

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 18. Whole No. 539.

SUMMERLAND, B.C., NOVEMBER 29, 1918.

\$2.00, payable in adv.

Sensational Story Of Railway Deal

Cabinet's Action a Most Unusual One; but Gov't Supporters say Premier Can Explain

Victoria, B.C., November 25.—“The parties of the second part (Foley, Welch & Stewart, etc.) covenant that all the rolling stock, equipment, plant, and machinery, now in, upon, or about the said line of railway or adjacent thereto, and heretofore in use by them or any of the said companies in or in connection with the construction or operation of the said line of railway, are the properties of the said companies, and are to be transferred, set over, and delivered to the province.”

The above is Section No. 14 of the agreement between the Government and Pacific Great Eastern Railway interests made last session and passed by the British Columbia Legislature. In that form it is now contained in the statute law of the province.

Practically, however, the exact opposite of the terms of the proposal as above outlined has been carried out, it is stated. Equipment and construction material along the line between Squamish and Prince George, estimated by some to be worth up to a million dollars, has been sold and shipped, some to Alberta, some to the United States, and some has passed through Vancouver.

Pursuant to the legislation, it is stated that two government officials were sent up the line of the P.G.E. to make an inventory of the saw mills, locomotives, tools, dump cars, etc., on the grade; but these men were recalled before their work was half completed, it is said.

REASON FOR ACTION.

The reason given is that the agreement passed by the members of the House and signed by the government and the railway company was not in accord with the negotiations which are alleged to have taken place between the company representatives and Hon. John Oliver as Minister of Railways. When this conflicting condition of affairs came to light the government decided to disregard the clause in the agreement and, instead, to hand over to the company the equipment and material referred to. The history of the entire incident will be read with unusual interest throughout the province. Enabling or corrective legislation may be proposed by the government, and, according to reports current, the opposition in the House is already preparing to demand a royal commission of enquiry into all the facts of the alleged variation of the agreement.

The plant and equipment which have been taken out of the P.G.E. country covers a wide range. It is stated that one thousand tons of construction rails were sold to a Vancouver metal concern for \$64 per ton. Some other individual sales ran up to five figures each, it is said.

The serious misunderstanding of the matter, as it is officially described in Victoria, extended, it will be recalled, to the newspapers. Published reports of the settlement between the P.G.E. and the government emphasized the fact that construction material and outfit were to be handed over to the government for the purpose of use in completing the line to Prince George, and in later extension to Pentecote River. But the newspapers and the legislature and the text of the agreement were all mistaken, however, according to what is said to be the Premier's recollection of his negotiations; and upon the latter giving the company the equipment and material, the cabinet has acted, trusting to secure endorsement at the next session of the legislature.

MR FARRIS TALKS.

That the contractors had been permitted by the government to remove their plant and equipment, in violation of the terms of the statute, was not denied by acting Premier J. W. deB. Farris, K.C., to whom the question was referred.

“I am sorry that the etiquette of the situation makes it impossible for me to make a statement upon the matter,” said Hon. Mr Farris. “The matter is one which arose

(Continued on page 6.)

Russian Forts Destroyed by Germans.

Above is a photograph of Russian fortifications after a bombardment by enemy siege guns. The strongest fortifications have proved unequal to the modern engines of war.

Valley Apples Going To U.K.

By permission of the British Ministry of Food, Canadian apples may now be exported to the United Kingdom. Permits are being issued this week in order of the receipt of applications. Ocean transportation rates are \$2.00 per box and \$5.00 per barrel. Recent cables state that the probable price in England as fixed by the Food Controller would be 6 1/2 pence per pound as a primary distributors' maximum, and the retail maximum price 9 pence.

The Okanagan United Growers have given options on from fifteen to twenty cars of apples for the Old Country market, so that Okanagan apples are likely to find a market in the United Kingdom this winter. The freight to the Atlantic seaboard will be about sixty cents per box, and ocean freight two dollars per box.

Possibilities In B.C. Sheep Raising

Hon. E. D. Barrow Looks for Growth in Industry from New Grazing Rules.

The Provincial Government has inaugurated a new policy with respect to grazing lands. Hon. E. D. Barrow, Minister of Agriculture, believes it will be a great impetus to sheep raising and says: “I look, as a result of the new system of handling grazing leases in the province, to see a very great increase in the sheep-raising industry here. Under the new system, instead of great areas being set apart for individual graziers to administer as they thought best, a commission of grazing experts will administer the lands, charting out areas to which the graziers must take their flocks and herds at certain seasons.

“There are great areas in the Interior,” said the minister, “which have not been used for grazing because the lands have been too high and rocky for cattle to exist, so that they have to go to the lower levels. These high rocky lands, however, with large patches of pasture and flowering herbs, make splendid pasture for sheep, who are protected by their long wool from the attacks of flies. We are hoping to see sheep-raising take a great leap forward in the province.”

Mayor McQuarrie of Nelson died on Thursday of last week, a victim of influenza.

The gigantic scale of the operations in Canada of the Imperial Munitions Board is indicated in an official statement that the total value in contracts for shells, raw material, and supplies of various kinds up to May 31 last was \$1,200,000,000.

Canada To Give Thanks On Sunday

People of Summerland Will Unite in Big Service That Morning.

Sunday, December 1st, will be a Day of Thanksgiving throughout all Canada. At the request of the western provinces the Canadian Government postponed the date of the official Day of Thanksgiving for the cessation of hostilities until Sunday next. Everywhere special preparations are being made befitting the occasion.

In Summerland the churches are all uniting in a service to be held at 11 o'clock in St. Andrew's Church, and for the occasion a special order of service has been prepared. Copies of the program have been printed and will serve as a souvenir of the event. The sermon will be given by Rev. Charles Baker. Music will be a prominent feature of the service, and includes a solo, “How Beautiful Upon the Mountains,” which will be sung by Mr Frederick Graham.

