few are doing so.

Hon. J. D. McLeann, Minister of Education, came in from the Coast on Wednesday morning of last week, and, after spending two or three hours here interviewing some of the public men, motored to Kelowna with T. J. McAlpine. He passed through to Penticton on Thursday about eleven o'clock, and that night attended a convention of Similkameen Liberals, when E. W. Mutch was chosen as candidate for the provincial house in place of Gilbert McEachron, Hadley, who had withdrawn. Surprise was expressed by some of our people that the Minister had not visited the fair on Thursday, on his way south.

Beginning with the first day of the month the schools have been opening at 9.30 and closing at 3 o'clock.

A cellar has been dug and the foundations laid preparatory to the building by Contractor Bert Harvey of a house on the Pares lot, Steuart Avenue, for Mrs Kate Bentley.

Ashcroft and district has heard and heeded the calls to produce, and is able to boast of having shipped this season approximately 300 cars of potatoes, 26 cars of beans, and 5,000 head of cattle.

A. G. Robertson of Penticton was badly hurt on Monday while loading a wagon with apples. One of the front boxes gave way, throwing him under the wheels as the team started forward. He sustained four broken ribs and other severe injuries.

Ald. H. H. Millie of Kelowna passed away last week after months of pain and suffering from cancer. Mr Millie was well known throughout the Valley, and had been a resident of Kelowna for over thirteen years. One of Kelowna's most respected and beloved citizens, his passing is a distinct loss to that city and district. It was Mr Millie who gave Kelowna the telephone, he having established a system there twelve years ago, and which he continued to operate until he sold out to the Okanagan Telephone Co., shortly before the same company took over the Lakeshore Telephone Company, operating here and at Peachland and Penticton.

Ole Olsen delighted a good-sized and appreciative audience in Empire Hall on Monday night. Mr Dave Williams, well-known in the Coast and Sound cities as an exceptionally clever comedian, played the part of Ole to perfection, and certainly fulfilled his advertised promise to give his patrons "youst one yolly night." The plot, a comedy-drama, afforded Williams, as the big, hearty, emotional Scandinavian Ole Olsen, a ready opportunity to win the hearts of his audience. Little six-year-old Marion Cadwell, as little Yimmie, played her part as cleverly as the grown-ups. The three ladies in the cast proved themselves clever artistes, and the more unpopular parts of a deserting husband and a villainous brother-in-law were well taken by the other two male actors of the troupe.

### COULDN'T BE DONE.

A young soldier was sitting on a seat in a park, and rashly spoke to a young lady without the formality of an introduction. He happened to see a fat caterpillar crawling on her lace collar, and, leaning towards her, said:  
"Madam, permit me to —"  
But the young lady waved him off with an imperious and insulting gesture, and said:  
"How dare you speak to me without an introduction? You are certainly no gentleman, sir."  
Here the caterpillar overbalanced itself and fell on her neck.  
"Oh, take it off! Oh, please do take it off, somebody!" screamed the fair one.  
"The young man was the only 'somebody' about, and he said: "I couldn't think of it, madam! I haven't been introduced to the caterpillar."

### VALUE OF EGGS.

By comparing the composition of the egg with that of lean meat it will be noticed that eggs make a good substitute for meat. Nine average-sized eggs weigh one pound and contain about the same amount of nourishment as one pound of beef. As eggs contain no starch or sugar they should be served with such foods as rice, bread, fruit, potatoes, and other vegetables, or made into desserts with sugar, taploca, and similar materials.

### COOK POTATOES RIGHT.

Approximately 20 per cent. of each potato, pared by ordinary household methods, is lost in the process. The loss includes much, and sometimes all, of the portion of the tuber containing important soluble salts. Potatoes that are boiled and baked in their skins lose practically none of their food value.

## BIRTHS.

STUART—To Mr and Mrs Muir Stuart, at the Summerland Hospital, on Friday, October 19th, a daughter, Mona Isabel.

### THE END IN SIGHT!

Absolute knowledge I have none, But my aunt's washerwoman's sister's son,  
Heard a policeman on his beat, Say to a laborer in the street, That he had a letter just last week, Written in the finest Greek, From a Chinese coolie in Timbuctoo, Who said a nigger in Cuba knew Of a celebrated man in a Texas town,  
Who got it straight from a circus clown,  
That a man in Klondike heard the news  
From a gang of South American Jews,  
About somebody in Borneo, Who heard a man who claimed to know  
Of a swell society female rake, Whose mother-in-law will undertake To prove that her seventh husband's sister's niece,  
Has stated in a printed piece, That she has a son who has a friend, Who knows when the war is going to end.

**Advantages of Tree Planting in Autumn.**

Though undoubtedly spring is the safest time to set out trees in Canada, autumn planting in eastern Canada and British Columbia is quite feasible.

It is not safe to move young trees until growth has ceased, and, in the case of broad-leaved trees, until the leaves have fallen. At that late date the roots do not become firmly attached to the earth, and frost may heave them from the ground. This is the greatest danger from autumn planting. On the other hand, autumn-planted trees get a better start in the spring, which is of special advantage on light, dry soils.

Cultivation of the soil in the autumn preparatory to spring planting is advantageous. It makes earlier planting possible, and leaves the soil in good condition for the roots of the young trees.

**Tailoring**

*Where a High Standard Holds*

The selection of material for suit or overcoat is important. The best work of designer and workmen may be spoiled through poor taste shown in material made up.

We can always help in a selection, and our range of materials is of a size to give the widest choice.

