Municipal Elections

Soon Time To Elect Reeve, Councillors and School Trustees

Board Of Trade Takes Hand In Civic Politics. Petitioning Councillor Simpson To Permit His Nomination For Reeveship

The last regular meeting of the Municipal Council for the year 1918 will be held to-morrow, Saturday. Occasionally we hear the question "who are to comprise the 1919 council?" The rush for honors has not yet made it difficult for ratepayers to choose, and while municipal affairs are frequently discussed and not infrequently is the action or non-action of the municipality criticized, the task of carrying on municipal government is not sufficiently attractive to bring out many candidates. The Board of Trade, in announcing a meeting to be held to-night, makes a somewhat radical departure in stating that the consideration of the personnel of the 1919 council and a discussion of municipal affairs in general is the principal business to be brought before the board. Anything that will create livelier interest in municipal affairs and will induce ratepayers in general to take a more active participation in the welfare of the community will be welcomed by well-wishers of the district.

At the coming elections it will be the duty of the ratepayers to appoint a reeve and four councillors, and two school trustees. The reeve and one councillor for each of the four wards are elected annually. Trustees are elected for two years. The three who were put on the board a year ago, Messrs Gartrell, Garnett, and Marshall, still have another year to serve. The retiring trustees are Mrs W. C. Kelley and Mrs F. W. Andrew, and we are informed that neither of these ladies will consider re-election. This being the case two new candidates must be selected. School trustees are elected by the ratepayers at large, not by wards.

The Review has not yet been able to learn whether it is the intention of all the present members of the council to offer themselves for re-election. In discussing the matter with Reeve Blair he stated that he was inclined to retire but had not definitely decided. We believe that Coun. Johnston has been approached with the suggestion that he accept nomination for the reeveship, but he informs The Review that he has no desire for the position. In our rounds this week we came across a petition, now being circulated for the signature of ratepayers, asking Coun. Simpson to permit his name to be entered on nomination day for reeve. Nothing more than rumor could be gathered as to any new candidates in any of the four wards as ward representatives on the council.

Christmas Vacation

Dr Alexander Robinson, Superintendent of Education, is notifying the several School Boards in districts where schools were closed for three weeks or more as a preventive measure against the spread of Spanish influenza, that the school boards are empowered to keep their schools in operation the whole or part of the Christmas and Easter vacations, except Christmas Day, New Year's Day, Good Friday, and Easter Monday.

The question of holding classes during the holiday season was considered by the Summerland School Board, but the idea was finally abandoned. To-day is the last day of the school year with the exception of the manual training department, where classes will be held next week as usual. This is by mutual arrangement between Instructor Baker and the boys.

Faces Winter of Misery and Distress

The clothing and food situation in Roumania is causing great misery, says George Danielopol, the newly appointed Roumanian Minister to Washington. The German occupation of Roumania brought poverty everywhere. The minions of Von Mackensen were as cruel as those of Von Bissing," says the minister. "Bucharest, like Brussels, has been stripped clean of everything. "If relief does not come soon a large part of our population will die this winter from hunger and cold. The people are walking about in their bare feet and they lack nourishment. "In Roumania at present a suit of clothes of a cheap variety costs more than \$200, a pair of shoes \$120, and a pound of chocolates \$25. The needs of the country are clothing material, shoes, and fats." Above is a picture of the principal street in Bucharest, the capital of Roumania.

Women Will Unite Forces

Two Local Institutes To Be Amalgamated

By a motion, carried unanimously at a well-attended meeting of the West Summerland Women's Institute, it was decided that the Institute join forces with the Summerland Institute. Details of the amalgamation are to be worked out at a joint meeting to be held in January.

Mrs K. Bentley presented a report of the seed growing competition, in which eight of the members participated. The growing of mangel seed and sweet pea seed, and of mangel steckling had been taken up. Prizes were awarded as follows: for mangel seed, Mrs W. C. Kelley, 1st; Mrs F. Dickinson, 2nd; and Mrs and Miss Dale, 3rd. These same winners in the same order also took the prizes for sweet pea seed. Miss I. Spencer won the prize for steckling mangels.

During the meeting Supt. Helmer of the Experimental Station gave a very interesting talk on Soil Fertility.

Returned Soldiers Favor Farming

Over 105,000 members of the Canadian Expeditionary Force wish to take up farming in Canada after the war. This figure was obtained by interviewing 230,000 members of the forces overseas; 48.9 per cent. of those men wish to go on the land. The provinces in which they wish to settle are as follows:

Ontario	25,400
Alberta	23,072
British Columbia	15,135
Saskatchewan	15,108
Manitoba	11,708
Nova Scotia	8,533
Quebec	8,380
New Brunswick	2,831
Prince Edward Island	816
Province not stated	4,518

"Of these 105,000 the cards disclose that 78,000, or 74 per cent., have had previous agricultural experience," statement says. "The number of men who have had three years' experience or more is 62,000, or 58 per cent., and the surprising number who have had twenty years' experience or over is 11,000, or almost 11 per cent.

"That this declaration represents a substantial prospective increase in the agricultural population is revealed by the fact that of the 105,000 men who wish to go on the land, fewer than 41,000 were actively engaged in agricultural pursuits at the time of enlistment.

"The men were asked to state whether they desired to take advan-

Theatres Offer Special Features For Holidays

Coming Of Two World Famous Pictures Announced This Week

Special attractions for the holidays are being offered this week by both the Rialto and Empress. On Christmas night and the night following the Rialto will put on "Lest We Forget," the great screen drama for which the world has been waiting. The historical significance of the drama will make it of value as long as the world stands, for it shows in visible form the great causes back of America's entrance into the war. The violation of Belgium and the leading of its citizens into captivity, the wanton destruction of magnificent cathedrals, and the inhuman treatment of innocent women and children are shown both on land and in the sinking of the mammoth ship, the "Lusitania," are all to be seen in "Lest We Forget."

[Continued on Page 8.]

