

IRRIGATION CUT TO ONE DAY WEEK TO AVOID EARLY CALL ON SHORT STORAGE SUPPLY

Highway Charges Discussed by Hon. W. A. McKenzie and Adjusted... ONE MILE OF SHORE ROAD TO BE OILED... Development Company Offers Settlement of Some Claims

As well as settling how the irrigation water is to be handled from this date, the council met on Tuesday devoted considerable time to discussing the work on the roads and final use of the appropriation for this work.

Trout Creek to Dry Up... There was no question in the minds of the councillors but that Trout Creek would dry up this season unless heavy rains come early.

Roads Discussed... In order to get a ditch through on the upper road in Frazer, Mr. Agur is to be asked to be asked to show the fence, and the ditch will be put in immediately.

Considerable pleasure was evidenced at the opening of the road past houses in Paradise. This road passing A. B. Elliott's residence, it was considered, should have been done long ago.

Public School Pupils Pass... Frances James Leads Class This Year for Entrance to High School... The following is a list of pupils promoted from the Entrance class to the high school.

HIGH SCHOOL PROMOTIONS ARE LISTED

Results Based on Term's Work Along With Exam. Results... CONDITIONAL PASS LIST IS ALSO GIVEN... Names Are in Alphabetical Order For Each Division

The staff of the Summerland high school has issued the following pass list as a result of final examinations held at the school last week. The results are based on the term's work of the pupils as well as on the marks received in the examinations.

Those pupils who received supplemental will be required to write them at the high school on September 3 to 6.

The names in each division of the lists appear in alphabetical order. Passed from Grade IX. to Grade X. First Class - Dorothy Bowering, Margaret Dundon, Philip Monro, Bob Nelson.

Second Class - Walter Charles, Doreen Howis. Pass - Arietta Biagioni, Annie Denike. Agriolat (passed on year's work) - Harvey Farrow, Kathleen Head (algebra, geometry, science).

Conditional Pass - Harry Barkwill (French), Diana Barnes (algebra), Jack Blewett (literature), French, Mildred Horton (literature, geometry, Latin), George Gould (history), Naomi Kercher (geometry, Latin), Glen Kercher (history, arithmetic, geometry), Walter Powell (literature, composition, history, Wilson (French).

Passed from Grade X. to Matriculation Division. First Class - William Andrew, James May, George Mossop. Second Class - Freeman Reid. Agriolat (passed on year's work) - Agnes Handley, Victor Wilson. Conditional Pass - Robson Butler (algebra, geometry, chemistry, French), Margaret Caldwell (biology, algebra, geometry, chemistry), Edward Williams (composition, algebra, Latin), Donald McLachlan (algebra, Latin), Janie Simpson (arithmetic, algebra, geometry), Wesley Tavender (algebra).

Macdonald Receiving Word of Victory

Mr. Ramsay Macdonald, British Labor prime minister, with his son, Malcolm, and his daughter, Isabel, reading congratulatory telegrams received after his overwhelming victory in the recent general elections.

Malcolm Macdonald was a successful candidate in the election and will sit in Parliament with his father. Isabel will be the official hostess at 10 Downing Street when the new premier takes office.

Local Men Expect to Take Trip in Interest of Science... This week Bert Simpson sent in his reports to the Department of the Interior at Ottawa on his bird banding work. A copy was also included in the letter to be forwarded to the Biological Survey at Washington.

At present Bert is at work testing several kinds of bait that will appear to doves which he has so far been unable to entice into the banding coops.

A short time ago Eric Tait left with Mr. S. J. Darcus, of the game preserve at Vaseaux Lake, for the Ashnola district, where they are gathering birds' eggs for classification. Bert was to have been with them but unfortunately was sick when they had to leave.

In the course of a few weeks a party organized to gather biology and zoological facts during a trip to Snow in Mountain will spend two or three days on a trip there. Bert will be one of the party and his work will be with insect life. Mr. Hornby, gardener at the Experimental Station, will devote his attention to flowers, and Mr. Brittan will with his kodak, record some of the habitat items of value connected with the birds. Mr. Hornby and Eric Tait with one or two others and will make notes on the way.

MINISTER ON HASTY TRIP OVER ROADS

Hon. W. A. McKenzie and Deputy Minister Philip Are Brief Visitors... WELL PLEASSED WITH PROGRESS OF WORK... Revision of Southern Highway Likely Next Season.

Washboarding on the Oliver road, it was found, had been largely moved, and the road is now in a bumpy condition. It was realized, however, by the visitors that in another season or two it would be necessary to build a new road on a revised plan. This will be nearer the river and will be considerably straighter than the present twisty highway. The work will probably be done next year.

Another revision regarded as necessary next season is that of the road practically from the Tsalinda school south of Oliver to the boundary line.

In both these cases, where new straight thoroughfares replace the twisty and turns of the existing roads considerable road material will be added for surfacing. The department is reluctant at present to do any great amount of surface work which are to be replaced in another season or so.

It is possible that an effort will be made to get away from the "Graveyard" hill near Osoyoos by a straighter line with a branch east to the village of Osoyoos and the Anarchist Mountain road. As the new customs office is to be located at the boundary line, it is claimed that any new road might as well reach that point as quickly as possible. A lakefront and back up again, as at present.

Good Progress is Made... Good progress has been made on the new Yellow Lake road which is to link up Keremeos and Penticton on a shorter and lower highway than the Green Mountain road. This road has been cut through from the Marron Lake road, through the old Ashnola place, to the old Keremeos place on a ten per cent. grade. An excellent camp, saddle horses from Fish Lake camp, are being used for the purpose.

Inspection of the new high road from West Summerland to Deep Creek also showed that favorable progress has been made. It is understood that a decision was reached to place heavy oil on the main street of Oliver and on the main road through Lower Summerland in the vicinity of the packing houses.

Oliver Burglar Gets One Year In Jail; His Two Pals Plead Not Guilt

Shannon Is Sentenced Judge Brown in Court... BROTHERS IN CASES TO ENTER DEFENSE... Preliminary Hearing Held Before Magistrate Dewdney

Charles Shannon, charged with burglary, appeared before Judge Brown at the County Court at Penticton on Wednesday, June 26, and pleaded guilty to the charges. The judge sentenced him to one year in jail.

The cases of Rex versus Mino and Rex versus Arthur Mino, of receiving stolen goods, were called for election on Tuesday, June 25. They both pleaded not guilty. Fred Mino was committed to jail for three months, and Arthur Mino for two months.

Oliver - Charles Shannon, charged with burglary, and Fred and Arthur Mino, charged with receiving stolen goods, were committed for trial before Magistrate Dewdney on June 18. Shannon admitted breaking into Johnstone's garage and taking the car. He was sentenced to one year in jail.

The goods exhibited were of value to the police. Swanson deposed that he had seen Shannon in the garage on the morning of the robbery. He identified electric bulbs, a set of commutator wires for a Ford car, a can of cup grease, spark battery cable, fan belts, brake shoes, and a set of tools as accessories stolen from the garage. He said the property of his employer was the first witness called.

Shannon and Mino were committed to jail for three months. The cases of Rex versus Mino and Rex versus Arthur Mino, of receiving stolen goods, were called for election on Tuesday, June 25. They both pleaded not guilty. Fred Mino was committed to jail for three months, and Arthur Mino for two months.

