

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

"Attractive advertising layout with conservative copy will get the kind of customers you want—maybe not in crowds, but finally bringing them with a desire to buy."—Donald H. Eldredge.

Vol. 15, No. 51, Whole No. 806

SUMMERLAND, B. C., THURSDAY, July 19, 1923

\$2.50, Payable in Advance

## BOY SCOUTS PERFORMANCE WAS ENJOYED

### Big Crowd Witnesses "Plays," Athletic Stunts and a Boxing Bout.

"Tis not in mortals to command success, but we'll do more, Sempronius, we'll deserve it!"

If the Summerland troop of Boy Scouts had the foregoing in mind whilst preparations were under way for their annual concert, last Friday night, then they are to be congratulated, for not only did they fill the spacious College Gymnasium, but they fully deserved every bit of applause so lavishly bestowed upon them.

Capt. H. H. Creese announced that the Scouts were very well satisfied with the financial returns from the dance and concert, although the high-water mark of last year had not been reached. The boys will not remain so long in camp this year as a consequence, the object of the entertainment being to raise funds for that purpose. The standard of the annual Scouts' entertainment has always been of a very high order and if Friday night's program did not quite reach the zenith, there were no complaints, everybody going away happy and voting it a "good show."

The curtain rose to the call of a bugle, and the whole troop were discovered at "attention," the audience rising simultaneously and joining in the National Anthem.

The official Scout Marching Song was well put over. Standing in platoon formation the lusty-lunged youngsters redered the tune "Boys Be Prepared" in a harmonious manner, and an encore was demanded.

The boxing bout between two youngsters proved a "mill" that had the Shelby fizzle feased to a frazzle. This number was put over in the correct orthodox manner, the official diminutive announcer introducing "Jack Dempsey" tuh tuh right, and "Tom Gibbons" tuh tuh left. Time, gentlemen, please, and seconds out of the ring!" This was a three-round go in which the championship of Jones' Flat was involved, and the lambasting these champions handed to each other provided much merriment and admiration. Both boys showed flashes of speed, science and head work, and with tuition should be heard of again in the "noble art of self defence." The decision was declared a draw. Dempsey's proxy

## COMPANY CAN ISSUE CHECKS

### Court Order Obtained by W. C. Kelley, and Legal O.K. Given.

W. C. Kelley returned on Wednesday morning from Vancouver, where he had gone on business in connection with the financing of the new co-operative organizations of Summerland and Naramata and states that he met with success, having obtained a court order authorizing the extraordinary resolution adopted by members of the Summerland Fruit Union in liquidation at their last meeting.

For some time the credits which the Bank of Montreal were granting the Summerland Co-operative Growers' Association and the Naramata Co-operative Growers' Exchange were held up because of certain complications which the resolution above referred to was intended to remove, because the bank authorities required that the resolution be given the authority of the court. This Mr. Kelley has now obtained, and will enable the liquidator to give full effect to the resolution, which gives the Bank of Montreal a preferred position with respect to the liquidation of the Fruit Union in regard to loans made to the new Co-operative, and will put the Co-operative in a position to issue cheques which have been held up awaiting the court order.

Two Alberta irrigation bond issues have been sold for 103 and 102.81, respectively. The bonds carry the provincial government's guarantee.

## WOULD RETAIN PRODUCTS PLANT

At a meeting of the shareholders of the O. U. G. Fruit Products Co. held last Friday at Vernon, the resolution of the directors to put that company into voluntary liquidation was confirmed.

A meeting of the creditors, who are fruit growers either individually or through the O. U. G., will be held in about three weeks. Many fruit growers have expressed the hope that the liquidator retain possession of the Fruit Products plant, feeling that it will be necessary next season as in this.

The Provincial Department of Labor purposes opening an employment office at Penticton. The Kelowna office has been closed.

## SHIPMENTS OF ALL CHERRIES DISAPPOINTING

### Central States Market Has Not Fallen Down, but Fruit Not Holding Up.

Showery weather has played havoc with the cherries. At least this is the explanation offered for the failure of cherries, evidently in perfect condition when leaving here, falling down before they reach their destination.

Cherries have been going out in considerable volume and all nearby points were well filled before it was discovered that some of the later cherries were not standing up and therefore could not be shipped to more distant points. Accordingly Central sent the following telegram to the several locals packing cherries:

"Vernon, B. C.

"Latest and most recent advice from all markets also local observation and reports from inspectors are most conclusive that Windsor, Bings and Pie cherries will not carry to nearest markets. Therefore strongly advise that picking be stopped as over-ripe and soft and leaking cherries only tend to demoralize a present over-loaded market. Get on to your Lamberts and pack them in prime boxes, faced for export to Minneapolis for next two or three days, thereby giving our Prairie market a chance to clean up.

"ASSOCIATED GROWERS."

An unusual development this season has been the shrinking of Bings on the trees just as they reach ripeness.

It is expected that the market will have sufficiently cleared to permit the shipping of Bings, Republicans and other cherries by Friday. The holdup has not been because of price, as general manager A. H. Pratt is quoted as saying that the market is good.

## GRASSHOPPERS AT OLIVER AND FALLS

### Federal Experts Arrive to Head off Invasion of Pest.

Grasshoppers are reported to be doing damage to young fruit trees in the Oliver and Okanagan Falls districts and to combat this pest Ronald Buckle and Paul Vrom, members of the Federal Entomological Branch are now encamped at Oliver and are investigating the situation and outlining a campaign.

Mr. Buckle is said to be one of the best authorities on grasshoppers in Canada and he and Mr. Vrom were sent in here at the request of the Horticultural Branch of the provincial Department of Agriculture. They expect to remain here for about a week.

The difficulty in destroying grasshoppers, it is stated, is that there are so many species of the pest, most of which have different feeding habits. Thus it is impossible simply to go in and poison them, without thorough investigation as their food supply may be so ample that the poison would not tempt them.

The grasshoppers do not appear to be doing any serious damage to trees planted in 1922, but have attacked the young trees set out this year. As soon as the species and feeding habits of these pests have been ascertained the work of exterminating them will commence.

## OBJECTING TO PAY THE RED INK DEMANDS

### Some Growers Will Not Acknowledge Correctness of So-Called Deficit.

That some of the growers who shipped through the Summerland Fruit Union last season and received debit accounts at the end of the season will not pay these accounts without further evidence of their indebtedness, is shown in the fact that a letter declaring their stand and which is addressed to the liquidator of the Union is being signed by a number of growers.

Red ink returns to the total of \$15,000 were made to growers by the Union on last season's operations, which means that all growers unfortunately enough to receive such returns are, according to the books of the Union, in debt to that organization to the extent of the red ink statement given them. This, of course, is in addition to any other indebtedness.

The letter now being circulated declares that the signatories "do not acknowledge the correctness of these statements and are not prepared to do so until we have been satisfied by an independent examination of the books of the Union and the O. U. G. and detailed particulars of the pools of different varieties of fruit, which have resulted in the alleged wholesale losses have been furnished and certified by independent accountants."

These accounts against growers along with all other book debts are now held by the Dominion Bank to whom the book debts of the Union were assigned fifteen months or more ago.

Further complicating the matter is the fact that the contracts were of a three-cornered nature between the Union, grower and central selling agency. Only very few red ink returns were made by the central to the Union but others were so small that when the local charges were considered, there was a deficit on a number of pools.

## PENTICTON HAS CODLING MOTH

An outbreak of codling moth has been detected at the southern end of the Penticton fruit area and about forty acres near Dog Lake have been put under quarantine. R. P. Murray, provincial fruit pest inspector there, with a gang of men, is making a close inspection of the trees both inside the quarantine area and adjoining it to ascertain the extent of the outbreak.

It is estimated that \$2,500,000,000 of American money is invested in Canada.