New Business Opening Here

Bakery and Restaurant To Supply Long Felt Need

A long-felt need in the business life of the community has been a bakery to supply bread, cake, etc. This need is now to be supplied. A baker's oven, large enough to hold a hundred loaves at one baking, is now being built in the Campbell Block by Mr W. Johnston, who has had twenty years' experience in cooking and catering. Mr Johnston is this week opening a restaurant where meals will be served at all hours, in fact, while the restaurant is being fitted up, meals are now being served in the rooms above. Mr Johnston has been in charge of some excellent cafes and dining saloons, and more recently has been in charge of the catering on C.P.R. trains carrying officers and troops.

The opening here of a restaurant and bakery in charge of a man of the capabilities and experience of Mr Johnston, will be welcomed by the people of the district.

Okanagan Valley Selected by Govt. for Settlement Plan

Fairview—Osoyoos Tract Acquired From The Southern Okanagan Land Company. Will be Developed by Government in Units and Sold to Soldiers

The announcement was made at the provincial capital this week by Hon. T. D. Patullo, Minister of Lands, that the Provincial Government had completed arrangements for the purchase of the land holdings of the Southern Okanagan Land Company for the purpose of inaugurating a large-scale agricultural settlement in the lower Okanagan Valley.

The property comprises 22,000 acres, including about twenty miles on either side of the Okanagan River, together with a stretch of bench lands on the west side of Osoyoos Lake averaging two miles in width, and running for a distance of ten miles from the outlet of the Okanagan Lake to the International Boundary. The townsites of Osoyoos and Fairview are included in the property.

READY FOR PLOUGH.

The lands are ideally situated in this garden region of the province, with abundance of water nearby for irrigation needs, the entire 22,000 acres being open land all ready for the plough, and capable of being easily transformed into a second Okanagan district.

It is understood that the purchase price of the 22,000 acres is \$350,000, or, on the basis of a little more than \$15 an acre, or \$100,000 less than was offered to the Southern Okanagan Land Company for the property four or five years ago.

In making the announcement on behalf of the government, Hon. T. D. Patullo said:

"These lands, in my judgment, constitute the best development scheme of like proportion in British Columbia. They are being purchased under the 'Soldiers' Land Bill' for the benefit of the returned soldiers and the development of the province generally. In carrying out our plans it may be later found desirable to intersperse soldier settlement with other experienced and capable settlers. This will have to be determined as circumstances dictate. There will necessarily be a very large amount of preliminary work in connection with the project, such as the checking up of surveys for the construction of irrigation works, the subdivision and survey of the whole tract, the laying out of townsites, the allocating of right-of-way for railway, etc.

DEVELOP BY UNITS.

"This will furnish work for returned soldiers during the construction period, and will put them in a position to make and save money, which will assist them in acquiring the lands after irrigation works have been constructed and water has been rendered available. This project particularly lends itself to development by units, which will keep down the overhead expenses and render its economic success more easy of accomplishment.

"In the carrying out of our plans we think there should be no difficulty in so arranging matters that we can co-operate with the Dominion Government under its legislation, so that Dominion assistance should be available to returned soldiers under their legislation.

"Last summer I went over this ground with the Water Comptroller and it struck me as a great pity that this large tract of what is undoubtedly as fine territory as there is in British Columbia should be practically uninhabited.

"The project has received the consideration of other officers of the government, including the Grazing Commissioner, the Superintendent of British Columbia Soldier Settlement, and the Deputy Minister of Lands. The knowledge

of the last-named official of this tract of land extends back some twenty years.

"We propose to formulate plans of operation immediately in order that actual development may begin with as little delay as possible. This is a project worth while. It is constructive work in a large way, and I feel perfectly sure will redound greatly to the benefit not only of the returned soldiers but to the province at large."

ONE-TIME CATTLE RANCH.

The lands which have thus passed into the possession of the government to be made the object of the government's principal effort in modern large-scale agricultural settlement once formed part of the big cattle ranch staked out over sixty years ago by the late Judge Haynes, and which were later acquired by Thomas Ellis, one-time cattle king. In their later history they have been bound up with the fortunes of the Shatford brothers.

The Okanagan River, which runs through the middle of the property, is navigable all through the summer from Osoyoos Lake to Fairview Bridge, where much of the best land is situated, a distance of about sixteen miles. None of the land is more than five miles from the river, and most of it is within two miles.

Most of the land will need irrigation, though a small portion is so well watered as to require drainage. Most of the land can be irrigated direct from the Okanagan River by a gravity system. The greater portion of what is outside of the river-fed system is said to be capable of being irrigated by a gravity system fed from the creeks. The necessary reservoir sites on Inka-meep Creek, which were obtained by the company some time ago, pass with the property to the government. Only a small portion of the lands will require power pumps to bring the water to their ditches.

It is understood that the government will embark on the work of irrigation by easy stages, bringing areas of a couple of thousand acres or so at a time under irrigation. The irrigation plans, when completed, however, are expected not only to take care of the needs of the area referred to, but also to provide water for the needs of the Osoyoos Indian Reserve on the east side of the valley. As no settlement has taken place in that part of the valley, the work of planning out an irrigation scheme to serve the entire area is said to be much simplified.

In his report, which was made at a time when he was transferring his services from the U. S. Government to the Government of the Colony of Victoria, Dr Elwood Mead, after referring to the range of semi-tropical fruits which can be grown in the valley, and to its commercial possibilities, said: "The last resource to be enumerated, but one regarded as most important, is the combination of attractive climate with landscape of unusual scenic beauty. The succession of lakes between Vernon and Oroville are lovely now with the mountain background, but their beauty will be immeasurably enhanced when the valleys become centres of civilized life and their slopes are covered with orchards and vineyards. This tract is the only one where extensive development is possible, and the long narrow strip on each side of the river offers an ideal place for homes. It will, in time, be the resort of those who have accumulated a competence in more rigorous climates and wish to enjoy it where they can have the greatest measure of human comfort."