Under the able direction of Miss Harrison a choir of forty or fifty voices which has been practicing for the occasion will lead in the singing of the hymns of thanksgiving and praise, and will render several anthems.

The committee in charge, after looking further into the matter, decided it was inadvisable to hold the service in the College Gymnasium, the heating facilities there are not very good, and particularly would it be uncomfortable for the choir.

The collection, after defraying current expenses, will be devoted to the Summerland Hospital.

Canadians Make Wonderful Record

J. H. Woods, chairman of the delegation of Canadian editors who visited Great Britain this year as the guests of the Ministry of Information, has received the following cablegram from Lieut.-Gen. Sir Arthur Currie, commanding the Canadian Corps in France:

“The Canadian Corps warmly appreciates the congratulations of the Canadian newspaper delegation. Tell the people of Canada that the corps is more than proud of its efforts to satisfy those at home.

In the last two years of strenuous fighting it has never lost a gun, has never failed to take an objective, and has never been driven from an inch of ground once consolidated, while its casualties amongst the rank and file bear the smallest percentage, in proportion to the strength, of all the British forces.”

The Canadian newspaper censorship will not be lifted until peace is declared, or at least until the thirty days' armistice is over.

No New Cases For Ten Days

With one exception there have been no new cases of influenza in the district for the last eight or ten days, and there is every hope that the epidemic will soon be a matter of history. The exception referred to is Mrs Harting, who volunteered to cook at the Emergency Hospital, and who has contracted the disease in a mild form. There are five patients at the hospital, and all are doing nicely except Charlie Turner, who has been very ill, and is not conquering the disease as quickly as had been hoped.

Miss Kathleen Babbit, who contracted the disease while nursing at the hospital, was taken to her home and is getting along nicely. Her place at the hospital was taken by Miss Beatrice Gale.

It is probable that the hospital will be closed the first of the coming week.

Every member of the J. B. Thompson household contracted the disease even to the little baby, but all are up and about again except Mrs Thompson and she will be over it shortly. Miss Wolfenden, teacher in Division II, in the Central School, went to the aid of the stricken family, but was able to leave a day or two ago, and a neighbor has been relieving Mrs Thompson of the care of the baby.

Church services will be resumed on Sunday and the schools will reopen on Monday morning.

The Rialto Theatre announces in this issue that it will reopen on Saturday, December 7th, and an effort is being made to provide a specially good program.

Mailing Apples To Soldiers.

Well over a thousand packages of apples have been sent from Summerland within the past few weeks to soldiers overseas. The apples are put up in special wooden boxes weighing, when filled, seven pounds, and sent by mail. Two of the local shipping houses have made a specialty of this business, and have been receiving orders from as far east as Brooklyn, New York, and eastern Canadian cities, and also from other American centres and many orders from the Prairies and the Coast cities. In many cases standing orders have been placed for a box a week to be sent to a given address. The enterprise shown by the shippers who have engaged in this business is commendable. The advertising received, in thus having Summerland apples so widely distributed and brought to the notice of the widely scattered friends of soldiers overseas, is of much value to the district.

The Government of Peru is acquiring wheat from Australia and other countries. Sugar is to be exported. The government has forbidden the export of cattle.

More Than Half Million Dollar Crop

This Figure will be Greatly Exceeded When All Returns Are In.—Still Far Short of Early Possibilities.

When the returns from the fruit exported from Summerland this season are complete it will be shown that the fruit shipped from this point will considerably exceed in value a half million dollars. As a matter of fact it is not improbable that our exports will exceed \$600,000. It is but a few years ago that the total value was less than \$100,000. Since then there has been a steady increase in the tonnage, and the prices received show a marked improvement.

Last year Summerland received, for her fruit crop, about \$400,000, according to reliable figures. This year not only has the crop exceeded that of last year but the prices obtained have also been better, and the Review was told this week, by an unquestioned authority on such matters, that our estimate of a half million dollars for 1918 would be greatly exceeded. This information will be of great satisfaction to all interested in the welfare of Summerland, but these figures fall far short of the possibilities of the immediate future. With the coming into bearing of many young trees, and a steady increase in the crops from more of the matured ones, and the prospects of greatly increased production of tomatoes, and other

cannery stuff, one million dollars is not too high a goal for the district to set for itself.

The prices that have been obtained for its members by the Union show very satisfactory returns to growers.

White and yellow peaches have averaged 75 cents net with the exception of Elbertas, for which the growers were paid 81 cents, just over 5 cents a pound for the fruit. No. 2s brought 46 cents, Elbertas 2s netting 60 cents. The average price paid the grower for No. 1 apricots was \$1.09 per package with 18 pounds of fruit to the crate. This means 6 cents a pound. Over 4 cents a pound or 77 cents was returned to the grower for No. 2 apricots. The price obtained for No. 1 plums ranged from 93 cents to 64 cents according to variety, most of the returns being nearer the higher figure and averaging close to 5 cents a pound. For crab apples the growers have been paid \$1.26 for Hyslops, and 90 cents for Transcendents.

We are informed that returns will be sent out next week for early apples, and that the prices obtained are most gratifying, and that the fruit growers will receive more for their No. 3 apples this year, in most varieties at least, than was paid last year for No. 1s.

Business Outlook Decidedly Brighter

Farmers Have More Money Than Ever.

With the advent of peace, passing of the epidemic, which we are glad to say touched us comparatively lightly, and the general prosperity of the community, business prospects for the Christmas season and the coming winter should be of the best. With more than a half million dollars distributed among the fruit growers of the district for fruit shipped out of the Valley there will be much more money than ever before available for circulation here.

It now rests with the merchants as to how much of the farmers' money shall pass through their hands. The Review is fully prepared to co-operate with the business people of the community and hopes to be a factor in making the buyers acquainted with the goods to be had in the local stores, the numerous bargains available, and in other ways to help combat the evils of the mail order distributors of goods frequently inferior in quality.