## BABY PEGGY IS WONDERFUL

### Talented Niece of Local Col. Becomes Juvenile Film Starlet.

Colonel Robert Cartwright, of Summerland, has just cause to feel highly flattered at the remarkable success achieved by his little niece ("Baby" Peggy Cartwright) upon the silver screen. The following dispatch from California will be read with great local interest:

Hollywood, Cal.—Coming to Hollywood from Vancouver, B. C., a short time ago to recuperate from an attack of scarlet fever, Peggy Cartwright, 8-year old film starlet, not only found southern California sunshine to be her best doctor, but she found an opportunity to enter motion pictures, all of which resulted in her becoming a most popular member of the screen juvenile fraternity.

Peggy comes from a most distinguished family. She is the grandchild of Lady and Sir Richard Cartwright. Her uncle is Col Robert Cartwright, a colonel in the Canadian army; her father, Conway Cartwright, is a doctor by profession and was the youngest Major in the Canadian army. Because of his gallantry during the World War he was recently

(Continued on Page 4)

## MOTORISTS HERE FROM BANGOR, ME.

Bearing a licence plate of the State of Maine, a big Chandler Six passed through here Saturday, bound for Ashcroft. It was driven by Mr. D. L. Grogan, of Bangor, Maine, who was accompanied by his wife. The most of their route was over the Lincoln highway. They crossed the international boundary at Kingsgate and came by way of Nelson and Grand Forks. They were three weeks and two days from Bangor to Summerland. From here they continued on to Ashcroft, where Mr. Grogan is interested in mining.

## ORGANIZING FOR NEW CREAMERY

Dairy men in the Okanagan from Kelowna north are organizing for the purpose of collecting cream and making it into butter at a co-operative creamery. Considerable difficulty has been experienced by the provisional board of directors in deciding on a location for the creamery but Armstrong has been selected. The new concern is known as The Northern Okanagan Creamery Association.

## IS BACK FROM LENGTHY TOUR WITH BOWSER

### Opposition Leader Has Learned Much of Needs of Good Roads and Irrigation.

J. W. Jones, M.L.A., was a visitor to Summerland last Thursday afternoon on his way home from an extended tour of southeastern British Columbia and Washington state. Accompanying Mr. Jones on his tour was W. J. Bowser, M.L.A., and in the Kootenay country, several other members of the Assembly were with them on a political tour of the several ridings.

Mr. Jones expressed himself as very well pleased with the reception given Mr. Bowser and his supporters and declared that the Opposition manifested some time ago to Mr. Bowser as a party leader had entirely disappeared. But, Mr. Jones was even more enthusiastic over his long tour through the irrigated districts of Washington State.

When championing the cause of the Okanagan in the House at Victoria, Mr. Jones has often been up against the difficulty contained in the fact that very few members know anything of the practical side of irrigation and he was delighted to have the opportunity to take Mr. Bowser through the irrigated districts of Washington as well as the Okanagan and Boundary, and he feels sure that he will have one more active supporter for his demands for better conditions for irrigationists.

Mr. Jones says that he also took the opportunity to show how Washington was benefitting by good roads. He is confident that we are losing the opportunity of reaping many thousands of dollars through the fact that we are not providing better roads and other attractions for American tourists.

## COUNCILLORS DECIDE UPON POUND LAWS

### Road Closed for Motor Traffic—Cheque Received for Liquor Sales.

At last week's meeting of the Municipal council, instructions were given to close to motor traffic the road running south between the Rose and Drewett properties, a section of which has been flooded for some weeks. At the same time, orders were issued to have the grade passing the Hutchinson and Johnston properties improved as an alternative route. Coun. Kirk presented a report with respect to the flooded area, describing his plan for remedying the trouble. This was laid on the table awaiting further information.

G. S. Drewett sent in a bill for five dollars for hauling Dr. Andrew's car out of the water on the above section of road. The claim was not entertained.

Complaint from Cameron Barr of a leaky flume was referred to Foreman Tomlin.

The treasurer reported the receipt of a cheque from the provincial government for \$1918.97, provincial grant under the Liquor Act. Two-sevenths of this money is apportioned to the school fund and five-sevenths to the general municipal fund.

Accounts totalling \$14,119.35 were approved for payment. This included \$5000 interest on debentures.

W. K. Gwyer, provincial road engineer, wrote requesting payment of \$125, "the municipal share of the cost of altering the site of the shore road through the Mellor property. Further applications for electric light service were received when the treasurer reported that the money realized from the share of debentures for this purpose had been exhausted, and further sales of debentures in the treasury would be necessary. The extensions were granted, subject to a sale being made and the treasurer was authorized to sell one or more debentures.

A new pound law recently drawn up by the municipal solicitor was given its formal readings and will come up for final approval at a later meeting. The new bylaw makes some changes in the pound fees, for instance, the fee on horses will be \$1 each up to three horses; on all over three horses, fifty cents each. Claims for damages caused by animals at large will be fixed by arbitration. The poundkeeper is authorized to sell by private treaty any animals not disposed of in the usual way by public auction. At his discretion animals of little value may be sold after being impounded three days, without the usual advertising, but before doing so, he must have the consent of the pound committee.

## CAR AND MAN GO OVER HILL

### Artificial Limb Responsible for Accidents—Marvelous Escape.

Grand Forks Gazette says: "Jack Todd, of Penticton, in his Ford car went off the road at the top of Sunyside hill and rolled down the mountainside several hundred feet and completing about three somersaults. The accident occurred Tuesday afternoon and aside from a few severe bruises to his face and some scars on the Ford, both driver and car are now on the move as usual.

Mr. Todd is a veteran of the war, who went overseas from Grand Forks with the 48th battalion, and had come over from the Okanagan to renew old acquaintances. As a result of the scrapping in France Jack left one of his limbs over there and his substituting propeller is to blame for the accident. When he started to come down the hill his foot got caught in the brake and before he could get it released the car was travelling at high speed and he lost control, finally shooting into space at one of the curves.

There is quite a steep pitch to the mountain where the accident occurred and Jack figures he made about three revolutions in the course of his travels before coming to a stop.

## OPENS OFFICE

Capt. P. S. Roe has opened an office in the same building with M. G. Wilson on Shaughnessy Ave. and will there conduct the business of the Okanagan Lake Boat Co. and the coal and wood business and Penticton stage, which he carries on in his name.

## IMPROVING ROAD

The bridge over the creek in Peach Orchard near the Lawler property is being replaced by a concrete culvert and earth fill. Much heavy traffic passes along this road, particularly during the fruit shipping season and it has been felt that the old wooden bridge was not strong enough for the heavy loads.

## ESTIMATE OF FRUIT CROP FOR VALLEY

### District Horticulturist Says We Should Have Best Crop In Our History.

W. T. Hunter, District Horticulturist, has made a revised crop estimate for the Okanagan Horticultural District.

Apples are estimated at 3,233,000 boxes or 4,620 cars, this being a 20 per cent. increase over the season of 1922. Crabapples are estimated at 205,400 boxes or 257 cars, being an increase of 8 per cent. Pears are estimated at 94,900 boxes, or 118½ cars, being an increase of 8 per cent. in this fruit over last season. Plums and prunes show an increase of 10 per cent. or an estimate of 287,500 cases or 281½ cars. Peaches show a heavy drop of about 30 per cent. less than 1922 and an estimate of 141,600 crates or 141½ cars. Apricots show a decline of 15 per cent., being estimated at 65,700 crates or 65½ cars.

In his estimates by districts in the case of apples, in nearly all cases an increase is shown, except in the Main Line points, which include the territory from Lytton to Chase, and at Keremeos. All other points show a heavy increase, particularly from Kelowna south, Peachland, however, only shows a slight increase due to hail injury at that point. Hail damage is also reported from Salmon Arm, and it is estimated that approximately 19,000 boxes will be hail-marked at that point.

By varieties it is reported from practically all points, that Wealthies, Duchess and all early apples will be heavy. McIntosh will about equal last year's production on the whole due to Scab injury which is becoming apparent at Northern points. In fact Scab injury may seriously reduce the tonnage in many places. Jonathans will be fewer in number than last year, and all the later varieties will be much heavier. The quality on all varieties is above par. Some damage is reported from Leaf Roller in various sections, but the majority of such damaged fruit is being removed during thinning operations. Yellow Transparent apples will be ready the last week in July and Duchess should move the first week of August. Yellow Transparent apples appeared for the first time this season on the Vernon market last Saturday.