1918 - Christmas - 1918

BEFORE another copy of THE REVIEW shall have reached you, dear reader, Christmas Day, the most joyous day of all the year, will have come again.

Not for five years has it seemed quite appropriate or sincere to extend to you our wishes for a Merry Christmas. This year, with our hearts full of gratitude for deliverance from a threatening reign of terror and oppression, and the forces directly opposed to the teachings of the PRINCE OF PEACE, we can truly rejoice, though in our hearts there is the lingering pain for those of our brave men who are not to return with the victorious troops. But these would not have us mourn. Rightly, we should rejoice and be merry, and we wish for you that there may be nothing to prevent yours being

A Most Merry Christmas Season

Correspondence.

Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Creekside,
West Summerland.
Dec. 12, 1918.

The Editor, Summerland Review.

Dear Sir,
I read your leading article in The Review of 6th inst. with interest, and hope that it will bear fruit, in fact I have spoken to a few men about it, and they are perfectly agreeable to help form a committee and meet the boat on arrival, and I should think that arrangements could be made with the captain to blow a signal on the whistle when he has any returned soldiers on board for Summerland. At the same time do not let us forget the boys that will never return, having laid down their lives in the cause of freedom. Do you not think that it is time for us to get together and have a memorial to those, and let it be something that will be ever before us, and also something that will help beautify our "Home Town."

A public meeting is the first thing, so let us get together as soon as possible and not forget—when fixing the date—that there are people outside the municipality who do not get their Review the same day as it is published and would be glad to attend.

Trusting you will spare the space for this letter in your next issue.

I am, Dear Sir,
Yours truly,
F. A. MILLER.

To the Editor,
Summerland Review.

Dear Sir,
Can anyone tell me why it is that Chinamen—without being asked to do so—have sent me donations to the Red Cross drive, while some people who profess to be Christians have refused to give anything to this appeal?

Does their refusal come from utter selfishness, or from a complete indifference to the sufferings

of their fellow creatures? In either case they would do well to take a lesson from those whom they call "heathens."

Poverty is no excuse, for we are never so poor but that we can help those who are more in need than we are ourselves. At this Christmas time of special rejoicing it is hard to believe that there are men and women who can refuse assistance to the suffering and destitute. Though they are thousands of miles away it is as much our duty to help them as if they were right at our door. It is surprising to find that in some cases a Chinaman has more idea of his "Duty to his Neighbor" than the so-called Christian.

Yours truly,
DOROTHY MAY.

Toronto,
November 26, 1918.
The Editor, The Review,
Summerland, B.C.

Dear Sir:

At the conclusion of the Victory Loan Campaign I wish to express to you this Committee's appreciation of your whole-hearted and effective co-operation. This Campaign probably provides a record in promotion by the press of a public enterprise. That this support is warmly appreciated is made plain by numerous messages which have reached this office during and since the campaign. From the Minister of Finance, from the Chairman of the Dominion Executive, from the Chairman of Special Committees, and from Provincial Chairmen have come messages of cordial appreciation and thanks. For example, from Nova Scotia comes such a message as this from G. S. Campbell, Provincial Chairman: "Hearty congratulations; work thoroughly appreciated in Nova Scotia and largely contributed to the success of the Loan here." This is typical of the testimony from all over the country.

The Campaign began as a war

THE MYSTIC BEAUTY OF MUSIC WAS NEVER MORE NEEDED IN THE HOME THAN IT IS THIS CHRISTMAS

When cloud-banks blot the sky dull grey, or whistling winds make outdoors disagreeable, how cheery and exhilarating are bright lights and sparkling fires;

And in these soul-trying days, how welcome is the cheery brightness—the soothing caress—the soul-satisfying message—of the music you love.

So this Christmas you need music more than ever—good music, that brings the spirit of Christmas to everyone, young and old. Such is the music of

The NEW EDISON
"The Phonograph with a Soul"

This wonderful instrument brings the beautiful world of music into your home—RE-CREATIONS of the art of the world's greatest artists. The New Edison does not merely imitate—it actually RE-CREATES with such utter fidelity that the human ear cannot distinguish between the living artist and The New Edison.

The true spirit of Christmas lies in the soul of The New Edison. Let it sing its message of hope and faith and love in your home this year.

Visit our store for a demonstration of the marvelous New Edison or have one sent to your home. No obligation, of course. 197

Has a Doctor the Right to Get Drunk?

If the butcher, the baker, or the candlestick maker goes off on a drunk, that's his own business, says the Princeton Star. The tailor, the barber, and the bricklayer can go on a toot and no one is injured but himself. We have seen fiddlers

effort. Before it ended war had ceased. Nevertheless the national well-being which actuated the press in giving the Campaign such unusual support continued. It is impossible to forecast what will be the full effect in Canada during the period of transition and afterwards, of the splendid success of the Victory Loan floated at a most critical moment. Its large share in that success the press of Canada will always be able to recall with satisfaction.

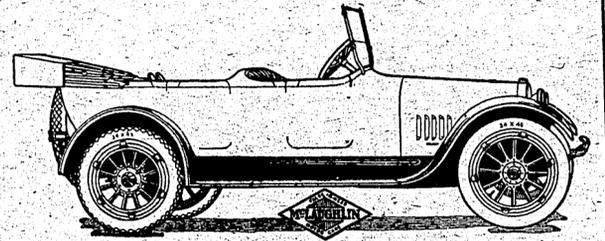

Yours sincerely,
JOHN R. BONE,
Chairman, Dominion Press News and Feature Committee.

get tanked up at country dances and spoil the dance, and we have known printers to get soused on publication day and throw the paper late. Cooks have a playful habit of getting stewed just when their services are most required. We even knew a preacher in Nelson some years ago who used to carry home a beautiful jag several nights each week. But no lives were lost and no great damage was done. It is different, however, when a physician gets drunk and stays drunk at a time when lives are depending on him. Then it becomes the public's business.