A representative of the paper will call on the merchants at the earliest opportunity in connection with their Christmas advertising, and will be ready to give any assistance. A large stock of cuts to add to the pulling power of the advertising will be made available. Never has the value of judicious advertising been more fully realized than now, and the merchant who does not advertise is directly a loser, though sometimes it may be hard to convince him of that fact, because he is not able to count the dollars that he does not get.

We would request that our readers watch closely our advertising columns to learn who our retailers are the most enterprising and show that local patriotism which is necessary to the proper conservation of our resources and the building up of a progressive community.

There has been much press comment on the fabulous price of \$100,000 paid recently for a Holstein bull calf sent for sale to Milwaukee from Brockville, Ontario. The calf was purchased by the Carnation stock farm near Seattle, Washington. It is a notable fact that the highest figure probably ever paid for a bull has been paid for a Canadian animal, and an equally noteworthy fact that it was bought by a Pacific Coast firm.

OBITUARY.

EDITH CARBERRY.

Friends here have been advised by telegram from Mr R. Clouston, then in Montreal, that Mrs W. Carberry, the eldest daughter of Mr and Mrs Clouston, had died at Boston on Nov. 20th.

Mr and Mrs Clouston left here a few days ago to visit Mrs Carberry and their other daughter, Mrs L. R. Dunrobin. They had made brief stops en route, and had only reached Montreal when they received news of their daughter's death.

The deceased, who was very popular here and in other Okanagan centres, where she had a large circle of friends, had been in hospital for some months. Besides her husband she leaves one young son.

She was the eldest of three children, of whom only one, Mrs Dunrobin, is left, the brother, Arthur, having predeceased his sister by one year and ten days, having fallen, like so many other of Canada's brave young men, in defending the cause of right against might.

DAVID THOMPSON.

The funeral of “Davie” Thompson, the eight year old son of Pte. and Mrs D. C. Thompson, was held on Sunday at 1 o'clock from St. Stephen's Church, and the body committed to its last resting place in the Anglican Church cemetery. A number of his young playmates acted as pall-bearers.

After a fight of several weeks against results of an attack of influenza the little lad passed to his rest on Friday night. Much sympathy is expressed for the bereaved mother and young sister, whose husband and father is now overseas with the Canadian army.

Censorship Lifted.

The censorship restrictions imposed upon publication in the Canadian press and elsewhere of information relating to the sailing dates and movements of all merchant vessels have been cancelled, with the approval of the Admiralty. As previous to the declaration of war it is now permitted that the movement of merchant shipping may be advertised and reported. The War Office has also approved the removal of the censorship restrictions with relation to publishing statements containing references to the various army units, and to the location of these units, except as regards reports relating to troops in Russia and Siberia.

DAYLIGHT SAVING.

ONE AND A QUARTER MILLION TONS of coal have been saved in the United States during the seven months' operation of the "daylight saving" law, according to figures compiled by the United States Fuel Administration.

Among the many places which kept close watch on the operation of "daylight saving" very definite facts were obtained from one community of about 10,000,000 population. It was shown that in this one district the saving of coal was 17½ tons per 1,000 population over the period of seven months. These figures were checked against records from other places in widely separated districts having the same relative conditions, and from the mass of facts thus gathered the estimate of 1,250,000 tons of coal saved is determined.

Assuming these figures to be correct, and that they represent the saving in every locality where "daylight saving" legislation was made operative, and assuming further that the saving of coal is only one of many economies made possible by turning the clock ahead an hour, and that if this saving is possible during the summer months it could be more than doubled during the winter months when more coal is used, we wonder why legislation is not passed in all countries turning all clocks ahead one hour and keeping them there instead of switching back each year as we now do.

If such phenomenal saving is possible seven months in the year, why not twelve months in the year, instead of clinging to the established Greenwich time?

FRENCH CROPS ARE SHORT.

ALL OPTIMISTIC REPORTS TO THE CONTRARY, the French food situation this year is even more grave than it was last year. The French Food Controller, M. Victor Boret, has issued a report outlining the food situation in which he states unequivocally:—

"It should be stated clearly that the total nutrition value of the 1918 crop of cereals as well as of beans and potatoes in France, is below the total nutrition value of these products for last year. The wheat crop, fortunately, is larger and of better quality, but the maize, barley, oats, beans, and potato crops are considerably smaller.

"The potato situation is particularly grave, for whereas the average for the last ten years is 12,000,000 long tons, this year the potato crop will not exceed 7,500,000 long tons.

WE WOULD REMIND those few of our neighbors, who seemingly are inclined to make much of the fact that Summerland did not exceed her objective in the recent Victory Loan canvass by her usual splendid margin, that she is just now spending fifty thousand dollars on her irrigation system in order to still further respond to the nation's call for greater production, and that her own people are providing the money. It has so happened, and unavoidably, that this call has been made almost concurrent with the Victory Loan.

THERE HAS BEEN, WITH A FEW, a disposition to criticize the Municipality for putting on the local municipal improvement debentures about the same time that the Victory Loan was being floated. Information from Ottawa, respecting the government's attitude, should set at rest municipal conscience respecting this matter. In substance the Ottawa report says that the government is not likely to take all the money subscribed in the last Victory Loan campaign as the Minister of Finance feels that there should be a portion of available investment funds left for provinces and municipalities who may desire to float securities for reconstruction work. No one will deny that the work being undertaken by the Municipality is as essential as any reconstruction work.

Misjudged

That an attempt has been made to sidestop Pentleton by newspapers of adjacent districts is the complaint made by the Pentleton Herald. Its charge against this journal is that while it defined the Pentleton territory as including the Indian Reserves, Kaledon, Okanagan Falls, Fairview, and Osayooos, etc., it failed to state that \$280,000 of the total raised was subscribed within the Municipality of Pentleton. We must confess that we had not analysed the figures. One item in the report of that district, which stood out, we did mention. That was the \$21,000 subscribed by Estate George, chief of the Inkanoop Reserve. If a sum exceeding \$200,000 was raised within the Municipality of Pentleton great credit is due the local committee and the community is to be congratulated.