On the whole it may be stated that the apple crop of this season promises to be well above the average of any crop yet harvested in the Okanagan, both as to quality and quantity. Thinning has been more extensively practised this season than during any previous year, and as a consequence the quality of the crop should be above par, and there should be a relatively low percentage of cull fruits. The growing conditions have been ideal for apples as well as for all other fruits, and should the season remain normal until harvest time, the growers of the Okanagan will harvest by far the best crop in the history of the district.

Hay crops are showing more heavily than Transcendents. Pears are credited with an 8 per cent. increase and the quality should be excellent. Plums and prunes are heavy and show a 10 per cent. increase and they should size up well, as the drop, particularly on prunes, has been fairly heavy. Apricots and peaches while fewer in number, should be a better quality than over before as

## GOOD CROPS EVERYWHERE IN DOMINION

### Harvesting of Rye Started—Hail Damage Small—Pests Negligible.

The state of practically all crops throughout the Dominion of Canada is exceptionally good, according to a report just issued by the Bank of Montreal. In the Prairie Provinces good growing weather continues and the wheat is heading out. Damage by hail has not been above the average and no serious damage is reported from insect pests. Average crops are indicated for Quebec Province and a good all round crop for Ontario. In the Maritime Provinces hay will be below average, estimates are for a large crop of apples. Crops in British Columbia are doing well. Details follow:

### Prairie Provinces.

Edmonton district: Excellent growing weather, wheat heading out. Slight hail in some parts, heavier near Ponoka. Calgary district: Conditions good, harvesting of rye crop has started. Hail damage in Okotoks and High River districts referred to last week varies from 40 per cent. to 100 per cent. Some recovery has been made. Lethbridge district: Wheat headed out. Other grains well advanced. Cutting of rye and alfalfa has started. Haying late, weather generally most favorable. Some damage from hail but it is reported to be slight. Saskatoon district: All crops making rapid growth. Wheat headed out. Warm dry weather now needed. Weeds prevalent in some sections. No important losses from hail or pests. Hay and pasture good. Regina district: Conditions continue satisfactory but low lying lands are getting too much moisture. Dry windy weather would be beneficial. Wheat all in shot blade and early crops are heading out; hay and pasture good. Slight damage from hail in some sections but none from grasshoppers or other pests. Winnipeg district: Favorable conditions continue with sufficient moisture. No serious damage from rust but less humidity and cooler weather would be welcome. Hail damage not above average. Wheat well headed out. Winter rye harvesting will begin next week. Other grains doing well. Pasture good.

### Province of Quebec.

Grain is improving and an average crop is expected. Corn is doing bet-

(Continued on Page 4)

## GUARANTEED 1922 LOANS

### Tangle and Misunderstanding Caused by Union Bank Account.

With reference to the complaints heard at the recent meeting of the creditors of the O. U. G., it has been pointed out that the O. U. G. guaranteed only the advances made by the Dominion Bank to the Summerland Fruit Union for 1922 operating. Money borrowed in 1921 for advancement to members with which to finance their season's operations and for 1921 packing operations was borrowed from the Bank of Montreal and when the Union changed its account from the Bank of Montreal to the Dominion Bank the latter took over an account of some \$60,000, due the Bank of Montreal by the Union. This was not guaranteed by the Central.

Settlers in the Bulkley Valley, Central British Columbia, are being encouraged to produce clover and certain vegetable seeds for the market, owing to the fine quality of seed grown in that section of the country. Seed production is a coming industry in the Pacific province.

Keep young by associating with young things. The newspapers are youngest—a new one every week.

Thinning has been widely practised this season on these fruits and owing to the growing conditions which have prevailed the size should be well above average. Apricots will roll in considerable quantities the last week of this month.

# The Summerland Review

Established August, 1908.  
 Published at Summerland, B.C., every Thursday by  
**THE REVIEW PUBLISHING COMPANY, LIMITED**  
 Ralph E. White, Editor and Manager  
 An independent family newspaper covering Peachland, Summerland and  
 Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

**Subscription Rates**—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

**Advertising Rate Cards** and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

**Correspondence**—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

**Typographical Errors**—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### SAPIRO AND WHEAT.

Aaron Sapiro is going to the Canadian prairies to organize a voluntary wheat pool, and will open his campaign among grain growers on Friday of next week at Saskatoon.

The collapse of the price of wheat has hit the producer of that commodity, of which fact we in the fruit producing section are very well aware. After two years of effort to organize under the Dominion law, which gave the prairies power to form compulsory pools, this plan has been abandoned and the latest move is to form the grain growers into a co-operative marketing organization that will include the three prairie provinces, and Sapiro is the man selected to put over the plan. To market the wheat by co-operation at the point of consumption rather than market it individually at the point of production will be the aim.

Upon the prosperity of the prairie farmer depends the prosperity and progress of all Canada, and particularly are we in British Columbia concerned. Present prospects for a profitable price for wheat are not bright, although indications of a record crop in all grains have developed a more optimistic feeling. Following on this, though, is the fall of the Chicago wheat market to below a dollar, no doubt influenced by the continued unsettled political conditions in Europe.

It is earnestly hoped that Sapiro can line up even a greater percentage of grain growers than he did here of the fruit growers, and that, so organized, they will be able so to handle their business that cost and something more will be obtained for their huge crop.

### WHAT ADVERTISING MEANS TO YOU.

Every now and then we like to talk to our merchants about advertising, and we like to do it in this way because the subject is of equal interest to the public. Frankly, the interest of the public, the interest of the local merchant and the interest of the local newspaper publisher are inseparably linked.

The public always is best served by buying advertised goods. Goods that are advertised are goods that are more extensively manufactured and consequently cheaper because of increased production. Moreover, advertising today is a guarantee of merit. No one need be afraid, either of the honesty of the price or the quality of advertised goods. Competition compels honesty, even if there should be a wish to avoid it.

There is another benefit, too, in local newspaper advertising. When advertising is thoughtfully employed it means the building of trade for our local merchants and this reacts in increase in real estate values generally. A prosperous business section means added population and increased conveniences. The whole scheme of advertising, merchandising and buying is one of co-operation to mutual advantage.

The merchant always wins favorable reaction when he talks frankly in his advertising to the people and shows them he is dealing honestly with them and making a normal profit.

The man who weeps by week consistently in his advertising shows he holds the public interest at heart is the man who wins. Many merchants lose the substance of public confidence in grasping for the shadow of immediate sales.

## From Our Exchanges

### BUSINESS GOES WHERE IT IS WELL TREATED.

As has been previously and often stated in the columns of the Enterprise, the business man who sends away from his home town for his printing cannot consistently complain if the buying public follow his example and send elsewhere for their supplies.

The "Trade at Home" idea is the only one which can bring to this county the full measure of prosperity to which it is justly entitled, and it applies in exactly the same degree to every bank, mercantile establishment, creamery corporation, lumbering concern and business of every description that it does to the citizen in purchasing supplies for the home.—Clipped.

### THE CHERRY HARVEST.

The cherries are the largest and finest ever produced in the Valley this year. As a result girls are making as high as \$6.00 and \$6.50 a day in doing the picking. The cherry money is all home money, practically none of it going out of the Valley. The folks around home do the picking and packing, and the money received from the soft fruit goes much farther by reason of this than that received from the apples.—Wenatchee World.

### PUNISHING THE GUILTY.

Why shouldn't we amend the Criminal Code making the white man furnishing liquor to an Indian an accessory to any crime that the Indian might commit while under the influence of the liquor so furnished? Wouldn't the enforcement of such a law soon put an end to the illicit traffic in booze to the Indians?

Suppose the jitney driver who supplied the booze that led to the horrible murder of Annie Louie lately could have been held as an accessory to the crime; suppose he were tried for murder and sentenced to imprisonment for life or a long term of years; wouldn't it have greater effect in the prevention of other crimes of a similar nature than the comparatively light sentence which may be imposed under the illicit liquor traffic law?—Okanagan Commoner.

