

STRONG APPEALS MADE FOR SUPPORT BY F. B. COSSITT

Hon. T. D. Pattullo and F. B. Cossitt, Liberal Candidate, Deliver Rousing Addresses Here—Pattullo Tells of "Insult Offered to Parliament by Meighen" — Attacks Conservative Leader on Score of Clean Administration—Speakers Were Well Received.

Two rousing addresses, one by the Hon. T. D. Pattullo, Minister of Lands in the provincial government, and the other by Mr. F. B. Cossitt, Liberal candidate for Yale, were delivered in the Rialto theatre last evening before an appreciative audience.

Mr. Pattullo's address was marked by its eloquence and obvious sincerity, while Mr. Cossitt made an earnest appeal for support from the voters of Summerland. "I promise you," declared the latter, "that if I am sent to Ottawa, I will look out for the best interests of the fruit grower. I, myself am a fruit-grower, with fifteen years' experience, and I believe I will be able to accomplish much for you."

"I believe the Mackenzie King government to have been the best government Canada had seen for many years," said Mr. Cossitt. "The Robb budget, I believe, was the best budget ever brought down by a government. Take up any newspaper—even a Conservative paper—and you will find it declared that the Robb budget was a popular budget."

The disastrous results to the economic life of the country, predicted by the Conservatives if the tariff was lowered, did not seem to be coming into being, said Mr. Cossitt. On the contrary, the McLaughlin company was adding two additions to its factory and Henry Ford was declaring that he was making more money since the reduction in tariff than before.

"You can buy a motor car for from \$25 to \$250 less than before the bringing in of the King government legislation. The motor car is not a luxury—it is a necessity. Is not that budget alone something worth while which the former government has done?"

Mr. Cossitt deplored the "mud-slinging" which had been prevalent during a number of recent meetings. He spoke highly of his opponent Grote Stirling, declaring that they were the best of friends.

The speaker described in detail the wonderful Wembley Exhibition, at which he was present as fruit commissioner. He vividly described the wonderful Canada building and the beautiful display of British Columbia fruit, particularly apples.

The King government, by arranging such a remarkable exhibit from Canada, had done something for this country which would react for her benefit for many years to come. The Canadian exhibit was superior to that from any other country in the British Empire.

Hon. T. D. Pattullo Mr. Pattullo paid a tribute to the worth of Mr. Cossitt. "He assured his audience that Mr. Cossitt was a man well worth to represent the people of Yale."

"The present election," said the speaker, "is, I believe, the most important since Confederation. The cry of the Conservative party as voiced by their leader, is for 'Tariff and clean administration.' I will deal with these."

The Conservatives were making a great cry over the necessity of keeping raw products in Canada to be manufactured in Canada. As far as this is possible, that programme is not exclusively confined to Conservatives, it is the policy of each political party. But the Conservative party adopts it as a slogan to insinuate that the Liberals are endeavoring to send away all our raw materials to build up the country to the south. It is a good way of getting votes.

They even accuse us of disloyalty. I was born in Canada and I don't feel that I have to defend my loyalty in the face of any Tory in the country.

Mr. Pattullo stated that of the great amount of lumber produced in British Columbia only about eight per cent was exported in a raw state. Of six per cent of this the government had no control. No one was allowed to export lumber unless under permit from the lieutenant-governor-in-council. There were occasions when it was necessary to allow export of this raw material, in order to prevent it going to waste, and each request for export was carefully considered.

But, said the speaker, there must be some trade in raw materials. Germany, Finland—almost every country in Europe, traded in raw materials. The United States exports vast amounts of raw materials. Would it be a good policy for Canada to say to other countries: "You may buy my manufactured articles; I will buy your raw materials, but I won't sell you any of my raw materials?"

Mr. Pattullo delivered a strong plea for increased immigration. The country always prospered during waves of immigration. Such had been the case in the United States. How was it—was it a coincidence, that, looking over Canada's history, one could not help being impressed with the fact that prosperous times were always associated with Liberal administrations.

As regards "clean administration," Mr. Pattullo was very emphatic in denouncing the attitude of the Conservative leader. "If Satan were in charge of Heaven, there would be as much probability of improving the moral atmosphere of parliament," he said. Mr. Pattullo digressed a moment to discuss the origin of the word "Tory." It was derived from an Irish word meaning "highway robber."

"Toll that to the habitants," shouted someone in the audience. The Constitutional issue Mr. Pattullo devoted some attention to the constitutional issue. The facts as he saw them were as follows: The Progressives were anxious to have a grain bill passed. It passed the commons, with Liberal support, but was turned down by the Tory senators. Determined to get their bill through, the Progressives turned to the Conservatives in the Commons with a promise that if they would see their grain bill through the senate, they (the Progressives)

British Statesmen Tour Canada

Twenty-one members of the United Kingdom's delegation to the Empire Parliamentary Association conferences in Australia in the fall who arrived at Quebec on the S.S. "Empress of Scotland." The delegation is headed by the Rt. Hon. Arthur Henderson, former Secretary of State for Home Affairs and vice-chairman of the delegation. The Marquis of Salisbury who is chairman, arrived in Canada earlier and will meet the delegation in Vancouver when they will sail on the S.S. "Arcturion" for the Commonwealth. Travelling over the Canadian Pacific lines, the Parliamentarians will tour leisurely across Canada visiting most of the principal cities making a study of conditions in this Dominion. A motor trip from Banff to some of the beauty spots in the Canadian Pacific Rockies is anticipated before the party embarks for the Antipodes.

The conference in Australia will be of an informal nature, taking place in all the states of the Commonwealth. They will be met in Australia by representatives of the parliaments of the Union of South Africa, Southern Rhodesia, Malta, New Zealand and the Legislature of British India. The delegation is going to assist in the celebrations in connection with the opening of the new Australian capital, but at the same time an intensive study of conditions in that Dominion will be made. They will obtain first hand knowledge on economic problems and trade development and a study of the Dominion's affairs, as a whole will be made. Conferences of a similar nature will be held every two years following an agreement reached at the 1924 South African meeting.

The members of the party from left to right are: Top row—E. M. O. Clough, secretary of the South African branch; Sir Frank Nelson; Sir Howard D'Evigley; Rt. Hon. Ian MacPherson, K.C.; Rt. Hon. Arthur Henderson, Chief Labor Whip; Rt. Hon. Sir Evelyn Cecil, G.B.E.; Dr. J. H. Williams; Major Bryan Cooper, Chairman of the Irish Free State branch; Senator Sir Edward Coey Bigger, Irish Free State; Top row—E. A. Broad, A. V. Alexander, Luke Thompson, J. B. Conner, Sir Sydney Henn, K.B.E., Senator Michael P. O'Hanlon, Irish Free State; W. Mackinder; Brig.-Gen. C. R. Inghar-Brooke, C.M.G., D.S.O.; J. Q. Lamb; Col. the Hon. Angus MacDonnell, C.B.; C.M.G.; Dr. T. Drummond Shiels, M.D.; Osmond Esmond, T.D., Irish Free State.

