CHARGED WITH VIOLATING THE WATER ACT

Case of Irrigation Water Flowing from One Lot to Other

DECISION SATURDAY

R. Clouston Takes Action To Stop Water Reaching His Collar

The result of a case brought before Police Magistrate Hutton on Wednesday will be of more than passing interest to land owners under irrigation systems. A charge was laid by R. Clouston against H. Sculthorpe, under Section 29 of the Water Act, the information being that Henry Sculthorpe did unlawfully divert more water than he could beneficially use, to the prejudice of Robert Clouston. W. C. Kelley conducted the case for Mr. Clouston, while Mr. Sculthorpe had no counsel, although the Magistrate offered to adjourn the court to give him time to arrange for counsel. Much evidence was taken down, including that of Municipal Clerk Nixon, which was for the purpose of proving ownership of the land and that the accused was being served by the municipal system.

The date mentioned in the charge was Monday, August 30th, and Mr. Clouston gave evidence stating that since the beginning of the season water has been entering his cellar to the extent of three or four inches in depth, every time Mr. Sculthorpe irrigated. He told of reporting the trouble to Mr. Sculthorpe and requesting that he prevent the water flowing from the Sculthorpe lot onto his own. There was no other possible source for the water in his cellar, except from the irrigation ditches on the Sculthorpe lot. He was troubled the same way last year and this spring had told the accused he must make some arrangement to prevent the water coming onto his land. When the trouble commenced again this spring he had notified Mr. Sculthorpe that the water still continued to come. The accused had made a furrow across the foot of his lot, but the water overflowed this ditch. Mr. Clouston had written the Soldiers' Settlement Board, from whom the accused had bought his land. They denied responsibility. A letter to the District Engineer remained unanswered.

Cross-examined by Mr. Sculthorpe, the witness said that a ditch had been put across the foot of the irrigation furrow last month. There was a strong tendency on the part of Mr. Sculthorpe to argue the matter with the witness instead of adhering to the court procedure. When asked if he had not always been bothered with water the witness answered in the negative, the only time he had been being when snow was melting.

Henry Sculthorpe, sworn, stated that the irrigation ditches on his land ran toward the Clouston property. He did not have sufficient water to properly irrigate his trees. When told of the water escaping to the Clouston property, he had tried to prevent it and had cut a deep ditch across the furrow, cutting of some trees from irrigation. He inspected this ditch frequently and claimed that the flow on the day mentioned was caused by a mole hole. This he had stopped as soon as discovered. He admitted the trouble could be stopped but at considerable expense. When cross-examined he said the water was running in this furrow on August 30th, but not enough to get out to the Clouston property. Asked by Mr. Kelley if it would not be wise to use some of this water on the trees which he said were dry, instead of allowing it to waste, the witness's reply was that the water would not run uphill.

The evidence showed that the water in the cross-ditch was the accumulation of an overflow from the ditches in the tree rows.

V. J. Bernard testified to the putting in of the preventative ditch that he thought was large enough for all the water going into it. In the cross-examination of this witness, Mr. Kelley apparently attempted to show that by irrigating in a different manner the overflow onto his neighbor's lot would be prevented, and Mr. Clouston, when re-called was questioned along this line. He stated that he had been in charge of the lot for 10 years and had made a profit from the fruit crop. In all this time there had been no water escaping to his land.

In addressing the Court, Mr. Kelley pointed out that Mr. Clouston was not taking action for damages but wanted the nuisance stopped, and stated that the whole case was based on the charge that the accused took water in excess of what he could beneficially use, with the result that it flowed onto his neighbor. Mr. Kelley pointed out the status of the water user and quoted from the Act, the spirit of which, he stated, is that water shall not be wasted. Other courses could have been taken to stop this nuisance, but the method which was adopted was the cheapest for all concerned. It was important that Mr. Sculthorpe should realize his legal position.

To this the Court replied that there were many others who did not realize their positions with respect to the use of water. Stating that he desired to look over the lots in question, His Honor adjourned the case to Saturday at 11 a.m.

THE OPEN SEASON FOR PHEASANTS

The open season for pheasant shooting is not the same throughout this part of the province. In the electoral riding of South Okanagan it is limited to the six days, October 20th to 25th. In the Similkameen the season extends to the 30th. The southern boundary of South Okanagan crosses the Valley a short distance south of the Experimental Station. From there to the boundary the longer season will prevail.

A change in the regulations affects minors, the age limit having been raised from 16 to 18. Now no boy under 18 may obtain a gun license without first obtaining the consent of parent or guardian together with an undertaking by him that the youth will always be accompanied by a senior when carrying a gun.

ORCHARD HELP IS AVAILABLE

Some Picking Prices Now Paid in Okanagan

If any of our fruit growers are in need of girl pickers they should apply to Miss Davidson, care of the government labor bureau, 480 Homer street, Vancouver, according to information furnished The Review by one of our fruit growers. The Dominion government also has a man stationed at Vernon, where a labor bureau is maintained; but, according to report, that office has sent men from the Okanagan to help in the prairie harvest fields.

Methods of payment for orchard work seem to vary between the several sections of the Valley, according to our informant. In the Vernon district girls are largely relied upon for picking the fruit. When paid by the hour the rate of payment is 30c. But most of the labor is done by "piece work." From 5c to 7c is paid for orchard boxes of 40 pounds net. This variation in rate is made according to working conditions, and figures out at from \$2.50 to \$3.50 per ton. The higher price is said to be paid in the orchards where trees are high.

From 11c to 15c is paid for 40 pounds of crabs, and 12 1/2c to 15c for the same quantity of prunes.

In one orchard our citizen saw a crew of 10 men, whites and Japs, at work. Most of these were being paid by the hour at 40c. Asked how these rates compared with those being paid here, the visitor to the northern end of the Valley replied that, as far as he was aware, these wages did not average as high as is being paid here.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Date, 1920	Max.	Min.	Rain	Sn.	Sun.
August 25	62	60	0.0	0.0
August 26	71	55	.05	10.2
August 27	64	55	.02	0.0
August 28	67	48	0.0	4.0
August 29	59	44	.10	0.0
August 30	70	49	11.2
August 31	71	45	12.4

A motor truck belonging to the Fruit Union, and carrying about three tons of fruit, broke through the Upper Peach Orchard bridge on Thursday afternoon. One of the rear wheels of the truck broke through the plank, resulting in a bad spill, a portion of the fruit being dumped into the creek.

It was pointed out that Mr. Clouston was not taking action for damages but wanted the nuisance stopped, and stated that the whole case was based on the charge that the accused took water in excess of what he could beneficially use, with the result that it flowed onto his neighbor.

Mr. Kelley pointed out the status of the water user and quoted from the Act, the spirit of which, he stated, is that water shall not be wasted. Other courses could have been taken to stop this nuisance, but the method which was adopted was the cheapest for all concerned. It was important that Mr. Sculthorpe should realize his legal position.

To this the Court replied that there were many others who did not realize their positions with respect to the use of water. Stating that he desired to look over the lots in question, His Honor adjourned the case to Saturday at 11 a.m.

SUMMERLAND MELONS PRAISED

All Lines of Vegetables Being Moved in Volume

VALLEY CONDITIONS

General Showers Have Been of Much Benefit Throughout Valley

Crop movements are the subject of a report issued by W. T. Hunter, District Horticulturist, under date of Saturday last.

Treating the Valley first in sections and then of conditions generally, the report reads:

Salmon Arm—Potatoes and beans promise a good yield in the Ashcroft District, although the acreage is greatly reduced as compared with last year.

Fruit is sizing well in the Kamloops District, and the vegetable crops are very promising.

The rain of ten days ago improved the moisture situation at Salmon Arm and as a result the fruit is continuing to size up very well. McIntosh Reds are the most promising. Berry canes have made a splendid thrifty growth in this section and the berry business deserves the most earnest consideration of the growers as being one of their most promising crops in this section.

Where the matter of soil fertility has been given consideration, the moisture supply has held up well through the hot weather and as a consequence the canes compare very favorably with the cane growth of the berry sections on the Coast.

Vernon—Yellow Transparent and Red Astrachan apples are about over. Duchess now coming in in considerable volume. Wealthies will not move for two weeks. On the whole the quality of the Duchess apple is not as good as it should be, due to the fact that the growers as a whole have not paid enough attention to thinning. Duchess trees if allowed to follow their own natural tendency will bear a heavy crop every other year. Provided, however, that the tree is liberally supplied each year with plenty of moisture and plant food very early in the season it can be brought into a thrifty condition where average crops can be obtained each year. Very heavy thinning of the fruit in the early season, as soon after the apples have set as possible, will tend to assist the tree in maintaining its annual crops. As the Duchess apple ripens early in the season and sizes very rapidly from the time the fruit is set, there is naturally a very heavy drain on the vitality of the tree and as a consequence unless the tree is very carefully fed and handled it is not possible for it to bear and set strong fruit buds for the next season.

Potatoes and cabbage are moving slowly and shipments are in considerable volume. Shipments to date out of the Valley fall approximately 100 cars short of being equal to last year at this date.

Kelowna—Weather continues good with cool nights and occasional showers. Duchess apples coming in in fairly large quantities and in good condition. Transcendent Crabs are moving fast and in splendid condition. Pears are good crop. Bartlett's, Clapps Favorite and Boussock are now moving. Apricots and early peaches about over. Tragedy, Burbank, Abundance, Maynard and Bradshaw plums coming in slowly, condition good. Tomatoes are very slow in ripening this season. Cannery operations hardly commenced at this date.

Pentleton (Keremeos District)—All crops, including apples, pears, peaches, corn and tomatoes making excellent progress. Tomatoes are ripening fast and much ripe fruit is in evidence. Delicious especially showing well. Up to date plenty of water has been available.

Pentleton District—All crops making excellent progress. Duchess, Yellow Transparent, Totofsky, Crabs, Bartlett, Clapps Favorite, Yellow St. John, Hale's Early, Burbank and Abundance, of good quality, are moving through the packing houses.

Light showers fell on Wednesday, the 25th inst.

A report has been circulated at the Coast that the Peach crop will not be up to the average, but this is erroneous, as the Crawford and Elberta crop never looked more promising for several seasons as to both quality and quantity, Elbertas giving in particular a promise of being a very fine crop.

Weather Conditions

The nights have been very cool for the past two weeks and as a result tomatoes are not ripening as rapidly as could be wished. The days have been only moderately warm, and heavy showers fell throughout the Valley on Friday, the 27th inst., and will do much to improve the moisture conditions.

Note—Owing to the meeting of the Western Horticulturists, Entomologists and Pathologists in Vernon last week, no news letter was issued.