Shannon and Mino were committed to jail for three months. The cases of Rex versus Mino and Rex versus Arthur Mino, of receiving stolen goods, were called for election on Tuesday, June 25. They both pleaded not guilty. Fred Mino was committed to jail for three months, and Arthur Mino for two months.

FIRE DESTROYS WRECK OF CAR

C. N. Macdonald's Auto Turns Over on Oliver Road and is Destroyed... Mr. C. N. Macdonald, of Summerland, driving a Chevrolet coupe on the Oliver road on Sunday afternoon, June 23, turned his auto over on the Bates corner and narrowly escaped death. His car was burned almost completely, leaving only the right front tire and the engine.

He was accompanied by a friend, who was taken to the Penticton hospital and is there recovering from shock and minor bruises. Mr. Macdonald escaped with little injury, except from small bruises toward Oliver and the sun was shining in his eyes. This was the first time he had ever been over the road. The car was not thirty days old.

He states he was driving at twenty miles per hour when he suddenly ran the corner in front of him. He applied the brakes, it is said, and the wheels caught in the loose gravel, turning the car over on its side. It cannot be ascertained definitely as to what caused the fire. The next driver arrived on the scene as the flames were creeping up around the car.

This driver was Dr. J. Nether-ton, of Penticton, who had managed to get out of the auto, and brought them to the Penticton hospital. Mr. Macdonald was hospitalized by a blow received when the car overturned and did not know that it had been demolished, until reaching Penticton. The remains of the car have been towed to the Grand Forks garage. All the wheels and tires have been wrecked except the front one. The engine wiring is burned but the engine seems to be intact. That the occupants were not injured, or burned to death is deemed miraculous.

SUMMERLAND PLAYS BOWLS WITH PENTICTON AT OPENING OF NEW SOUTHERN GREENS

Good-sized Crowd Attends Inauguration of New Laws... SUMMERLAND LOSES MATCH BY 27 POINTS... Close Matches are Feature in Friendly Exhibition Games

Penticton - The opening of the new bowling greens was an attraction on Thursday, June 27, which brought out many visitors. In the absence of Mrs. B. Macdonald, and both honorary presidents, President W. J. Allerton officiated at the opening of the club's bowling greens.

Mr. Allerton spoke of the progress of the game in Penticton and how it was fast becoming one of the major sporting activities of the town. He mentioned the loss of the green on Ellis street, which was washed out by the flood of 1923, and the fact that a battle which was fought by the members in order to keep the club together. At the present time the club is not in the best financial condition because of the loss of the first greens, he stated.

The president claimed that the opening of the Brunswick street greens is another milestone in the history of Penticton. In conclusion, he called upon Mrs. G. A. B. Macdonald to give the first jack and wood, which she accepted in a masterly manner. Rev. Harry P. Barrett also addressed the gathered bowlers and visitors, and on behalf of the lawn bowling association presented Mrs. Macdonald with a handsome silver power bag, a gift in commemoration of the event. Following the opening speeches, the Summerland and Penticton bowlers engaged in friendly exhibition games. Six official points were scored, while another rink composed of novices, playing their first game in bowling, attracted much attention.

Penticton and Summerland broke even in the number of rinks won in each town. However, Penticton won out on the number of points obtained, having 127 points to 100 garnered by Summerland. Most of the games were exceedingly close and the Penticton bowlers have had little, if any, practice on the new greens, so that Summerland was not favored much of a handicap. The novice rink put up a fine competition against a rink from Summerland skipped by C. J. Amm. Frank Whiskin, skipping for the Penticton bowlers, laid down some good shots which spoiled the Summerland chances on several ends and saved numerous points. The Summerland rink eventually won by a 20-14 score. On Thursday evening, July 11, the Penticton bowlers will journey to Summerland to play the northern town in another friendly match. Six rinks are expected to make the trip. The following list contains the scores for the Penticton and Summerland rinks: Penticton: Patterson (skip) 4, Hooper 1, Gilley 1, Andrews 21, Lyell (skip) 1, McQuistin 1, Heil 1, Cordy 20, Allerton (skip) 1, Davidson (skip) 1, Fraser 10, Cranna (skip) 1, Cumming 1, Riddle 1, Porter (skip) 1, White 1, McKeon 1, Woodburn 10, Lyell (skip) 1, White 1, Montgomery 24, Adams 10. Summerland: Atkinson (skip) 1, Bernard 1, Stewart 20, Brighton (skip) 1, Benson 1, Bonilla 1, Doherty 21, McQuistin 1, Heil 1, Cordy 20, Allerton (skip) 1, Davidson (skip) 1, Fraser 10, Cranna (skip) 1, Cumming 1, Riddle 1, Porter (skip) 1, White 1, McKeon 1, Woodburn 10, Lyell (skip) 1, White 1, Montgomery 24, Adams 10.

SNOW MOUNTAIN TO BE VISITED

Local Men Expect to Take Trip in Interest of Science... This week Bert Simpson sent in his reports to the Department of the Interior at Ottawa on his bird banding work. A copy was also included in the letter to be forwarded to the Biological Survey at Washington.

At present Bert is at work testing several kinds of bait that will appear to doves which he has so far been unable to entice into the banding coops.

A short time ago Eric Tait left with Mr. S. J. Darcus, of the game preserve at Vaseaux Lake, for the Ashnola district, where they are gathering birds' eggs for classification. Bert was to have been with them but unfortunately was sick when they had to leave.

In the course of a few weeks a party organized to gather biology and zoological facts during a trip to Snow in Mountain will spend two or three days on a trip there. Bert will be one of the party and his work will be with insect life. Mr. Hornby, gardener at the Experimental Station, will devote his attention to flowers, and Mr. Brittan will with his kodak, record some of the habitat items of value connected with the birds. Mr. Hornby and Eric Tait with one or two others and will make notes on the way.

GOOD CATCHES AT FISH LAKE

Vancouver Man and Wife Take Forty Nice Specimens... Fishing at Fish Lake has improved rapidly within the past week or two and some of the anglers are taking out excellent catches.

The Eastern Brooks are of fine size. One fisherman lost a line and small spinner the other day. On his second attempt he caught a 2 1/2-pound fish. Mr. and Mrs. H. B. Bayne and young son, of Penticton, formerly of Vancouver, went on Saturday and returned with forty good fish. Some of them were sixteen inches long. They were practically all caught on the fly.

Dr. W. E. Lattimer and a couple of friends caught 19 in a short time. Ernie Harris reports that fishing is in full swing on Deer and Eneas lakes with good results. These lakes are at a higher elevation than Fish Lake and are free from rain. Rainbows are through spawning and are hungry.

N. Solly's Cups Are On Display in Store Window... There is an attractive display in Butler & Wallace's window in Penticton. They include the Selbert Trophy, which was running since 1924; B.C. Badminton Club Cup, men's open doubles, running since 1927; Spanish Trophy, men's singles, running since 1925; University Cup by Dr. Murray and Dr. Clark, running since 1924, and the Canadian Badminton Championship Cup for 1928.

Another attractive display in Butler & Wallace's window in Penticton. They include the Selbert Trophy, which was running since 1924; B.C. Badminton Club Cup, men's open doubles, running since 1927; Spanish Trophy, men's singles, running since 1925; University Cup by Dr. Murray and Dr. Clark, running since 1924, and the Canadian Badminton Championship Cup for 1928.

BOX FACTORY WILL SOON CUT LOGS

Logs are now arriving from the Bald Range for the box factory, and it is just possible that it will be necessary to start a night shift there in the course of a few weeks to saw the logs.