Prisoners' Parcels

Ottawa, Nov. 25.—Telegraphic advice has been received from the Canadian High Commissioner, London, that on account of the repatriation of all prisoners of war, individual parcels for prisoners of war have been stopped. The needs of these prisoners are being attended by the Canadian Red Cross Society or similar aid societies.

With the closing of breweries in the United States after December 1, any temporary dislocation in the barley market should cause producers little concern. Barley formerly used for brewing will, it is hoped there, result in increased amounts of milk, meats, flour, poultry products and other foods.

Mr D. R. Clarke, who has been superintendent of the British Columbia branches of the Bank of Montreal, has been promoted to be assistant general manager of the bank at the head office in Montreal.

For the termination of hostilities by the Signing of The Armistice

it is fitting that we should, as a people, publicly give thanks unto GOD.

Is the British Empire to have but one representative at the coming peace conference, or is each of the nations within the Empire to be represented?

Canada's premier, now in England, will, doubtless, do his best to have Canada represented, as will Premier Hughes for Australia.

To Keep Afloat.

Penticton Herald Forced to Follow Trend of Times.

The Penticton Herald has increased its advertising rates, and what is more the business men are accepting the new rates, as they realize that they have increased everything that they sell, to carry on, and appreciate the fact that the newspaper must do the same.

Following are the rates put in effect the first of this month by the Penticton Herald:

Transient Display—First insertion, 60 cents per inch; second insertion, 50 cents; third, and all subsequent insertions, 40 cents.

Contract rates for business cards, etc., without change privilege, 25 cents per inch.

Contract display, 30 cents per inch, with reduction if over a quarter of a page per week is contracted for. Extra charge for guaranteed position.

Readers 10 cents per line first insertion; five cents subsequent insertions.

Classified advertisements and "Coming Events", three cents per word first insertion; two cents subsequent insertions.

Business locals in "Penticton Paragraphs" column, 25 cents per line.

SOME RULES FOR SUCCESS.

Choose your life work early. Make your own rules of conduct early.

Do more than the routine work of your job.

Choose your friends carefully. Decide quickly in all matters and act promptly.

If right, ignore criticism; if wrong, change without delay.

Practice economy. Be neither extravagant nor niggardly.

Avoid depending upon your friends. Give as much as you receive from them.

Practice diplomacy—it smooths the rough spots and gives you the advantage on the next move.

Cultivate cheerfulness to enable you to carry the necessary and throw off the unnecessary burdens.

Indulge in sufficient play and recreation to keep the body strong and the mind vigorous.

Be square with yourself as with those with whom you are associated.

Business locals in special column, 15 cents per line.

All readers, want advts., locals, etc., set in black face type are fifty per cent. extra.

Legal advertisements 12 1/2 cents per line first insertion; eight cents all subsequent insertions.

Should Do It Now

Don't Borrow or Share Somebody's Newspaper—Have One of Your Own.

Longfellow could take a worthless piece of paper and write a poem on it and make it worth \$65,000—that's genius. There are some men who could write a few words on a piece of paper and make it worth \$8,000,000—that's capital.

The Canadian Government can take an ounce and a quarter of gold and make it worth \$25—that's money. A mechanic can take material worth \$5 and make it into watch springs worth \$1,000—that's skill.

There's a man in London who can take a piece of canvas, paint a picture on it, and make it worth \$1,000—that's art. A Greek can take an article worth 55 cents and sell it for \$1—that's business.

A woman could purchase a hat for \$2.50 but prefers one worth \$27—that's foolishness. A ditch digger handles several tons of earth for \$3.50 a day—that's labor.

The editor can write a cheque for \$9,000,000, but it wouldn't be worth a dime—that's rough. Take \$2 and buy a year's subscription to the Review—that's getting ten dollars worth at least.

AN OPTIMIST IN KHAKI.

Lieutenant-General Sir, W. R. Marshall, recently appointed to the Mesopotamia command, tells a good story as illustrating the genial optimism of the men he is privileged to command.

A very much battered and mud-caked battalion had, it appears, halted for rest and refreshment among a mass of shattered ruins that had once been an Arab village.

A junior officer accosted a cheerful-looking private belonging to his platoon.

"Got a good billet?" he asked. "Yes, sir," answered the private, "first rate! An' if there was only a roof an' three more walls it 'ud be better still."

NOT ON THAT LINE.

After two years in the mud and trenches of Flanders, Private Thomas Atkins got his leave at last, and made what he conceived to be the best use of his holiday by getting married.

On the journey back, at Southampton, he showed to the inspector his marriage certificate in mistake for his return railway pass.

The official, who claimed to be a Scot, studied it carefully, and then said:

"Eh, mon, you've got a ticket for a lang, wearisome journey, but no on the South-Western Railway."

Federal Food Administrators in all American States have been advised that sugar allotments for household use will be held rigidly to two pounds per person per month, and announcing further restrictions for manufacturers.

ADVERTISING

Is An Evidence of Community Loyalty as well as Good Business

ADVERTISING will do more than build your business. It will build your community.

It will encourage the people in your Community to buy at home more.

It will counteract the effect of outside advertising and keep so much more money in the district.

And your community, after all, is only the aggregation of yourself and the rest of us.

Advertising to-day is, therefore, the business and the patriotic duty of the business men in this community.

And the logical medium is your home paper, as it reaches every buyer in the whole district.

The Review Summerland

Phone 39, and our Representative will call.

Red Cross Buying

(Penticton Herald.)
Some weeks ago The Herald printed the financial statement of the Penticton Red Cross. That statement disclosed the expenditure of a considerable amount of money for goods used by the organization in this laudable work, but the figures did not make it clear where this money was spent.

As the local publicity organ for the town, and therefore the mouth-piece of the public in this community, The Herald is anxious if possible that all such expenditures be kept within the district.