Summerland—Some cantaloupes

SUMMERLAND IS SENDING TEACHERS

Several of Summerland's younger citizens are leaving this week-end to take up teaching in various parts of the West. Miss Kathleen Brown is leaving tomorrow for Wayne, Alta., where she will teach. Miss Marion Harwood goes to Arrowhead, B.C.; Miss Gertrude Elsey to Bridesville, B.C., and Miss Edith Bristow to Waltham. Miss Belle Vandenberg is taking a school in the Arrow Lake District. Miss Susie Wallack will teach near Vernor. Roy Elsey is taking a year off from his University studies and has taken the principalship of a school at Smithers in the northern interior of British Columbia. He left here last week to visit in Vancouver and Prince Rupert. From the latter city he will journey east 200 miles.

TO ORGANIZE NEW PARTY

Liberals and Conservatives Are Invited To Unite

The new political organization in Canada recently formed under the leadership of the Hon. Arthur Meighen of Manitoba and known as "The National Liberal and Conservative Party" will organize a local branch in Summerland on Tuesday evening next at a meeting called in the Parish Hall, of which public notice is given in this issue.

A member to succeed Hon. Mr. Burrell must be elected in this constituency within the next two months and the new party will have a candidate in the field and is anxious that its comprehensive policy for the betterment of Canada be placed before the electors for consideration.

Mr. J. W. Jones, of Kelowna, will address the meeting on Tuesday and otherwise assist in organization work. It is expected that a large attendance of both women and men electors will be present at this important meeting which will mark the initial step of the National Liberal and Conservative Party in this locality.

MANY COLLISIONS ON SHORE ROAD

Collisions on the Summerland-Peachland road are altogether too frequent, and are likely to continue until the road is improved at the points where these collisions occur.

A few days ago, Walter J. McDowall of the O.U.G. was on his way from Summerland to Peachland when his car collided with the Lambie car of Summerland. Mr. McDowall's car had to be brought back for repairs. Yesterday a Dodge car coming south was run into by a car going north. The driver of the Dodge said he saw the car approaching and turned out and stopped, when the other car came around the turn and collided with his.

OKANAGAN CULINARY GOES TO U.S.A.

KANSAS CITY, Aug. 20.—A carload of British Columbia culinary was received by the R. W. Goes Commission Company Wednesday. This is said to be the first Canadian culinary ever received on this market. The stock was of good quality but due to the long trip and to the fact that the car was heavily loaded, some of the culinary was heated. The stock was bringing from \$2 to \$4 per crate according to condition.

of excellent quality are rolling from Summerland. Yellow St. John peaches are moving now. All lines of vegetable crops are being shipped in volume, stock cars being used for tomatoes, cukes and early apples. Freight shipments from this district run from four to five cars per night. Express shipments are fairly heavy, running about 1200 cases per night. They are not quite as heavy as last season at this time.

Weather Conditions

The nights have been very cool for the past two weeks and as a result tomatoes are not ripening as rapidly as could be wished. The days have been only moderately warm, and heavy showers fell throughout the Valley on Friday, the 27th inst., and will do much to improve the moisture conditions.

Note—Owing to the meeting of the Western Horticulturists, Entomologists and Pathologists in Vernon last week, no news letter was issued.

ONTARIO IS SHIPPING WEST

Stone Fruits Coming Farther West Than Usual

CALGARY PRICES

Some Prices Being Quoted by Shippers Here and Elsewhere

CALGARY, Aug. 28.—Ontario is shipping her greengage plums further west this year than usual. Three cars are rolling to Alberta now, besides considerable volume of L.C.L. shipments. Edmonton gets two cars of these rolling and Calgary one.

Tomatoes, cukes and pickling onions are also coming into prairie markets from Ontario this year.

Duchess apples are being offered for B. St. Catharines at \$1.65 per bushel basket.

B.C. potatoes are still coming forward quoted at \$5 f.o.b. Vernon. B.C. cukes are scarce and advancing in price; they are now bringing 75 cents per box. Okanagan tomatoes are better in pack than last year; the 4-basket crate is an improvement on the flats. Kamloops sends some very nice tomatoes in 4-basket crates, being a decided improvement in grade over previous years.

A limited number of Everbearing Strawberries are arriving from the Lower Fraser Valley and Nelson. The price is \$6.00 f.o.b. shipping point.

B.C. Duchesses are arriving in crates and moving freely. Cherries are about past. Crawford Bay sends good cherries rather slack in pack.

Mr. S. Savage, of Plunkett & Savage, Mr. Hoskins of P. Burns & Co. and J. S. Fee, of Vernon Fruit Co., are at present visiting B.C., looking after their firms' interests there.

Dairy butter, 40c to 43c straights. Creamery butter, price unchanged, tone of market little firmer.

Fancy butter, 50c, light receipts owing to harvest.

Eggs, advance, price, \$16.50 per case.

Calgary Wholesale Prices—Fruit:

B.C. Apples, unwrapped, per box \$2.75 to \$3.00

Wash. Peaches, Crawfords, per box \$2.75 to \$3.00

Cal. Peaches, Elbertas, box 2.50

B.C. Peaches, Clings, box, 1.75, 2.25

Cal. Pears, Bartletts, box, 5.25, 5.75

Blackberries, crate, 4.00 to 4.50

Greengages, Bradshaw and Yellow Egg Plums, per 18-lb. basket 2.10 to 2.25

Transcendent Crabs, per pear box 1.85 to 2.00

Cantaloupes, Standards, 45c, per crate 4.75 to 5.00

Blueberries, Eastern, 15-lb. bkt. 4.00

Raspberries, B.C., lb. 15c to 22c

Saskatoons, lb. 12 1/2c

Prunes, Wash., peach box, 1.60, 1.75

Plums, B.C., Peach Plums, 4-bkt. 2.00 to 2.25

Vegetables:

Tomatoes, B.C., 4 bkt. 1.15 to 1.40

Tomatoes, B.C. Green, pear box 1.25

Cukes, B.C., peach box90

Celery, B.C., per lb.08

Cukes, Pickling, per crate, 1.50, 2.00

Cauliflower, local, lb.05

Turnips, Carrots, Beets & Cabbage, lb.2c to 2 1/2c

Citrus, Marrow and Squash, per lb. 2 1/2c to 3c

Corn, Sweet, per doz. 40c to 45c

Green Peppers, per lb. 15c

Egg Plant, lb.15c to 18c

Parasols, lb. 4c

Onions, Pickling, White Silver-skin, per 20 lb. case 2.25

Potatoes, Local, ton, 40.00 to 50.00

Below are prices being quoted by B.C., Ontario and Washington shipping points for f.o.b.

British Columbia—

Apples, early, wrapped, box 2.50

Apples, early, crate 2.00

Crab Apples, Transcendent, 1.25 to 1.35

Pears, Bartlett 3.20

Plums, Peach, 4 bkt. 2.75

Onions, ton 50.00

Squash, Marrow and Pumpkin, 30.00

Citrus, ton 40.00

Beets and Carrots, ton 30.00

Potatoes, Okanagan, ton 35.00

Celery, lb.05

Corn, doz.30

Green Tomatoes, pear box00

Ripe Tomatoes, flats 1.00

Ripe Tomatoes, 4 bkt. 1.25

Cucumbers, box75

LOCAL REALTY CONTINUES ACTIVE

Several local orchard properties have changed ownership during the last few days. Among the sales recently reported is that of the Edgar Gould property in Prairie Valley to H. C. Handley, of Winnipeg. Another Winnipeg buyer of Summerland realty is Sidney R. Davis, who has bought the Wisner property in Garnett Valley. Both these new citizens are coming to Summerland this month with their families. Both sales were made through the agency of F. D. Cooper. Another sale made by Mr. Cooper is that of the Oldham orchard property in Prairie Valley to Reginald Coldwell. Mr. Coldwell, with his wife and children, have been living with Mrs. Coldwell's parents, Mr. and Mrs. Penant, since coming here from the Northern Interior.

DONATIONS TO HOSPITAL

Local Institution Depends on Public Support Largely

The management of the Summerland Hospital depends largely upon a generous public for much of the vegetables, fruit and many other things required by that indispensable institution. That they do not look in vain is evident from the following list of donations made to the hospital in August. The list has been furnished The Review by the matron, Miss Johnston, who would have this paper express her gratitude to the numerous donors. August donations were:

Mrs. H. Smith, lettuce and cherries; Mr. Pollock, gooseberries, cherries and magazines; Mrs. W. Verity, vegetables; Miss D. Cooper, flowers, cake, magazines, jam; Mrs. Zimmerman, vegetables; Mr. R. H. English, repair of road at entrance to hospital; Mrs. H. C. Mellor, 5 doz. eggs; Mrs. R. R. Chew, fruit; Mrs. J. Treffry, potatoes; Major Hutton, fruit and vegetables; Mrs. E. J. White, jam, pudding; Mrs. Walton, vegetables (Prairie Valley); Mrs. Eckersley, fruit; Mr. J. Logie, loan of gramophone, magazine; Mr. Inabe, tomatoes, fruit; Mrs. Geo. Culver, eggs; Mrs. S. M. Young, fruit; Mrs. R. H. Helmer, vegetables; Mrs. R. L. Theed, vegetables; Mrs. Croil, fruit; Mr. Wm. Armstrong, eggs; Mrs. Millar, eggs; Mrs. W. J. Robinson, fruit; Mrs. Bray, fruit, old linen; Mrs. C. Evans, sack of potatoes; Mrs. W. E. Walters, fruit and vegetables; Mr. H. B. Hume, \$10 for electric iron; Mrs. R. M. Ross, jam, old linen, magazines; Mr. A. J. Beer, vegetables; Mrs. E. R. Butler, jam; Mrs. G. Young, flowers, eggs, vegetables.

Owing to the shortage of vegetables during the winter season it would be a great advantage to the hospital to have some preserved. Old linen or washable material or flour sacks would be much appreciated.

WASHINGTON OPENING APPLE PRICES

For the information of B.C. apple shippers the Fruit Markets Bulletin submits the following apple prices quoted for Canadian markets. These prices are f.o.b. Yakima.

Extra Fancy Fancy Grade C. Grand

Jonathan \$2.35 \$2.20 \$2.00

Wagner 2.00 1.85 1.75

Rome Beauty 2.00 1.85 1.75

STORING POTATOES FOR WINTER USE

Supt. Helmer Tells of the Two Best Methods

It will not be long until potato digging time is here. Each returning season brings to mind many questions of how best to care for the winter's supply of this staple article of food. Supt. R. H. Helmer, of the Summerland Experimental Station, says the two methods most used for the storing of roots and potatoes are the pit and the root house. The pit method is excellent but has the disadvantage of not being easily accessible during the very cold weather. To make a pit dig a trench 4 feet wide and 2 feet deep and pile the crop in level with the sides and heap towards the centre, not having any roots higher than three and a half feet at the centre. Before putting in the crop, nail two 12-inch boards together, forming a V-shaped ventilator the full length of the pit and allow them to protrude each end, rest the ventilators on the two boards, a hole being cut in the boards to allow ventilation to come from below. The ventilator shafts are made from 8-in. boards, two sides not boarded up inside the pit but slatted to allow free air passage and at the same time prevent roots from getting into the shaft. When all is in place cover with straw and put on just enough soil to prevent the straw from blowing away, and allow the roots to cool off for a few days. Then add 5 or 6 inches of soil, leaving all vents open both at the top and at the ends. As the weather gets colder add more dirt and in very cold weather close the vents by stuffing old sacks or similar material into them. When the weather modifies remove the sacking.