NEW NAME FOR SEA SERPENT Punch Calls Fearsome Lake Okanagan Monster an "Ogopogo"

Kelowna, Aug. 24.—The official name of the now famous Okanagan sea serpent has been discovered. It was revealed to the Vancouver board of trade delegation now touring the wonderful valley, at a luncheon tendered by the Vernon Rotarians, before the coast men were turned over to the thoughtful care of the Kelowna citizens.

The name of the lake monster is the "Ogopogo." It was thus stated musically by Rotarian Brimblecombe of Vernon in a rollicking ditty which the Vancouver party is bringing home. The chorus thus describes the "finny mystery which has now attracted world-wide attention, for Punch had a reference to it in a recent issue: "I'm looking for the Ogopogo, the funny little Ogopogo. His mother was an earwig, his father was a whale; I'm going to put a little bit of salt upon his tail. I want to find the Ogopogo, while he is bringing home. The Lord Mayor of London, the Lord Mayor of London, The Lord Mayor of London wanted to put him in The Lord Mayor's show."

REEVE IS HOME FROM ONTARIO Majority of Orchards Near Hamilton Have Neglected Appearance

Reeve Johnston and Mrs. Johnston have returned from their trip to Mr. Johnston's former home in Ontario. So many of the old landmarks are gone that often the spots were unrecognizable. One place there was nothing he could locate but the "old swimming hole" that used to be near the school, and that is nothing but a bog now. The orchards north and west of Hamilton are old and neglected he found. There are, of course, a few well cared for, but that side of farming is not paying them well enough. He saw one four or five year old orchard being pulled out because other lines of farming offered better rewards. South of Guelph the crops were light, while to the north and west hay and grain were very good. There was one thing impressed him this year above in the west, the hog market was up, in fact so high that buyers were giving farmers with their truck right to the farmers and loading on the pigs. Twelve cents live weight the farms was being paid. A big increase in the poultry business was also to be seen.

Travelling from Hamilton to Niagara he was struck by the great areas not so grapes. He describes it as acre after acre of this fruit being grown. The methods of transportation have changed considerably. The big motor buses with comfortable chairs, accommodations, travelled along the fine roads at 30 miles an hour, and must be able to passengers anywhere, must be a strenuous competition to railroads. In fact the street car companies in cities and suburbs refuse to build more tracks and instead put on those buses. Coming back he felt that Ontario harvest was later than Manitoba, for in Ontario it was just starting, while Mr. Johnston considered Manitoba was already two-thirds through. They had been having good rains in Manitoba and crops looked splendid.

Mr. Torrey said he had five dollars and cents by Magistrate Coulter White in Police Court on Monday morning, upon a charge of driving a taxi without a chauffeur's license. A charge of driving to the common danger was dismissed.

WILL COMPLETE WORK ON CARIBOO HIGHWAY Road to be Closed on November 1st It is Announced

Victoria, Aug. 21.—When the Cariboo road is closed to all traffic on November 1st work will be started on the final section of the transprovincial highway scheme—the link between Lytton and Spences Bridge. Plans of the public works department call for the completion of this important section of the road sometime next year, thus eliminating the present long detour from Lytton by the Marble Canyon and thence into the interior.

Contract for this section, stretching over about twenty-two miles, has been let but work was not started this year. Instead, engineers concentrated on the more vital section from Hope to Lytton. Work on the concluding section of the road, cutting down the distance to the Interior greatly, will get under way during the winter. Part of the money needed to complete the road to Spences Bridge is available in the road loan already authorized by the legislature for this purpose. Further funds, however, will be carefully. On the whole, the construction of this road will not be unusually expensive, though there are three or four miles of rock cutting to be included. Whether the section will be ready for use next year cannot be determined yet, but will depend upon difficulties encountered in the course of construction. necessary and will be secured in the next road loan. The work so far has kept close to the estimated cost which totals about \$1,250,000 for the whole project.

At the moment engineers are hurrying the work to open the entire Hope-Lytton section with the use of portions of the old Cariboo road on September 3. Until then motorists can travel from Vancouver to Nine-Mile Basin, but from there must ship their cars to Lytton. After opening the road on September 3, the government will close it to all traffic on November 1st after which the Hope-Lytton section will be completed and the Lytton-Spences Bridge link started.

SUMMERLAND LOST HIGHLY REGARDED CITIZEN MONDAY

Late William Walter Was One of Summerland's Most Outstanding Young Business Men — Fruit Packing Houses Closed Down for Funeral — Deepest Sympathy Extended to Bereaved Ones—Deceased Came Here in 1919.

PRIZES AWARDED FOR BEST FLOWERS

At the monthly meeting of the Trout Creek Farmers' Institute held on Monday evening last, prizes were offered for the best collections of flowers, but the number of entries were disappointingly small. The first prize was awarded to J. Treffry for a very fine display. R. C. Palmer gave a most interesting and instructive talk on the Gladiolus, or "Glad," as he prefers to call it. Mr. Palmer has devoted a great deal of attention to this increasingly popular flower, and he gave his audience some very useful hints regarding its culture, methods of increase and methods of crossing for new varieties. It is an easy flower to grow, multiplies rapidly, is very showy and variations are endless. It will undoubtedly become much more popular in the gardens of "everyman" in the near future.

PRESENTATIONS AT WALTER'S Miss Jean Blewett and Mrs. McFettridge Are Honored

The staff of Walters Ltd. enjoyed a very pleasant hour last Saturday afternoon, it being the occasion of a double presentation to departing members. Miss Jean Blewett, who has been an employee of Walters Ltd. for the past five years, was the recipient of a case of writing paper and a fountain pen. She is leaving to study nursing in Victoria, followed by the best wishes of everyone.

Mrs. McFettridge, who with her family, has been camping here for the summer, was presented with a tea tray. Mrs. McFettridge, Alice and Ronald have made many lasting friends among the Walters employees, who hope to see them here again next year.

After suitable replies by the two ladies, a lovely tea was served.

PEACHLAND The Peachland Grass Tennis Club held a tournament on the town court on Friday and Saturday last and among the out of town guests were the following: Mrs. Wingate of Vancouver, Mr. Lumsden, Mr. and Mrs. Garbett of Summerland, Mr. and Mrs. Locke, Mr. and Mrs. Bush of Westbank. Those together with Mr. and Mrs. Tallyour, Mr. Thompson and Miss Wilson played in the mixed doubles, Mr. and Mrs. Tallyour winning, against Mr. Thompson and Miss Wilson in the final. The ladies' double was won by Mrs. Tallyour and Miss Wilson playing against Mrs. Miller and Mrs. Wingate. The men's doubles were won by Mr. Bush and G. Garlinge playing against Messrs. Lumsden, Locke, Thompson and Tallyour. All present enjoyed the time spent both days and hope two weeks from the date of these games to have another tournament, this time at Westbank.