Someone Side-Swiped Minister of Works, So Road Will Be Widened

Penticton - Hon. W. A. McKenzie and Deputy Minister Philip are convinced that some of the turns on the Penticton-Summerland road should be widened out. They had a practical demonstration of this on the official road on Monday night, when the road was widened out by the road crew. The road will be widened out by the road crew.

PILE DRIVER STARTS WORK

New Piles Will be Placed at Government Wharf Here... For some time trucks have been hauling piles for the repair work to be done on the government wharf, getting them placed for the pile driver.

On Wednesday the machine came in to the wharf and was being hauled by White & Thornhill's truck down to the wharf, where it has been placed in position for the work. It is expected that it will start operations this week-end and will continue for some time.

WOMEN'S INSTITUTE RECEIVES

The regular monthly luncheon of the Summerland Women's Institute was held on Friday, June 28, at the home of Mrs. M. J. Smith. The luncheon was very successful and the women enjoyed it very much.

The regular monthly luncheon of the Summerland Women's Institute was held on Friday, June 28, at the home of Mrs. M. J. Smith. The luncheon was very successful and the women enjoyed it very much.

FEDERAL REPORT SHOWS HOW B.C. FRUIT CROP PROSPECTS ARE COMPARING WITH ONTARIO

ominion of Canada, Department of Agriculture, Fruit Branch, Ottawa, June 15.—Canadian prospects were most encouraging for an average to good crop of fruit. Strawberries and raspberries promised increased yields practically all provinces, while cherries were generally a little better than a year ago. The apple crop has been the heaviest in the eastern provinces, especially in Nova Scotia, where the crop promises a record crop. If the "June drop" is completed, ever, it will not be safe to estimate the possible yield. Fruit conditions in British Columbia from a blossom standpoint, were promising. Indications are now for a crop to be patchy and estimated at about 75 per cent. 1928. Although the prospects for light yields in British Columbia, it will be remembered that this was a heavy crop and this year's crop should about equal the and. Irrigation water is short parts of the Okanagan Valley rains were badly needed to avert the situation. A survey of to plantings through Canada rates about nine per cent. decrease in the acreage. Commercial acreage is increased in British Columbia and a slight increase in Ontario. Tomato plant-

reported in the Okanagan Valley. Irrigation water is low in parts of the district. Frost has caused slight injury to sweet cherry buds in the Kootenay district.

Plums and Prunes
The following table shows plum and prune estimates by provinces on June 1 compared with 1928:

Province	1928 Bushels	% of Est. '29
Ontario	314,200	95
B.C.	165,810	75
Total	480,010	88

Ontario—A good crop of plums is promised in the Burlington district, being estimated at 150 per cent. of last year. In the Niagara district considerable winter injury is reported with Reine Claude and prospects for all varieties are for a light to medium crop, estimated at 80 per cent. of 1928. Japanese varieties are stated to be about 50 per cent., while other varieties range heavier than last year. In other districts lighter yields are expected.

British Columbia—The plum and prune crop in the Vernon, Kelowna and Southern Okanagan districts is reported to be lighter than last year, and very light in Salmon Arm, but a slight increase in the Kootenay and Boundary districts. Taking the province generally, indications are for a crop 75 per cent. of last year.

Peaches
Estimated peach crop by provinces as compared with 1928:

Province	1928 Bushels	% of Est. '29
Ontario	535,800	100
B.C.	69,970	100
Total	605,770	100

Ontario—Peach leaf curl is reported to be quite prevalent in the Niagara orchards, as well as in the few peach orchards in Essex and Kent counties. This condition is due mainly to unfavorable weather conditions prevailing at spraying time. The crop is not expected to be materially affected.

British Columbia—The peach crop in British Columbia is very small at the best. During the past winter, both tops and roots were slightly affected with winter injury in some sections of the Okanagan Valley, but the crop is not expected to be materially affected.

Apples
Estimated apple production for British Columbia on June 1, compared with final 1928 estimate:

Province	1928 Bushels	% of Est. '29
Ontario	80,800	150
B.C.	169,630	85
Nova Scotia	5,000	100
Total	255,430	106

Ontario—Both the Burlington and Niagara districts report heavy pear bloom. In many sections of the Niagara district fruit is setting poorly due to a late start in working weather during blossom period. The crop in these sections promises to about equal last year's light crop. Other districts report favorable bloom and a fair to good set of fruit. Provincial estimate is placed at 150 per cent. of 1928.

British Columbia—Pears have not

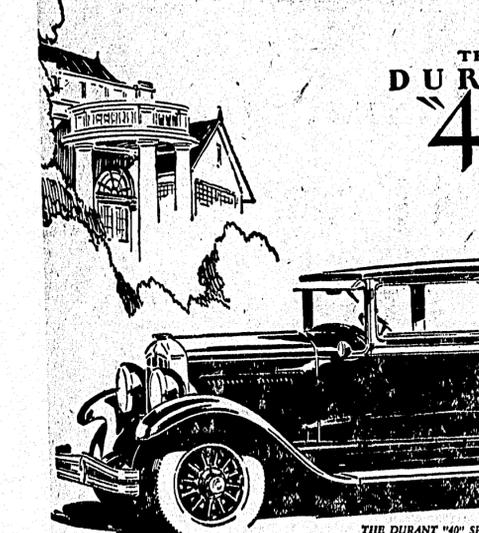

PEOPLE ARE FUNNY THAT WAY

It is an extraordinary fact that people who are rigidly careful with Fire in their own homes are utterly reckless with it when out of doors. EIGHTY PER CENT. of our Fire Losses last year would have been prevented had people tried to remember that FIRE is an element with which it is NEVER safe to be careless.

UNCONSIDERED TRIFLES

(By AUTOLYCUS)

These are the days of millions. It is said that the first million is the hardest, and those of us who MORE MAD than the rest of the MILLIONS wards that far distant mark can agree without great strain on our credulity. But the facility with which additional millions are piled up (on paper) by some financial experts is certainly remarkable. The figures look very imposing, and when they are given out to the world by gentlemen who are supposed to be in the know, it is not surprising that talking about, we might expect them to be accurate. But when the authorities contradict each other, a reasonable feeling of doubt is in and we begin to reserve and compare. In the matter of the cost of old age pensions there have been issued some statistics which no arithmetician can reconcile on examination and comparison with the actual figures. A contradiction from a correspondent in a Vancouver daily. While one government official is reported to have put the amount to be paid out this year in British Columbia at \$2,000,000, and a third has estimated the total for 1929-30 at \$6,000,000. Yet the last report of the number of persons receiving pensions in this year is 1,200,000, that even supposing that all these persons were receiving the maximum of \$20 monthly (which is certainly not the case) the total would fall short of even the modest \$1,200,000 given as the correct amount by the first authority. And the Vancouver correspondent points out that the number of pensioners cannot possibly increase in the ratio indicated, the estimate of \$6,000,000 for this year and \$12,000,000 for a matter of cold fact these figures are simply crazy in their mutual contradiction, and show either a colossal ignorance of the real situation, or the existence of an underlying motive of that publication. Our correspondent does not seem to have any doubt on the subject, but states his belief that they are given out to discourage a proposition made by a member of the B.C. government for the increase of the maximum to \$25 monthly. That is as it may be. The real point is that, assuming the public are entitled to information on the

because of adverse weather conditions.