In root houses similar precautions must be taken. Give the houses as much air as possible when the roots are first sorted and see that the atmosphere is not too dry. In our dry climate we sprinkle the floor well once in three weeks. Should there be the least sign of shrivelling, more water should be put on the floor. Vegetables that have already gone down a little can be brought back by increasing the moisture of the air. During warm spells close the door during the day, leaving it open in the evening till bedtime to cool the air. The temperature in a root cellar or pit should not go above 38 deg. Fahrenheit nor below 32 deg. The moisture content of the air can be taken by a hygrometer.

During long spells of cold weather we watch the thermometers very closely and if any danger is feared we use oil burners in the cellar at night. The exposed walls of a root cellar need air spaces if made of stone or cement. When only a small portion of the cellar is out of the ground, bank well with manure and this will keep the frost from penetrating the walls.

Points To Remember
Allow the roots or potatoes to harden and dry in the field, covering them with tops if the weather is cold. Handle carefully; bruised and damaged products should be kept apart to be used up first. Don't pile up the crop too high.

FALL CARE OF BEES AND THEIR WINTER PROTECTION

By R. G. NEWTON.

Local bee-keepers will profit by the advice given by Supt. Newton, of the Dominion Experimental Station, Invermere, B.C., on the subject indicated in the above heading:

The initial step in the successful wintering of bees commences in September, says Mr. Newton, when the hives are carefully gone through and the weak ones fed a syrup solution consisting of two parts sugar and one of water. An ounce of cream of tartar to 40 lbs. of sugar is usually added to invert the sugar and retard granulation. Continue feeding in October if necessary, and make sure that each hive has at least six full frames of sealed stores.

The hives should be packed or stored away in November and various methods may be adopted. At the Experimental Station, Invermere, we have tried wintering in the cellar, in a pit in the Ontario wintering case, and in the Kootenay hive case. The last method has given the best results, so we shall describe it at length.

The Kootenay hive case is an improvement on the double-walled hive, and has been introduced in the form of a permanent hive case, all made to take the 10-frame hive. There is a three-inch space all around the brood chambers and supers. Up to the top of the brood chamber it is kept permanently packed with moss or planer shavings the year around. This is covered in to prevent the moss or shavings from falling into the hive when open. Here is also a 3-inch space underneath the floor, which is kept permanently packed as well.

The stories, or "lifts" are all alike, and as supers are put on they are added. The flat cover is three-eighths inch larger all round than the top of the case, and small triangular blocks nailed in each corner inside raise it and ensure permanent ventilation.

To pack for winter all that is necessary is to have one "lift" above the brood chamber packed with moss

We make our bins three feet high with a flase bottom over the lower bin, and then fill another three feet. This allows free circulation of the air and can be cooled off very quickly.

Let the air in freely from doors and ventilators and keep the holes in the roof for filling the root house open till danger of heavy frost is near.

Watch the humidity of the house and keep the floor well sprinkled to avoid shrivelling.

Do not allow the temperature to go higher than 38 deg., nor lower than 32 deg.

DR. R. L. DAVISON

DENTIST
Mitchell Block : Penticton
Telephone 79

or planer shavings. To facilitate the packing we usually have pillows made from moss and gunny sacks, just the size of the storey or lift. The cover is then added and the bees are packed for the winter. The only attention now required is to keep the entrance clear of dead bees.

The bees have more protection in this case than in the double-walled hive, and the temperature is kept cooler and more uniform in summer. There is not the trouble of packing in the fall, or unpacking in the spring as in the case of the single-walled hives. It is less expensive than the double-walled hive, as three-fourths inch burlap is largely used in its construction. The bees come through the winter in good shape and commence work early in the spring. Bee-keepers would be well advised to give it a trial, as it has many features that are superior to other methods of wintering bees.

ANCHORING SLIDING MOUNTAIN IN OREGON

An unusual problem in railroad engineering has been solved in Oregon by draining water from under a mountain; at any rate, since the expedient was adopted the mountain has stayed in the same place, and the recurrent need of straightening the railway track seems to be done away with. The mountain rested on a layer of water about an inch deep over the bedrock, and used to slide about 10 feet a year toward the Columbia river, the swift current of which carried away the sliding mountain deposited in it. Naturally the railway tracks on the mountain shifted also, causing constant expense to its owners. Finally the company went to the source of the trouble, drove tunnels into the mountain and released the underground layer of water. The restless mountain settled down permanently and comfortably on a solid foundation, and since then there has been no more trouble with the tracks.

Steps are to be taken by the Provincial Government to secure specific information as to the number of settlers arriving in British Columbia, where they are locating and what they are doing, so that an efficient system of service to the immigrant on the land may be rendered.

WHY SOME EDITORS GO RAVING MAD

Deer folks: Now I know why editors go mad. I been trying to run this paper while the editor is on his vakashun. For three (3) days and nites I ben reading questions and trying to answer them and if I dont quit I'll be going around talking to myself. I'm going to answer a few more and go to the ball game.—Jimmy the office boy.

1. What is limberneck? J. Jones. Limberneck in the country is a strange disease of fowls and chickens. In the city it is a disease of human persons caused by watching fowls—and chickens.

2. Do small cows give condensed milk? Mabel B. No, Mabel, condensed milk is made by trying to get a quart of milk into a pint bottle.

3. Please tell me how hash is made. Hash is not made,, it accumulates.

4. Is it right to feed hogs corn on the ear? G. K. No, put it in a trough and let them help themselves.

5. I am in love with a homely girl who works for us, but she don't seem to care for me, while a pretty girl with lots of money wants to marry me. What shall I do? Will M. Marry the one you love, and send me the name and address of the other.

6. My hair is beginning to come out. What can I get to keep it in? A sack.

7. Please tell me how to raise a

nice fat hog of about 500 pounds. Z. Get a derrick.

8. How can I tell when the water is the right temperature for bathing baby? Young Mother.

If the baby turns red and hollers, the water is too hot. If he gets blue and shivers, it's too cold.

9. I am 40 years old, have a nice little farm, and am thinking about taking a wife. What would you advise? Old Batch.

I would advise you to be careful about whose wife you take.

10. Our red bull is chasing me around a 40-acre field. What shall I do.

I don't know, but don't give up. Mike the editor will be back in a week.

CHAMPION ATHLETES AND LOVELY CANADIAN SCENES

Athletes Off to Antwerp

The Canadian Pacific Ocean Services Liner Mellita sailing from Montreal on Saturday, July 24th had amongst her passengers the Canadian athletes who will represent this country in the Olympic Games, or world championship athletic events, to be held at Antwerp in Belgium this summer.

On Saturday, July 17th the final trials to decide the men who should represent the Dominion were brought off on the grounds of the Montreal Amateur Athletic Association. Contests were brisk, and the exhibitions given would warrant the prediction that it is not unlikely a few Olympic honors will be brought to Canada.

The chief performance of the day was furnished by Earl Thomson in the 110 metres hurdles. The big fellow clipped one and three-fifths seconds of the Canadian record, and was just a fifth over the Olympic record. His time for the distance was .15-1-5 seconds and from the manner in which he performed it is evident that there will be a further reduction in the hurdle event when this native son again competes. The previous record, 16-4-5 seconds, was established by George Barber, May 23, 1908, during the Olympic trials at Toronto.

Thomson won from a good hurdler in K. L. Carruthers. In fact an objection would be tempted to declare that Carruthers was the stylist of the pair. Thomson also performed in the jumps winning the high at 5 feet 10 inches, and the distance at 22 feet 7 3/4 inches.

The other feature event of the afternoon was the 5,000 metres run in which four competed. Walter Knox the Olympic coach very calmly predicted that Thomas Town, the Brandon man, would prove the winner. Indeed Knox had advised Tommy to come with his trunk ready for a sea voyage, so confident was he that the Manitoba entry would size up to Olympic form. The Brandon runner slipped along with a good rhythmic movement and had lots in reserve when he finished with a smart sprint. Altogether it was as pretty a race as old timers confessed to have witnessed on the track.

In this event the first mile was done in 4 mins. 56 secs; the second in 5 mins. 23 secs., and the third in 5 mins. 10 secs.; the three miles being completed in 15 mins. 29 secs.

Some of those on the Canadian team at Antwerp will be:

Alex. Ponton, Broadview Y. M. C. Toronto, and Cecil Coaffee, Grimsby.

Hector Phillips, West End Y. M. C. A., Toronto, 400 and 800 metres.

E. Lawrence, C. F. R. A.A.A., Montreal, 1,500, 5,000 and 10,000 metres.

T. Town, Brandon, Manitoba, 1,500, 5,000 and 10,000 metres.

E. J. Thomson, Prince Albert, Saskatchewan, 110 and 400 metres hurdles and jumps and Pentathlon.

E. C. Freeman, unattached, Toronto, 3,000 and 10,000 metres walks.

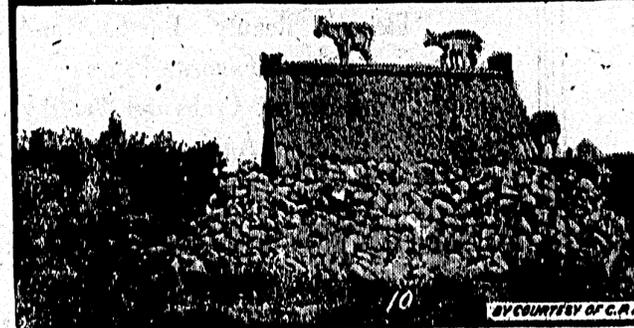

Archie Macdermid, Vancouver, 56 lb. and hammer throws.

John McEachren, Winnipeg, 55 lb. throw and shot put.

John Cameron, Vancouver, hammer throw, Decathlon and Pentathlon.

- (1) Eddie Lawrence, Montreal, the C. P. R. middle distance runner, who won the 1,500 metres race at the sports which decided the Canadian Olympic team.
- (2) A group of the athletes at the meeting.
- (3) John McEachren, Manitoba, (on left) and Arch. MacDermid, British Columbia, who will represent Canada in some of the weight throwing events.
- (4) Earl Thomson, a native of Saskatchewan, but now of Dartmouth College, United States. He stands 6 ft. 2 ins., is 26 years of age and weighs 190 pounds.
- (5) K. L. Carruthers, Ontario, who ran second in the 110-metre hurdles. He stands about 6 ft. 3 ins.
- (6) E. C. Freeman, Ontario (on left) and C. L. Barnes, Ontario, competing in the 3,000 metre walk. Freeman won by a narrow margin.
- (7) Tommy Town, of Manitoba, who ran splendidly in the 5,000-metre race.
- (8) Indians in full dress take part in the Calgary, Alberta, Stampede each fall.
- (9) Albertan Indians and their wigwags pitched at Calgary.
- (10) Mountain goats at Banff.