In a recent letter to The Herald the Red Cross mentioned that all the money for Christmas stockings was spent locally, but from the statement published this only amounted to \$58.12, and there is no mention where the \$1,630.28, expended for other goods, was spent. Every other society in Penticton patronizes the town from whom it gets its subscriptions, but it is understood that our Red Cross spends a very small percentage of its collections here, most of the money going to mail order houses and wholesale firms.

This would seem a short-sighted policy, and one hardly calculated to find favor even with many of the most enthusiastic workers of the Red Cross.

In most small towns of the province the Red Cross buys its supply locally, and in many of these places there are no stores of the character possessed by Penticton holding heavy stocks and employing a large number of people, all of whom, with their families, are depending on their employers getting sufficient business to keep them engaged and to keep their stores open, and all of whom with their dependents, in their way, are amongst those who work for and subscribe to the local patriotic societies. In a town like this most of us in some way depend one upon another. Expressmen, landlords, the municipality, and others depend upon the local business men and their employees for taxes, licenses, and rent; as the business men depend upon the public for their support. In a hundred ways his money is distributed, and it helps us all. The local merchant must have a margin on his goods to pay freight and a percentage of the wages, etc, and if the Red Cross buys wholesale the same as the merchant, it undoubtedly saves this margin, which the Red Cross in other towns, except perhaps in larger centres where the wholesale men are local firms, allow their business men to make because it comes back to them a hundred fold. Often where the merchants bought in advance and in large quantities they can save money for the Red Cross. The home industry principle shows that Red Cross workers are not only patriotic to their subscribers and the Empire, but to their community also.

The worst of all is supporting eastern mail order houses with money, some of which is collected from the very people who work, or who are dependening on our local stores.

Printer's ink has demonstrated positively its ability to sell Victory Bonds. Given a fair chance it can greatly increase your Christmas trade.

Were Unprepared.

Vancouver.—Because British Columbia rallied to the Victory Loan in a way that was never deemed probable, scores of banks have found themselves depleted of the official installment receipts. A hurry message has been sent to Ottawa to supply these to the Receiver General's office at Victoria, and as soon as possible these will be distributed to the banks. While some inconvenience is found in not having the official receipts, it is pointed out by Provincial Chairman Malkin that the over-subscription and success of the loan was due to the public's desire to stand behind the country in Canada's greatest financial effort of the war.

Vancouver has had 4,104 influenza cases and 464 deaths, according to figures published last week. Spokane had 5,133 cases reported and 172 deaths. At Princeton 22 deaths were reported up to last Friday. The epidemic there is now on the decline.

There is a great deal more learning in the world than education. Our schools and colleges are for the most part well-called institutes of learning. That they are; but of education, I am sorry to say—not. To yoke up learning with life must be the great educational work of the future.—Bruce Calvert, in The Open Road.

Ten Little Taters.

Here are a few witty little verses describing the fate of Ten Little Taters, modelled on the Ten Little Nigger Boys with which we are all so familiar. But, after all, one wonders whether the Ten Little Taters or the ultimate consumers are the more to be pitied; the Ten Little Taters are indeed eaten up, but it is the ultimate consumer who is "dished" in the end. Poor ultimate consumer!

Ten little taters
Growing on a vine,
Local buyer got one,
Then there were nine.

Nine little taters
Shipped away by freight,
Railroads got one,
Then there were eight.

Eight little taters
Another ride were given,
Transfer got one,
Then there were seven.

Seven little taters
Sold Commissioner Dix,
Commissioner man got one,
Then there were six.

Six little taters
In a store arrive.
Retailer took one,
Then there were five.

Five little taters
Eaten up and then—
The "ultimate consumer"
Paid for the ten.

"They Also Serve."

We've never seen the Flanders front,
Or heard the shells go screaming by;
We've never crawled in "No Man's Land."

Or waited in the night to die.
We've never rushed the parapet.
Or sung the battle hymn of hate.
We've only learned (and God, it's hard)—
We've learned to stay at home and wait.

The band has never played for us,
Those songs that set the heart aglow,
When they marched down the dear old street,
We stood alone, and watched them go.

But, oh, the years have been so long;
And, oh, the nights that we've lived through.
We visioned all their agony—
You know the way that women do.

No cross of glory has been pinned
All shining bright upon our breast.
We found our glory when we held
Them close against our face to rest.
And so our loved ones marched away
And left to us that harder fate.
In earth's vast army, fighting still,
They also serve, who watch and wait.

Music Lovers Amazed by Edison's Daring Test

All told, 2,000,000 music lovers in Canada and the United States, on more than 1500 different occasions, have gone to one of their local theatres filled with curiosity regarding a startlingly novel musical recital to which they had been invited.

In each case they have come away amazed at the almost unbelievable demonstration which had taken place before their very eyes, and ears—the most daring test of a phonograph or talking machine ever made. They saw a noted Edison artist stand beside

The NEW EDISON

"The Phonograph with a Soul"

They heard the instrument sing in the artist's voice—in other words, re-create her voice. Presently the artist herself began to sing note for note with the instrument. Musically trained ears strove in vain to distinguish the faintest shade of difference between the actual voice and the Re-Creation. Then, suddenly and without warning, the artist ceased singing, leaving the instrument to continue the air alone. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard the instrument alone. This is the famous Edison Tone Test.

Only Edison makes this test. Only Edison can make this test, because only the New Edison actually re-creates the human voice and the music of human-played instruments with every tone quality and every shade of expression. Ordinary phonographs, and talking machines, merely reproduce.

If you have not been fortunate enough to witness an Edison Tone Test, you may at least bear Edison's wonderful new phonograph at our store. Make the time to suit your convenience.

Newspaper Space

Not For Fakirs

The thing that will make your place a landmark and your name a household word is consistent, truthful, rightly supported newspaper advertising.

"A city that is set upon a hill," says the Good Book, "cannot be hid."