### SENDING BUSINESS OUT OF TOWN

Advertising makes a town, therefore the men who do the advertising of any town are the makers of it and should have the credit for doing so. In this, as in all towns, there are some non-advertisers—men who do business, or try to, with never a cent spent for advertising. These fellows get part of the benefit from their progressive neighbors' advertising therefore in a sense, they are mooching on their neighbors' investments. When you come to town to spend your money you should always try to trade with the firm that spends its money freely for advertising, for that is the kind of people that make your town and keep it going. The Review believes this is done very largely. The people are rapidly learning that it pays to trade where they are invited and many will shun the store that does not think enough of their business to solicit same. "Business goes where it is well treated."—Clipped.

The more brains a man has the less likely is he to have the big head.

It is no wonder a wife and mother takes so much pride in her husband and children. She usually has no other channels in which to vent her ambition.

A man claims to have invented something that will overcome the laws of gravitation. If he would invent something that would cause a dollar to return to you after being spent that would be more to the point.

Recognizing the important, if somewhat subdued, part that father plays in the affairs of life, a Spokane woman proposes that one day of each year be devoted to the titular head of the family and that this day be called "Father's Day." So long as father devotes the balance of the year to wifely such unexpected recognition from the feminine sex does not seem unmerited.

## Poem by UNCLE JOHN

The Senatorial candidates have struck their smartest gait, an' hawk their wares on busted crates, all up an' down the State.

Contendin' voices rant an' roar, to warn us of our danger. . . . Nobody's honest any more THE CONFLICT—the Golden Rule's a stranger!

I reckon if we don't elect a rabid politician, we needn't ever much expect to better our condition. . . . And so—each candidate declaims in hate against the other, without a-calling' any names—that he's the Devil's brother. I reckon that it's nip and tuck between contendin' forces—but I would sooner pass the buck, than hear their crime-discourses.

Why can't we have two honest men, to run against each other—who'd serve the people now an' then, an' treat 'em as a brother?

It seems to me, that politics has got so awful rotten, that we'd be in a better fix with all of it forgotten!

*John C. [Signature]*

### NEPHEW KILLED IN AUTO ACCIDENT

Mr. C. R. McKay has received the sad news of the death of his nephew, as the result of an auto accident at Alexandria, Minn., U.S.A., on the first of July. The young man, who was 10 years of age, was driving along the highway when he met another car, without lights, and, in passing, made too wide a turn. McKay's car overturned, crushing his leg from hip to knee. Two other boys, also occupants of the car, were considerably injured, one receiving several fractures in the leg, while the other suffered injury to his head. Max McKay was so badly hurt that he lived only twenty-four hours, after the accident, death being directly due to loss of blood, although an effort was made to save his life by blood transfusion.

No man can serve two masters. Those who have tried it are doing terms for bigamy.

Many a successful man got his start by having a woman push him along in a go-cart.

Jollyng gets more than bullying and loves no rancorous feelings.

### LAWLER'S WORK IN ONTARIO

Doubtless referring to the engagement by the Fruit Branch, Ottawa, of ack Lawler, of Summerland, and who has gone east for the summer. The Canadian Horticulturist, Ontario, says:

"In order to introduce the methods so successfully used in British Columbia for the packing of fruits for long distance shipments, the Fruit Branch, Ottawa, arranged to bring an expert packer from British Columbia to Ontario.

"The markets of the prairie provinces have been accustomed to and will pay a premium for the packages used in the western fruit growing sections. In order that Ontario shippers may be in a position to take the greatest possible advantage of these favorable markets, the expert will give demonstrations in the packing of fruit in western packages throughout the tender fruit growing sections of the province.

"The fruit packing expert is in Ontario and arrangements for his services, which are free, may be made by shippers or organizations upon applications to the Fruit Branch, Ottawa."

### C. P. R. TELLS OF LOCAL NEEDS

The fact that Summerland offers openings for cannery, jam factory and pickle factory is being advertised in a new publication, "Business and Industrial Opportunities in Western Canada," issued by the Department of Colonization and Development of the Canadian Pacific Railway. This publication lists all centers offering business opportunities and gives a condensed description of each, covering the population, existing industries, public utilities, schools, churches, etc. A copy of the publication has just been received by The Review.

### SCOUT COMMISSIONER IS VISITOR HERE

Ross Sutherland, of Victoria, the provincial commissioner of the Boy Scout movement, is here on a tour of the Interior towns, visiting the several Boy Scout troops. At the same time he has been visiting with his brothers here, H. Sutherland and J. M. Sutherland and is making the latter's home his headquarters. He and Capt. Creese, local Scoutmaster, are today at Grand Forks. Mr. Sutherland is very enthusiastic in his work and states that the number of Boy Scouts in British Columbia has increased from 1400 to 3000 in two years.

Further news of the hailstorm which visited the Valley on July 2nd, touching points between Summerland and Peachland are heard from time to time. Glenrosa, situated at quite an altitude back of Westbank, suffered heavily, huge hailstones being reported, while just beyond, at Westbank, no hail fell.

Over 600 establishments in the maritime provinces of Canada are licensed to can lobsters. The industry is carried on under the strict supervision and regulations of the Department of Marine and Fisheries.

### PEACHLAND DOINGS

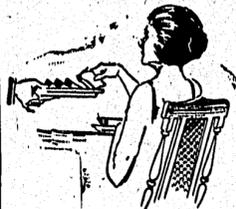

A Weekly Chronicle Furnished By Our Local Representative.

A small gang of men just came down out of the mountains after having completed some very necessary repairs on the Glen Robinson road, principally on the Deep Creek grades, under the supervision of road foreman S. H. Murdin.

Mr. H. E. and Mrs. L. D. McCall motored to the K.V.R. station, Summerland, on Wednesday morning to meet and bring home with them Miss Enid, Smith with her little sister Muriel, of Merritt, B.C., who expect to spend the summer with their aunt Mrs. McCall, Sr. (Further Peachland News on page 3)

### Burning Stomach

relieved in two minutes with Jo-To  
 Jo-To relieves gas pains, acid stomach, heartburn, after-eating distress and all forms of indigestion quickly, without harm.  
 All Drug Stores.

### BREAD

Women's taste and touch are keen in judgment of good bread.

By the aroma, the feel and the flavor she knows it is good bread.

Johnston's Bread has stood the test of Summerland housewives, and that is the best guarantee we can give you.

Bread crisply fresh from our big oven every day. White Graham, Whole Wheat and Raisin Bread. Also all kinds of rolls and pastry.

### JOHNSTON'S BAKERY

Several new industrial companies were incorporated in British Columbia last month, with authorized capital aggregating \$11,000,000. Hon. John Hart, minister of finance, declares that in practically every department of industrial development the province is making great strides.

Many like to prescribe good advice for the reason that a doctor doesn't have to take his own medicine.

### WILL HANDLE DOM. EXPRESS BUSINESS

A. M. Leslie, local C.P.R. agent, will continue in charge of the fruit shipping business of the Dominion Express Co. here this season. For some seasons it has been the practice of the express company to send in a special agent and assistants, but this year Mr. Leslie will handle the business and employ his own staff.

### THOS. B. YOUNG

## Are you Loyal to B.C. ?

A big majority vote was cast when nearly 4,000 growers of fruits and vegetables decided by written ballot and a five-year tight contract that British Columbia growers have their own co-operative organization that would represent the industry.

Nearly 90% of the B.C. Growers are already members. Recognized loyalty to B.C., in this common problem will certainly and rapidly increase this membership towards the ideal 100%, as any grower who thoroughly acquaints himself with its purposes will recognize in this movement his duty to himself and his fellow growers.

It is a duty and a privilege.  
 Be a part of us. Talk it over.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

PEACHLAND DOINGS

A Weekly Chronicle Furnished By Our Local Representative.

Miss Winnie Dicht, of Olds, Alberta, is spending a couple of weeks holiday at the Cousins home.