Robert Williams and Nelson Keating motored into town last weekend after nearly five months absence during which time they have been working in the vicinity of Nelson. They expect to spend a couple of weeks in town and then go south for the balance of the season to work in the Wenatchee fruit district.

Mrs. W. Suddaby left on Tuesday last enroute for Vancouver, where her mother, Mrs. McLaughlin, was taken ill.

Another bush fire has broken out west of the Piggorio country, where the fire was about this time last fall and Ranger Elliott has taken a crew out to commence operations to get it in check.

After a pleasant visit of a few weeks in Peachland with her mother, Mrs. Will Aikens, Miss Dorothy Mitchell left on Thursday morning to return to Calgary.

Mr. C. G. Elliott and family left here on Tuesday morning to return to their home in Edmonton. They motored in a month ago and spent a holiday here visiting relatives and friends.

Mr. and Mrs. E. Law spent a few days here with Mrs. Vivian on their return from a holiday trip spent in Ontario.

The members of the Lady Orange Benevolent Association raised Mrs. Dryden on Saturday evening last, presenting her with a token of esteem, at the same time expressing appreciation of the help she has given to the organization. During the present year she has held the position of Worthy Mistress.

Mr. Joe Marsh, accompanied by his mother and Mrs. H. E. McCall, motored to Naramata on Tuesday last. While there they attended a social evening held on the lawn at the residence of Mr. J. M. Robinson, under the auspices of the Unity Club.

board and friends. Appended is the musical programme: "O, Canada"; solo, Mr. Stanley Allen; sketch, Mr. Pearce; violin solo, Mrs. Smith; Pentaton; solo, Mrs. Wray; Alto; dances; solo, Mr. G. W. Weaver; Pentaton; "God Save the King."

NEW TEACHER IS APPOINTED Miss Josephine Paradis Will Take Place of Miss Jones

At the meeting of the Summerland school board held for the purpose of selecting a teacher to take the place of Miss Jones, quite a change in the arrangements for the next term was made. It was felt that if some new arrangement could be made for agriculture it would materially assist the board in its work. Consulting with Pentaton board, the latter very obligingly gave Summerland a free hand to act as they felt was best when the applications were to be considered. The result is that a science specialist has been chosen, a U.B.C. graduate, highly recommended by the inspector, Miss Josephine Paradis. She has taken honors in French and has taught in Vancouver high schools. This new arrangement is quite a relief to the board, for while they were very well pleased with Mr. Robinson's work, they felt that three full time teachers would work much more satisfactorily for the arrangement of the curriculum and general arrangements with the staff. Mrs. Palmer was also re-engaged. Now Principal Milne is to arrange the subjects with each teacher and it is felt that the load will be easier to carry all the way through for the members of the staff.

WILL AWARD GOOD PRIZES Horticultural Society Eager to Encourage Flower Growing

The Horticultural Society's meeting at "the farm" was greatly interfered with by the shower on Thursday afternoon. It was to be regretted that more members did not come as Mrs. Palmer had made considerable preparation, and a good meeting was held. The cabin was very tastefully decorated for the occasion and the judging of the school children's flowers took place. The children entering the contest this spring were given asters, started by Mr. McLaughlin, and given to 12 children by the Horticultural Society. The different contestants brought their exhibits on Thursday to be judged, Ruth McLaughlin winning Mrs. Hookham's prize of a dozen Darwin tulip bulbs. The second prize was won by Philip Hookham, this being plants given by the Society. The Society is making efforts to give handsome prizes to the contestants in order to encourage interest in flower growing. Next season it is hoped the unavailability of the blooming season will be provided for when the plants are given out. After tea was served the guests were each presented with a melon to take home, which was much appreciated.

VANCOUVER BOARD OF TRADE ENTHUSED WITH THE LOWER OKANAGAN MOTORED TO SUMMERLAND AND OLIVER

Visitors Charmed With the Beauties of Pentiction District

BIG BANQUET AT INCOLA HOTEL

Mayor Taylor Promises to Revive Apple Show at the Coast

Pentiction, B.C.: The visit of the Vancouver Board of Trade, touring the interior, to Pentiction on Wednesday was undoubtedly an outstanding event for Pentiction, and one of great importance to the district, as well as intensely interesting to the visitors.

Motored through the Pentiction orchard districts to the Experimental Farm at Summerland and south to Oliver, the visitors gained an excellent impression of the importance of Pentiction and the district as a centre of the fruit industry. Its natural beauties were also admired and the town's possibilities as a tourist and holiday centre generally recognized.

Prominent Men

The Vancouver delegation was headed by F. E. Burke, president of the Board of Trade, and Mayor Taylor, while the forty other visitors

BLACKHEADS

Get two ounces of peroxine powder from your druggist. Sprinkle on a hot, wet cloth and rub the face briskly. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

"We Leave The Okanagan Valley With Regret"

In his farewell message to the Okanagan, delivered at the Board of Trade banquet last night, President F. E. Burke, of the Vancouver Board of Trade, said:

"Taking leave of this fertile and beautiful Okanagan Valley, I feel every member of the Vancouver Board of Trade when I say that this visit to one of the most important districts of British Columbia proves that Vancouver has a deep interest

in your growth and prosperity. The visit fully dissipates any suggestion that Vancouver is out to 'hog it all'.

"We leave the Okanagan with regret, carrying with us the belief that we have formed friendships of inestimable service to Vancouver and the Okanagan. We have heard first-hand of your problems and are now fully cognizant of the importance they bear to the general welfare of British Columbia."

Saw Great Deal

Throughout their visit to Pentiction the visitors were the guests of Pentiction Board of Trade, and the arrangements made for their entertainment were varied and complete. Although they were only here twenty-

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 8000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

guarding the Oliver district, its wonderful irrigation system and the increasing sale of its land were absorbed with interest.

The trip down to Oliver was taken along the Fairview road through the old mining town of Fairview, and the return journey was made along the provincial highway.

President Dr. J. E. Affleck on the return to Pentiction the big event was the concluding banquet at the Incola Hotel. A welcome sign had been strung in front of the hotel, while in the rotunda an excellent display of Pentiction fruit, attractively

arranged, had been placed by the Pentiction Co-operative Growers for the inspection of the visitors. Pentiction, as well, was included in the menu.

The banquet was presided over by Dr. J. E. Affleck, president of the Pentiction Board of Trade, who delivered an excellent address in which he reviewed phases of the activities of the district, and formally welcomed the guests.

"I think we have demonstrated in detail," he said, "that we grow fruit which has no superior, and have perfected arrangements for the handling, packing and shipping to a high degree."

Dr. Affleck emphasized the fact that Vancouver is the natural crop, and Pentiction was interested in the co-operation of Vancouver. Ninety-five per cent of the soft fruit crop of the valley was produced in this area.