Bad reports come from Hedley, where, it is alleged, the resident doctor has been "lit up like a battleship" ever since the influenza epidemic started. By being incapacitated, not only were many lives in Hedley in jeopardy, but it was necessary several times to call a Princeton physician to make the 40-mile trip down there and back, when that gentleman already had more work than he could attend to looking after his patients at home.

The people of Hedley seem to have just cause for their indignation in connection with this matter.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs A. Town and Miss Olive Ferguson spent Wednesday of last week in Kelowna, returning on the evening boat.

Mrs W. W. Fulton was a passenger to Westbank on Thursday of last week, returning in the evening.

Passengers to Kelowna on Friday last were Miss F. Brocombe with two of her sister's children, Polly and Teddie Topham.

Four trappers and hunters of Swedish extraction came from down the lake last week prepared to go on a trapping expedition in the rear of our district. We presume, however, that they did not find conditions just as they would wish for their line of business, from the fact that they returned from the hills early this week and took the boat north. We have not exactly an ideal trapping district, but the deer hunting this year has been very successful. There were few hunters who did not realize their allotted number this season.

The Women's Institute met on Friday of last week after having missed their last regular meeting owing to the town being closed down at that time as a protective measure from the influenza. There was a fair attendance to enjoy an interesting session. The accumulation of correspondence was read and discussed as well as other matters of business transacted. During the afternoon Miss A. Elliott was called on to give the report of the convention which was held in Kelowna in the fall, and which report had not been given before owing to the missed meeting. Those present got the next best to an attendance at the convention, for the report was very full and interesting.

Mr D. J. White returned home from the Coast last Friday night to remain for an indefinite time.

Mr W. W. Fulton returned from Westbank last Friday where he had been for a few days previous.

Miss Newby was a passenger to Summerland on Friday night of last week, and her friends here were sorry to learn that she has been quarantined there. It is reported that she has the influenza but is not suffering from a severe case. Her Peachland friends hope she will recover and regain her health to permit of her trip home for the Christmas holidays which she purposed taking there. We are sorry that Miss Newby found it necessary to resign her position as teacher of the primary department of our town school, but wish her success wherever she may take up what duty holds out to her.

Mr C. W. Aitkens was a passenger to Kelowna on Saturday last, returning in the evening.

Mr J. S. Moore spent the weekend in Penticton, going down on Saturday night and returning on Tuesday morning.

One of our homes was saddened last Saturday by the death of Mrs Donald McDonald who has been living here for a time with her daughter, Mrs Reid. We understand death came as a result of paralysis. The funeral was held on Monday forenoon.

After spending the week-end in town with his brother, Mr E. Fulton returned to Westbank.

Two of our teachers, Miss Nicholson and Miss Ireland were passengers south on Monday night, Miss Ireland just to spend her Christmas holidays with her people and return to take up her work in the town

school for the next term, but we regret Miss Nicholson has accepted a position in her home town, Summerland, and will not be with us next term. However, during her short stay here she has made a number of friends, and being only a short distance away she will probably find her way back for an occasional visit.

Mrs H. McDougall left on Saturday night last for Penticton where she expects to visit for a time at the home of Mr R. J. McDougall, perhaps till after Christmas. Mrs McDougall has not been enjoying the best of health recently, and we hope the change and rest may do much to help her to regain her usual health.

Passengers north on Tuesday were Mr N. S. Davidson for Kelowna, Mr T. Powell for Vernon, and Mr J. McKinnon for Westbank. Mr Powell remained over in Vernon for a few days on business.

After spending some weeks in the hospital at Kelowna, Mrs Pinneke returned home on Tuesday night of this week. She has not completely recovered, but her foot is on the way to recovery.

We are pleased to learn that the McLaughlin family had the glad news of the arrival in Halifax last Saturday of their son Thomas, better known among his friends here as Tom. We are sorry not to be able to give the proposed date of his arrival in Peachland, but it will probably be soon.

One of Peachland's earliest pioneers in the person of Mr L. D. McCall, celebrated his sixtieth birthday on Wednesday the 18th, enjoying a family gathering to dinner.

Quite a number of our boys and girls have been taken down with a peculiar epidemic which has mostly confined itself to the children, although a few grown-ups seem to have suffered from somewhat the

same symptoms. It broke out suddenly in the school, and steps were taken at once to close the school, and in fact the town more or less, as a protective measure for fear it should develop into the much-dreaded influenza. We are glad to report no serious cases, and all seem to be doing nicely.

Mr Layton of Penticton with three helpers has been spending several days in town doing some much needed repair work on the government telephone line through the municipality.

FRIDAY, DECEMBER 20, 1918.

EUROPE MUST BE FED.

FAMINE AND PESTILENCE of unprecedented proportions are possibilities, declares the conservative Montreal Star in an editorial which is quoted with approval by the Boston Transcript, and fairly expresses the main current of American opinion. A special cable to the New York Times bears confirmation in the news that "the flow of refugees from Russia continues," and that "Petrograd is actually starving at present. Bread costs about \$8 a pound." From Germany, Foreign Secretary Solf cables Secretary Lansing: "As there is a pressing danger of famine, the German Government is particularly anxious for the peace negotiations to begin immediately." Even France, no doubt because she chose that available shipping should bring American soldiers and arms rather than food, is suffering acutely. According to a member of the American Food Administration, the time has come for dispelling the popular impression that food is plentiful in France. All through the country districts not included in the battle zone, practically the only food which anyone can afford is bread.

Putting the danger into a nutshell. The Wall Street Journal asks whether Central Europe shall have "bread or Bolshevism?" This strong exponent of a firm social order is of the opinion that "we must recognize the fact that hunger breeds anarchy, and that the most effective weapon against Bolshevism is a loaf of bread." Victory has made the Allied peoples, "through their governments," in the opinion of the Montreal Star "responsible for world conditions," and Food Administrator Hoover declares that "the spectre of famine abroad now haunts the abundance of our tables at home."