Viewing the Canadian Rockies

An easy trip from Banff, Alberta, is that to Lake Minnewanka, nine miles distant. There is a good road which passes the various animal reserves where elk, deer, moose, elk, goat and buffalo may be seen in almost natural environment. The mining town of Banffhead is beautifully situated in a pocket of the hills, a location to be envied, but decidedly looks like a mining town. At Banff a comfortable chalet is found with good meals to be had and plenty of fishing. A small boat pierces the waters and each afternoon sees cars of all kinds and descriptions arriving with their loads of eight-seers for the trip up the lake. The return trip to Banff may be made in two ways. There is an old Indian trail round the north shore of the lake, then the walker turns south, passes through a short draw, then down Carrot Creek till he reaches the main highway from Calgary and from there, there is a good highroad into Banff. This walk from the chalet to Banff counts up about 31 miles. To lessen the mileage, the motor-boat may be utilized and a request be made to the captain to be allowed to disembark at the above mentioned draw, then walking up the draw and down Carrot Creek to the motor-road, our pedestrian (having phoned for a car before leaving the lake) sinks down into a seat of solid comfort and is howled over a beautiful road back to his temporary home Banff Springs Hotel.

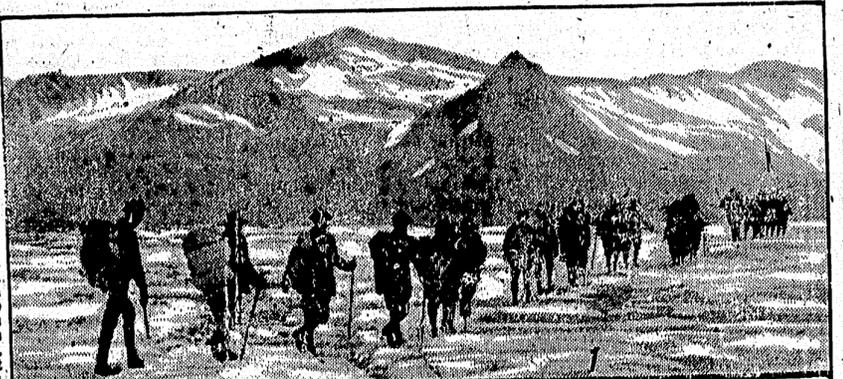

If the one on pleasure bent is a climber by love of the same, he has any amount of work cut out for him well within practical distances. Mount Aymer at Lake Minnewanka is the highest peak (10,805 ft.). Mount Rundle with its lower wooded slopes and high, bleak, limestone walls just across the Spray River, comes next in height (9,680 ft.). This latter mountain extends in one long, straggling range for fifteen miles east, at which point Canmore has been built. Cascade Mountain, near the buffalo pasture, has an altitude of 8,800 ft. and has been climbed from its longer and easier slopes at the north. Mount Edith (8,340 ft.) to the north of Bow Valley, is seen to advantage from the Sun Dance Canyon road. To make the ascent the motor-road west is taken to about one hundred yards west of the third Vermillion Lake, where the trail to its base is well

marked. Mount Norquay, (8,225 ft.) to the east of Mount Edith is said by climbers to be one of the best elevations for studying the art of climbing. Banff is a rallying point of climbers.

Many have not the strength or desire for such a strenuous vacation as walking and climbing trips. Do not think you must sit still in Banff on that account. After one's own feet come those of the little four-footed friend of the trail—the mountain pony. He is not much to look at, he is generally uncouth and shabby, but live with him, try the trail to the top of Sulphur Mountain, give him the business yourself, and he will bring you back safely. His one motto is "safety first" and he has no intention of ending his days abruptly by falling over a precipice. What is more, he never does. At Banff all trails are perfectly safe; they are Government-made, wide and free of debris and any child who can sit on a pony is safe on them.

By far the most popular means of seeing Banff is by the motor-car. The Government ponds in every direction are constantly being improved and each year sees more mileage added to the already long list with improved condition of the older roads. Nothing gives a more comprehensive idea of the Bow River valley than to run down to Calgary (80 miles) by train and return to Banff in a good touring car. If there have not been long rains the roads will be in fine shape and the runs may be made in three or three and one-half hours. The incoming stranger travelling by automobile will get a better idea of the foothill country and the amphitheatre of the mountains ahead. The prairie flowers nod a pleasant welcome as you pass, the little gophers watch with such human curiosity, a coyote may be seen sneaking from one isolated hook to another. The mountains seem to come closer out of the blue haze and above them all the eye picks out one ugly frowning peak—the Devil's Head (9,175 ft.)—which stares sullenly down on those who dare to come within his precinct. As the car glides into the Indian reserve, that menacing head disappears, behind the lower hills, and does not come in view again.

Across the reserve an occasional tope is seen, the children playing about it, the squaw at her work, the

- (1) Party from Alpine Club Camp crossing an ice field in the Canadian Rockies.
 - (2) Squaw of the Stony Indian Tribe on the Reservation, near Banff.
 - (3) Rocky Mountain ponies that carry the Banff tourists to the mountain peaks.
- horses browsing on the hillside. Perhaps you see an Indian taking his load of wood to the railroad, but they are not a stirring people and if seen, do not take much notice of the passer-by. But trust them to know if you have a feather in your hat especially if it is red. The literal entrance to the National Park is marked by a board, the road has been more carefully ballasted, and one is within the confines of the mountains. Near The Gap may frequently be seen a bunch of wild sheep feeding very close to the road. Exshaw, the comment centre is passed, Canmore, the mining town, Anthracite, which once turned out a large quantity of coal, but now is only a memory of the "gay old days", and a mile beyond a most picturesque hill up which the car winds and twists showing with each turn more and more of the beauty to come.
- As the last hill is topped the environments of Banff are spread before the eye. The great sweep of country toward Banffhead, marked by spirals of steam and smoke, lies to the right; towering nearby is Cascade Mountain, at its base and sweeping westward, the animal enclosures where once the Indians camped in their hunting season, and far, far toward the setting sun are mountains on mountains whose numbers are almost uncountable.
- Gliding down the long hill-slopes a three-mile stretch brings the U.S. motorist back to Banff Springs Hotel. In the days to come the pictures of that drive will live in memory where little Banff is far away wrapped in her winter garments.
- M. S. W.

The Summerland Review

Established August, 1908

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Wednesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, SEPTEMBER 3, 1920

BUILDERS vs. WRECKERS

"The old party alignments are pretty well grown over now. Six turbulent years have done the work. The old battlements are more or less destroyed. There are still, I know, voices tuned to the old music, but the great mass of men and women are thinking and must think along other lines.

"Looking over the world today and then fixing eyes on Canada, I see only two divisions of our people, only two classes in this country. I see on the one side those who hold steady, who walk firmly in the middle of the road, who learn from experience, who believe in industry and ordered liberty, who still have faith in good old British institutions and British principles that have made us what we are. On the other side I see those who have given way to prejudices, to class consciousness, to passion for change and experiment, whose minds are occupied in nurturing suspicion and hostility against other classes of the State.

"On the one side I see the builders of this country on foundations tried and true. On the other side are those engaged in the cheerful exercise of tearing down. I put the question to you: Are you going to be a nation-builder or a nation-wrecker? Let us gather in millions around institutions that we love. Let us gather around a standard that we know and that our fathers knew. Let other people indulge, if they must, in the sport of freak governments and heterogeneous parliaments and experimental policies of State, but let us not forget the lessons of 50 years in our own land, nor what has been written for our instruction abroad. Let us hold to the path and to the principles that have led us into lustrous strength, into peace with honor, into relative happiness and plenty and made of us the most vigorous and promising of the younger generations of the earth."—Premier Meighen, at Stirling.

TAX SALE PROPERTY

With how little prevision provincial legislation is frequently drafted has been exemplified at South Vancouver lately in the matter of the sale of property for taxes. In 1919 a business property in the adjoining municipality was disposed of in this way. The purchaser, regardless of the possibility of redemption within the year, proceeded to convert what had been a store into a dwelling house. Within the last few weeks, however, the original owner has taken advantage of his rights, paid all charges and resumed possession. He now wants to know by what right anybody made such radical structural alterations in his building.

This brings up the whole question of the care of improved property sold for taxes. The purchaser may find that it is absolutely necessary to make repairs to preserve the fabric. Such property is usually derelict and if left untenanted speedily deteriorates. The prospective owner, while awaiting the legal period during which the delinquent may put in an appearance with the moneys required in hand, must either take hold of it at an expense which in the event of redemption he is likely to be unable to recover, or allow the premises to go from bad to worse, which is neither in his interest nor that of the community.

It may seem a simple thing so to amend the law that in addition to paying the taxes due the owner must recoup the purchaser for out-of-pocket expenses, but care would have to be taken that those out-of-pocket expenses were not incurred on a large scale for the specific purpose of making redemption impossible. In any event, the legal position of property bought at tax sale but not transferred needs definition. Even when it is wild land questions as to responsibility for keeping weeds down and carrying out the provisions of local bylaws in general arise which in the public interest, as in that of the parties immediately concerned, ought not to remain in their present unsettled state.—Vancouver World.

Judge—Where did the automobile hit you?

Rastus—Well, judge, if I'd been carrying a license number it would have been busted to a thousand pieces.

S. S. Teacher—What does it mean by "the quick and the dead?"

Small Boy—Those as gets out of the way of the cars is quick, and them that don't is dead.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After a very pleasant vacation spent in Peachland as guests at the home of Mrs. L. Mills, Mrs. and Miss Jean McIntyre left on Wednesday evening's boat of last week to return to their home in Merritt, B.C. Miss Jean expects shortly to leave for Vancouver, where she is to attend school during the coming term.

Mrs. J. B. Robinson and Mrs. H. K. Mitchell entertained at a lawn social held on Mrs. Robinson's lawn on Wednesday afternoon of last week, in honor of Mr. and Mrs. C. G. Elliott and family and Mrs. McLennan and her daughter, Jean. A very pleasant afternoon was spent by all who gathered for the occasion. During the course of the afternoon a conundrum contest was put on, Miss Jean McLennan being the winner of first prize.

Miss E. Pentland left by stage last week after a pleasant vacation spent in Peachland visiting old friends and acquaintances. While here she was the guest at the home of Mr. and Mrs. A. D. Ferguson.

Mr. J. L. Elliott, Mr. C. G. Elliott and Mr. R. A. F. Moore motored to Keremeos on Friday of last week, where Mr. C. G. Elliott had some business interest. They returned the same evening.