He also emphasized the possibilities for the development and beautification of Pentiction as a holiday and vacation resort for residents of Vancouver.

"When the fog gets too thick in Vancouver, we hope you will come for a stay in the sunny Okanagan," he said.

President F. E. Burke describing himself as a frequent visitor to Pentiction, Mr. Burke paid tribute to the view of the district which they had been given and the impression it had made on every member of the Vancouver Board of Trade.

The visit of the Vancouver men he described as a mission. It was important that they come to know and see the interior of the province and to promulgate the idea that at all centres of the province were to advance it

must be done through closer intercourse in commercial life.

"We have common troubles," he said, "and we want you to feel that we are behind you in every effort you are making to distribute your products. We are interested in the solution of all your difficulties, such as the water problem."

Mayor Taylor Commencing his address with the apt Biblical quotation, "By their fruits ye shall know them," Mayor Taylor of Vancouver, a visitor to the Okanagan for the first time, soon revealed himself an ardent admirer of the valley.

"When I go back," he said, "I am going to preach the gospel of an international apple show this fall in the city of Vancouver, and the prizes will be large enough to make it attractive for you to send your exhibits."

His Worship recalled that a very successful apple show had been held when he was previously mayor in 1910, when the Okanagan had attained nowhere near the development it had reached, and he prophesied that the growers would have no difficulty now in carrying off the prizes in competition with foreign fruit.

"We will demonstrate that the best apples in the world are grown in the Okanagan Valley," he said. The former shows had resulted in many apple sales.

Mr. Taylor's address was marked by his emphasis upon the need of unity among all sections of British Columbia.

W. G. Stickleby, an interesting address followed by W. G. Stickleby, assistant secretary of the Vancouver Harbor Commission, who described the harbor facilities of the port of Vancouver as a provincial and national asset, as such the property of the people of the interior as those of the coast.

Burrard Inlet was not quite as long as Okanagan Lake, but, at the present time a large percentage of the shipping and tonnage entering Canada did so via the Pacific coast.

With particular reference to the apple industry, Mr. Stickleby stated that in 1925, 91,000 boxes of apples had been shipped through the port, in 1924, 136,000, in 1925, 220,000, and in 1926 it was hoped it would be 400,000, for they had facilities to handle that many and ship them.

Apples had been exported through the port to ten different countries. He cordially invited Pentiction residents to visit the harbor and "see what you have."

D. M. McDonald, D. M. McDonald of the Kelly-Douglas Co., not only approved of the idea of an apple show, but urged an apple week for Vancouver. "We have enjoyed our trip immensely, even though we didn't see the sea-serpent," said Mr. McDonald.

W. F. Payne, secretary of the Vancouver Board of Trade, described Pentiction as not the least portion of the Okanagan "Garden of Eden."

Robert Lyon, The vice-president of the Pentiction Board of Trade gave an original solution of the sea-serpent mystery when he declared that people saw it on the lake after motoring along the serpent-like road from Westbank to Summerland.

Mr. Lyon intimated that the co-operation of the Vancouver men would be appreciated in the solution of Okanagan road problems.

Mr. Lyon then gave a detailed review of the growth of the fruit industry in Pentiction and the favorable position in which the local growers were

now placed in comparison with the most desperate situation of a few years ago. Mention was made of the increasing demand for Pentiction soft fruit by the Vancouver market.

With reference to a remark made by Mr. Lyon regarding the Pentiction method of grading fruit, sometimes criticised as being too expensive, President Burke of Vancouver recalled a letter he had received among some other business correspondence from South Africa, in which the writer demanded Pentiction Co-operative apples in preference to any other grown in the valley.

"I think it pays Pentiction to go to the expense of grading and packing well," said Mr. Burke.

During his address President Dr. Affleck regretted the absence of Reeve G. A. B. Macdonald, who was attending the Union of H. C. Municipalities convention at Vernon. Appreciative mention was also made of the co-operation of the local co-operative in arranging the fruit display in the hotel.

The Vancouver party lived on sleeping cars at the wharf overnight and left early Thursday morning for Grand Forks and Trail.

Many of the members arrived on the boat on Tuesday evening, some, however, stopping off at Nanaimo, where they were entertained to a garden party.

SALMON PACK VERY LARGE

This Year to be the Greatest in History of the Industry

(Special to The Herald)
Vancouver, Aug. 26—Figures released by the fisheries department show the salmon pack on the B.C. coast this season is larger than ever before at this time of year. Cannermen state there is every indication that the pack when the season closes will be the largest in the history of the industry in British Columbia, and if the price remains at present the value of the pack will reach a record figure.

Vancouver, Aug. 26—Figures released by the fisheries department show the salmon pack on the B.C. coast this season is larger than ever before at this time of year. Cannermen state there is every indication that the pack when the season closes will be the largest in the history of the industry in British Columbia, and if the price remains at present the value of the pack will reach a record figure.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that the Dominion Department of Agriculture, whose address is Ottawa, will apply for licence for the storage and use of 200 acre feet of water out of Crescent Creek, also known as Paul Creek, which flows easterly and drains into Trout Creek, about two miles below No. 1 Summerland reservoir on Trout Creek.

The storage dam will be located at Crescent (or Paul) Lake. The capacity of the reservoir to be created is about 200 acre feet, and it will flood about 150 acres of land. The water will be diverted from the stream at either the headgates of Summerland municipal system, or about 100 yards above the Kettle Valley Railway bridge over Trout Creek at the Dominion Experimental Station, and will be used for irrigation purposes upon the land described as Dominion Experimental Station, Part of Pentiction Indian Reserve No. 1.

The licence applied for is to supplement a right to take and use water as per Licence No. 6492.

The notice was posted on the ground on the 26th day of July, 1926.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

DEPARTMENT OF AGRICULTURE, Ottawa, Applicant.
(By W. T. Hunter, Agent)

The date of the first publication of this notice is 30th July, 1926. 30-4-c

WATER NOTICE

Diversion and Use

Take notice that L. M. Agur, whose address is Summerland, B. C., will apply for a license to take and use 1,000 gallons of water per day from unnamed spring located on said applicant's property, being Blk. 5, D. L. 2891, Map 134, Summerland. The water will be diverted from the said spring at a point close to East boundary of above property and about 400 feet south of Kettle Valley Railway right-of-way, and will be used for domestic and irrigation purposes upon following described lands: Blks. 4 & 5, D. L. 2891, and Blks. 9 & 10, D. L. 475, Map 131. This notice was posted on the ground on the 30th day of July, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed at the office of the Water Recorder at Vernon. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within 30 days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 6, 1926.

The morning after it was discovered

BED BUGS—the most disgusting of all insects!

Get rid of them with Flit.

Flit spray destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs.

Kills All Household Insects

Flit spray also cleans your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today.

BOOST FOR SUMMERLAND

Last summer The Review suggested that it was about time some steps were taken to improve Summerland's bathing beach. Another summer has almost passed, and the bathing beach remains a rather unattractive, rocky spot.