WALT MASON, the well-known American writer and editor of the Emporia Gazette, gives us something particularly good about the country newspaper. It appeared in a pamphlet entitled "Human Interest Stories," issued by the Equitable Life Insurance Company. Here it is: "Our little country papers seem drab and miserably provincial to stangers, yet we who read them, read in their lines the sweet intimate story of life. When the girl at the glove counter marries the boy in the wholesale house the news of their wedding is good for a forty line wedding notice, and the forty lines in the country paper give them self-respect. When in due course we know that their baby is a twelve-pounder named Grover, or Theodore, or Woodrow, we have that neighborly feeling that breeds the real democracy. When we read of death in that home we can mourn with those that mourn. When we see them moving upward in the world, into a firm and out toward the country club neighborhood, we can rejoice with those that rejoice. Therefore, men and brethren, when you are riding through this vale of tears on the California Limited, and by choice pick up the little country newspaper with its meagre telegraph service; when you see its array of countryside news, its interminable local stories; its tiresome editorials on the waterworks, the schools, the street railroad, the crops and the city printing, don't throw down that contemptible rag with the verdict that there is nothing in it. But know this, and know it well: If you could only take the clay from your eyes and read the little paper as it is written, you would find all of God's beautiful, sorrowing, struggling, aspiring world in it, and what you saw would make you touch the little paper with reverent hands."

A NEW POTATO BOOKLET.

THERE HAS COME to the editorial desk a copy of a booklet on the use of potatoes. Many new and interesting recipes are given which are likely to attract attention. It is the desire of the Food Board to bring before Canadian housewives anew the remarkably high food value of the potato so that it may be used to the fullest extent in the coming winter as a leader among those things which have to supplant wheat flour as much as possible. Despite the common knowledge of the humble potato, it is not nearly so largely used nor prepared so palatably as it could be. The booklet, when ready, will be willingly mailed to any applicant to the Food Board, Ottawa.

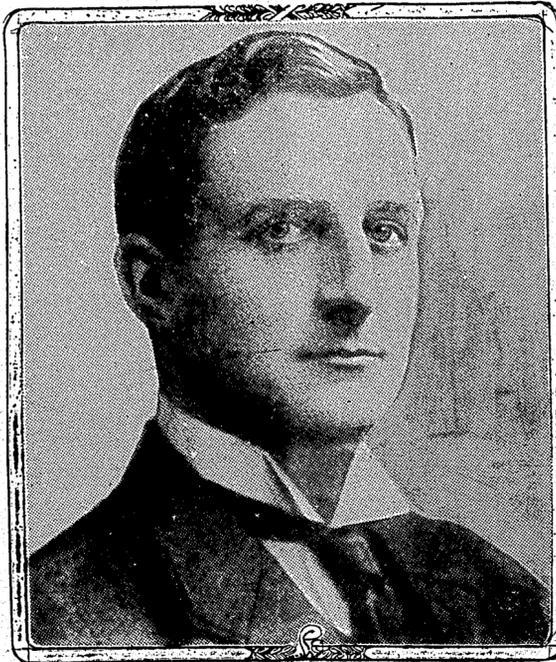

A FINANCIAL CORPORATION IN VANCOUVER has been publishing in the press a list of B.C. municipal bonds which they offer for sale. On some of these they have set a price, while on others they ask for bids. Two issues by Summerland are included in the list, one at 5 per cent., due in 1940, is listed at 80.32 and interest. Another issue maturing in 1934, bearing 6 per cent. interest is quoted at 95.66 and interest. It is noticeable that the shorter the term the higher is the price quoted. According to these figures some of our later issues for a short term at 8 per cent. should bring quite a premium.

Mrs. G. NOBLE

Suggests a Solution To Much-Discussed Problem

VISCOUNT GREY, formerly British Foreign Minister, says a league of nations is the solution to the question of "freedom of the seas," and that Great Britain and the United States can reach a complete agreement on that question by joining such a league.

Fish Meal as a Live Stock Food

In these days anything that will increase the available quantities of cattle food without decreasing the quality is of immense value. Experiments have proven that this is possible with fish meal, a food stuff that as yet is little known in this country, but which is used extensively in Europe. Fish meal should not be confounded with "fish scrap," "guano," or "pomace," or other forms of fish by-products used as fertilizers. The fish meal used is more carefully treated, and includes, or should include, only fresh, sound fish, or fish offal. The value of fish meal as a cattle food is explicitly set forth in a four-page pamphlet No. 17, issued by the Department of Agriculture, Ottawa, and which can be had free on application to the Publications Branch. Results of experiments made at the Central Experimental Farm show that fish meal, where available, is a suitable concentrate for cattle, sheep, and for hogs; that fish meal contains 55 to 60 per cent of protein, and over 10 per cent phosphate of lime; that if of good quality and properly fed with other meals and with roughages, it is palatable, wholesome, and a good feed for young growing stock, and also for milk production; and that if given a fair trial, and used in proper proportions it should become one of the most popular and profitable protein supplements for swine feeding.

tage of any scheme of assisted agricultural settlement, and almost 96,000, or 89 per cent., stated that they wished to avail themselves of such assistance. The number who declined to accept government assistance was over 6,000, or about 7 per cent. The remainder gave indefinite answers.

"A further surprising fact was revealed that practically 50,000 of the 105,000 announced their willingness to work for wages to get experience. The number who declined to work for wages to get experience was over 42,000, but this is easily accounted for by the fact already mentioned that 61,000 have had three years' experience or more."

An advertiser who keeps constantly using a conservative space is a greater credit to the columns of a newspaper and to the community than the "up-like-a-sky-rocket-and-down-like-a-stick" type.

Classified Adverts.

RATES:

FIRST INSERTION - 2 cents per word; minimum charge 25 cents.

EACH ADDITIONAL INSERTION - 1 cent per word; minimum charge 10 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures counts as one word.

If so desired, advertisers may have replies addressed to a box number, care of the "Review," and forwarded to their private address. For this service, add 10 cents to cover postage.