The right kind of advertising will, so to speak, set any man, any town, any worthy business upon a hill.

Play fair, look after things, and dip deeply into printer's ink—and you can no more escape becoming prominent and successful than you can reverse gravity and cause rivers to run up grade.

Carry the stuff—deliver the service—keep up a vigorous fire in the papers—know what you print, and live up to it.

The most precious and desirable thing in a business career is public confidence. Getting ever-widening circles of people to believing in you is progress of the first order, but educating strangers to the idea that you're a man not entirely to be trusted, is slipping back—no matter what, for the time being,

the balance sheet may be saying to the contrary.

Forget that old saying of the circus man, that "people like to be humbugged"—they do, on any circus day—and have a bully time over it—but regular business is different.

The fellow who deliberately sets out to deceive the public is a fool and a piker if he thinks he can get away with it through pages in newspapers. He may manage to put it over for a while, but the backfire will get him in time, and it won't be long before he'll find himself exactly where he deserves to be—nowhere.

Newspaper space isn't for fakirs—it's for honest men, and every honest business can profit greatly through the use of it. It throws a spotlight upon the scene—and men and things that aren't quite standard will not stand the glare.

The crook should eschew printer's ink—he should emulate the Hun propagandists—slip around quietly and pass the bunk heart to heart.

For Honest Men

Passing Events: Social, Personal, &c.

Recent casualty lists report: Pte. H. J. Pitman, formerly of Naramata, seriously ill.

Mr and Mrs Walter Wright and child, Roy Elsey, and Donald McIntyre were K.V.R. passengers to Vancouver on Monday night.

Mr Andrew Robertson of Philadelphia arrived here last Thursday evening on a visit to his sisters, Mrs W. Kerr and Mrs W. H. Hayes.

There still continues to be considerable activity in Summerland real estate. One of the latest transfers reported is the Watson lot, so called, on Jones' Flat, to M. Steuart.

Baled hay is being brought all the way from Ontario to the Similkameen Valley. A Princeton firm has bought two car loads of timothy and red clover, costing them over \$40.00 a ton laid down.

A car of Jonathan apples was shipped the first of the week to Minneapolis by the Summerland Fruit Union. This is the second car of apples of this variety to go from the Union to that city.

Miss Bena Logie, who came home on a short leave for a rest, but spent practically all her time while here in nursing, left by K. V. R. last Monday to resume her duties in the Good Samaritan Hospital, Portland, Oregon.

Mr W. A. Chisholm of Cranbrook, who has been in Summerland for some weeks staying with his sister, Mrs Findley, was joined last Friday by his wife and two boys. The family will probably remain here for the winter at least.

Mr and Mrs G. H. Ingles and their two young children, arrived here last Friday from Saltcoats, Sask. They made the journey west as far as Cranbrook by motor, where Mr Ingles shipped his car to Grand Forks, the journey to Summerland being made by train. We understand that Mr and Mrs Ingles are likely to make their home here.

Jack Craig, a former employee of the Fruit Union, and a brother of George Craig, is now in Russia. In a letter just received here he states he is within the Arctic Circle, and looking forward to two months of darkness. The men there are now busy building log houses as a protection against the Arctic winter.

Teachers Wanted

TEACHER for Summerland Ward School, salary \$340 per annum; also Teacher for Junior Third Grade at Central School, salary \$340.

Applications, with references, to be addressed to J. H. BOWERING, West Summerland, Secy. School Board.

New Mounts. Best Portrait Paper. Come early and get your choice of these Mounts.

W. W. HANDFORD,
PHOTOGRAPHER,
PENTICTON.

Say, Neighbor:

I have some Special Snaps in Choice Real Estate.
A SEMI-MODERN COTTAGE with One Acre, close to West Summerland.
FIVE-ACRE FRUIT LOT in bearing, all planted in good varieties of standard apples.
Also FRUIT LOT on LAKE-SHORE.
W. C. Kelley,

Col. Cartwright, who has been chief instructor in musketry in British Columbia during the war, is again at his home here.

Do not forget your flag on Sunday, Canada's day of National Thanksgiving. Every bit of bunting should be flown on that day.

Mr W. K. T. Smellie, until recently a resident of Winnipeg, came in from Vancouver a few days ago to visit his son, John Smellie, of Kalavista Resthome.

Okanagan apples are enjoying an ever extending market. Dealers in St John, away down on the Atlantic seaboard, are now using our apples for their best trade.

Ten of Summerland's Japanese residents boarded the K.V.R. last Friday night for Vancouver. We understand that three of them are sailing from there to visit their native land.

In order to comply with a recent government order The Review mailing list is being checked up, as unpaid subscriptions must be eliminated. If in arrears renew at once. Your label shows date to which you have paid.

S. J. Beggs, who recently purchased the Shaughnessy property, is now taking possession, and G. Marshall, who has been in charge there, is moving to the Angus lot in Prairie Valley.

Miss Belle Vanderburg and Miss K. Elliott left by Monday evening's train for the Coast, Miss Vanderburg to resume her studies at the Normal School, Vancouver, and Miss Elliott at the Normal, Victoria.

Unless otherwise requested acknowledgment of receipt of renewal subscriptions to The Review will be made only by change of subscription date on label. Increasing costs have now made this a universal practice.

Miss Conway, of the Bank of Montreal staff, left last Friday for a visit with friends in Vernon. Miss Conway has been ill for several weeks, and had not sufficiently recovered her strength to resume her duties at the bank.

Mr J. Rowley will re-open his West Summerland Store in a few days with a new Stock of Jewelry, Watches, Clocks, etc., suitable for the Christmas and New Year trade. Your continued patronage will be doubly welcome and appreciated. 18

Now that the strain and worry of the war is ended and the Victory Loan a thing of the past, all attention is being centred on the approaching Christmas festivities. Are our local merchants getting their due share of this year's Christmas trade? If not, why?