By all means let us boost for Summerland. Whenever you write a letter be sure to stress the advantages of this community. But boosting, in itself, is insufficient.

We have much greater natural beauty than Chelan as an attractive setting for a summer resort. Why is it that Chelan within the past few years has achieved such renown that visitors come from hundreds of miles, until the business of caring for tourists has become the main industry—and a profitable one at that?

The answer is that the people of Chelan have spent a very considerable sum of money in making their community attractive to the pleasure seeker. A large pavilion, has been built over the lake, and in other ways efforts have been made to make their town the principal resort of that section of Washington state.

EDITORIAL NOTES

Reeve Johnston has returned from Ontario and finds the orchards there in an uncared-for condition. When will the farmers of Ontario realize that good profits can be realized from scientific growing and marketing of fruit?

A very commendable effort is being made by the local Horticultural Society to encourage flower growing in Summerland. Nothing impresses the visitor more than to see an abundance of flowers in a community.

DESTROY POISON AND CONTAINERS

Warnings are being sent out by the Provincial Department of Agriculture that by September 6th all unused grasshopper poison bait, and all containers used in the distribution of the poison ration, must be destroyed or disposed of in a manner that will not be a danger to animal life.

The warning is a timely one and if not promptly and thoroughly obeyed, punishment should be inflicted without delay as a warning to others who are careless and whose carelessness may not have come under official notice.

Failure to destroy poison bait resulted in the loss of a large number of domestic animals in this district last spring, a tragedy which will be repeated unless the poison is destroyed. Arsenic is the poison used, and its destruction is not as easy as many believe.

The warning is a timely one and if not promptly and thoroughly obeyed, punishment should be inflicted without delay as a warning to others who are careless and whose carelessness may not have come under official notice.

STOCK RUNNING LOOSE

Stock running loose upon a highway are a menace. The death of Russell Morris on State Road No. 10 Saturday night was caused by a horse emerging from the darkness upon the highway in front of the approaching car.

It is a misdemeanor to permit livestock to run loose on highways within herd districts, and the owners of stock so found may be punished. But there is no satisfaction in taking such action. Safety lies in building a spirit which will keep stock off the highways by the voluntary action of owners.

VALUABLE WOODS GO FIRST

Douglas fir represents 40 per cent of the cut and we are cutting 1.5 per cent of the estimated stand each year. Cedar comprises 25 per cent of the cut and approximately 1 per cent of the visible supply, while hemlock is only 0.2 per cent of the cut, which is 0.5 per cent of the visible supply.

World of Politics

(By an Ex-Writer of the Ottawa Press Gallery.)

The big guns of the political campaign have come to British Columbia, and they say and departed. Mr. Meighen in his Vancouver speech, touched upon the trade pact with Australia and announced that he proposed to have it changed so that it would be of more benefit to the Canadian farmers, whereupon Mr. King expressed the opinion that if there were any serious effort to get more favorable terms for Canada than we now have, the government of the Commonwealth would cancel the agreement and that would be the end of it.

CONSERVATIVE OUTLOOK IN QUEBEC PROVINCE

In view of the claims of Conservatives that the party is likely to carry fifteen seats in Quebec province on September 14, it is interesting to note the constituencies which were carried in October last by Liberals by less than one thousand majority. Of these there were only six as follows: Bagot, Liberal majority, 774; Bagot by-election, 479; Bonaventure, 527; Montmagny, 881; Wright, 712; Yamaska, 684, and Ste. Anne, 328.

PREMIER MEIGHEN AND PORTAGE LA PRAIRIE

On his way east ex-Premier King ran past a speaking engagement at Brandon and doubled back a distance of sixty or eighty miles in order to meet a demand for his appearance in Portage la Prairie constituency, where Premier Meighen is the Conservative candidate.

OPENING GUNS IN VANCOUVER CENTRE

It is generally recognized that throughout Canada there will be no more interesting contest than that taking place in Vancouver between Hon. H. H. Stevens and Mr. Donald Donaghy. The Liberal candidate fired the opening guns of the campaign on Thursday night of last week.

LETTERS TO THE EDITOR

Editor Summerland Review:

Dear Sir:—I see from the "Market Grower and Salesman," which is published in London, England, that the arsenic scare is still seriously affecting the price of imported apples. The editor, in an editorial, calls attention to the serious apple losses sustained by colonial growers in shipping their apples to London, and an extract is given from a contemporary as follows: "Australian apple growers have experienced a disastrous season."

It seems pretty evident from the foregoing that the British public is not discriminating, but has simply ceased, in many cases, to purchase imported apples, no matter where they originated.

There is no doubt we are producing more apples in the valley now than the prairie market can be reasonably expected to take, and we are forced to export a very considerable portion of our crop.

PROTECTION ON PRODUCTS OF THE FARM

It will come as a shock to fruit and vegetable growers of the Okanagan Valley to learn that the Canadian tariff on most products of the farm, fruits included, is considerably higher than that of the United States, and not lower—as most of us have been thinking.

The Pedlar's Pack

By AUTOLYCUS

This expression comes as near describing the errors I have in mind as any I can think of at the moment, and it has the merit of calling for some little attention in the matter of interpretation. I believe "TERMINOLOGICAL INEXACTITUDE" was coined by a British prime minister to describe some lapse from actual fact on the part of an opposition speaker, and it certainly comes as trippingly off the tongue as it should be desired by any orator.

It is curious to find how many common sayings have been altered from their original meanings. A writer in the "Atlantic Monthly," the American magazine with the English flavor, under the heading of "Misunderstood," mentions many such cases, among them being that well worn axiom concerning the "spilling the ship for a ha'porth of tar." It appears that the word ship is really a corruption of sheep, and that the original reference was to the parsimony of those who would rather "lose ten sheep than be at the charge of a half penny worth of tar."

of our crop. As the British market is our best export market it is too bad that our prices should be affected by this scare, which was caused by the Washington and Oregon growers of apples shipping fruit which had been sprayed within a few weeks of being picked. Here, in British Columbia, we only give one arsenic spray and by the time the apples are picked, months have elapsed and all traces of the spray departed from the apples. Unfortunately the British public does not know these facts and it will be a matter of considerable difficulty to get them into their minds.

I am, Yours faithfully M. C. WILSON. Summerland, Aug. 14, 1926.

WHY NOT UTILIZE VACANT LAND

Editor Summerland Review: Dear Sir:—At this time of the year considerable areas of light soils that have this season grown such crops as tobacco, corn, onions, tomatoes, potatoes and cantaloupes are now clear of crop. With the cultivation necessary for such crops throughout the season these lands at harvest time are usually in excellent tillth and may be easily prepared without ploughing for autumn seeding.

maintain soil fertility, and of adding humus to the soil during the time that the soil is bare of crop between harvest time the current year and planting time the following season. Last year in early September, as soon as the tomatoes, cantaloupes and corn were harvested, the land was lightly disked and seeded to winter rye at the rate of two bushels per acre, with the grain drill. By early April the rye had made sufficient growth to make it worth while to plough under and still leave plenty of time to prepare the land for the season's crops.