Passing Events: Social, Personal, &c.

Mr and Mrs A. H. Steven leave to-night to spend the holiday season with relatives at the Coast.

Mrs C. M. Smith, of Innisfail, Alberta, arrived here a few days ago to remain with her daughter, Mrs Chas. Baker.

Mr and Mrs James Watt, of Innisfail, Alberta, are expected here this week to spend several weeks with Mrs Watt's sister, Mrs R. Graham.

Jack Smith, eldest son of Mr and Mrs J. O. Smith, returned home this week from Hastings Park, Vancouver, having been given his discharge from the army.

Her many friends here will learn with much regret of the report that Mrs A. W. MacLeod is seriously ill, and wait with anxiety and hope that the next news from the family, now in South Vancouver, will be that she is improving.

To meet increasing demands upon its facilities by the rapidly increasing fruit crop of the Okanagan the C.P.R. is making provision to increase its store of ice. The ice house at the Landing will be extended, the contract for which has now been let.

The sale of work held last Saturday afternoon by the ladies of St Andrew's Church was successful in every way. The sale was very largely attended and all seemed to have a good time. The different stalls were well patronized, and practically everything was sold. The receipts totalled \$160 or more.

The Home Comfort Club have recently issued a twenty-four page booklet containing an excellent collection of practical recipes contributed by members, all the recipes having been used by practical housekeepers. The club is now offering these for sale at the modest price of 25 cents. Besides being of value in the kitchen they are fitting souvenirs of the club, whose splendid work, carried on throughout the years of the war, will soon have ended.

Through a most unusual misfortune, P. Burgoine now living on the Campbell Ranch in Garnett Valley, has lost a valuable horse. Last Thursday, while Mr Burgoine was away and the horse was loose about the yard, it jumped over a wood pile, and in doing so came down upon the edge of a double-bitted axe, the other edge of which had been driven into the top of a chopping block. The axe severed large blood vessels and tendons near the hock of one hind leg. All efforts to stop the bleeding failed, and the animal quickly bled to death.

Lemon Crop Totals Ten Thousand Cars

California's lemon crop will total close to 10,000 cars this season, provided no setback takes place. The greatest total consumption of lemons, both California and foreign, in the United States and Canada during any year for the past ten years has not exceeded 11,500 cars, thus showing that California shippers are in a position to supply the entire wants of the country for lemons without calling for a box of the foreign product.

The nearness to British markets is giving Canadian wheat growers an advantage over all others, in or out of the empire.

Where the school garden and agricultural instruction has been introduced in the province, the experiment has proven so satisfactory and the study has been shown to be of such practical value, that the Vancouver schools have requested the introduction of school gardens in the thirty-two schools of that city.

Motorists in this section will be glad to learn that the Okanagan Telephone Company has arranged with the Kelowna Board of Trade to instal a telephone at the Westbank ferry wharf. This will permit auto owners and others on the Westbank side to call the ferry office at Kelowna, or indeed to speak to any point on the company's system. The telephone will be a pay slot affair. The experiment will be tried out for a year. The toll charge has not yet been decided on.

A young son was born to Mr and Mrs C. J. Gale last Saturday at the Summerland Hospital.

R. H. English announces that he is prepared to take a limited number of horses and cattle for winter pasture. 21

Dr George Hindle, principal of the Trail High School, has done excellent work during the epidemic, nursing nightly in homes for several weeks.—Trail (B.C.) News.

Prof. W. T. Broad and Mrs Broad, and their son Charles left by boat on Wednesday evening for Calgary, where they will spend a few weeks visiting with friends.

Walter Ramsay, of Idaho, a brother of Thos. Ramsay of this place, with his wife and four children, arrived here this week for the purpose, we are informed, of making their home here.

Mr T. H. Boothe has disposed of "Roycroft," his orchard home at Naramata to Mrs Harriet Shievers of Ottawa, Ontario. It is understood that Mrs Shievers will have immediate possession.

A bale has been sent to Red Cross headquarters this week by the Summerland branch of the Okanagan Ambulance League, containing 91 prs. socks, 6 stretcher caps, 12 prs. slippers, 12 housewives, 6 prs. bed socks, 6 slings, 6 scultetus bandages.

Messrs E. R. Simpson, W. H. Hayes, and J. Lawler, president, vice-president, and manager respectively of the Summerland Fruit Union, motored to Kelowna and to Vernon on Tuesday. Mr Simpson remained in the North Okanagan city to attend a meeting of the directors of the Okanagan United Growers. The other two returned the same night.

Brought down with influenza on their way to California Rev. A. Henderson and his daughter, Miss Cathleen are still at Victoria. They left here on the morning of Monday, December 2nd, intending to spend a few days in the capital city before continuing to San Diego. Two days after arriving in Victoria they were both down with influenza. Writing to friends here a few days ago Mr Henderson stated that both were recovering, but that his daughter was still quite ill and weak, and that they would likely have to remain in Victoria for some days at least.

Milk Bottle CAPS

Stock Caps of Best Quality At Lowest CASH Prices.

Review Office.

Mr J. M. Sutherland is expected home the first of next week from Winnipeg.

Mr and Mrs S. B. Snider are leaving to-night for Vancouver where they will spend the holidays.

A carload of Alberta coal is due to arrive next week for R. H. English. Place your order with him at once. 21

Since the influenza struck Trail, seven weeks ago, there have been 64 deaths, 60 of which were directly due to influenza or resulting pneumonia.

Mrs A. J. Beer had a wire this morning from her husband stating that he would arrive home on Monday from Toronto where he has been with the R.A.F.

Late prairie reports are to the effect that there has been considerable stiffening of apple prices. It is understood that jobbers have advanced apple prices about twenty cents.

The annual convention of the B.C. Fruit Growers' Association, formerly held each year at Victoria, will be in the Okanagan this year, Penticton being the convention point. The dates are January 21st and 22nd.