The Peachland Women's Institute are making arrangements to entertain the Institutes of Summerland and West Summerland here on the 10th of September. A very pleasant time is expected. Further particulars will probably appear in these columns later.

After an enjoyable holiday spent here among old familiar scenes and faces, Mr. and Mrs. C. G. Elliott and family left on Saturday last to return to their home in Edmonton. Many of the old scenes were quite familiar, of course, but they noticed a marked growth on the various orchards which had been coming on when they left here almost half a score of years ago.

The Misses McIntosh spent a few days recently visiting their relatives in Westbank, returning early this week.

In spite of the dry season and the shortage of water throughout many parts of the country, Peachland has fared pretty well to date, but present indications are that the quantities of water will have to be cut from now on.

A case was held in the Council Chambers on Monday evening last, tried before Reeve Hogg, in which Mrs. W. A. Lang, plaintiff, charged Mr. Fred Young, defendant, with an infringement of the municipal by-law providing for the prohibition of stock running at large on municipal highways. The defendant lost the case and was fined \$2.50 and costs.

Mr. A. J. MacKenzie, Mr. Roy McCall, Mr. E. Nightingale and Mr. H. E. McCall returned on Monday night last from their extended motor trip down the Valley and across to Grand Forks. They report having enjoyed the trip despite the misfortune to be held up in Grand Forks a few days owing to a broken propeller shaft in the auto. This happened about eight miles out of Grand Forks on the homeward journey and they had to return to a garage for repairs. The time was not lost, however, as it was taken up by seeing more of the district. They report having seen quite a good district with a promising future when they got an adequate water supply, which they

LANDS FOR SALE

15 Acres of good, dark soil with creek running through bottom land. Ten acres under irrigation, about 7 acres cultivated with three planted with 6-year-old trees. The property of Mr. F. A. C. Wright. Real Estate Broker,
Peach Orchard

SPEAKS ON VALUE OF THE SABBATH

Rev. Dr. Heustis, of the Lord's Day Alliance, addressed a meeting last Friday evening in the Lakeside church on the subject of "The Sabbath." Dr. Heustis also spoke briefly the night before at the Prohibition meeting held in St. Andrew's church.

Dr. Heustis spoke very effectively upon the subject which he defined as being essentially moral and democratic. The old law of the Sabbath, he said, contains the finest possible ideas of democracy and consequently the suggestions for the best possible government for modern times inasmuch as it recognizes master and servant alike.

The remarks of Dr. Heustis centered around a main point which was in effect that the purpose and aim of the organization was to conserve the Lord's Day as a day of rest and supremely to guard the inherent spiritual values of it. It was pointed out that one of the reactions of the war was to promote the disposition to do unnecessary work and hence the great idealism so splendidly fought for in the great struggle may be lost in an unconscious disloyalty to the great standards of the Christian religion and the best traditions of the race. To properly conserve these, greed and selfishness must die within us and the great words of "service" and "sacrifice," so splendidly to the front during the war, must be kept in their honored place, challenging the young life of the land to the best, the hardest and the most lasting and worthy.

expect shortly to commence operations on. They also speak well of the highways over in that portion of B.C. and in fact over the whole route with the exception of about nine miles over Anarchist Mountain east from Osoyoos. This grade, however, is being replaced by a new one which is supposed not to exceed a 7.6 grade and is being built with a good width. As it was, the party made the home trip from Grand Forks in the one day, but when this new grade is completed and in good shape it will be a fairly easy day's trip with scenic beauty and many pretty and interesting ranches scattered all along the way as well as passing through the old mining landmarks such as Greenwood and skirting the Border at Midway. Another point of interest to the traveller is the varied vegetation along the way and the numbers of kinds of woods seen on the trip among which are quite large, towering tamaracks. Even wild game is sometimes sighted en route, this party having sighted a nice brown bear from the road.

Mr. N. H. McLelland has recently bought out Mr. Tom McLaughlan's garage business in town and has opened up in that line, ready to attend to the needs of the unfortunate motorist who finds himself add his car in difficulty of any kind. Mr. McLelland employed himself in the garage business in Vancouver before coming to Peachland.

Mrs. H. E. McCall has been under doctor's care for the past week with a very severe swelling on her thumb, but it seems to have come to a head

HIGH SCHOOL NOTICE

The High School will open Tuesday morning, Sept. 7th. All pupils are requested to be present on that day in order that the classes may be properly organized. On account of the fact that much of the work of the High School is new, it is highly important that attendance be regular and punctual during the first term. Irregular attendance frequently accounts for discouraging results at the end of the year.

D. J. WELSH, Principal.

Friday, August 27.—A. S. Thoimas, J. J. Tomlin; D. B. Campbell, Edmonton; W. R. Fitzgerald, Beaverbrook; W. J. McDougall, wife and children, Vancouver.

Saturday, August 28.—E. J. Murphy, Winnipeg; M. E. Thompson; A. W. Nesbit, Mineola; J. A. Purvis, Kelowna; J. Rowe; W. B. Robinson and wife, Penticton.

Sunday, August 29.—D. Wyejowski, Winnipeg; J. Rowe.

Monday, August 30.—L. A. Page; W. W. Perry, Vancouver; T. H. Harding, Lethbridge, Alta.; A. Ferguson, Peachland.

Tuesday, August 31.—Mr. and Mrs. R. S. Hutton, Calgary; E. Temple, Vernon; A. W. Nesbit, Mineola.

Wednesday, Sept. 1.—R. Mayhew, Coronation, Alta.; John Kean Wright, Vancouver; E. J. Murphy, Winnipeg; F. Wilcock, H. Chiangin, Peachland; H. N. Johnson, Vernon; Mrs. Riley and daughters, Calgary; W. A. Middleton, Vancouver.

Thursday, Sept. 2.—Mr. and Mrs. G. W. Head, Miss Valmai Head, Donald and Alfred Head, Winnipeg; Geo. de la Mothe, Vancouver; T. Luadgold, R. Luadgold, Kelowna; Mrs. J. A. Cowper, Vancouver.

Mrs. E. J. White and little daughter went up the lake this morning to meet Mrs. White's father and sister, who are coming from Halifax to visit them.

After an absence of many months C. Noel Higgin has returned to Summerland. For the past two weeks he has been at Vernon and arrived here last night, having been appointed to the position of fruit inspector under Dominion Fruit Inspector Clark. Mrs. Higgin returned from Vancouver two weeks ago.

Tit for Tat

An elderly lady, telling her age, remarked that she was born on the 23rd of April. Her husband, who was present, observed, "I always thought you were born on the 1st of April."

"People might well judge so," responded the lady, "in the choice I made of a husband."

and she is getting some relief from it now.

Mrs. and Miss Jean McLennan are enjoying a visit in Peachland for a time and while here are guests at the home of Mr. and Mrs. E. F. Smith.

Preparations are now under way for Peachland's Annual Fall Fair, the date set being for October 14th. Further particulars will be given from time to time, however, later.

Mr. F. R. Jeffords has moved his family down to Penticton, where they expect to reside for a time. He is employed for a time, however, in this district on the erection of the home on the Westminster Trust Ranch.

SCHOOL RE-OPENING

Parents are requested to note that when school opens on September 7th, pupils will be admitted to the Receiving Classes at the age of 5 years and 9 months. This change in age is due to the fact that no Receiving Class will be formed in January, as has been the custom.

All beginners should be enrolled by Sept. 17th. By Authority of the School Board:

S. A. McDONALD,
Principal.

Next week we shall be turning out

Sausages by the Yard

Made from strictly fresh meats right on our own premises.

SPECIAL FOR THIS WEEK-END

HOME-GROWN MUTTON

DOWNTON & WHITE TELEPHONE 35

Beginning September 1st, the business formerly conducted by me will be conducted by the above firm, and I trust you will continue to give us the same generous patronage which I have enjoyed. All accounts to the end of August are payable to me, and prompt settlement will be appreciated.

Boy Scout Column

1st SUMMERLAND TROOP B. P. SCOUTS

Headquarters, Ellison Hall

Scoutmaster O. F. Zimmerman

Meets every Friday evening at 7.30 p.m.

In spite of the rain there was a good turnout of both raiders and guards on Friday for the attack on the Ellison Hall. The Summerland boys were raiders this time, while the West Summerland boys guarded. None of the attackers managed to break through Leader Munn's line of defense by 8 p.m., so the guards were judged the winners.

With so many recruits and also through the approaching loss of one of our leaders it will be necessary to re-organize the patrols for winter work, four patrols now being necessary.

Interest of practically every Scout in the world is now being centred on the results of the big Jamboree in London. Its object was to raise money towards the Boy Scouts' Endowment Fund of £250,000. Ten thousand boys, representing 21 nations, took part in the week's entertainment and rally, it being the most wonderful gathering of boys on record. In a message to Sir Robert Baden-Powell, welcoming the Scouts, the King said:

"I am much gratified that the first Boy Scouts' International Jamboree, to the organization of which you have so zealously devoted yourself, should be held in London. I welcome the contingents from abroad who have come to take part in the competitions and displays, and whose friendly rivalry cannot fail to act as a healthy stimulant to the boys of all countries. I am fully alive to the great benefits, both physically and morally, which the Boy Scout training assures, and I recognize the admirable results already achieved under your direction. I wish the gathering all possible success."

Perhaps the best description of the opening of the Jamboree is furnished by an ex-Boy Scout writing in the Overseas Daily Mail. Under the caption of "Homage to 10,000 to Those Who 'Passed On' in the War," he writes:

Ten thousand boys, lively, full-blooded boys, hushed into silence, with bowed heads and closed eyes—that was the miracle accomplished at Olympia in London, on Sunday, Aug. 1. They had foregathered for the great Boy Scout Jamboree.

The vast arena was one sea of khaki. Never before in the history of the movement have so many Boy Scouts been gathered together in one building. The youth of Great Britain, and of the Greater Britain beyond the seas, and of foreign lands girdling the world, flooded the great open space beneath the glass roof, in wave upon wave, rising and falling like a windswept ocean.

The dominant tone of yellow and

brown was broken by the bright colors of neckerchiefs and shoulder knots, vivid emerald and scarlet and blue. This surging multitude overflowed the floor space and rose half-way up the tiers of seats on three sides of the enormous hall. The remaining rows above them were packed to the roof with spectators, who were deeply impressed by the spectacle of Innocence and Faith which lay beneath them and which brought a gulp to many a throat.

The whole of one side of the long building was covered with a curtain of dull green, lit up with one splash of gold where the first sunlight of August shone through the high roof. Against this simple background was a simple platform of dull red and yellow stripes.