The time to seed such cover crops is just as soon as the regular crop is harvested and off the land. The earlier cover crop is seeded the greater the opportunity to obtain strong stand to plough under in the spring, which is very important when it is considered that the land has to be well prepared in good time for the regular crop—prepared with the idea of conservation of soil moisture. If moisture conditions are favorable for young plant growth in late August and early September this should be an opportune time to seed.

On light soils where conservation of moisture is necessary it is very essential that winter rye for cover crops be ploughed under early in the spring when the crop is still green and succulent, otherwise the rye will not readily work into the soil and consequently will cause the land to dry out.

A. J. MANN Asst. Supt. Dom. Exp. Farm Summerland, B. C.

SATISFACTORY FUND RAISED ON TAG DAY

The sum of \$124.32 was realized by the Women's Hospital Aid as a result of the tag day conducted on July 1st. The ladies are very grateful to the general public in responding so well. Arrangements were made at the last meeting of the Aid for fixing up the back porch of the hospital for the comfort of convalescing patients; the ice box moved, porch repaired, curtains taken down and a couch and chair provided.

A good many little onions are getting themselves into a fine pickle now. Don't borrow trouble because the interest rates are too high.

A somewhat different mis-use of words is often seen in the head-lines of city dailies, a recent case in point being a caption which appeared the other day drawing attention to a reported agreement now being made between this country and the United States. "Canada to Help U. S. Enforce Prohibition and End Bootlegging" was the wording of this heading, the catchword being "Virtual Partnership of Nations Agreed." While this heading is correct, but does not convey, is that Canada is prepared to co-operate with the United States to check smuggling across the border, which is a very different matter.

I hardly know whether it is permissible to class printers' errors in this category or not. Last week I was made to write "photograph" instead of "paragraph," "topic" instead of "top," and "from" instead of "for." These are the thorns which beset the path of the journalist and tear holes in his literary garments, but being "the accidents of a day," and not premeditated changes, they must perhaps remain outside the list.

The migration of birds from one land to another has always been an enchanting study, and mankind has long been puzzled to account for the possession of that instinct which enables those annual flights. The "migratory" same wonder exists in the case of the snail's journey from river to sea, and in the case of the "accidents of a day," and not premeditated changes, they must perhaps remain outside the list.

probable we shall never be able to analyze and tabulate the workings of that mysterious power. It will be just as well if we cannot;—we have reduced so many marvels to the level of the prosaic that we can well spare a few processes of nature to stay in the realm of imagination and mystery. The annual migration of certain races of mankind lacks the element of pure instinct, but is nevertheless decidedly interesting. Merian Cooper has written a book on the Baktaryl tribe and their enforced adjustment to climatic conditions, which is certainly new to the average reader, although the self same process is outlined in Bible history less definitely.

The tribe named has dwelt for unknown centuries in a land lying west of the Persian Gulf, between them and the sea being a long range of high mountains, down which many streams flow to make up the Karun River on its way to the Euphrates. On this land the tribe finds winter pasture for their flocks and herds, but their summer pastures lie east of the mountains and the river, and each season sees them migrating from one place to another with the same regularity we see in our birds of passage. When we are told that the mountains reach a height of 12,000 feet, and that the river is "broad, cold and rapid" we are able to form some idea of the courage and tenacity of the people who accomplish such a journey twice a year and accept their conditions as normal. We can, however, understand their inherent qualities of hardihood when we learn that their ancestors defended themselves against the Medes and Persians, and have preserved their race intact. In them we see an extraordinary survival of primitive times;—they have no literature and no records, and, beyond the fact that they are of Aryan descent, nothing is known of their origin.

The migration itself is complete, "horses, cows, donkeys, sheep, goats, infants, and—apparently last in order of importance—women, all make the crossing." And evidently all of them have to share the necessary burdens which are taken along. In some instances the animals carry each other, a cow being loaded with a pig and a little goat being fastened on top of them. "The animals which could swim were made to swim—being herded along by men supported by inflated goat-skins. The non-swimmers are ferried across on goatskin rafts, and it is said that the casualties on the entire journey would probably average no more than those of fifty thousand people covering the same distance in New York. One is open to conjecture that if those same fifty thousand ventured the journey amongst the taxis and automobiles of that city, their numbers would be depleted much more heavily.

There is one feature in this story which differentiates it from the annual flights of our birds, butterflies and fishes. Those flights are doubtless continuous while the Baktaryl will probably come with the coming of new industries. Oil has come on the scene, the Anglo-Persian Oil Company being now located in that country, and providing returns by way of leases and rentals which may change conditions. But today the tale of those primitive conditions is fascinating in its strangeness. AUTOLYCUS.

MYSTERY OF OLD LONDON

"Professor" and Wife Are Found Dead in Locked Room

London, Aug. 25.—Mystery attaches to the life and death of the queer "professor" who, with his wife, was found dead recently in a locked house at Wealdstone.

The dead couple were known as Mr. and Mrs. Miles Quesney. The woman was 36 and the man about 40 years of age. They had been missed by the neighbors for about ten days. Mrs. Quesney was found by the police lying in the scullery with a wound in her throat.

In the bedroom they found Mr. Quesney, with a bullet wound in his head and a revolver, "carefully muffled, at his knees."

The woman had, apparently, been dead many days. The man, however, would appear to have died more recently.

The couple were very exclusive. People opposite say that the man used to sit at the window upstairs and make faces and grin horribly at them.

The blinds were never up in the living room occupied by the couple. The electric light, seen on some sunny days, burned continually.

Mrs. Wetherhead, who, with her husband, occupied the lower flat of the house for six months, says that Mrs. Quesney went to work every day in Camden Town. The husband remained at home.

"The man was a mystery," said Mrs. Wetherhead, "but the wife was a kindly soul. She seemed to have a certain dread of him, and she sometimes reluctantly confessed that he was queer, but she usually defended his eccentricities."

"It is well known that he had been a professor of music at one time. He used to receive piles of letters from musical societies."

"When he went out he would steal out cautiously, go up the street in a great hurry and would come back almost on the run. He would never be out more than a few minutes."

DID NOT KNOW IT WAS PRINCE

No Ceremony on Tap When Grannie Visited War Memorial

London, Aug. 25.—Mrs. Weeks, a widow, 82 years of age, living at Stockbridge, journeyed the other day to Enham to see her grandchildren, and entertained the Prince unawares. Mrs. Weeks is the mother of Corporal Sydney James Weeks, who, while serving in the Duke of Cornwall's Light Infantry in France, was terribly wounded, endured enemy imprisonment for four years, and has now found healing and sanctuary in the Enham Village Centre, that finest of "war memorials," because, while perpetuating the memory of the dead, it endows with hope and happiness their still living but broken comrades, and helps them to regain the strength they lost for England.