According to a cable received from England by the Canadian Department of Agriculture, the British Ministry of Food is interested in the importation of cheap fruit only. Mr C. W. Baxter, head of the Fruit Branch, says he is not hopeful that any increase will be made in the price of apples in boxes on account of superior quality.

A number of poles in various parts of the district once a part of the old Okanagan Telephone Co. system are being removed, a local man having the contract. This week a crew of Okanagan Telephone men has been busy taking down wires and insulators along Shaughnessy Avenue. These wires were formerly used by the company's local exchange, but as the Summerland company now has all the local business the wires have not been used for some time.

Raising Embargo Is Fine Thing.

Officials of the Fruit Branch of the Ottawa Department of Agriculture predict that the definite removal of the three years' embargo on the importation of apples into Great Britain is going to be a fine thing for Canadian apple growers. The removal of the embargo has had an immediate effect in Nova Scotia, where there are approximately 200,000 barrels of apples still in cold storage. These can be readily exported to Great Britain, even if space is limited on individual steamships.

The Summerland Fruit Union is sending a car load of apples to England.

HANDICAPPED.

In a Scottish country parish a well-known joker was chatting with the minister, who jocularly said: "I suppose, Jamie, you have in your time made up as many witticisms as I have sermons?" Jamie: "Well, I dinna ken, but you have a great advantage ower me."

Minister: "In what way?" Jamie: "In this way. If I try tae palm off an auld joke on anyone the thing's detected at once; but folks pay sae little heed tae sermons that when an auld ane's preached it gangs doon jist as wool as a brand-new discourse!"

FAMILIAR "HOHEN."

Townley (in Milwaukee cnto, 1925)—"That watter you called 'Hohen' looks familiar." Yandley—"Probably you saw his picture in the papers; it used to appear quite often a few years ago. Then he was called the 'Crown Prince.'"

A Prussian officer once declared that they would either win the war or go to hell. They have not won the war.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Attention is directed to an advertisement of the masquerade dance to be given New Year's eve in Steward's Hall, Penticton. C

A union service will be held in St. Andrew's Presbyterian Church on Sunday morning at 10.30. A combined choir of the Baptist, Methodist and Presbyterian churches, under the leadership of Miss Harrison, will render the following anthems: "Peace on Earth," "Simper; "Behold, I Bring You Good Tidings," "Churchill; "Arise, Shine," Elvy. The subject of Rev. W. H. Bates' address will be "Was Jesus Mistaken in His Forecast of the Future." Miss Evelyn Brown will sing a special solo.

The children of the Lakefront Sabbath School, Summerland, will give their annual Christmas Entertainment in Empire Hall on Friday, December 27th, at 8 o'clock. Cantata and Minstrel Troupe with choruses. Lively music; splendid singing. Proceeds to be applied towards Armenian Relief Fund. Tickets, 25c. Come one, Come all. See Ad. C

There will be no meeting of the Red Cross next week. The next meeting will be in the Parish Hall at 2.30 on Monday, January 6, 1919. C20

Mounted Police For Br. Columbia

Territory Of R.N.W.M.P. To Be Extended East And West.

The Royal Northwest Mounted Police is to have its jurisdiction extended from Port Arthur to Victoria. It is understood that this important decision has been reached, and that the necessary order-in-council will be passed immediately.

The mounted police will have charge of the enforcement of Federal laws from the head of the lakes to British Columbia. For some time it has been increasingly apparent that a Federal force was necessary to enforce Dominion laws. It has therefore been decided, instead of disbanding the force as was at one time proposed, to extend its authority through the whole of Western Canada. In Eastern Canada the Dominion police will be increased in strength, although there has been a proposal to extend the famous red-coated force to the whole of Canada. This may be decided later.

The force, which now consists of only some 500 men, will be increased to 2,000 or 2,500 men.

There are two squadrons of the mounted police in France consisting of 740 men. They will be added to the home force. There are also 180 men in Siberia. These, with ex-mounted policemen, who are anxious to return, will likely bring the force up to strength.

The headquarters of the whole force will continue in Regina. There will also be posts at Port Arthur, Winnipeg, Nelson, Vancouver, and other points. Since the war there have been a few police doing boundary patrol work in Manitoba and among the British Columbia mines, but now they will continue the work they have formerly carried on in Saskatchewan and Alberta only.

Taking Troubles To Bed.

I know a man who is aging very rapidly from his business and family worries. I frequently travel morning and evening to and from the city with him, and instead of looking fresh and rejuvenated in the morning he actually looks older and more careworn than he did the night before. This is because he takes his troubles to bed with him and falls asleep worried and depressed. Instead of practicing mental chemistry and neutralizing or driving them out by the peace thought, the harmony and love thoughts, he lets those vicious mental devils, that are playing such havoc in his life, work all night in his brain. And, of course, they poison his blood, deplete his vitality, and cut wrinkles deeper and deeper every night.—From "Love's Way."

Summerland Fruit Union

Little Grief Felt In Her Demise

Burial services were conducted simultaneously in the Elliott Hall and in the Parish Hall on Friday afternoon of last week, when Animosity had the last writ of a decent burial conducted by the ladies of both the Summerland and West Summerland Women's Institutes; and it is hoped "she" will remain under for evermore.

The Institutes had resolved on a re-union, and it was put to a vote of the members of both Institutes, with the gratifying result that from now on there will be only one Women's Institute conducting useful and instructive work amongst the women of Summerland.

The aims of the Women's Institute are well-known here now. There may be some who are not conversant with the good work. It would be well for those to make an endeavor to attend some of the meetings and find out for themselves how they can be benefited.

Get the "Get-together" spirit and participate in the mutual advantage gained. Let the women put Summerland on the map as she has never been before, and you may become a power in your own community and in the province to which you are all proud to belong.—Contributed.