Onions
Ontario—The planting season has been very discouraging to onion growers in Essex and Kent Counties owing to wet weather and the flooding of marshes. This has necessitated the replanting of new fields, making the planting three weeks late. The Erieau marsh, which normally ships 300 cars, is still flooded with six feet of water owing to the dyke breaking, and it is impossible to reach it in time for a crop this season. Although some growers have planted on the high lands, adverse conditions have resulted in a reduction of 360 acres compared with last year. The acreage is not expected to be 1,250 as compared with 1,618 in 1928.

The following table shows the acreage by districts for 1929:

District	1928 Acres	1929 Acres
Leamington Marsh	595	187
Essex	1,100	48
Jeanettes Creek	178	45
Leamington High Lds	58	7
Erieau High Lands	52	—
Totals	960	244

British Columbia—The high prices that prevailed during the past season for onions have caused an increase of 21 per cent. in the acreage planted this year. The acreage is now estimated at 1,232 as compared with 1,034 a year ago, the total being 1,232 as compared with 1,034 in 1928, being as follows:

District	1928 Acres	1929 Acres
Nicola Valley	8	24
Lytton-Lillooet	12	—
Ashton	5	—
Kamloops	5	85
Ducks-Chase	5	—
Salmon Arm	5	—
Armstrong	53	40
Vernon	215	298
Ylva	60	—
Kelowna	543	642
Westbank	38	38
Peachland	8	11
Keremeos	5	—
Total	960	1,232

Ontario—In the Theford celery district 310 acres are reported planted, which is practically the same as a year ago. The Burlington district reports 110 and Middlesex 2 acres.

British Columbia—The Armstrong celery district has 91 acres this year as compared with 97 in 1928.

Markets Extension Division: English and European Fruit

English culinary apples have set well with prospects for an average crop, while dessert varieties are more promising, according to a cable just received from Mr. J. Joseph Smith, Canadian fruit trade commissioner. There are no doubts regarding the set of Bramley Seedlings, owing to slight frost damage. Worcester Parnaline and Cox Orange Pippin have set good. Pears have set well with prospects for a fair crop. Plums are reported to be variable, but generally speaking there is a good set, sufficient to realize a satisfactory crop. There has been slight frost injury to greengages while damsons are patchy.

European countries show excellent blossom indications, with good apple prospects in Scandinavia and Belgium. Pears are less promising.

The United States Department of Agriculture reports apple and fruit prospects on June 1 as follows:

"Apples—In Western New York, Michigan, the Ozark region, Kansas and Nebraska the apple crop is expected to be larger than that harvested last year, but in nearly all other states the crop promises to be smaller. In the country as a whole the apple crop seems likely to average 10 per cent. more than that of last year, but still substantially larger than the light crop of 1927. The condition of apples on June 1 was reported as 60.8 compared with 57.2 last year, and an average of 68.0 during the previous ten years."

"Fruits—As fruits were still in bloom along parts of the northern border on the first of June, it is too early to forecast accurately what the production in the northern states will be, but the indications are that fruit production in the country as a whole will be substantially less than usual. The condition of fruit is particularly low in California and Florida, and nowhere does the fruit crop seem particularly heavy. The production of apples, peaches, citrus fruits, plums and grapes is probably below the average of ten years."

VEGETABLES
Potatoes
While complete potato acreage by province is not available at this date, indications are for a nine per cent. decrease in plantings for the Dominion. The eastern provinces show decreases ranging from seven per cent. in Ontario and Quebec to 30 per cent. in Maritime provinces, while the western provinces, except Saskatchewan, which indicates no change, show an increase from 5 per cent. to 18 per cent. over the last year. The reason for the increased acreage this season. Planting is late in the East

subject, they are certainly entitled to receive information which is correct. On the subject of old age pensions in general, it is perhaps premature to be too critical, seeing the adoption in this country is so recent, and that the limited scope so far is perhaps natural in any scheme in its infancy. But any proposition to enlarge its benefits, and to remove the manifestly unjust restrictions at present hedging it around, should receive the support of the public, and that support would obviously be discouraged by exaggerated statements of the cost involved.

The reported dwindling of church attendances which we hear about so often, but for which many suggestions as to the best of the NEW means of combatting the evil, but very few touch on the actual root of the trouble. Now, however, we have a remedy which is assumed will alter the complexion of matters altogether. All we have to do is to provide comfortable seats for weary worshippers, and the tide will turn. The correspondent who suggests this solution of the problem points out that most up-to-date picture theatres and places of public entertainment are careful to consider the comfort of their patrons, and he wants to know why churches cannot do and do likewise. I am not going to offer any opinion on the merits or demerits of this proposition, but am moved to descend on some common sense old church, in which I was wont to be seated in the "sixties" of last year. Prominent among my recollections are rows of enclosed pews, having enameled number plates on their ends, and with cushions and hassocks which were built on liberal lines, and were grateful to the knees by reason of their softness. My own particular cushion also came in mind. It was never used, when standing was necessary, and enabled me to gaze my fill on the incomparable beauty of the leading lady of the choir, at that period the object of my adoration. Jackson's Deum was never so long for me while that adored one was in view. (I also recall that, later on I learned she was married, which was a severe shock.) But whether these damask covered cushions and comfortable hassocks were factors in the attendance at our church I am quite unable to say. In those days Sunday morning church was with us a matter of course, and to stay away was unthinkable.

There is one matter which our ingenious correspondent did not touch on in offering his remedy, and that is the disposal of our hats in church. (Of course I am referring to the male element only, the feminine contingent needing no consideration here.) In my city days the good old silk hat was general, and to churchgoers was a constant source of vexation of spirit. And even the most deplorable persons would a mere "bowler" to church found the safe disposal of them a hard problem. Of course the window recesses offered a resting place for the number of them, but there they were in danger of falling from grace if too many were placed together. And it is admittedly a terrible strain on a mind trying to be devotional when its own eyes see his cherished "topper" come to grief, and ruffle its glossy surface along the floor. In modern churches no doubt the more modern hat may be slid under the seat, but it is then the prey of flies and ungrateful feet. Potatoes in Max Adeler's "Burly-Burly" once had the unspeakable agony of seeing his silk hat swept along the aisle by the train of a lady's dress, and finally deplorable persons in condition half way up the building. That a hat can be swept along a floor by a lady's dress today is certainly impossible, but other dangers remain, and there really ought to be something done about it. Then, I suppose, with comfortable seats added, we shall again see our churches full! —AUTOLYCUS.

PEACHLAND

An executive meeting of the Peachland Women's Institute was held on Thursday, June 20, at 3 p.m., at the home of Mrs. Smalls. The chief business of the meeting was the discussion of plans for the entertainment of a delegation of ladies from Saskatchewan and Manitoba who will visit the valley in the near future for the purpose of interesting women's organizations on the prairie in the consumption of B.C. fruit. It was decided to hold a lawn tea at the residence of Mrs. Dorland, after which the delegates will enjoy a social hour until the arrival of the evening boat, when the visitors will be escorted on board.

Drouth spot has made serious inroads into local orchards, and the heavy hailstorm last week did considerable damage also. Estimates of government inspectors place the total decrease in tonnage over last year's crop at approximately 60 per cent.

Mrs. Cudmore has returned from a visit to Mrs. J. Elliott of Penticton.

Mrs. Ruffie, accompanied by her daughter, Mrs. R. E. Williams and children, of Penticton, arrived on Tuesday to spend a couple of weeks with Mrs. Follett.