Mr. F. Wrightson, of Mellet, Alta., known to many of the citizens here, having visited the community on different occasions looking after his interests in the Trepanier section, is again spending a short time in the district.

The Robins family are enjoying a family re-union while several members of the family are home on a visit, having motored up from Washington.

Mr. Rankin, of Vancouver, representing the insurance firm of Ceperley, Rounsell & Co., Ltd., visited Peachland last week in the interests of his firm. While in town he appointed Mr. H. E. McCall local agent for two of their fire insurance companies, The Phoenix and the Liverpool & London & Globe.

The ball game Married Men vs. Single, which had been scheduled for Tuesday evening was not played just as had been expected. A few of the married men were unable to be on deck and in order not to disappoint the spectators, the married men picked out enough men from the crowd to make up a nine and gave the boys something to do to beat 'em. The first innings were fast and furious with side out in short order, but as the game advanced the single lads took a lead and it seemed for a while as though it was going to be a one-sided tally. However, the married men rallied and at the finish the score stood nine to four. Had dusk not crept down, the married men believe they stood a good chance for the honors.

The local branch of the W.C.T.U. held a raspberry and cream social on Tuesday evening in Mrs. L. D. McCall's lawn, which was quite a success, and the proceeds for the evening amounted to about six dollars.

Mrs. J. L. Elliott spent Wednesday with friends and relatives in Kelowna.

Mrs. Romain and family of Kelowna were last week guests of Mr. and Mrs. Wm. White.

Representatives from Peachland attending the irrigation convention held in Penticton last week were Reeve G. Lang, Mr. R. J. Hogg and Major R. G. Hardisty.

Mrs. and Miss Elliott and Master Gerald Elliott left on Friday morning for Edmonton to spend the summer vacation with Mr. and Mrs. C. G. Elliott and family.

Peachland Loyal Orange Lodge No. 408 and the lady Orange Lodge turned out in force on Thursday of last week to attend the 12th of July celebration held in Kelowna. Lodges from all over the Valley were present and made up quite a large parade. The day was fine throughout and one of the best Orange Walks the Valley has witnessed was held on that occasion. The Peachland lodge motored up and crossed by special ferry.

Rev. H. A. Solly motored up from Summerland on Sunday to conduct the service in St. Margaret's church; Peachland, and in the evening at Westbank.

Mr. Taylor, former resident of Peachland and at the time manager of the local Union, with his wife and children motored up from Penticton on Sunday to visit friends. Mr. Taylor is managing the Penticton local this season.

After a pleasant visit at Peachland and on the W. D. Miller ranch. Mr. and Mrs. Lyle Seaton of Vernon returned home on Sunday morning accompanying Mr. and Mrs. Dryden on a motor trip. Mr. and Mrs. Dryden returned on Monday.

Mr. Edgar Phillips, formerly of Edmonton, having recently spent several weeks at the Coast and down in the Yakima fruit belt, arrived here on Saturday morning to visit his friend Loyal Werner at the home of Mr. and Mrs. H. E. McCall.

The Union Sunday School picnic was held on Saturday last at the Deep Creek picnic site. There was a record attendance. The weather conditions were splendid and a very enjoyable afternoon was the result. Bathing was indulged in first, followed by a number of races for the scholars and their teachers and a few swimming races for the boys and girls. The prizes were given out and then a jolly group arranged themselves in the flat by the creek where the ladies served a feast of good things and needless to say it was appreciated by all.

Mr. and Mrs. Crooks are the proud parents of a baby girl born at their home on Saturday morning.

Mr. and Mrs. Dorland are enjoying a visit from some prairie friends, Mrs. McAllister and her two sons and daughter. They will remain in the Valley for some time, here and at Penticton.

What is supposed to be the first commercial shipment of green walnuts from Peachland was made on July 11th. Mr. A. H. Young made a shipment of one hundred and fifty pounds to Mr. David Gellatly. It will be fine if the residents in the Valley can turn their shade trees into commercial value.

Mrs. Chas. Drake and the children left on Monday morning for Oakland, Iowa, to visit for some time at Mrs. Drake's former home. Mr. Drake is remaining behind and is selling the furniture by private sale, particulars of which will be found

Tenders will be received by the undersigned up to noon of Wednesday, August 1st, 1923, for conveyance of school children by motors, on the following routes:

Route 1.—Trout Creek Point. Morning trip—starting from the school house to Central school via Gattrell's hill. Afternoon trip—from Central School to top of Gattrell's hill. To carry about 26 pupils.

Route 2.—Giant's Head. Morning trip—starting from Mr. A. E. Rose's corner to Central School. Afternoon trip—Central School to Mr. Rose's lot. To carry about 40 pupils.

Route 3.—Summerland to Central School. Morning trip—starting at old Town school site going by direct road to Peach Orchard, thence by the Lako Shore road to Elliott's store and on to Central School via the Gulch Road. Afternoon trip—Central School to high flume above the hospital. To carry about 56 pupils.

Route 4.—Prairie Valley. Morning trip—starting at Mr. Cunliffe's corner by main road to Central School. Afternoon trip—Central School to Mr. Hunt's lot. To carry about 26 pupils.

Route 5.—Paradise Flat. Morning trip—starting at Mr. Simpson's corner to Central School via main road. Afternoon trip—from Central School to Mr. Simpson's. To carry about 22 pupils.

Route 6.—Garnott Valley. Morning trip—starting from Mr. Clarke's gate to Central School via main road. Afternoon trip—Central School to Mr. Clarke's gate. To carry about 26 pupils.

Tenders to state price per single trip. All vans to be covered and of sufficient capacity to accommodate the number of children on the respective routes. Each and every conveyance to be approved by the School Board. Contractors to provide rugs in cold weather. The lowest or any tender not necessarily accepted. J. H. BOWERING, Secretary. West Summerland, B. C., July 10th, 1923. 805-6

ed out in force on Thursday of last week to attend the 12th of July celebration held in Kelowna. Lodges from all over the Valley were present and made up quite a large parade. in an ad. elsewhere in this issue. When he gets everything cleaned up here he will go to California and as soon as he locates definitely Mrs. Drake and the children will join him there.

TO TREAT IVY POISONING

In the early stages of ivy poisoning, remedies having a fatty or oily base such as ointments should not be used, as the grease or oil tends to dissolve and spread the poison, according to specialists of the United States Department of Agriculture. Instead they advise simple remedies such as local applications of solutions of cooking soda or Epsom salt, one or two heaping teaspoons to a cup of water. Fluid extract of grindelia, diluted with 4 to 8 parts of water, is often used.

Solutions of this kind may be applied with light bandages or clean cloths, which should be kept moist, and should be changed and discarded frequently to avoid infection. During the night, or when moist applications can not be used, the poisoned surfaces should be carefully cleaned and dried and left exposed to the air rather than tightly bandaged. In the latter stage, after the toxic material has exhausted itself, zinc-oxide ointment and similar mild antiseptic and astringent applications hasten healing.

NARAMATA NEWS

Current Events of Town and District

The annual meeting of the School Board was held in the School building on Saturday evening at 7.30, Captain F. Languedoc in the chair.

The Union church held its anniversary service on Sunday afternoon, Rev. H. J. Armitage officiating. Special music was rendered by an amalgamated choir under the direction of Mr. Weaver.

Henry Rushbury arrived on Friday to spend a short time in town. He has been at Squamish for the past two months.

Several complaints have been heard recently as to the lack of control over certain dogs from the benches, which have a very bad habit of snapping at passersby.

Boy Scouts Performance

Continued from Page 1)

was Jack Blewett and Gibbon's Billy Gartrell.

The Cubs gave an exhibition of tumbling, one little youngster, Earl Inglis, taking a nose dive over the backs of three of his compatriots.

An amusing feature entitled "The Darky Sunday School" revealed seven black-faced comedians strutting the stage whilst they invited the audience to "Come and make themselves tuh home."

The evergreen farce of "Box and Cox" was greatly enjoyed, the characters being John Box (a printer), Kenneth M. Elliott, James Cox, (a hatter), J. Allen Harris, and Mrs. Bouncer (landlady), Noel Wright.