On this rostrum stood the Chief Scout, Sir Robert Baden-Powell, a lean figure in khaki, and the Archbishop of York, Dr. Lang, white-haired, keen-faced, gorgeous in white and scarlet. A few others, including the Rev. Thos. Nightingale, secretary of the National Free Churches Council, and Mr. Geoffrey Elwes, the Chief Scout Commissioner, occupied the platform, which was lapped by the flood of Scouts, and before which were three flags—the red, white and blue of the King's Colors and the Union Jack, and the emerald of the Scouts Imperial H.Q. color. Behind, on a red flagstaff, hung another green Scout flag.

Impressive Service

The service began. The bands welded the thousands of scattered worshippers into one great voice with the spell of music, as the Scout's Song (composed by Arthur Poyser, who conducted the singing and the bands) was sung. A white-robed figure on the platform read an intercession; then his voice rang out over the listening congregation in words of thanksgiving. At the end of each prayer he said:

"O Lord, hear these Scouts."

Ten thousand voices answered: "And draw our hearts to Thee."

A hymn followed; the Bible lesson was read; and after another hymn the Archbishop of York began his address. His voice swept loud and clear into the farthest corner of the silent cathedral of youth.

He took as his text the words, "Keep what is committed unto your trust," adding, "as a Scout, as a man, as a Christian."

"I am speaking to one of the biggest assemblies of boys that have ever met together in history," he said. "I am almost awed by the huge power of the boys assembled here. How is such a solemn trust as is implied in this movement to be used? There is only one answer—to make a new and better world. You are out not to claim rights, but to do your duty; not to care for yourselves, but for others; not to work for the class, but for the commonwealth; not to suspect and fight other nations, but to make comrades and brothers."

After the hymn which followed the address occurred the most striking and most dramatic moments of the whole dramatic service. The Chief Scout, Sir Robert Baden-Powell, called to remembrance those Scouts who had passed on during the great war. He gave the order:

"Lower your colors, bow your

heads in silent honor of these brave men."

The long line of Scout colors was lowered to a horizontal position; every head was bowed, every eye was closed. Suddenly, unexpectedly, the voice of the Chief Scout sounded like a trumpet:

"Scouts, hold up your heads! Look wide!"

Twenty thousand bright young eyes were uplifted; like a field of fresh flowers the young faces shone with the light of budding manliness.

Upon them fell the blessing of the Archbishop. Then, like the images of a dream, the great curtain floated up to the roof; the khaki-shirted Scouts faded away in laughing throngs and companies—and the vast arena was empty.

Next week we will publish a contribution to the same paper, which gives a splendid idea of the work that was done by the Scouts during the course of the gathering. The American delegation of 300 was the largest, while that of Siam of 1 was the smallest. Canada unfortunately was unable to send any delegates.

—A.S.M.

Passing Events: Social, Personal, &c.

Mr. and Mrs. C. Napier Higgin returned last Saturday from an extended visit to England.

O. Vaughan, of the Summerland Mercantile Co., returned last Sunday morning from a holiday visit to his home city, Victoria.

S. Angove, of the Summerland Supply Co., has been confined to his bed for some time past with a serious illness, from which he is now speedily recovering.

Miss Amy Brown arrived here a few days ago from Toronto, where she has been engaged in nursing. She will remain at her home here for a month or so.

Miss Angus returned on Wednesday to her home on Shaughnessy Heights, Vancouver, after a two months' vacation with her cousins, Mrs. A. Milne and Mrs. G. Noble.

Mr. and Mrs. Lister, who have been visiting Mrs. Lister's parents, Mr. and Mrs. T. R. Harwood, left on Wednesday for Montreal, where Mr. Lister is taking a medical course at McGill University.

W. A. Middleton of the University staff was a visitor to Summerland this week. He is carrying on investigating in connection with costs of production in orchards, and has been making periodical visits to Summerland in connection with this work.

George Ross was a visitor to Summerland again this week. He has had a busy summer in connection with the car service of the C.P.R. and, working out of Winnipeg, has covered thousands of miles during the past few months. He had been appointed to a new position here in the Okanagan and, as a citizen of Summerland, was looking forward to his new duties, which meant residence in the Valley, with considerable pleasure. Recently, however, another new position, which is in the nature of a promotion, has been offered him, and this he has accepted. Mr. Ross left here Tuesday morning for Glacier, the western portal of the big Connaught tunnel, where he will be in charge of train operations. Mrs. Ross has been spending the summer here with her father and will leave soon to join her husband at Glacier.

Under the auspices of the Summerland Band, Helen Badgley, a well-known elocutionist, supported by a company of other artists, will appear next Friday evening in Empire Hall. Further particulars are given in our advertising columns.

Mr. M. A. Sutherland, who has been living in Peach Orchard for about two years, left this month for a visit to Winnipeg. She was accompanied by Mrs. W. R. Black and her son, Ross Black, who have been visiting at Mrs. Black's brothers, H. Sutherland and J. M. Sutherland.

The Summerland Telephone Company this week issued its fall edition of the Summerland Telephone Directory. The new directory shows a healthy growth in the number of subscribers in connection with the local telephone exchange. The new book has the names of 337 telephone subscribers.

D. J. Welsh, Principal of the Summerland High School, returned to Summerland Monday afternoon, having made by motor the triangular trip, via Princeton, Merritt, Kamloops and Vernon, etc. Mr. Welsh was accompanied by Mrs. Welsh and child. While at Merritt, they visited a lumber camp where many millions of feet of lumber are being cut down to save the trees from becoming an absolute loss through the ravages of the pine beetle, which is causing great destruction in the Nicola district.

The gate in the storage dam on Canyon Creek was opened this week. This is the last reservoir to be opened. In a heading on our front page last week, which, by the way, had been altered at the last moment to fit a single column, rather exaggerated the situation, with respect to the water supply. The article itself told of there being no complaints of water shortage. Throughout the season, unfortunately, there has been a lack of water in some sections which it is to be hoped will be remedied before another year.

A very interesting service was held last Sunday in the Summerland Baptist church. The Young People's Society, under the able leadership of Mr. Blackaby, had charge of the service, and the subject was, "The Good News in Song and Story." This was a resume of the life, death and resurrection of Christ. Suitable selections were read by Mr. Blackaby, and recitations were given by others of the young people. The rendering of some of the old favorite hymns and tunes was very fine, and was very greatly appreciated by all present. This is the first of several services the Baptist Young People are expecting to conduct during the coming months.—Con.

SUMMERLAND BAPTIST CHURCH
Pastor, Rev. I. Page

Sunday, Sept. 5—
Morning Service, 10:30.
Sunday afternoon at 3 o'clock a Baptismal Service will be held in the Lakeside Church. Song Service Sunday evening, 7:30.
Wednesday Prayer Meeting at 8 p.m.

REAL ESTATE

Best values in the district. We have a good young orchard for \$2,000. A good bearing orchard at \$4200; another fine orchard for \$4750, and another 6 1/2 acres with house for \$3,000. One modern house, 6 rooms with bath on 1/4 acre for \$2000. These are values that cannot be surpassed. Let me show you some of these.

See our List of other good properties, some with modern homes.

JAMES RITCHIE

Scott Darkis has been confined to his bed for several days, part of which time he was very ill, but he is now improving.

Any telephone subscriber who has not received a copy of the new directory is requested to advise the manager, phone 1.

Mrs. W. F. Chrisher and Miss Olive Van Hise, of Demorest, Georgia, arrived here last Friday to visit their brother, W. E. Van Hise.

Mr. C. J. Campbell, of Vancouver, and Miss Mabel McGregor, of Seattle, motored from Penticton on Tuesday and paid their brother, A. McGregor, a surprise visit.

Constable Arkell is warning motorists who do not obey the law with respect to parking of cars and the regulation of lights, etc., that the motor regulations must be adhered to.

An airplane passed up the valley about 2 o'clock on Wednesday morning. Where it came from or its destination is not known here as far as can be learned. It did not stop in Penticton.

Mr. and Mrs. C. W. Lees and Mrs. W. H. Hayes have returned from a vacation of two months spent in Victoria and Vancouver. After a day or two here, Mr. and Mrs. Lees went on to Kelowna.

Under the auspices of the Summerland Band, Helen Badgley, a well-known elocutionist, supported by a company of other artists, will appear next Friday evening in Empire Hall. Further particulars are given in our advertising columns.

Mr. M. A. Sutherland, who has been living in Peach Orchard for about two years, left this month for a visit to Winnipeg. She was accompanied by Mrs. W. R. Black and her son, Ross Black, who have been visiting at Mrs. Black's brothers, H. Sutherland and J. M. Sutherland.

The Summerland Telephone Company this week issued its fall edition of the Summerland Telephone Directory. The new directory shows a healthy growth in the number of subscribers in connection with the local telephone exchange. The new book has the names of 337 telephone subscribers.

D. J. Welsh, Principal of the Summerland High School, returned to Summerland Monday afternoon, having made by motor the triangular trip, via Princeton, Merritt, Kamloops and Vernon, etc. Mr. Welsh was accompanied by Mrs. Welsh and child. While at Merritt, they visited a lumber camp where many millions of feet of lumber are being cut down to save the trees from becoming an absolute loss through the ravages of the pine beetle, which is causing great destruction in the Nicola district.

The gate in the storage dam on Canyon Creek was opened this week. This is the last reservoir to be opened. The rendering of some of the old favorite hymns and tunes was very fine, and was very greatly appreciated by all present. This is the first of several services the Baptist Young People are expecting to conduct during the coming months.—Con.

Charged with driving his motor car at 10:30 last Monday night without lights, J. L. Logie was summoned at 8 o'clock Tuesday morning to appear in police court at Penticton at 10 o'clock that morning.

Mr. Logie went down, but the charge was withdrawn, as he had little difficulty in establishing the fact that he was asleep and his car in the garage on Monday at the hour stated. Unfortunately Summerland motorists are getting the impression that they are the special targets for Penticton police authorities. In the opinion of one of these, Penticton should be avoided like a town with the smallpox.

OBITUARY.

CONNOR—Died, at Vancouver, B.C., on August 27, 1920, George Brown Connor, in his 54th year; for three years a resident of Summerland, B.C. Interment in the family plot at New Westminster.

WAS SUMMONED ON FALSE CHARGE

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

St. Andrews Presbyterian Church—Morning service, 10:30, conducted by Rev. Chas. Baker. Young People's Society, 7:30 p.m.

All members of the Summerland and West Summerland Women's Institutes intending to be present at the Peachland Women's Institute picnic on Friday afternoon, Sept. 10th, will please give their names to Miss Cartwright or Mrs. J. Tait not later than Tuesday next, so that transportation may be arranged for.

The high school and public school will re-open next Tuesday morning.

Joe Graham left this morning to return to Toronto, where he is studying dentistry.

Miss Kathleen Galbraith, of Vernon, is a week-end guest of Miss Kathleen Morrison.

Miss Hadley arrived here from the Coast a few days ago to visit her aunt, Mrs. S. Angove.

Mr. and Mrs. G. R. Hookham are now living in the L. R. Williams cottage in Peach Orchard.