Mrs. H. McCall, of Vernon, is spending a few days with her mother-in-law, Mrs. L. D. McCall.

Miss Edna Cudmore returned from Vancouver on Tuesday to spend the summer vacation with her parents.

Guests recently registered at the Edgewater Inn include the following: R. F. Hempton, Vancouver; B. Schaiter, Moose Jaw; G. W. Munro, Kelowna; Mr. and Mrs. R. M. Tapling, Revelstoke; Mr. and Mrs. P. Corrigan, Kelowna; E. Smith, Kelowna.

NARAMATA

On Wednesday evening the Rushbury lawn was the scene of a garden social given by the members of the Ladies' Aid in aid of the repair fund of the United Church, which has lately been repaired and decorated. There was a large gathering of members and friends, who passed a pleasant time. A musical program was given, and strawberries and cream, coffee and cake rounded out a delightful social. Mrs. H. B. Blushbury, whose birthday it was, was presented with a bouquet of fine roses in appreciation of the event, and of her kindness in acting as hostess.

Rev. H. P. Barrett was a Naramata visitor on Wednesday, making many calls on the members of his congregation here.

MORE MILES TO THE GALLON

Many of us have had much to say about the price of gasoline, largely because we believed that there was an exceedingly large spread between the cost and the selling price.

But here is a suggestion about raising the price. At the present time the government exacts three cents per gallon, which is presumably being applied to road construction in the province.

In view of our exceeding great need for more roads and better roads we would like to see this levy increased to five cents per gallon, the whole to be applied to improving the roads of the province, particularly the conditioning of existing roads rather than the building of new ones.

We do not wish to appear in the light of an opponent of new highways. Far from it, but we can readily perceive that with the tremendous increase in the number of automobiles and the speeding up of the machines, consequent upon easier riding and more efficient engines, there is arising a tremendous need for bettering the present thoroughfares.

If we had a five-cent gasoline tax and the entire tax was devoted to road improvement, we might speedily see the day when the road south through the Okanagan Valley and the highway east and west from Vancouver to the Kootenays would be covered with some sort of surfacing which would keep down the dust and make summer travel a real pleasure.

None of us would really object to a bigger gas tax so long as we had better conditions for traffic. The actual expense would be no greater, because, while gasoline would cost us more, improved roads would give us more miles to the gallon.

A GOOD GAME WARDEN

Nimrods of the Stikinean will be glad to hear that R. M. Robertson, provincial policeman and game warden of this district, is to remain here as game warden.

We would like to see Mr. Robertson promoted to the position of a district superintendent of game wardens because he is essentially fitted for elevation, but from a selfish spirit we are glad at any rate that he is to stay here with the game branch.

Mr. Robertson is well respected in this district. He is not officious but he is efficient. He is not a man who is on the lookout for a chance to pounce upon the unwary, but he is an official who has a hearty respect for the law and he expects the bearer of a rifle or shotgun to have a similar regard for the statutes. Moreover, he is that sort of an enthusiast who takes a delight in propagating and protecting game.

This is the type of men we need as game wardens in British Columbia, men who will take pains to kill off pests and encourage game production. Game wardens should be as their name indicates, persons who care for game, not merely persons who are making it their chief business in life to roll up fines against erring hunters.

WORLD OF POLITICS

(By an Ex-Writer of the Ottawa Press Gallery)

The present scribe has maintained, in season and out of season, that the provincial government in the end would have to recognize the necessity of relieving the irrigators of British Columbia of at least a part of the huge irrigation overhead that has accumulated since the first irrigation systems were installed. In the days when Mr. T. D. Pattullo was minister of lands and in the habit of asserting that any proposal to relieve the agricultural community of a part of the irrigation burden was an immoral proposition, this column refused to be impressed and went right on predicting that either the Oliver government or some succeeding administration would realize that relief for the irrigators would be good business. Finally the former Liberal government, during the course of a hotly contested by-election in North Okanagan, saw the light to the extent of promising an inquiry into the matter. The inquiry was held and the commissioner in charge recommended a scaling down of the overhead by 25 per cent. Subsequently legislation was passed by the Legislature implementing this recommendation. During the years when pressure was being brought to bear upon the old government to scale down irrigation costs and accept the view that irrigation projects are in the general interests of the province as a whole, the Conservative members of the Legislature, more especially the members representing interior constituencies, extended their support to the irrigators. Unquestionably the opposition members were in a less trying position than the government members which realized that there were thousands of electors throughout British Columbia who agreed with the view voiced by Mr. Pattullo that the water users should bear the whole of the cost of the construction and maintenance of irrigation systems. The Conservative provincial party is not to be commended so much for advocating the popular thing in the irrigation districts than in opposition as it is to be

MABEE IS FREED BY JUDGE HERE

"Discharged, But Not Honorably," Says Court in Verdict

Penticton— "Olaire" Mabee, charged with abducting a girl under the age of 16, was discharged from the County Court sittings on Wednesday afternoon, June 26, by Judge Brown after the judge had pronounced a verdict of dismissal on the grounds that the girl had intended to come back to her mother, and that there was no ground for abduction. "The defendant is therefore discharged, but far from honorably," declared the judge. The story of the prosecution stated that the girl, on the night of May 2, was in conversation with the accused in the Dominion Cafe. Later he took her to Midway and there stayed overnight with her in the Saller Hotel. They were seen here on leaving the Dominion Cafe. In the morning the girl declared that she phoned up the Dominion Cafe from Midway and communicated with a girl waitress. He had asked for another waitress, but could not get in touch with her. Mabee told the girl he spoke to that the one accompanying him had obtained a job at Stimmerland, according to the evidence. The waitress did not know who was speaking to her at the time, she said in court. The argument put up by H. V. R. Moore for the defendant in the motion for a dismissal of the charge

BIGAMIST GETS JAIL SENTENCE

Stephenson Pleads Guilty and is Given Thirteen Months

Penticton— Albert Stephenson, charged with bigamy, pleaded guilty in the County Court sittings late Wednesday afternoon before Judge Brown and was given a sentence of thirteen months in Okanaki. Mr. W. A. Woodward prosecuted while Mr. M. Colquhoun acted for the defense. The evidence of the case was that Stephenson was married to a woman in Wenatchee at the time that the marriage took place between the accused and a girl known as Penelope. This ceremony was held at Oliver on September 20, 1928. Stephenson declared that he was under the influence of liquor while the marriage ceremony took place. On learning that her husband was divorced from his first wife but that she was residing in Wenatchee, a charge of bigamy was laid against the accused by Miss Olive Venables. The time was midnight. In the smoking room of a club a young man sat huddled in a chair. A friend entered. "Hello, Smith!" he exclaimed. "Not gone home yet?" "I haven't," he replied, "I phoned my wife at 8 o'clock and gave her a perfectly good excuse for not coming home and, in a whisper, 'I've for-

CHERRIES UP BUT PEACHES AND APRICOTS DOWN SAYS ESTIMATE OF SOFT FRUITS

Summerland Even in Cherries, But Gains in Apricots
OLIVER IS SHOWING HEAVY ADVANCE
Penticton Peach Crop Will Only Be Half of Last Year

Horticultural News Letter, Vernon, June 27.
Salmon Arm, Sorrento and Main Line Points—June 19.
The weather has been cool during the past two weeks, and several good rains have fallen which have greatly benefited the crops. Moisture conditions have improved considerably since the early part of the season and all that is needed at present to promote rapid growth is warm weather.