The headline production was undoubtedly the "Dwarf Song." This was an illusion that was cleverly staged by J. W. Harris. The four "Hiliputians" were enclosed in a cabinet and when introduced to the audience were seated in an open prosecution.

A number of Scouts gave a very good exhibition on the parallel bars, finishing up with a display of tumbling. This was followed by the entry of "Three Live Ghosts," the immortals being Allen Harris, Russell Munn and George Guy.

The program concluded with a farce entitled "The Quod-Wranglo." The characters were: Bill Jonks (a bum), George Guy; Snippy (a crook), Capt. H. H. Crooso; The Kid (now-hoy), Francis Stournt; Miss Ormored (suffragette), Miss Frances Nicholson; Dutcher, Bernard Taylor; Pollockman, Jack Harris.

The scene was "Bill Jonks" ome, "somewhere in the smoke." The story was told practically in the cockney dialect, and although the acting throughout was fairly good, much of the sallent humor was lost on account of its being handled before a Canadian audience in the coster vernacular.

Cover Crops and How to Use Them

By Geo. W. Johnson, Dominion Experimental Station, Summerland, B.C.

Throughout the Okanagan district preference is given to three varieties of cover crops, clover, alfalfa and vetches. No order of preference is indicated in the order in which these are mentioned.

All three have been tried out in the orchards of the Dominion Experimental Station at Summerland and our conclusions are based on our findings.

Clover has given us most disappointing results. It is hard to establish, more especially in the very dry springs which we frequently experience, and when established is shallow-rooted and consequently a serious competitor with the tree roots for available moisture.

Alfalfa has been strongly advocated and under favorable conditions it can be recommended but these conditions are rarely to be found on our bench lands until a system of "building up" has been practised for a number of years.

Vetches have given us greater satisfaction than any one of the three cover crops under consideration. We prefer the hairy vetch (sometimes called sand or winter vetch) seeded about the last week in July.

Miss Thelma Lockwood acted as accompanist at the piano throughout the entire performance, acquitting herself very creditably. The plays were produced under the direction of Mr. C. B. Winter, and the songs under the direction of Mr. John W. Harris.

CORRESPONDENCE

Letters to the Editor.

CHERRY DEAL

The Editor,

Summerland Review.

Dear sir,—Can any person explain why the Co-operative cannot sell their patrons' cherries, which are being left on the trees to waste, while private shippers cannot get cherries enough in our district to fill their orders and have to go elsewhere for them?

A SUBSCRIBER.

Shampoo This Way with Olive Oil

and you will have hair with gleam and softness of silk

Olive oil for the shampoo, any leading hair specialists. Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair.

And this means beautiful, attractive hair—without which no beauty of face or dress is quite sufficient.

Olive oil treatment in its finest, most convenient form, is PALMOLIVE SHAMPOO. Thousands and thousands of women use it today.

You may have a 15c trial bottle free, by sending the coupon. Or you can get full-sized bottles at your dealer's. A single shampoo will amaze you.

Good Crops In Dominion

(Continued from page 1.)

ter, hay generally will be good average, root crops are doing well and a good yield being looked for. Strawberries are plentiful with fair prospects for other fruit. Pasture excellent.

Province of Ontario.

Crop conditions throughout the province continue favorable. A good all round crop is expected with some sections above average. Hay is a big crop. Harvesting has been slightly retarded by the wet weather.

Maritime Provinces.

Weather conditions favorable and prospects improving. Good hay crop

expected in Nova Scotia and Prince Edward Island but rains in New Brunswick too late to ensure even average crop. Roots progressing favorably. Pastures in good condition. Present apple estimates exceed two million barrels in Annapolis Valley.

Province of British Columbia

Field crops and tree fruits are in promising condition with weather favorable. Grain is doing well. Roots have benefited by rains but potatoes near Ashcroft may be below average. In Okanagan Valley all tree fruits are growing rapidly. More thinning than usual being done and a large proportion No. 1 fruit expected.

What Might Have Been.

Peculiar thought must come to the mind of the woman who becomes familiar with the family life of the unhappy wife who fills a place she might have had.

The narrow-minded women sometimes wear the widest hats.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management: "boarder" milkers, scrub heaves, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interest in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you. We have published and have for free distribution 300 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets.

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.09)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

Have Faith in Canada

Authorized for publication by the Dominion Department of Agriculture W. R. MOTHERWELL, Minister. Dr. J. H. GIBSDALE, Deputy Minister.

## TRAVELLER'S WISH

By the pass of the Coquahalla,  
Where the roadbed snakes and  
clings  
To the soaring perilous rockface—  
Where an eagle uses wings.

Down through the wooded canyons  
Of the Otter and Tulamoon,  
Where first October wanders  
Pale gold through the sombre  
green;

You will come to the Okanagan,  
And meet a breath of the South,  
Where the wind that brings fair  
weather  
Comes up from the valley's mouth.

There ancient ponies are dwelling  
On flats of yellow pine  
And slopes of sage and greasewood,  
In a country I call mine.

There, there is open timber  
On level-floored plateaus,  
Where evening dyes the tree-trunks  
Cinnamon, carmine and rose.

Give me that trail to follow  
With the shoe and piny smell,  
Where sheer cliffs stand on either  
hand  
Like walls of a citadel;

Give me its streams to drink of,  
With talk at a friendly door  
And a wise enigma between my knees,  
I will not ask for more.

—Bliss Carman.

## COURTESIES!

This column is yours, in which to extend courtesy to your guests, or courtesy to your friends by recording your own goings and comings. It is a courtesy also to us, and the general reader. Therefore, tell it to the Review. Phone 39. Thank you!

Bill Wilson came in from Westminister on Tuesday morning's train.

Misses Annie and Hazel Steuart left this morning for a holiday trip to Vancouver.

Mrs. F. A. Bleasdale motored to Kelowna on Monday on a visit to Mrs. J. J. Atherton.

Jas. H. Ritchie returned on Tuesday morning from Seattle, where he has been for several months.

W. Mack, Jr., left on Saturday for Swift Current, Sask., where he will re-enter the employ of the Union Bank.

Mr. and Mrs. Jack Week arrived in Summerland from the Old Country on Monday night's boat, and are the guests of Mrs. Pacey.

Mrs. Jas. Crawshaw, of Vernon, is visiting Mrs. Geo. Gartrell. She came down the lake on Wednesday of last week accompanied by her children.

Miss Ida Shields returned from Vancouver on Wednesday morning, after a short holiday visit to Seattle and Coast points.

W. J. Nicol left for Vancouver on Tuesday in his new "Star" car. He anticipates going to California in the near future.

K. M. Elliott is in Vancouver on a business visit. He left on Monday's train and is expected home tomorrow morning.

A full carload of cherries was shipped from here on Friday by the Co-operative and another carload was despatched by them on Monday night.

Dr. R. C. Lipsett has a felt hat and a straw hat left by the owners under his cherry trees. Perhaps the owners would call at his home for them.

Mr. and Mrs. W. T. Lockwood, of Bellingham, Washington, are here visiting the former's brother, V. M. Lockwood. They motored up from the Sound city.

Mr. and Mrs. Alexander, who left here a few days ago to return to their home in Los Angeles, by way of Yellowstone Park, made Spokane on the first day. This is a run of 259 miles.

Word has just been received from Vernon that they are now taking Royal Ann, Bing, Windsor and Black Republican cherries, if in good condition for shipment to the prairies. 806

Mrs. E. R. Butler and children left on Wednesday by train for Grand Forks, where she was met by her father, Mr. J. C. Robson, and taken to his home at Rossland over the new highway.

Though he had no broken bones, Billy Keen, whose foot was injured at Myren some days ago, will be laid up for some time as the arch of his foot was badly strained when some lumber fell on it.

Major H. V. Hicks, president of the Cranbrook branch of the G.W. V.A. and a battalion mate of Ned Bentley, was in town last Thursday to call on the latter. He attended the irrigation convention at Penticton.