Joe Gayton left this week for Victoria to take a course in the Provincial Normal School.

Superintendent R. H. Helmer went up to Malakwa this morning to judge in a crop competition being held there.

Mr. and Mrs. Ward and Mr. and Mrs. Barbor and daughter, of Saltcoats, Sask., are guests of Mr. and Mrs. G. H. Inglis.

Miss Jean Kinnard, the young daughter of Mr. Kinnard, Vernon Fruit Union, is here on a visit to her aunts, the Misses Spencer.

Mr. and Mrs. Spick, who have been visiting Mrs. Spick's sister, Mrs. A. W. E. Fawkes, left by boat this morning to return to Winnipeg.

Mrs. J. D. Wood was operated on in the Hospital last Saturday for appendicitis. The operation was a serious one, but she is recovering nicely.

The new school building erected to the west of the old High School building is now about completed. It will be used for Division 7, the beginners.

Mrs. R. E. White went up to Okanagan Landing this morning to meet her parents, Mr. and Mrs. J. P. Mosher, St. John, N. B., who are coming to Summerland for a visit.

Mrs. Bessette, who is again with the Government telephone service, was a visitor to Summerland this week on her way to Vernon from Princeton, where she is relieving the local operator.

Rev. J. J. Knox Wright, D.D., Provincial Secretary of the Canadian Bible Society, made one of his periodical visits to Summerland this week and on Wednesday night gave an illustrated lecture on South America. His lecture was much enjoyed by all those who attended.

A suit for maintenance was entered in Magistrate Hutton's court on Tuesday, under the new Deserted Wives Maintenance Act, by Mrs. Joe Stewart. The plaintiff was represented by W. C. Kelley. The defendant appeared on his own behalf and, after a brief consultation, the case was adjourned to give the defendant an opportunity to engage counsel.

A very interesting service was held last Sunday in the Summerland Baptist church. The Young People's Society, under the able leadership of Mr. Blackaby, had charge of the service, and the subject was, "The Good News in Song and Story." PARISH HALL

on

TUESDAY EVENING, 7th inst., at 8 o'clock

for the purpose of locally organizing the National Liberal and Conservative Party and of selecting five delegates to a Convention to be held at Penticton, on or about the 16th instant to name a Candidate to represent the Party in the approaching Federal Election.

Mr J. W. JONES, M.L.A.

will address the meeting.

All are welcome and a special invitation is extended to Women and Soldier Boys.

GOD SAVE THE KING!

Naramata News

Current Events of Town and District

A most enjoyable and successful function was carried out in the church basement on Wednesday night under the auspices of the teachers and officers of the Sunday school. About 65 persons were present. The entertainment was given as a farewell to visiting ladies in the community. Mrs. Ameron had charge of the programme, which was as follows: Three choruses with piano and violin accompaniment. Vocal solo, Miss Sievers. Game (picture gallery). Kathleen Kendall and Stanley Allen won the highest points in this contest. Vocal solo, Mr. Griffith. Cornet solo with piano and violin, Mr. T. Kenyon. Game (telegrams); the wittiest of these were read out and caused much enjoyment. Vocal solo with piano and violin, Miss Margaret Allen. Game (Pinning on the Donkey's Tail). Each number was heartily applauded and responded to an encore. Mrs. Green was an untiring pianist and Mr. Ameron acted in the capacity of violinist.

Mr. Jas. Young very appropriately and with well-chosen words wished our visitors farewell, hoping they would return next year. He thanked all who so willingly contributed to the enjoyment of the evening. Refreshments were served, which contributed not the least to the evening's enjoyment. This party was convened by Mrs. M. M. Allen.

Rev. W. P. Ewing is again back from his holidays and was present at the Sunday service. The address was given by Rev. C. Heustis, D.D., General Secretary Lord's Day Alliance, and was listened to with much interest. Present also were Rev. A. E. and Mrs. Roberts, who while holidaying are taking a trip through the Okanagan Valley. Mr. Roberts is in charge of the Turner Institute, Vancouver, and his work is largely among foreigners. A most pleasing feature of the afternoon service was a vocal solo by Miss Doris Price, of London, Eng.

Weekly prayer meeting was held last Thursday night and was quite largely attended. Mrs. Allen had charge of the meeting.

The Woman's Auxiliary after a six weeks' holiday have taken up fall work, the monthly meeting being held on Thursday of this week in the church basement. Mrs. Robert Gammon served refreshments.

Although there is supposed to be a water shortage in Naramata and the North Bench people are told there is only enough water for domestic purposes, the South Bench people are still irrigating as many as three or four lots in one day. It seems rather hard to solve a problem of this kind. There might be some clever persons whom we have not got in touch with that could explain this through your columns. We feel it needs some explanation. Who is at the bottom of it?

Mrs. F. J. Young returned home from Vancouver last Friday, where she had gone to undergo a very serious operation. She is now making wonderful progress toward recovery and is loud in her praises of the work done at the General Hospital of that city. Mr. and Mrs. Young, through the medium of The Review, wish to thank the many friends who so kindly lent a helping hand during their trouble.

The Girls' Basketball Club held their weekly game on the church grounds on Tuesday night and much enthusiasm was displayed. Those under the leadership of Miss Margaret Symons were the winners on this occasion.

Mr. and Mrs. H. Elsay have as their guests Mr. Elsay's cousin, C. E. Ruth, and his wife and two children, of Beaumont, Texas.

When a girl plays a ragtime so that it sounds like a funeral march, it may be truthfully said that she is murdering the music.

ANNOUNCEMENT

The Office of

Dr. C. J. COULTAS

DENTIST

is temporarily located at the HOTEL SUMMERLAND awaiting completion of the Johnston Bldg., West Summerland, where he will be permanently established.

Favors Local Government Board

Municipal Inspector Baird Has Revived the Proposal—To Aid Municipalities

The establishment of a Local Government Board to act in an advisory and supervisory capacity to the municipal councils of British Columbia, has been under consideration by the Union of British Columbia Municipalities for several years. Two years ago the convention at Penticton went on record in favor of such a board. It was to consist of three or not more than five members, appointed on account of municipal experience and entirely free from political or any other influence. But last year, when the matter again came up for discussion, as there was said to be no assurance before the convention that in the event of the establishment of a Local Government Board its members would be appointed for municipal ability only, those in favor of the board refraining from voting and the proposal was defeated.

Advocates of the Local Government Board, however, have not let the proposal drop out of sight entirely, and in a memorandum on the subject recently issued by Mr. Robert Baird, with the object of the proposed board, he emphasized the advantages of a central advisory and supervisory board, established to assist municipal authorities and not in any way to take from them their present powers.

The result of the establishment of such a board as proposed, it is stated would be to broaden the powers of local councils, in that the authorities, with the approval of the board, would be able to modify in certain circumstances the hard and fast provisions of the Municipal Act so as to insure a more equitable administration. In fact, it is stated, British Columbia is the only province in

Perfect Funeral Service.
SUMMERLAND PENTICTON

Canada which has no Local Government Board or its equivalent. Inspector Baird in his memorandum, which has been forwarded to all municipal bodies, gives as the primary objects of the proposed Local Government Board: 1. The creation of a central board less cumbersome than the legislature through which the strict requirements of the statutes may be relaxed in particular cases.

2. The creation of a bureau for the purpose of giving general information and advisory assistance to municipal councils.

3. The adoption of a system of further inspection of municipal office work so as to place the experience of the whole province in office routine and procedure at the disposal of each official.

4. The providing of a general control over the financial undertakings of the municipalities.

5. The restraint upon councils in the matter of handling municipal funds.

6. Providing for the dealing with special grievances and for the holding of special enquiries.

7. To provide a central bureau for registration of all municipal by-laws.

Inspector Baird in the concluding paragraph of his memorandum remarks:

"If the inauguration of a board of this kind is accomplished under the

most favorable circumstances, namely by the united efforts of the Provincial Government, the municipal councils and the public generally, to advance the interests of the municipalities, not alone in matters of finance but also in the problems of the machinery of government, most important of all public welfare, it should constitute a real contribution to the municipal life of the province."

IMMIGRATION INCREASES

OTTAWA.—Immigration to Canada is increasing rapidly according to a statement issued by Hon. J. A. Calder, Minister of Immigration and Colonization. During the month of June the increase over the same month last year amounted to 109 per cent., while for the three months of April, May and June 68 per cent. increase is shown over the same three months of 1919. Of the 49,242 immigrants who entered Canada in the three months named, 28,487 were British, 16,397 were from the United States, and 4,358 from other countries.

CALGARY.—In order to assist farmers in obtaining sufficient labor to harvest crops, the city commissioners have instructed that leave of absence be granted to all civic employees wishing to undertake farm work.

ALL HE NEEDED

Bumps: For the life of me I can't see how you can content yourself without a wife, Old Top.

Grumps: What do I want with a wife? I can cook myself, I've got an electric dish-washer, a vacuum-cleaner, and a talking machine.

"Isn't it a cute little thing?" said Mrs. Gushly to her husband as she held the baby up to him?

"Yes it is and doesn't it look like me? It's got some of my ways already. I'll wager that it'll grow up to be just like me. By the way, we haven't named it yet. What would you suggest?"

"Well, if you're anything of a prophet, I'd take chances right now on naming it Ananias."

MOTORS AND MOTORING:

A Page Full of Interest to the Owner or Prospective Owner of an Automobile. Happenings in the Motor World.

Construction of Highway Connecting Vancouver and Interior Is Vital Necessity

One of the most pressing matters brought to the attention of the Vancouver business men who toured the upper country recently, was the urgent need existing for the construction of a motor highway to connect interior points with the Coast, says the Vancouver World. This question was vented at nearly every place visited, not by the Vancouver men but by the residents of the various points, and the vital necessity of such a road brought home in convincing manner to every one of the Coast visitors. By facts and figures it was shown that the construction of this road meant the development of not only the interior but also of the Coast cities.

One of the outstanding features of the discussions centering around this question at the various points, says the World, was that without the shadow of a doubt the Interior was united in the belief that connection by motor road between the Coast and the upper country was one of the most urgent problems, irrespective entirely of the question of route and the exact localities through which the road should pass. Of course, all were of the opinion that in the selection of the route every consideration should be given to the territory tapped and the utilization of the road as part of the British Columbia section of the all-Canadian highway.

That the facts laid before the Vancouver men carried with them conviction has been evidenced by the attention given the subject since their return, and the inception of a movement that will take in the Coast cities and the upper country, the object of which will be to impress upon the provincial government the great need that exists for such a highway.

The highways of a country are one of its most important assets, and play a large part in colonization and land settlement. Next to the construction of railways, the construction of good serviceable highways are probably the greatest factor in increasing the value of land, providing adequate marketing facilities, and an important factor in agricultural and urban progress and prosperity.