In the Sorrento and Salmon Arm sections tree fruits have suffered factually on the whole, but most orchards are very patchy. Thinning is under way and up to date the fruit shows little scab. Root injury has proved severe in many orchards and has been anticipated that some loss from physiological troubles may result.

Raspberries will be a light crop at Salmon Arm, and strawberries, of which there will be an average crop, will be next week. The Clearwater berries will begin to move next week, but not in quantity until about the end of the week.

Tree fruits are an extremely light crop in the Kamloops to Lytton section. Since our weather conditions have changed considerably, and it has been quite cool over the past two weeks, and with two or three good rains. Starting on the evening of Saturday, June 24, this district experienced about 15 hours of steady rain which has done an immense amount of good and relieved very considerably the fears of an actual water shortage. The cool days and nights with the moisture have been very beneficial to growth and all crops are making good development. A change has taken place in the orchards the past few days which will possibly mean some lightening of the present time it is not possible to fully appreciate what the loss will be. This change is caused by the showing up of drought injury in many orchards on some varieties. The loss will be quite serious and the drop is still developing. It may be two or three weeks before the full amount of damage from this trouble can be ascertained. The loss is now in full swing and all varieties, with the exception of Duchess, Wealthy and Rome Beauty are shedding very freely and it seems apparent that the crop will not be as heavy as was anticipated.

Strawberries are now moving freely but this crop is going to be short on account of the quantity of hubbins and malformed fruits showing up in the patches. The heavy rain has done much to help in the matter. Armstrong has been moving out at a rapid pace over the past two weeks and some very fine quality stuff has gone to the markets. Such early vegetables as beans, carrots, turnips and radishes are now available in the local stores.

With the advent of warm days we must anticipate scab to spread very freely and particular attention should be given to the prevention of it by all growers. The first cutting of alfalfa is well under way but is being interfered with by the present weather conditions. All ground crops as well as spring grains and hay fields, are doing exceedingly well since the precipitation of the past two weeks.

Kelowna—June 19.
During the past two weeks there has been an abundance of rain which has done much to alleviate the fear of water shortage. The rain was welcomed by farmers generally, but interfered greatly with haying and spraying operations. Crops generally are doing well, and haying rapidly, and early cherries will be ready in a few days.

Drought spot is very prevalent in many districts and will out down the crop considerably in some orchards. Penticton, Keremeos, Kaleden, Oliver and Osoyoos—June 18.
For the past two weeks the weather has been cool, with numerous showers, making it very difficult to hose cutting alfalfa. Ground crops are needing warmer weather.

The cantaloupe acreage at Oliver has been reduced, due to cool weather interfering with germination and growth. Drought spot is showing up in a few orchards, but is in no way serious. All tree fruits are looking well, and the district generally is looking better than during the following light frosts. Apricots are being well thinned, but excessive drop is still taking place.

WORK OF AUTO CLUB OUTLINED BY OFFICIALS

President Holmes and Secretary Craddock Are Visitors

BIG GROWTH IN MOTORIST TRAFFIC

Penticton—The growth of the automobile club movement in British Columbia and the importance of its work both in a public and a private way were outlined by President H. Outhwaite, Kelowna, Victoria, president of the Automobile Club of B.C., and A. E. Craddock, Vancouver, secretary, at a supper meeting of auto enthusiasts at the Incoln on Tuesday night of last week. The visit was accompanied by W. Locke of the membership department of the club. They are at present on a tour of the interior clubs and from Penticton proceeded to the Kootenays.

The local chairman, R. J. McDougal, presided at the meeting, and Reeve G. A. B. Macdonald made a short speech of welcome. Mr. L. J. Wood, of the Okanagan-Cariboo Trail, announced that Mr. Penkilton had 107 at organization of good roads enthusiast, was seeking B.C. co-operation in completing an everyday, overgrown highway from B.C. to Mexico as an interior parallel to the Pacific highway.

Consolidated Pacific Highway
The first auto club in the West was formed in Victoria, B.C., in 1904, said President Holmes, and it was 100 per cent, strong because there were only four auto owners in the city at that time. A. E. Todd, one of the prime movers, then conceived the idea of a motor road from B.C. to California, also a Vancouver Island highway, and those two plans have resulted in a tremendous tourist traffic into B.C. The Vancouver club was started in 1910 with 14 members and now comprises 4,300. In 1924 the amalgamation of existing clubs produced a club with a membership of 6,500, and considerable growth has been achieved since then.

Natural questions of any motorist are, "Is this worth belonging to and what will get out of it?" Among the answers the speaker cited the following: The existing Motor Regulations Act was largely the work of the automobile club and no changes of importance were made in it without the club's advice. But for the confidence of the industry-general which this body enjoyed, conditions for motorists would not be nearly so good as they are. Patent ideas are not by club owners and dissected. A reduction in taxes of 25 per cent, amounting to about half the cost of club membership had been obtained for motorists. The clause in the Motor Regulations Act dealing with speed limit which had been very unsatisfactory was now changed to "common danger" driving.

After a great struggle with Ottawa

We Can Supply Everything for the Holiday, for All the Family

It makes no difference what article of apparel is wanted, we have made provision for that particular need.

Auto Traffic Growth
Secretary Craddock quoted figures to show that there are now 38,000 automobiles in the world, and of these 1,100,000 are in Canada, 100,000 being in B.C. In 1928, 200,000 autos came into the province with 800,000 passengers spending two days and providing \$20,000,000, or a third of the total tourist revenue for the year. The greater part of this twenty millions would not have been forthcoming, he maintained, but for the auto club.

Some of its work consisted of maps and literature, road signs, road and weather reports, emergency services and so forth. The year nine million dollars was being spent on the roads of the province as compared with six millions last year. An endeavor was being made to have the federal government set aside fifty millions for a federal highway program. On account of the nature of the country, a great deal of this money would have to be expended in B.C. Hence it could be seen that the club work was becoming increasingly important.

Penticton Low on List
With a total membership of 6,000 in May of this year, the club found itself with only 97 here although Penticton had 107 at organization in August, 1927. Car registrations for the Penticton district reached 1,762 for this year so far and with team work and co-operation, he thought that 20 per cent. of this number or well over 300 could be shown as the club total.

The tourist industry was now fourth in B.C., having surpassed fishing. The secretary told of the work done by the club in Vancouver in connection with brake testing, when 8,000 autos were tested, 600 being rechecked. A conference had been arranged

over a work job. He identified the roads shown in court as his property. Herbert Dalrymple testified he had seen the accused early Tuesday morning, shortly after 2 o'clock. He was standing by a Ford car in front of the police station. The accused was alone. Another fellow was walking at the corner close to Mrs. Griffin's store. This evidence was the case for the crown, and as the accused did not wish to examine witnesses, Magistrate Dewdney then committed Shannon for trial. The charge of stealing gasoline from Mrs. Griffin, laid against

lmo, laid against Fred and Art Mino. In its place a charge of coliving stolen goods was preferred against the Mino brothers, they were brought before the court on Monday. Evidence of Constable McDer showed he had, on the early morning of June 18, seen the two accused lying on the seats of the 1 Laughlin car. He had questioned Fred and he told him they had been working at Vernon and Ly. Fred and were on their way to Ly. Freds when the car broke down. He had gone with Charles Shanon to Oliver and removed a tin from an old wagon down by railroad. The clamp was for purpose of repairing the rear of the McLaughlin car. Constable McDonald filed as an exhibit revenue transfer showing the accused as part of the plan taken by Shannon from his car. The pair were committed to trial. Although the three accused were remanded for eight days on Wednesday by R. J. McDougal, J.P., Penticton, was content with the Magistrate to be in Oliver 1

LOCAL HAPPENINGS

Miss Chapley left for Agassiz on Sunday last. Mr. M. G. Wilson was a visitor to Kamloops this week. Miss Paradis returned to her home at Enderby Saturday last.