But all other things being equal, it is the skill shown in designing and workmanship that makes or mars the suit.

The House of Hobberlin is justly credited with fixing the standard for high-grade tailored-to-order clothes.

It is the fit and finish of all garments carrying the name of this House that has given the House first place in all parts of Canada for ideally built clothes—always made-to-measure—always high grade.

**Many School Children Afflicted With Goitre**

Dr. Young Wants Commission Appointed to Investigate the Cause.

There are 1,633 cases of goitre in the schools of the province, according to the statement of Dr. Young, secretary of the provincial Board of Health, at the conference of the Women's Institute. The Okanagan and Vancouver Island take the lead in point of numbers. Although at one time it was thought to be an effect of drinking snow water, this is now discredited. Animals of this province are afflicted to a very large extent. The Department have, as yet, found no cause for this disease, but Dr. Young is trying to get a commission appointed at Ottawa to investigate.

**Hallowe'en Entertainment At Meadow Valley School**

A most successful and enjoyable entertainment, presided over by Rev. J. J. Baker, was held on Saturday night last at the little schoolhouse at Meadow Valley, resulting financially in the sum of \$16 being raised for Red Cross purposes.

The program provided was unusually acceptable, vocal numbers being rendered by Mrs. Oxley of Mineola, and Mr. J. Clements of Summerland, accompanied by Mrs. P. Burgome. A very clever impromptu sketch, entitled "A Trip to Europe," staged by Mineola talent, was greatly appreciated by the audience, which included quite a sprinkling of folk from Summerland.

After refreshments, which were undoubtedly well up to the Mineola standard, the evening was given over to a Hard Times Dance, at which some of the costumes were judged to be very clever and appropriate—empty flour sacks and old copies of the Review being much in evidence.

An interesting feature (absolutely unrehearsed) was an exhibition by Private Mike Solovitch of the 50th Calgary Bat., of how the rifle is used in the trenches. The unfortunate Summerlander who acted the part of the German, being put out of action in short order, in spite of the fact that he carried a real rifle, whereas Solovitch had only a broom.

Midnight saw the evening brought to a close by a vote of thanks to the entertainment committee, moved by Miss Jessie Mitchell, and seconded by Miss J. Brewer.

**HON. MARTIN BURRELL CHOSEN CANDIDATE FOR YALE.**

(Continued from p. 1)

the meeting pledging support to the Union Government, conscription of man power and wealth, the elimination of future profiteering, and the organization of the country's resources for the supreme task of winning the war. It urged upon the coalition government the carrying out of these principles, and voiced the conclusion of the convention not to nominate a candidate to contest the riding against the cabinet representative of the union government.

District Liberal Association officers elected at the meeting were: Hon. President, Sir Wilfrid Laurier; President, F. B. Cossett; Hon. Vice-President, Hon. H. C. Brewster; Vice-President, W. Clayton; Secretary-Treasurer, L. V. Rogers; Executive Committee, Similkameen K. McKenzie and C. Willarson; Grand Forks, Thompson and McCallum; South Okanagan, Ritchie and Rattenbury; North Okanagan, McPhail and Hayward; Greenwood, McPherson and Kerr.

**HON. MARTIN BURRELL,**

Secretary of State, and Minister of Mines in new Union Cabinet.

Delegates to the convention elected at the Liberal-Conservative meeting last Tuesday night were: E. R. Simpson, J. A. Kirk, Hector Sutherland, Dr. Andrew W. C. W. Fosbery, S. Darkis, W. Harvey, S. B. Snider, G. MacLaine, R. C. Lipssett, A. B. Elliott, and W. R. Shields.

Representing the Summerland Liberal Association at the Liberal Convention were W. Ritchie, K. S. Hogg, and W. A. Caldwell. T. J. McAlpine was also there, but as a delegate from the Kelowna association.

Those who are fond of working out puzzles can tackle the following: A certain family in Lincoln consists of one grandfather, two grandmothers, one father-in-law, two mothers-in-law, three mothers, two fathers, two daughters, one son, one daughter-in-law, one son-in-law, one granddaughter, and there are only six persons in the family.

**TELEPHONE CASE AT VERNON ASSIZES.**

(Continued from page 1)

the life of cedar poles, treated and not treated, in this district. Mr. Dobie, for the plaintiff, also gave evidence along this line.

It was shown by the defendants that part of the Garnett Valley line was down, but they failed to get before the Court a statement of the condition of some of the other and older sections.

It was also admitted by the manager of the local company that a piece of wire, about one tenth of a mile in length had been used by his men by mistake.

Local witnesses for the Summerland Company included Reeve Blair, Municipal Clerk Logie, Coun. Campbell, J. J. Mitchell, T. J. McAlpine. The president of the company, H. C. Mellor, Secretary Hogg, and Manager Atkins were also on the stand.

For the plaintiff company, Manager Dobie, the Armstrong agent of the company, who had been over the line in question, and an engineer from the Coast were witnesses. T. P. Thornber was summoned by the Okanagan Company.

**Will Class One Provide The One Hundred Thousand Men?**

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:

It is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life; the military service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper exemptions have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

- Category A—if fit for service in overseas fighting units.
- Category B—if fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
- Category C—if fit for service in Canada only.
- Category E—if unfit for military service of any nature.

If not placed in Category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Issued by The Military Service Council.

**English Peer is a Machinist**

To increase the supply of munitions many well-known Englishmen, including some of the nobility, are working in shops at fourteen cents an hour to help the cause. The picture shows Lord Norbury at work in a Surrey factory.