They mean much to the farmer and much to the merchant, by bringing the two into close touch, and thus affording the one access to markets and the other continental supplies and a wider range in which to sell his wares. But one of the most important phases to not only Vancouver but to the entire upper country, and one, by the way, that has not been lost sight of by the residents of the Interior, is that the road will open up the vast stretch of wonderful scenery and agricultural possibilities in the Interior, to not only the Pacific Coast annually but the thousands that will be attracted here once they learn that the gateway to upper B.C. has been opened.

It has been estimated that the total number of tourists visiting this province this year alone will leave something in the neighborhood of \$20,000,000. This estimate has been made by Publicity Commissioner Davison on actual figures in his possession, and contained in the mass of information he has gleaned are hundreds of letters from all parts of the continent, revealing the fact that had access by auto to the upper country from the Coast been available, that many more would have visited the province.

From the selfish standpoint alone, Vancouver would derive untold benefit from direct motor road connection with the Interior, but in joining with the upper country the men who are behind the movement here have in view only the immense amount of benefit that would be derived by the province as a whole.

TAKE YOUR TIRE TROUBLES TO THE SURGERY

If it is a blowout or bad cut we will build in a new section. If the tread is worn down we will build on a new tread—if the tire is worth it. If it isn't, we'll tell you so.

GAS FAMINE A DELUSION

Uncle Sam's highly disturbing gasoline famine is purely mental. Supplies, both on hand and accumulating, are increasing, and the motor world can now emerge safely from the cloud of gloom perpetrated by the premature prophets who for several months have been drawing word pictures of a gasless universe, says the Western Canadian Motorist.

In the latest report by the United States Bureau of Mines it is shown that reserve stocks on hand at the refineries totalled over 626,000,000 gallons; that Mexico is almost doubling its shipments of the modern elixir of speed life each year, and that new refining methods are resulting in a 50 per cent. increase in production from oil.

The gasoline panic, a spectre which has swept the country and has caused no little anxiety in automotive circles generally has been purely psychological in the opinion of the Federal Trade Commissioners. The failure in certain of the north Texas fields, the government investigators believe upset some oil operators and made an immediate shortage seem possible.

Midwest refineries, the commission reports, are getting a 35 per cent. gasoline yield from crude oil, although plants elsewhere are registering but 12 to 22 per cent. Installation costs and lack of labor facilities are given as reasons for the delay in general changes in refining processes which eventually will mean a 60 per cent. increase in the American supply.

David White, of the U.S. Geological Survey, further dispels the gloom following an investigation of the shale oil fields.

"Shale oil deposits are a possible source of oil in amounts far greater than all the available natural petroleum in this hemisphere," he declares in his report. "They form an enduring asset, sufficient to sustain an enormous ultimate load for an indefinite period, when sufficient machinery for this industry has been developed."

PROSPERITY

"Yes," said the junk man, who has just gathered in the salient features of three cars that had gone afoul of each other. "I surely have a bumper crop."

CANADA'S MOTOR CAR CENSUS

Many Automobiles in Use in Daily Business Life

In Canada there are approximately 335,000 motor cars, and of these about 150,000 are in Ontario. Allowing an average of \$10 a month for gasoline, oil, tires and repairs—a very modest estimate, which includes the laying up of most cars for four months—there is an operating cost of \$2,500,000 and \$1,500,000 a month respectively. As the average value of the cars is about \$1,000 and depreciation figures at about 20 per cent., the total depreciation is about \$50,000,000 and \$30,000,000. That is, the operating cost and depreciation of the cars in Canada is about \$80,000,000 a year, and of those in Ontario about \$48,000,000 a year. For a population of nine million people in the whole of Canada, and less than two and three-quarters millions in Ontario, this is a heavy outlay. But a large proportion of the automobiles aroused in business, promoting trade and supplementing our railway transportation. They are engaged in earning operations. If the country had to rely entirely on horse vehicles, street cars or steam railway trains, far less business would be transacted per capita. More business per head is done in Canada than in any other country. Thus a large part of the motor car cost is productive of business. Farmers in particular are now buyers of automobiles, finding quick transportation profitable to them. But as the wave of economy hits the country, it is likely that some curtailment of expenditure on automobile account will be brought about.—Toronto Mail.

BATTERY REPAIRING

Is it necessary to take a storage battery to an expert for repairs?

This question was recently asked of I. M. Noble, electrical engineer for a large manufacturing concern, who replied:

"Unless a man has made a close detailed study of storage batteries he ought to leave any repairs that may be needed to an expert. He should neither make them himself nor permit a so-called handy man to do them for him."

NO DECISION ON ROUTE FOR ROAD ACROSS PROVINCE

The route which the transprovincial highway will follow has not yet been definitely settled, according to Mr. A. E. Foreman, public works engineer. The Fraser Canyon route, however, is receiving the attention of the public works department.

"The engineer's report was submitted some time ago," says Mr. Foreman, "but is not yet available for the information of the public. Until the important question of railway crossings and possible encroachment on the railway is settled with regard to the Fraser Canyon road, the department will be unable to arrive at any final decision in the matter. In the meantime a survey party is engaged in preparing detailed plans of the crossings, etc., for submission to the Board of Railway Commissioners for their adjudication."

TIRE CODE

Keep tires properly inflated. Be sure to repair little cuts in treads regularly.

Prevent blowouts by avoiding severe jolts.

Have mud boils cleaned out and repaired at once.

Be careful in placing tubes.

Avoid sudden starts, quick stops and skidding.

Use talc in casings, but not too much.

Keep out of ruts and car tracks.

Apply chains properly and take them off as soon as the need for them is gone.

Remove grease, oils and acids from your tires at once by using a cloth moistened with gasoline.

Examine clincher rims occasionally for irregularities and rust.

Carry spare tubes in a bag. Keep spare tires covered.

Disabled Car Owners' Rights

That the disabled car, unable to proceed upon its way, is as much a responsibility to drivers of other cars as though its owner was driving it has been ruled in several of the Eastern states. These courts hold that though an owner be compelled to leave a car that has broken down, other motorists must look out for it and are responsible for any damage to other property that adjoins the highway.—Motor Life.

The Winding Trail

THE GUILLESS MR. LANSBURY

It is astonishing how absorbed one may be in other matters when beneficial things are happening which might be hindered by personal recognition. Mr. George Lansbury's denial of any knowledge of the financial arrangements being made by the Soviets of Russia for the benefits of his paper, reminds us of the unconsciousness of the toper who gazed blissfully into space while his companion, with the customary "Say when!" was pouring Dewar's Own into his glass, and vainly awaiting the signal to stop. "Where ignorance is bliss, 'twere folly to be wise." Messrs. Tchitcherin and Litvinoff might fill the glass of the Labor Daily Herald to the extreme limits of their disinterested kindness, but the editor of that publication "knew nothing about the arrangements" which have since been most unkindly revealed by the records of wireless messages. Well, I presume that is a matter which may be left to Mr. Lansbury and his conscience—the important matter to the public is the unquestioned fact that these financial arrangements were being made, and that a presumably independent paper, published in Great Britain, and professing to represent British labor interests, was to be subsidized by money from the Bolshevik government of Russia in return for the propagation of Soviet principles amongst its readers. It is a charming situation, and sheds light on many things. Incidentally, it helps to explain the rosy view of Sovietism in Russia which Mr. Lansbury took upon himself to present to the oppressed workers of his native land on his return from a personally conducted excursion of investigation, and which was passed on to the readers of The Review lately, as a fair and unbiased Labor estimate of conditions in Bolshevist Russia. "You scratch my back, an' I'll scratch your back," wrote Artemus Ward to the local newspaper in Punkville, when heralding the coming of his show. "I like your industrial system immensely," says our Mr. Lansbury to the genial Tchitcherin, "and I should esteem it a great privilege to propagate your doctrines in my own country—if you could do something to relieve the financial straits my paper is in. Even a few Chinese bonds would be acceptable—it is not for me to enquire how you came by them—in fact, I am really ignorant of the whole arrangement, you know!" Well, there are compensations in most matters, and, as one result of these disclosures, we can congratulate the moderate element in British labor that the revolutionary paper run by the ingenious Mr. Lansbury does not receive enough support to pay its way.

SOMETHING WRONG

With thirty-six thousand laying hens in the vicinity of Hammond alone, it is somewhat of a mystery that the city of Vancouver should not only depend largely on the United States for its egg supply, but should be content to accept No. 2 and lower grades, at which New York turns up its nose, and refuses to accept. Yet this is exactly the conditions which exist, "if we take the statement of Mr. W. A. Brown, Ottawa poultry expert, now touring Canada on his annual trip. Mr. Brown, in fact, goes further than that, stating in so many words that Vancouver consumed more low-grade eggs than any other city in Canada. Since the province of British Columbia is peculiarly adapted for poultry breeding, it is certainly a pronounced anomaly that its biggest city should be reduced to the extremity of meekly receiving the low-grade hen fruit which is not good enough for her neighbors, and we can agree with Mr. Brown when he thinks that the public should be more alert, and insist on B.C. products. When it is remembered that eggs are graded according to size, yet sold by the dozen and not by weight, it is easily realized that Vancouver egg buyers are getting the poor end of the bargain. Specials and No. 1's to New York—No. 2's and lower grades to Vancouver, who is perfectly content! And in the interior of the province, not to speak of Vancouver Island, hens without number! "There's something rotten in the state of Denmark!" —AUTOLYCUS.

CALGARY.—Proof of the development of the Alberta coal industry is provided by official figures recently published showing production during first six months. To the end of June the output was 3,040,000 tons compared with 2,069,000 tons for the corresponding period last year. Figures include bituminous and lignite product. Operators state more coal has been marketed than in any other corresponding period in the history of coal production in Alberta.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant. Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required. Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage. Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made. **PRE-EMPTORS' FREE GRANTS ACT** The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by soldiers or pre-emptors recorded after June 26, 1918. Taxes are remitted for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920. **SUB-PURCHASERS OF CROWN LAND** Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920. **GRAZING** Grazing Act, 1919, for systematic development of livestock industry provided for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head. Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. E. N. ROWLEY, Applicant, Summerland, B.C. The date of the first publication of this notice is Sept. 3rd, 1920. 5-0

WATER NOTICE.

Use and Storage. TAKE NOTICE that Esme Norton Rowley, whose address is Summerland, B.C., will apply for a licence to take and use 100 acre feet and to store 100 acre feet of water out of Trout Creek, which flows southeast-ward and drains into Okanagan Lake about 3 miles south of Summerland, B.C. The storage-dam will be located at the point of intersection of northwest and southwest survey line of Lot 1103 and Trout Creek. The capacity of the reservoir to be created is about 100 acre feet, and it will flood about 100 acres of land. The water will be diverted from the stream at a point about 900 feet northwest of District Lot 2093, Group 1, Osoyoos Division of Yale District, B.C., and will be used for irrigation purpose upon the said Lot described as Lands 2093 and 1103. This notice was posted on the ground the 18th day of August, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.