In connection with the rumor among the school children that the Christmas holidays will be shortened this year on account of the time lost through the influenza epidemic it is pointed out that this is a matter for the Provincial Department of Education to decide.

Because of the great rush of work early in October The Review was not furnished with the usual monthly weather report from Balcom Ranch. The Experimental Farm's report for that month was published. We do not know whether any of our readers are preserving the monthly reports from Balcom Ranch, and will not now publish the September figures unless we have sufficient requests to do so.

While tying a young mare to a tree on Monday morning, Mr H. G. Moller received a nasty wound and narrowly escaped worse injuries. He had just tied the rope when the horse reared and struck at him with its fore feet. One of the unshod hoofs struck him fairly in the mouth with a downward blow, cutting the lip on the inside, so that two stitches were required. Mr Moller was thrown forcibly to the ground and considerably bruised. He had sufficient presence of mind to give himself a rolling motion as he fell, and by this thoughtfulness only did he escape a kick from both hind feet, as immediately he was thrown down, the mare turned and kicked at him savagely. Mr Moller had thrown himself beyond the range permitted by the horse's tether.

Mrs W. J. Taylor and family are leaving early next week to spend the winter with relatives in Ontario.

Is your subscription paid? A recent government order requires that subscriptions to newspapers be paid in advance.

Mrs Estabrook of Peach Orchard, went up to Peachland on Sunday where she plans on spending the winter with friends.

Capt. G. L. Estabrook, retired, is relieving Capt. Weeks, of the C.P.R. tug "Naramata," Capt. Weeks being ill with influenza.

Mr John Stark, who suffered a paralytic stroke some time ago, lies seriously ill at the home of his nephew, A. H. Steven. We regret we are unable to report any improvement in his condition.

Several motor parties from Summerland went down to Oroville on Thursday, Uncle Sam's Thanksgiving Day. After enjoying the Thanksgiving dinner the visitors from here attended a dance.

The first snow of the season fell on Tuesday, when a thin mantle covered the earth down to lake level, to the depth of about an inch. Almost immediately it began to disappear before the southerly breezes.

A victim of pneumonia, following influenza, Andrew Pierre, son of Antoine Pierre, died early on Monday morning at the Emergency Hospital. The funeral was held on Monday afternoon, burial being in the reserve cemetery close to Penticton.

C. S. Stevens, for several years a resident of Summerland and manager of the Lake Shore Telephone Co., until it sold out to the Okanagan Co., has recently returned to his home in Edmonton from France, where he has been serving as a chaplain.

Attention is called to the announcement, elsewhere in this issue, of the postponement of the Provincial Seed Fair, and the Seed Growers' Association and the Dairymen's Convention. The dates for these have now been fixed for the middle of January.

Advertising, like liniment, does not do much good when applied with a feather. It needs to be rubbed in for results. Apply it through the right mediums to the right people at the right time, and keep on rubbing it in until returns begin to come in. Then still keep on rubbing.

Recent press reports chronicle the death of President C. R. Van Hise of the University of Wisconsin, one of the largest institutes of learning on this continent. President Van Hise, who is a brother of W. E. Van Hise of Summerland, had but recently returned from England, where he had gone on a commission for the United States Government.

From the first Summerland has always been popular as a summer resort. Its delightful climate, varied and beautiful scenery, and the fascinating attractions of Okanagan Lake will always make it an ideal place to spend a summer vacation. Of late years it is becoming equally popular as a place of residence during the winter. Its open falls, extending well into the winter months, and its early springs, with a short mild winter intervening, appeal forcibly to the residents of the prairies, and almost equally as strongly to the people of the Coast, who tire of the dark rainy days. Already quite a number of families have moved in for the winter, and the demand for houses, and particularly furnished quarters, is becoming acute. Any who have such accommodations to rent should make it known. For this purpose the "For Rent" column of the local paper might well be used.

CARD OF THANKS.

Mrs D. C. Thompson desires to convey to the many kind friends and neighbors her heart-felt gratitude for their many acts of kindness, their help and sympathy during the sickness of her young son, and for the beautiful flowers placed upon his casket.

The Influenza has killed 50 Indians in the Nicola Valley.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The Anglican Women's Aid is planning to hold a Sale of Work and Home Cooking in the Parish Hall on Thursday, December 12th. C18,19

The ladies of St Andrew's Church have been preparing material for a sale, the date for which has now been fixed for Saturday, December 14th. See advertisement. C

Lakeside Church, Sunday 7 p.m., Thanksgiving service with special music. Service conducted by Pastor, Rev. A. Henderson. A brief address on the war by Rev. H. A. Solly. C

KEEP CUSTOMERS POSTED.

The greatest reserve force you can employ is to keep your customers well informed of your doings, says John Hart, in Hello, a London publication. Public memory is always short—under the present conditions it must be shorter than usual; the stress of circumstances is great, far too great, to enable them to recollect that "your goods are the best!" So keep your reserves in constant training, fit for the day.

What Mr Hart says to English merchants and manufacturers is equally applicable in Canada. The wise business man will advertise with an eye to after-the-war conditions.

A scheme is under way to plant 1,000 acres in Utah with a rubber bearing plant.

The Canada Food Board has no intention of interfering with dealers who legitimately store potatoes, apples, and vegetables for the requirements of their trade.

Representatives of nine Protestant denominations have accepted an invitation of the Presbyterian Church in the United States to meet in Philadelphia on December 3 to 6 to consider an appeal of the Presbyterian General Assembly for "organic union of the evangelical churches in America."

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

Miss Kate Miller arrived home on Wednesday morning of last week after having suffered from an attack of influenza at Anyox. She left here some little time ago to take part as nurse in assisting with the epidemic, but unfortunately was taken ill at once herself. She had a fairly hard time of it, suffering from bronchitis at the same time. We are glad to say that she is now recovering nicely, although still weak.