So, then, Mrs. Weeks came to Enham to see her four little grandchildren. In her black mantle and little poke bonnet, Mrs. Weeks was bending over her youngest grandchild, a baby girl, when she was caught in the room "a nice-looking young man" whom Grannie Weeks described him afterwards.

The "nice-looking young man" was wearing a lounge suit of flannel and was carrying a bowler hat. Grannie didn't take much notice of him as he chatted with her daughter-in-law and then with two shy little boys and a shy little girl.

But it is always the youngest grandchild who is grandmother's pet. And Grannie Weeks noticed that the "nice-looking young man" who was in danger of missing presentation to the most important member of the family.

Leads Prince to Cot So Grannie Weeks went up to the "nice-looking young man" took him by the wrist, led him over to the cot and duly presented him to the baby. Then the "nice-looking young man" went over the cottage, upstairs and downstairs, and liked it all, and shook hands once more with everybody, including Grannie, and Grannie was turning away when she heard someone say, "Yes, Your Royal Highness!"

So she turned around again to see to whom the title was addressed, and to behold it was the "nice-looking young man" whom she had seized by the wrist and led across the room and presented to Baby Sylvia Doris. "Well," said Grannie Weeks, "I spent all my old age pension to get here and I'll have to borrow a little to go on with. But I don't mind because I've seen the dear children—and the Prince of Wales." You will notice that the children come first.

Enham is a national institution, for it has received disabled men from all parts of the country.

ALLEN GROVE

Miss Violet Beck of Summerland is a guest at the Allen home this week. Mr. and Mrs. R. Hanson of Pentleton and Mr. and Mrs. Nicholson of Wilbur, Wash., were called at Fruitland Farm on Saturday.

W. J. Thompson has been appointed deputy returning officer for the local poll. F. C. Howell is putting up his third crop of alfalfa this week.

Efforts are being made to have the school open again on Sept. 7. The new shaft of Persia is getting on fairly well. It used to work as a groom, so he knows how to establish stable government.

The language a golf player uses comes in very handy for changing tires. And a number of detourists are coming back home.

LOCAL HAPPENINGS

Mrs. Courter and Miss Nina Courter left for their home in Vancouver last Monday after spending a few weeks visiting at the home of Mr. and Mrs. Gray. They greatly enjoyed their visit and hope to return next summer.

Mr. and Mrs. D. G. Denny and Miss Denny arrived on Sunday from Nelson coming over by car.

Miss Jean Bennett, who has been visiting Mr. and Mrs. C. P. Evans for some time, left on Wednesday for Brandon.

Miss Zanda Garnett left on Saturday for Calgary. She will go from there to Carlsbad to teach during the coming season.

Rev. L. Miller, accompanied by his niece, left on Monday for Ponoga.

Mr. Roy Cameron came in on Monday from Vancouver and is visiting at the home of Mr. and Mrs. K. Hogg.

Mr. Hayes was a visitor to Kelowna on Saturday returning to Summerland on Monday.

Mrs. Bender and Miss Vera Bender came in from Vancouver on Saturday and will probably remain here for the summer.

The choir of the United Church at West Summerland, instead of having a regular practice Friday evening, went to Crescent Beach for a corn roast. What with moonlight, a fine evening and that pleasant spot, they had a most enjoyable time.

The "Co-op." on Wednesday shipped out its first straight car of apples, half Wealthies and half Gravensteins. They also sent out a straight car of peaches, while on Tuesday they shipped their 9th straight car of pears, and it looks now as if some revision of the estimates of the harvest of apples was in order.

The rainfall on Thursday, although not as heavy at the Experimental station as at Summerland, was registered at .09.

In Summerland we often feel the desire for shade trees about the house—

that is, the great big fellows that are so cooling in summer. Because our pines and firs have been such 'hogs' for water and nourishment we have been forced to deny ourselves this luxury at other places enjoy. Now A. E. Wilson, in MacLean's Magazine, gives us a way out. Part of the article reads: "If poplars can get their hungry childhood over before you try to develop a lawn or flowers, they will not be a menace—but they are deadly if contemporary with the nurturing of a young garden."

Mrs. Collas and Mrs. Hookham motored to Vernon to attend the flower show last week.

Mrs. Wheeler and Miss Wheeler returned from the coast last week and are leaving shortly to join Mr. Wheeler in their new home in Vernon.

To be short of water is something folks have been used to, but those who have been getting ice from the Penticton Cold Storage plant had a new experience to add to the situation. The ice could not be made because there was no water in Penticton, or at least not enough to spare for the plant. They, too, have started to investigate the advisability of a pumping equipment in order to ensure a sufficient supply of water for their ice cream business and to supply their regular ice customers.

Youngsters often do strange things to amuse themselves, thinking little of the consequences of their acts. One of the newest happened last week when a lad up on the Arnet place started to drop stones down on the cars as they passed below him on the gulch road. One of these stones landed on a truck-load of fruit that T. Ramsey was taking to the packing house. Fortunately for Mr. Ramsey, it did not land on the cab top. If it had not been given for the hill between him and the lad, Ramsey's boot might have been used for another purpose than shoving on the brake.

Mrs. Campbell Robinson spent a few days in town visiting Mr. and Mrs. Hogg and renewing former acquaintances. She and her daughter motored up from their home in Seattle and will go to Okanagan Center to spend some time with her parents, Mr. and Mrs. J. L. Logie.

Rev. Mr. Reid motored in from east of Edmonton. The trip was very strenuous from Edmonton to Banff, as it had been raining heavily on the prairies. The roads were quite slippery from Cranbrook to Kootenay Landing. Two friends accompanied Mr. Reid. Both of them are delighted with Summerland and Mr. Montgomery will in all probability settle here. Mr. Bennett, the other friend, wants to get a place for his father. Mr. Reid's furniture came in by C.N.R., and they are busy now getting settled in their new home, the house formerly occupied by Rev. Alexander.

Mr. and Mrs. Ed. Butler have as their guests Mr. and Mrs. Deeh, who motored in from Vernon; also Mr. Butler's aunt, Mrs. Aldridge, wife of Rev. A. R. Aldridge of Edmonton.

Mrs. O. E. Mann and daughter, former Summerland residents, are visiting L. W. Rumball.

Mr. H. Tomlin has been hunting for men to go on the Canyon Creek dam, but has not located them. Everywhere in B. C. laborers seem to be scarce. It is a good sign and we can stand that sort of prosperity.

Among those who came to Summerland to attend the funeral of the late W. Walters were Mr. R. Jennings of the B. C. Orchard, Mr. W. E. Adams

of Kelowna and Mr. Makoviski of the Sales Service, from Kelowna.

Mr. W. Walters was the first member to be taken from the local 1500 club.