Miss Sue Whitford came in from the Coast on Wednesday morning, where she has been spending her holidays with her sister, Mrs. Bishop, at New Westminister, and at other Coast points.

Formal announcement is made elsewhere in these columns of a local business change. W. J. Robinson, who has done fire insurance business for many years here, has sold out to Matt G. Wilson.

## Notice

If the person who borrowed, without leave, the magneto from the pumping engine at Minocla will return it to us at once nothing more will be said. If not, immediate action will be taken to recover possession and convict the guilty person.

SUMMERLAND LUMBER CO. LIMITED.

Colin Chisholm is now working at DeMuth's Mill.

Members of the Baptist Sunday School are holding their annual picnic today at Naramata.

A son was born to Mr. and Mrs. Mathers, nee Gladys Robinson, on Wednesday, July 18th, at the Penticton hospital.

Mr. Geo. McLeod, now a resident of California and a former citizen of Carleton County, New Brunswick, spent Tuesday and Wednesday here, guest of Mr. and Mrs. G. J. C. White.

A hailstorm at Wenatchee, which occurred last Thursday, has largely stopped thinning operations, according to Creighton Rines and his companions, who have returned after being at Wenatchee for a short time.

Mrs. G. Spencer Godfrey, of Nelson, who has been visiting her daughter here, Mrs. Denny, went down to Victoria on Saturday, having received news of the death of her brother, Mr. Alexander Fraser, at that city.

Wellington Watson has exchanged his town property here for a ranch near Edmonton and he and Mrs. Watson have removed from Kelowna to Alberta. It is stated here that they are not residing on the farm but in Edmonton.

All electric lights east of the transforming station went out suddenly last Thursday evening and were off until a new fuse was put in. Mr. Thorner is of the opinion that a bird caused a short circuit somewhere on the lines, which burned out the fuse.

Mrs. Kirk came in from Walhachin on Saturday night to visit for a time with her son, Jack Kirk. She was accompanied by her niece, Miss Eva Kirk and Bert Simpson, the latter coming over to visit his father, Wm. Simpson, who is in town for the summer.

St. Andrew's Sunday School held their annual picnic on Thursday last at Crescent Beach, when a goodly number of young people spent an enjoyable afternoon in swimming and sports. Two trucks belonging to Alex Smith and A. E. Smith conveyed the picnic crowd to and from the Beach.

Mrs. P. E. Knowles had the third finger of her right hand amputated on Sunday. Some weeks ago poison developed as the result of a splinter in the end of the finger and treatment failed to check the spread of the poison and amputation of the finger was necessary in order to stop the infection going farther.

G. A. MacLaine, who has been connected with the Tringle Garage, Penticton, has taken over the lease of the whole building and will operate the repair department as well. Bert Peckham, recently of the Summerland Garage, has been engaged by Mr. MacLaine and will be in charge of the repair shop. 806

Rev. W. A. and Mrs. Alexander, accompanied by Miss Mildred Wilson, left today for Vancouver, where Mr. Alexander will occupy the pulpit at Kitjilano for the next month. During his absence Rev. Gordon Diekey, of the Kitjilano Presbyterian church will occupy the pulpit of St. Andrew's church here, they having exchanged pastorates for that period. Rev. and Mrs. Diekey and two children came in from the Coast this morning.

Mr. and Mrs. Willis Walter returned Saturday night from the prairies by way of the Kootenay. They left here by motor May 23rd and since that time, Mr. Walter has covered many miles of prairie with his car, while Mrs. Walter visited friends in southern Alberta. He was at Edmonton, Calgary and down nearly to Moose Jaw, then to Medicine Hat, Lethbridge and McLeod and coming home, came over the new Rossland Cascade road. Mr. Walter says he never saw such crops as good as they look now. High yields per acre are expected everywhere.

Mr. and Mrs. C. R. McKay of Garnett Valley were pleasantly surprised a few days ago when two U. S. cars drove up to their home. The tourists were Mrs. McKay's brother and wife, Mr. and Mrs. J. L. Curtis, of Yakima Valley, with his daughter and family; a sister of Mrs. McKay, Mrs. S. C. Baker, with her husband, from Cheasaw, Wash., and their son and family. Also a Mrs. Ellsworth, mother of her brother's wife. The party were delighted with the look of things here and report a splendid trip. Mr. Curtis states that the fruit here is almost as large as that in the Yakima Valley, several hundred miles south of us.—Con.

Kenneth Walden was in from DeMuth's Mill over Sunday.

Miss Katherine Steward of Vernon is visiting Mrs. J. Rowley.

Early peaches are now on the local market. These are of the Mayflower variety and look very fine.

The early cots are now being received at the packing houses, which will soon be busy packing this fruit.

Miss K. Harvey and Miss J. Curry, who have been staying for some time with Mr. and Mrs. G. J. C. White, left on Monday for a short visit to the Coast.

Rev. J. Knox Wright, D.D., secretary of the Canadian Bible Society will give an illustrated lecture on Egypt, Monday evening, July 23rd, in St. Andrew's church, West Summerland, to which all are welcome.

A game of baseball will be played today, beginning at 6 o'clock on the local diamond, Oliver having been invited to meet the local team here. Following the game the players will attend the Rialto, where the "Bonnie Briar Bush" will be shown.

A. W. Hamilton, Kelowna, inspector for the Associated Growers, is in town today on one of his official visits. Mr. Hamilton states that the poor carrying condition of cherries which developed in the last few days has been general throughout the district. Kelowna in particular is suffering very heavily.

Summerland Boy Scouts go into annual camp on Saturday of this week at Okanagan Falls, while on Wednesday of next week the Summerland and Naramata groups of Girl Guides go into camp at Miller's Point. The young people are looking forward to a very successful camp, this being the first time the Guides have undertaken an outing of this nature.

While running with several others to board Bernard Taylor's motor truck, Peggy Ramsay, daughter of Mr. and Mrs. T. Ramsay, was knocked down by S. Bartholomew's car at the municipal office corner. He stopped the car quickly, but the front wheel had run on to her leg. No bones were broken, but the flesh was considerably lacerated. She was taken to the hospital, where she is getting along nicely. No blame is attached to Mr. Bartholomew.

While driving home from church on Sunday evening, Mrs. D. L. Sutherland had the misfortune to be thrown from the cart to the ground, but, though considerably bruised and shaken up, no serious injury was sustained. A loose horse shoe was the cause of the mishap. The animal, stumbling, jerked Mrs. Sutherland forward with such force as to throw her out, fortunately clear of the wheels. Mr. Wm. Johnston happened along in his car and took Mrs. Sutherland to her home.

A stock car which came in here loaded with box shooek and had just been emptied hung for several days over the end of the spur back of the storage building, having dropped the truck from one end into the lake, because of a bump which it received from several flat cars loaded with rock. The latter gained unexpected momentum on the down grade from the barge to the C.P.R. yard and struck the empty car with such force that it forced the buffer timbers from the end of the track and narrowly escaped being stood on end, or being turned over into the lake. It took considerable work on the part of the repair gang to get the car back on the track.

The big Bargain Sale at Mrs. Milne's is being continued until the end of the month. 806

Miss Hunt, cousin of Mr. A. B. Morkill, who was a visitor here in May, is back again from the Coast on her way to Sherbrooke, Quebec.

Miss Crossley, of Montreal, is visiting her brother here, G. Y. L. Crossley. She arrived here last Thursday and will remain for about a month.

The Methodist Sunday School is holding its annual outing today at Crescent Beach, the young people being conveyed to the Beach by motor trucks.

Mr. and Mrs. A. Cook arrived on Monday night to visit Mr. Cook's sister, Mrs. Wm. McMillan, having motored up from San Francisco. They report a lovely trip.

Generous samples of Palmolive products are being offered free by the manufacturers. Are you taking advantage of these offers which have been running in the Review for the last few weeks?

W. Cummings, of Prairie Valley, cut a finger of his left hand while chopping wood. The finger was so badly crushed that it was found necessary to amputate it. The accident occurred yesterday.