Stores close Monday. Just keep it in mind. Miss Clark, of the high school staff, leaves for Kamloops today.

Mrs. and Miss Dale and Mr. Daniel expect to leave on Saturday by motor for the Coast. A son was born at Vancouver, June 24, to Mr. and Mrs. C. E. Collett (nee Miss M. Arkell).

Mr. Don McIntyre came up from Vancouver with his mother, Saturday. Mr. Harry Hobbs came in from Vancouver last week-end intending to stay for the summer.

Miss Eva Johnston left this week for Victoria, Ontario, expecting to call at Regina on her way through. Mr. and Mrs. Horace Read and Mrs. Muir Stewart motored over to Nelson last week-end.

Mrs. Higginson and little daughter Mary returned on Tuesday after a month with friends in Edmonton. United Church Picnic Was Held Saturday At Summerland Park

Mrs. W. Estabrook arrived last week-end from Vancouver and is visiting Mrs. Geo. Gray. Messrs. O. Dunham and Cyril Mossop will motor with two friends from Kelowna to Vancouver.

Penticton—About 300 persons, adults and juniors, journeyed to the tourist park in Summerland, last Saturday afternoon by car and truck to enjoy a well-planned picnic in ideal surroundings enhanced by perfect weather.

Miss E. Clarke, returned missionary from China, visited with Mr. and Mrs. A. G. Munn over last week-end. The C.G.I.T. and Trail Rangers and Explorers are going to camp at Okanagan Falls, expecting to leave on Tuesday.

Penticton—The winners of the grueling obstacle races have yet to receive the awards and will do so to report to Mrs. C. K. Brown. The caravan reached home soon after 4 p.m. and all seemed agreed.

Mr. John Kyle was in this week on a visit to the schools here. He is in charge of all the night school work in the province and manual training courses.

Hon. J. W. Jones Pleased With Scenic View From Upper Road Penticton—Hon. J. W. Jones, of Kelowna, was in Penticton today on his way to Naramata. En route south he went over the high road between West Summerland and Deep Creek.

Mr. B. T. Washington leaves with his mother on Saturday for Wenatchee, where Mrs. Washington will take the train for Omaha, Neb., to visit her daughter, Mrs. J. Rilha. Mr. Kenneth Caple left last week for a trip to England and the continent. In August he will attend the City of London vacation course in education, at the Guildhall.

Hon. J. W. Jones Pleased With Scenic View From Upper Road Penticton—Hon. J. W. Jones, of Kelowna, was in Penticton today on his way to Naramata. En route south he went over the high road between West Summerland and Deep Creek.

Mr. and Mrs. John S. Ritchie left for Vancouver on Thursday. Mr. Ritchie has not had the best of health lately and while at the Coast will enter the hospital there. Mrs. Walter Wright left this week to motor to Ardley, Alta., taking with her Kathleen and Audrey and Miss Agnes Fisher. They expect to spend a day or two with friends at Banff. Howard, who spent the winter with his uncle, A. F. Wright, will return with them.

MR. CLEMENTSON'S SOLILOQUY (Mr. Clementson in England, thinking of Kereomeos) There's a town called Kereomeos In a valley o'er the sea. And I think of 'er its people— Do they ever think of me?

Mrs. W. C. Kelly went to Vancouver on Monday, where she will attend the Baptist convention. Rev. Jas. J. Smithson went down on Tuesday to attend the same meeting. Mr. J. Reekie, of Kelowna, also boarded the same train as a delegate from Kelowna to the convention.

It's a pleasant little valley, With its river running by, And the tall hills standing round it Lift their crests unto the sky. I can see the green trees bending Neath their load of ripening fruit; I can see the oriole flashing In his flaming scarlet suit.

Among the tourist cars passing through this week on the highway was one from North Dakota. The party stopped at the Co-op and had a look around at the equipment. They were disappointed at not finding packing going on, but were interested to know that fruit crates on Sunday arrive on the train was not logical to pick fruit for Thursday packing.

Do the men still talk of prices And tomatoes by the ton? Do they still scold at the water, Half in earnest, half in fun? Is the Institute still booming, And the Guild and Ladies' Aid? Has the Board of Trade got busy With the plans that it had made?

Water Notice

USE AND STORAGE TAKE NOTICE that JOHN SPENCER CHAPMAN, whose address is Mazama, B.C., will apply for a license to use and store 75 acre feet per annum, (b) 100 gallons a minute for 3 months, (c) 1,000 gallons a minute for 12 months, and to store 130 acre feet of water out of Trout Creek and Empress Creek, to be stored in the Eastley and drains into the Okanagan Lake, about 2 miles South of Summerland.

And he listens as he sits there, And the answer comes apace, Flung upon the wings of radiance Right across the ocean space. This is Kereomeos calling, Hear our message ringing clear; We are thinking of you often, All your many friends out here.

The storage-dam will be located at Spruce Lake, situated about 3 miles North of Whitehead Lake on the North Fork of Trout Creek. The capacity of the reservoir to be created is about 130 acre feet, and it will flood about 20 acres of land. The water will be diverted from the stream at a point about (a) on Empress Creek 100 yds. W. of W. boundary of Lot 2103, (b) on Empress Creek 20 yds. E. of W. boundary of Lot 2103, (c) on Trout Creek 150 yds. W. of E. boundary of Lot 2103, and will be used for (a) irrigation and domestic, (b) and (c) industrial (fish cultural) purposes only in the land described as (a) Lot 2103, (b) Lot 2103, and (c) Lot 2103, and will be used for (a) irrigation and domestic, (b) and (c) industrial (fish cultural) purposes only in the land described as (a) Lot 2103, (b) Lot 2103, and (c) Lot 2103.

Have they got the stage there finished? Is all ready, spick and span. For the next forthcoming play-right? If so—no's a lucky man. There's a town called Kereomeos In that valley o'er the sea. And I think of 'er its people— Do they ever think of me?

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Controller of Water Rights in Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

And you will always have a place, —Mary D. Lintott, June 21, 1929.

THE GROCERERIA

BRIDE'S AGE IS NOT CORRECT

Groom Is Fined \$200 For False Declaration Here

Penticton—Love's young dream is by no means running smoothly with Harry Grummett of Winfield and his girl wife. They were married here under licence from Government Agent Dewdney by Rev. A. E. Whitehouse on June 16, and on Thursday, June 24, Grummett appeared before Magistrate Pope charged with making a false declaration as to the bride's age in getting the necessary licence.

He was fined \$200 and costs by Magistrate Pope. This is the minimum fine for such cases. Grummett was alleged to have sworn that the bride, Margaret J. McKinley, was 21 years old, whereas she is not yet 18. The girl wife lived with her mother and stepfather near Kelowna. They objected to the marriage. It is stated that Grummett could not get a marriage licence at Kelowna and accordingly the pair came to Penticton, where neither of them was known.

The defendant, who pleaded guilty, was represented in court by Mr. McWilliams, a Kelowna lawyer, while W. R. Long, of Penticton, appeared for the mother, Mrs. Freda Somerville. The magistrate expressed regret that the case had come up and suggested to the mother that she try to make the best of it. He urged the defendant to be good to his young wife.