Mr and Mrs Chamberlain (nee Gracie McLure) with their little daughter, were passengers arriving on Wednesday morning, having come from their home in the States. They expect to remain at the home of Mr G. McLure, across the lake, for an indefinite time. We are sorry to report that Mrs McLure has not been well for some time past, and does not seem to improve any, in fact, seems rather to be declining.

Mr and Mrs G. B. Phillips were passengers arriving on Wednesday night of last week, to spend a short holiday with their parents here. Mrs Phillips left here a short time ago to join Mr Phillips at Calgary, from where they were to leave for their annual trip to the Osborne Art Calendar Salesmen's Convention being held in the eastern States. Owing to the epidemic they were advised that the convention was postponed till the 9th of December, so they took advantage of the intervening time to visit Peachland again, when Mr Phillips intends trying his luck for a set of horns.

Mr Groves of Kelowna, Government Engineer, paid Peachland district a visit this week in connection with irrigation matters, coming in on Wednesday night and leaving by Friday night's boat.

Mrs Birkett Robinson was a passenger to Westbank on Thursday morning, where she had been called by telephone from her sister, Mrs Harkness, to meet and spend the day with her brother Clarence Duncan of the R. A. F. Clarence has been in Toronto training camp, and had a short leave home. He is attached to the photographic branch of the service. After spending a couple of days in Westbank he went on to Vancouver, where he expected to remain a few days before returning to Toronto.

Mr W. J. Moore spent Thursday in Kelowna going over on the morning boat and returning in the evening.

Who says N. S. Davidson can't A'Ford? Why of course he can. He went over to Kelowna one day last week and got one and drove it home himself. Now he can make a trip to town and back while he would otherwise be getting ready and hitching up the horse to come.

After spending a few days in Penticton, the guest of Mr and Mrs R. J. McDougall, Mrs H. McDougall returned home on Saturday morning last.

Miss Leone Morrison left on Saturday morning's boat to resume her duties at her school in Rutland, the influenza ban having been lifted.

Passengers to Kelowna on Saturday last were Mrs and Master George Frucan, Mr and Mrs Walter Charlton, returning on the evening boat.

The regular meeting of the Ambulance League was held in the Reading Room of the Presbyterian Church on Tuesday afternoon last. Mrs G. Needham, who had had charge of the cutting, asked to be relieved, and Mrs A. Smalls was appointed to take her place.

The Keyes and Phillips motored to Penticton last Sunday, returning the same day.

Having rented her home in Summerland, Mrs Estbrook, Sr., has come to Peachland to reside for a time. While here she is the guest of Mr and Mrs R. H. Harrington.

Mr Vic. Jones was a passenger arriving on Monday night last.

C. Morrison and H. Keating were passengers to Kelowna, returning on the evening boat.

Mr N. S. Davidson and A. Ferguson motored to Kelowna on Tuesday last.

Mr Kincaid of Kelowna came down on Tuesday night's boat, and is visiting at the home of Mr A. D. Ferguson.

You may be sure you are right, but do not be too sure that everybody else is wrong.

SENSATIONAL STORY OF RAILWAY DEAL

(Continued from page 1)

in the Department of Railways, which is presided over by Premier Oliver. Under the circumstances it would be discourteous and improper for me to make any statement in the absence of the Premier. I can only say that the question is not one which takes us by surprise, and that when the Premier's explanation is made, either at the opening of the legislature, as I believe had been his intention, or before then, if he so decides on his return, it will be found, I am sure that the explanation is a full and ample one, which will satisfy both the legislature and the people of British Columbia.

The acting premier refused to enter upon a discussion of the matter, which relates to his chief's own particular department.

NOT AGREED TO.

It is understood from persons friendly to the government who

claim to know the facts of the case, that the discovery was not made until after the prorogation of the House that the agreement which had been signed by the parties and sanctioned by the legislature was not the same agreement which the Premier and the Foley, Welch & Stewart representatives later declared they had arrived at.

This story of the affair is said to run roughly as follows: During the negotiations for a settlement which were conducted in person by Hon. John Oliver with the Foley, Welch & Stewart representatives, the Minister of Railways agreed that if a cash payment of \$750,000 was made together with a transfer of all the plant and equipment for the operation of the road, then the contractors would be allowed to remove all of their construction equipment.

Hon. Mr Oliver, so the recital runs, drew up his own form of agreement, and in the section which was to cover the apportioning of the road and construction plant inserted

a clause to the effect that all the plant and equipment, as in a schedule annexed, was to pass to the province.

Having thrashed out and agreed upon the terms, Hon. Mr Oliver is said to have handed over his draft agreement with alterations to the law officers of the government to put into better legal shape and to stop up any loopholes. Apparently they did the job quite completely, for, so the story runs, finding that the schedule or inventory referred to had not been attached or received, the law officers re-drafted clause 14 into what a lawyer terms "an omnibus clause," covering everything in or upon or adjacent to the line, etc., with the idea of putting the province in a favorable position in the event of dispute over the items in the schedule when it arrived.

This re-drafted agreement, which is alleged to have gone further than the bargain the Minister of Railways had made with the Foley, Welch & Stewart people, was later on signed by the respective parties, printed upon the legislative records, and an act embodying the agreement passed, without the discovery being made by either the Minister or the Foley, Welch & Stewart officials that clause 14 contained anything that had not been agreed upon.

When the discovery was made,

it is said, the legislators had departed, and the government was confronted with the problem of whether to hold Foley, Welch & Stewart to the forfeiture of their plant and equipment or to take the responsibility of disregarding the statute and carry out the promise the Premier made that they should have their construction equipment if a cash payment was made to the public treasury. Taking the view that the latter was the honorable course to adopt, and that the legis-

lature could be counted on to endorse such a change, instructions were sent out to release the equipment which provincial officials had already seized and inventoried.

Such in brief is said to be the story of the removal of the equipment which has attracted notice, and which promises to provide some interesting discussion when the legislature meets.

At present Premier Oliver is away at Ottawa and is not expected home for several days.