Miss Waterman of the Hospital nursing staff is leaving here next Tuesday for Grand Prairie. She will be associated with Miss Hibbs, former matron here, in the hospital in the northern Alberta town.

NOT WANTED

It is hoped that the recently reported interview with Peter Veregin, wherein it was stated that more than 1,500 Doukhobors who are now in the west are planning to come to Ontario to undertake fruit growing and jam making in the Niagara Peninsula, was merely a feeler on the leader's part, and that the feeling was far from his liking. Ontario's great fruit district wants no truck with the Doukhobors. Although a lesser evil than the Chinese invasion of the market gardening area around Toronto the name and fame of the Niagara Peninsula fruit belt is too important to this province for frenzied experiments of the moment with fanatics.—Canadian Horticulturist.

"How's your wife, Blinks?" asked Jinks.

"Her head troubles her a good deal," confessed Blinks.

"Neuralgia?" queried Jinks.

"No," answered Blinks sadly, "She wants a new hat."—Toronto Saturday Night.

Baby Peggy Is Wonderful

(Continued from Page 1)

ly elected to membership in the Ypres league in London, His Majesty King George the Fifth and Field Marshall French acting as patron-in-chief and president of the loyal organization.

Peggy made her screen debut at Universal and made such a decided hit with officials of that studio that she was given the part of the little crippled child to portray in Frank Mayo's picture, "Araid to Fight." Her performance in this picture won the unanimous praise of photoplay critics who referred to it as a feature of the entire production.

After appearing in support of Harold Lloyd in "Hand to Mouth," Peggy went to the Orpheum circuit in a special dancing act with her brother, Dick, acting as her partner. They made a tour of the circuit and then returned to Hollywood to resume screen activity. Peggy has appeared in support of virtually every foremost star of the silver sheet. She was cast as the little sister of Louise Glaum in the star's picture "Love;" with Bert Lytell in "Alias Jimmy Valentine," with Betty Blythe in "The Third Generation" and with many others. She has also been seen in many Christie comedies.

In "A Lady of Quality" now in production at Universal, starring Virginia Valli, little Miss Cartwright plays the part of the star as a child. The part carries added significance in that she makes up as a boy, allowing her a splendid chance to more firmly establish her versatility and ability to enact difficult roles. She is presently engaged with the Jack White productions in whose latest picture she is playing the featured role opposite Benny Alexander, under the direction of Norman Taurog.

In addition to her accomplishments before the camera and footlights, the youngster is an expert horsewoman and has won three cups with her equestrian exhibitions. Two of the cups were won an Ambassador Horse show and the other at the Ventura Horse show. She is also proficient as a dancer, swimmer, pianist, artist and cartoonist.

It is doubtful if any other child her age presents the various accomplishments that Peggy does. She has won a number of beauty contests, and was recently adjudged the winner of the Clover Kiddo contest, staged by the Los Angeles Express.

Peggy's schooling has been placed entirely in the hands of private tutors. Like her parents and grandparents, Peggy has taken keen interest in things literary and she is conversant with the works of such noted authors as Rudyard Kipling, Mark Twain, Shakespeare and others.

Directors under whom the child has worked have found her to be gifted with unusual dramatic talent and it is the foregone conclusion of those acquainted with her work that she will soon be sharing stellar honors with some of the screen's foremost baby stars.

LONE GIRL CROSSES HOPE MOUNTAINS

Came from Vancouver Island With Saddle Pony on Vacation.

To cross the Hope mountains by saddle is a venture which many a man would hesitate to make. A few days ago a young lady, Miss Mercedes Douglas-Crompton, passed through here with her pony on her way to spend her holidays with friends at Salmon Arm, having made the journey over the Coast Range from Hope to Princeton.

Miss Crompton has been teaching at Duncan, Vancouver Island, and wishing to have her saddle horse with her during her vacation, decided to make the trip of approximately 400 miles by horseback. Leaving Duncan on July 1st, she rode the forty miles to Nanaimo, and shipped from there to Vancouver. From Vancouver to Hope occupied four days. At Hope Miss Crompton had expected to be met by an escort with pack saddle and camp outfit, but as there was no escort waiting, and rather than deviate from her program, Miss Crompton, uninformed of the hazards of the trip, decided to make the 66-mile journey through the Hope mountains to Princeton alone. The Princeton Star gives the following account of her journey over the mountain trail:

"Leaving Hope without blankets or camp outfit on Sunday forenoon, she made "Defiance" camp at 23-Mile for the night. There she was comfortably put up for the night. Making an early start Monday morning she reached the survey camp at Cayuse Flat (32-Mile) about 9 a.m. Pushing forward she arrived about 6 p.m. at the intersection of Sam Spencer's trail. There she became uncertain as to which trail to follow and, spent the time until darkness set in trying first one trail and then another.

With the darkness came rain and the chillness which always exists at night near the summit, even in mid-summer. The best shelter Miss Crompton could find was an old trap house and there she spent the night without camp fire and without food, as the only provisions she had brought along was a light lunch of bread and cheese which she ate during the afternoon. At daybreak she was in the saddle again and had travelled several miles, thinking she had possibly overlooked the right trail. She was fast approaching a stage of collapse from hunger, exhaustion and fear when, about nine o'clock, she was met by Mr. W. K. Gwyer, district engineer, who was making the trip from Nino-Mile to the survey camp at Cayuse Flat on foot. Expecting to make camp during the afternoon he was not packing much in the way of lunch but what he had he shared with Miss Crompton and directed her on her way to Princeton.

She arrived in town about 4 p.m. Tuesday and after a day's rest left for Hody; the first stretch in a trip of about 180 miles which she had still ahead of her. Though the distance to Salmon Arm is a few miles shorter via Merritt and Kamloops she preferred to take the Okanagan route on account of its greater attractions."

Nine million barrels of Canadian flour were exported in the eleven months ending February last, as compared with 6,427,892 barrels and 5,100,802 barrels in the eleven months ending February 1922 and 1921 respectively. Canadian flour is now being shipped regularly to every part of the globe.

The cordage factory established in New Westminster, B. C., in 1921, is proving a great commercial success. There are now 60 hands employed and the factory is running 18 hours a day, with advance orders to keep them going at this rate for the next three months, even though no new orders are received in the meantime.

EDUCATION AIDS EARNING POWER

The critical demands for economy in public administration have included education in the list of possible savings. That is not surprising, seeing that it forms so large a part of the budget of municipal and provincial governments. In Manitoba education calls for one fifth of the total annual provincial budget; in Saskatchewan it is one sixth, and in Alberta it is almost a quarter of the entire cost of administration. In the city of Winnipeg education costs two and three quarter millions out of a total of nine millions, while in Vancouver, with a budget for 1922 of \$7,172,344, education required \$1,755,000, as the share of that total.

There has been an attack on the generally accepted Canadian standards. The frills and the extent to which the states should be called upon to go with the student have been mostly under discussion. Acting under pressure to do something the Winnipeg board decided that after the current year, high school students should be required to provide their own books. That extravagance cost the city \$30,000 last year, and considering that the prime idea behind the practice was that the children of the poorer homes would be encouraged to continue in school, the saving does not look like genuine economy. The High school has been the poor man's university, and it should be kept available for his children to the fullest extent possible and advisable.

There is some difference of opinion as to the extent to which expenditure for education should be borne by the municipality or the province, and paid for by the tax on real property, or out of income by all citizens. That problem is one to be worked out by practical politics. It is not wise that the subjects of education shall suffer through any rearrangement of the system or methods employed for upkeep. It is impossible to hold the curricula of the schools at the same point where they were a generation or two ago; that should be greater as the result of education. The producing and earning power of the mentally trained should be greater as a result of education. Let there be economy and sound administration in regard to education, but let there be no lowering of the standards. And let the schools strive to quicken what Sir Michael Sadler termed the intellectual and moral conscience, veracity, awareness of truth, honesty in seeing both sides of a question, and obedience to light, even where sacrifice is involved. To develop good character and conserve individuality is genuine education.—Canadian Finance.