Advertising is a cumulative proposition. When all merchants advertise, even if they take but a small space in the home paper, the effect of all doing it has a much greater drawing power than if only one merchant advertised though he used greater space than all combined. All merchants do not recognize this. They are content to live on the enterprise of their fellow merchants who advertise in order to keep the business that holds the community together. It retards the growth of the community and creates a leak in business that loses money to all.

CONCLUSIVE EVIDENCE.

A special constable in a suburb of London relieved his mate at midnight, and, to his astonishment, found him in a most deplorable condition. Both his eyes were in mourning, his nose was flattened, his mouth was askew, and his clothing showed further testimony of a terrific combat.

"My Gawd!" said the relieving officer of the law. "You're in a 'orrible state. You're beaten up sumphin' terrible an' no mistake. W'ot 'appened?"

"Yer knows that pretty little widdler as lives down at the end of the street 'oo's 'usband was killed at Gallipoli?"

"Yus."

"Well, 'e ain't."

The best gratuity that can be given a returned soldier—a job and the right to be left alone.

King George Visits Canadian Troops

The above picture was taken during one of his frequent visits to Canadian Camps in England.

THEATRES OFFER SPECIAL FEATURES.

(Continued from Page 1.)

The star of "Lest We Forget," beautiful Rita Jolivet, was herself a passenger on the "Lusitania" on its ill-fated trip, and heard those immortal words of her fellow-passenger, Charles Frohman, "Why fear death? Death is the most beautiful adventure of life." Her life was spared to be a living witness to the brutality of the Huns.

This great eight-act production provides a mighty panorama of events now historical, connected with the opening days of the war, and follows its progress through the later thrilling months. A beautiful story shines like a star through the darkness, the roar of battle sometimes seeming like a mighty accompaniment to the human drama being played. Many Canadians unable to go abroad and engage in actual fighting or works of mercy have wished they might see with their own eyes a part of what has been going on in Europe since August, 1914. "Lest We Forget," shows more of actual events abroad during the great struggle of decency against barbarism than any one person, whether combatant or non-combatant, could possibly see. Besides being a great love story, it is a valuable chronicle of the war.

"Hearts of the World," describes the supreme triumph of D. W. Griffith, to be presented at the Empress Theatre, Jan. 1st, one day, inaugurates a new era in the realm of the screen drama. Here, with the great war as a background, Mr Griffith has filmed a simple little love story, old as the ages yet ever new. "Hearts of the World" has proven the latest sensation in the screen world. Mr Griffith realized that the public which became enthusiastic over "The Birth of a

Nation" and "Intolerance" would expect something big from him in this latest picture, and therefore instead of trying to outdo himself in staging gigantic battle scenes, he used the Great War only as a background for the filming of a simple and attractive story of tremendous human interest.

"Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror War reared its ugly head over the horizon. The causes that led up to the war are shown; the meeting of the English Parliament on the eventful night when the vote was cast for war; the session of the French senate voting upon the Declaration of War; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude; then the great drama begins when the German hordes enter France.

In taking the battle pictures for "Hearts of the World," Mr Griffith had the assistance and co-operation of the British War Office. It is the opinion of all who have seen "Hearts of the World" that Mr Griffith has outdone his own best achievements and has established a new artistic record which it will take years and years for someone else to equal, if indeed such a thing is possible.

WHAT A COAL MINER DID.

When the war began in 1914 a man named Godfrey Jones, a coal miner in Wales, enlisted as a private. He soon became a non-commissioned officer, and a little later earned a commission. At Saloniki he showed such conspicuous courage that he was awarded the Distinguished Service Order. The other day Col. Jones, still serving with his countrymen and in command of Welsh soldiers, was promoted to the rank of brigadier-general. The coal miner now outranks the heir to the British throne.

Big Party Goes To Oroville Dance

(Oroville Gazette.)

Last Thursday a party of merry makers from Summerland recruited by a squad, bent upon enjoyment, at Penticton, drove down to Oroville in cars, participated in the Thanksgiving dance, stopped over in town all night, returning home at noon on Friday. The visitors certainly enjoyed their visit, and Mine Host Grubb, of the Hotel de Grubb, did all in his power to make their stay in town pleasant. The party joined together in the big dining room of the hotel on Friday for lunch before their departure, and had a jolly time of it, singing a number of songs, closing with "America." Not since the beginning of the world war has the town been visited by such a large and happy company of people from British Columbia. On their return the visitors dropped a note to E. N. Grubb, bearing the signatures of the entire party, enclosing \$5.00, and stating that "in our excitement on leaving your hotel we overlooked thanking your dining room help for their courtesy. Please accept enclosed with our compliments and tender to them." The party consisted of Mrs C. J. Duncan, F. G. Anderson, Hesse Phinney, Edna English, Mrs I. R. Brown, I. R. Brown, R. D. Darkis, Gertrude Rines, Mrs A. S. Peck, Ed. C. Arkell, C. J. Duncan, and Frank Steuart, of Summerland, and J. G. Curry, Mrs H. St Clair, Miss Bryson, and Mr Ray Wanless, of Penticton.

W. H. Hudson, for seven years principal of the Vernon High School, has resigned, to take a position on the staff of the Victoria High School after the Christmas holidays.

Sugar Ban Is Now Off.

The ban on the use of sugar for making French pastry, iced cakes, or biscuits, for candy for private consumption, as well as in the manufacture of icing sugar, has been removed. The war restrictions on the method of serving sugar in public eating places are withdrawn.

On and after January 1, white or granulated sugar may be used in making bread, etc., so, too, the restrictions on the use of sugar in the manufacture of canned goods, biscuits, cake, dough products, candies, chocolate, table syrups, and the like, medicinal preparations, beers and soft drinks, desserts and jelly powders, ice cream, and even on chewing gum will not be in force.

The cancellation of so many rules which war had imposed on Canadian use of sugar has been made possible through unexpected improvement in stocks, but the Food Board desires the public still to be reasonably restrained and to avoid anything like extravagant use of any of these articles, because it will still be some weeks before supplies and distribution can be at all compared with pre-war conditions.