It was pointed out that a false declaration of age in connection with a marriage licence has no effect whatever upon the validity of the marriage itself. The young couple are legally married, the only effect of the court action launched by the bride's family being to mulct the groom two hundred dollars and costs. The fine was paid by the young man's employer.

MOTOR CAR REGISTRATIONS

New car registrations in British Columbia for the months of April and May were as follows: Ford, 587 and 409; Chevrolet, 560 and 328; Essex, 180 and 138; Chrysler, 157 and 149; Pontiac, 154 and 118; Nash, 82 and 80; Buick, 82 and 56; Whippet, 81 and 89; Studebaker, 76 and 41; Oldsmobile, 66 and 46; Graham Paige, 52 and 45; Dodge, 78 and 63; De Soto, 74 and 44; Durant, 64 and 43; Hudson, 33 and 39; Hupmobile, 27 and 22; Oakland, 20 and 9; Star, 14 and 10; Willys Knight, 17 and 22.

SIX MONTHS' JAIL TERM SUSPENDED

J. C. Harvey Found Guilty of Assault Upon W. T. Johnston

ACCUSED IS FREED ON THEFT CHARGE

Aftermath of Evening Auto Ride Proves to be Painful One

Penticton—James Harvey was given a six months' sentence on Thursday when he appeared before Judge Brown in the County Court on a charge of assault, laid by Mr. W. T. Johnston. The sentence was suspended on condition that his father in North Vancouver go on a bond for good behavior.

The evidence of Mr. Johnston more witnesses were brought forward by the prosecution in the afternoon. At the conclusion the judge dismissed the theft case, which concerned a watch and chain and \$45 in cash. Harvey is now serving thirty days' municipal sentence for drunkenness, not having paid a \$25 fine.

The aftermath of an automobile ride in the evening hours came in the police court here on Friday and Saturday of last week when, on the complaint of Mr. W. T. Johnston, a man named J. C. Harvey was charged before Reeve G. Macdonald and Fred G. Tily, J.P., with three offences, assaulting Johnston and doing grievous bodily harm, stealing Johnston's gold watch and chain and the automobile.

This was the machine which Harvey ran over a bank behind the hospital on Wednesday night. Last week's Herald referred to this fact and also to the \$25 fine imposed on Harvey last Thursday morning for drunkenness. The auto-stealing charge was eventually withdrawn but the other two were proceeded with and the defendant was committed for trial.

The Story of the Party The first charge heard was that of assault. Johnston said that about 7 o'clock on Wednesday evening he was drinking at the hotel. He and also to the \$25 fine imposed on Harvey last Thursday morning for drunkenness. The auto-stealing charge was eventually withdrawn but the other two were proceeded with and the defendant was committed for trial.

Evidence was produced to indicate that the men had been drinking. The complainant said he saw a few drinks before he met Harvey. Harvey was driving the car. His husband gave evidence that about 10 o'clock that night he saw Harvey driving a car on the road east of the hospital. At the point of the steep slope across the road the car swerved and apparently settled into a ditch or pot-hole. The accused got out and asked him for a cigarette. Accused later said that he was looking for a man in the crowd and that he had taken home by Dr. McGregor. Dr. McGregor gave evidence as to the result of the blow received by Johnston, which knocked out a front tooth.

Said He Was Hit First In his own defence, Harvey said that he was sober when he got into the auto. He showed a scratch on his nose and said that when Johnston accused him of stealing his watch the complainant took him by the neck and he struck back. He denied taking the car away, but thought that he had only turned it around and then got out and left it.

The second case, that of theft, was considerably longer. Mr. Johnston said that he lost a gold watch and chain, two twenty-dollar bank of Commerce bills, a five-dollar bill, a two-dollar bill and a one-dollar bill. He admitted that he did not see Harvey take the watch or the money. He was certain he had said something to Harvey about stealing before Harvey hit him.

K. W. Mitchell said that shortly before 7 o'clock on Wednesday evening he changed a ten-dollar bill for Johnston and noticed at the time that the latter had two twenties and a ten. He gave him a five and some smaller money for the balance to the amount altogether of \$5.50.

Further evidence was produced to show that about 1 o'clock Thursday morning, Mr. C. H. Haughton, Brunswick, Mr. C. H. Johnston, and a man named John, got in touch with the police to complain that a drunken man was at the front of his house. Const. Allercott visited the place to find Harvey asleep in the Haughton car. Previously he had received a complaint from Johnston of the assault by Harvey, he said.

Harvey was taken to the police station and on Thursday was fined for drunkenness, the other charges being laid subsequently. Thursday afternoon, while playing in front of the Haughton house near where Harvey had slept in the Haughton car, little Shirley Haughton, aged seven, and her juvenile friend, Wonnah Lusted, aged 7 1/2, found some bills and took them in to Mrs. Haughton. She went out with them and found some more money which Mrs. Haughton later took to the police station. These bills comprised two torn Canadian Bank of Commerce twenty-dollar bills, a five-dollar bill, a two and a one.

Mr. and Mrs. Haughton and the children all gave evidence in court. Some Were the Same Constable Allercott said that the odor from the bills found was the same as that from Harvey's clothing. He also said that the day after the theft he was taken from the bench near the MacDougal place. Mr. H. H. Boyle appeared for the crown prosecution and contended that a strong prima facie case had not been made out. For the accused, Mr. W. A.

men had been drinking and it was hard to say what actually occurred. In any event, twenty minutes had elapsed between the time Mitchell made charge for Johnston and the latter picked up Harvey. Anything might have happened to the watch and money in that time. The defendant had been driving the car after they met, hence had little chance to steal the other man's property.

After consultation, the justices decided to commit the defendant on both the assault and the theft charges. Bail was set at \$500. Harvey remained in jail, being unable to find the bail money.

out of gas and went to a nearby house to get some more. He did not put the handcuffs on Quolter as the Indian had previously surrendered himself and was apparently quite willing to accompany the constable to Oakalla to serve a total period of about six months. However, during Spall's absence Quolter "beat it." And he is still absent.

Slipping on the top step of the stairway, he began a rapid descent. Halfway down he collided with a woman, knocked her off her feet, and the two completed the journey together. Having reached the bottom, the woman continued to sit on his chest. Looking up at her politely he finally murmured, "Madame, I am indeed sorry, but this is as far as I go."

Pete Quolter, Indian, On Way to Oakalla Escapes From Custody

Pete Quolter, Chopaka Indian, who was being taken to Oakalla prison farm by Constable Spall, of Keremeos, escaped from the constable and is still at large.

Spall was driving to Princeton from Keremeos with the Indian in his car. Near the Del Young place, six miles out of Princeton, he ran

double-drop frame and a wheelbase, increased to 115 inches. Here is the riding ease for which all Studebaker cars are renowned.

HERE is an eight—a worthy companion car to the World Champion President and famous Commander Eights. The New Dictator Eight places abundant power at your command—adequate to every emergency—an engine which makes play of mile-a-minute speed, yet which is thrifty of oil and gas.

Studebaker engineers have enhanced quality and performance, beauty and economy. In The New Dictator these qualities fittingly complement that finest expression of modern motoring—the straight eight engine. Since the introduction of its line of straight eights, Studebaker has won every official stock car speed and endurance record.

Here is modern, low-swung grace, made possible by The Dictator's costlier