The first of the Macintosh Reds have been delivered to the packing houses. This is a little early and crowds the Wealthies, making them take a little lower price. Those having Wealthies should get them in, not waiting to let them color, for once the Maes get on the market there will be no call for Wealthies. There are not many Maes coming in and the shippers are not at all anxious to get them yet.

Mrs. Beggs had a visit this week from Mr. and Mrs. Clement Jarbo, touring by auto from California to Edmonton. They had an enjoyable trip, made more so by the compact and complete equipment which they carried. They enjoyed their stay here so much that they may return to spend the winter with Mrs. Beggs.

Miss Thelma Hobbs has returned from her trip to Portland and other coast points. On her way back she stopped to enjoy a fortnight in Vancouver with her brother Edgar.

Mr. and Mrs. Jas. Thompson of Victoria Gardens had a surprise visit this week from Mr. and Mrs. John Holmes of Myron.

Born—at the Summerland Hospital on Thursday, August 26, to Mr. and Mrs. H. C. Howis, a son.

Born, at Trout Creek, on Thursday, Aug. 26, to Mr. and Mrs. Troyer, a son.

FORMER DAYS IN THIS COMMUNITY

AUGUST, 1911.

The Hotel Summerland is now the property of Mr. W. J. Robinson, he having taken it over on August 1st. Mr. Manchester continues as manager until September 1st, upon which date Mrs. David Bentley takes charge.

Dr. Andrew and Mrs. Stark are building summer houses, side by side, on Beach avenue. These buildings are being erected on piles and are some distance from the lakeshore.

W. C. Kelley is erecting a warehouse on his lot opposite the new Presbyterian church. This warehouse will be leased to Thos. B. Young and will be used by him in his flour and feed business.

Thos. Beavis and family are camping on Trout Creek Point. Mr. Beavis recently purchased a motor canoe, which he will no doubt find very convenient at this time.

The largest single order for fruit trees which for some time has been given by any Summerland individual, has been given by Reeve Ritchie. The order, it is stated, being 50,000 trees.

There are some two hundred tobacco plants growing on John Talbot's property at Trout Creek, and they are doing remarkably well.

Great interest is being taken in the general election upon the issue of reciprocity with the United States. There is every indication that both Summerland and West Summerland will support Sir Robert Borden.

J. W. S. Logie and his cousin, Will Farrier, started this week on a canoe

trip to Portland, Oregon, via the Okanagan and Columbia rivers. After visiting Portland they will journey south as far as San Diego, Cal. Mr. Logie expects to be absent about six weeks.

Another new automobile coming to Summerland recently was purchased by R. W. Deans. It is a Canadian car, a "Brockville 30." This is the second of its kind to come here in a few weeks, the first being purchased by J. J. Mitchell.

It is reported that R. Warwick Dean, the well known realty operator of Trout Creek, has purchased lots on Logie Avenue, north of St. Andrew's church, and will erect a large block, with the theatre on the ground floor and offices up above.

NARAMATA

The mid-season meeting of the irrigation district was held on Monday evening in the Unity Club building, the object being to learn the wishes of the water users concerning the proposals of the provincial government in

MRS. FRANK MOSSOP
(Sen. T.C.L., Eng.)
Teacher of Music
Students accepted for tuition in Piano, Theory and Singing. Pupils prepared for examinations.
Phone 652. Summerland, B.C.

Why Home-brewed Beer Can Be Bad For Your Health

BREWING beer at home, a habit that has become widespread in the United States since prohibition deprived the people of the right to purchase pure and healthful beer legally and openly, presents difficulties and dangers of which those who engage in it are rarely aware.

HOME-BREWED beer can be actually dangerous to those who drink it, for the home brewer works by rule of thumb, perforce, and usually has no acquaintance with or control over the complex physical and chemical reactions that take place in the brewing of beer. Pure beer can only be made in a modern brewery by scientifically trained brewmasters who have at their disposal the most modern equipment and who are bound by the most exacting standards.

THE same materials which, in a modern brewery, are made into pure, healthful beer, can become, in the hands of a home brewer, a raw, incompletely fermented, indigestible and harmful mixture unfit for consumption. But where an established brewery uses only the highest grade of material—malt and hops—tested for purity, the home brewer is forced to purchase in stores imported syrup concoctions of inferior malt and low-grade hop extracts frequently blended with synthetic essences. The product of such mixtures is always harmful to the stomach and digestive system and dangerous to drink for any length of time.

THE home brewer is hampered not only by lack of knowledge of the science of brewing, but home equipment does not include the elaborate plant necessary for prolonged sterilization and filtering to assure a pure, healthful beer free from bacterial infection. In beer that is the product of a perfectly equipped brewery fermentation continues, and continues after it is consumed. It is really an explosive mixture, whether in your stomach or in the bottle, as shown by the way in which bottles explode and tops are blown off.

HOME-BREWED beers are usually higher in alcoholic content than they should be. In the beers supplied by the Amalgamated Breweries to the people of British Columbia through licensed premises or through Government stores the alcoholic strength is only 4% per cent, the most favourable strength for the stimulation of the stomach toward aiding digestion. Home-brewed beers also usually contain greater or less percentages of deadly fungi, from which properly brewed, stored and aged beers are free.

ANY physician can tell of the dangers of home-brewed beer, from which, happily, the people of British Columbia are free, for they have the privilege of obtaining pure, good beer made by the Amalgamated Breweries of British Columbia in plants that are equipped with every facility for the brewing of pure beer, perfectly flavored, well matured and healthful.

Visitors are cordially welcomed at the plants of the members of the Amalgamated Breweries of British Columbia: Vancouver Breweries, Limited; Rainier Brewing Co. of Canada, Limited; Woodminster Brewery, Limited; Silver Spring Brewery, Limited; and the Victoria Phoenix Brewing Co. Limited.

Main St. Phone 142

regard to relief from the burden of reverted lands and the release from the existing moratorium. It was explained that the government proposition was contingent on the waiving by the district of the moratorium in force, and that acceptance of same would entail an additional tax levy. After considerable discussion a resolution was carried to the effect that the moratorium be waived and the government be so advised. The subject of additional water supply by an auxiliary plant was brought up by Mr. Weaver, speaking for the board of trade, and it was finally decided to write for some information concerning the automatic system in use at Oyama. Various other matters were dealt with by the chairman, Mr. Armour, and Mr. Cross, secretary, and the meeting adjourned at 9:45.

Announcement

We have arranged to have Mr. Tuer, representing "The Consolidated Garment Co., Ltd." (formerly "The Vogue") of Vancouver, come here on WEDNESDAY, SEPTEMBER 1st, with a complete range of Ladies' and Misses' Fall and Winter Coats.

This will be a splendid opportunity to select your New Season's Garments, as fashion critics all agree that Consolidated Garments are the most reliable and up-to-date in Western Canada. You are welcome to call and see the new styles whether you intend purchasing or not.

WEDNESDAY, SEPTEMBER 1st. LAIDLAW & CO.
